### STATEMENT UNDER SECTION 160(1)(b) OF THE COMPANIES ORDINANCE, 1984

#### Item No. 6 of the Agenda

The Board of Directors are of the view that the Company's financial position and its reserves as on 30 June 2013 justify the capitalization of reserves by way of issue of bonus shares to the members in the ratio of one (01) Bonus Share for every ten (10) Ordinary Shares held. As a result of issuance of Bonus Shares, the paid up capital of the Company shall stands increased to Rs. 72,600,000/-.

The Directors of the Company have no other interest, except to the extent of their shareholding, in this business either directly or indirectly.

## Directors' Report to the Members

The Board of Directors take pleasure in presenting the annual report and audited financial statements of the Company for the year ended 30 June 2013.

#### **Economic and Business Review**

The economy continued to be affected by structural problems, including a domestic energy crisis, a precipitous decline in investment, persistently high inflation and security issues. Budget deficits remain high, driven by substantial subsidies and losses at state-owned enterprises. Power is the main constraint for economic growth. Our economy is highly vulnerable mainly due to low growth rate, deteriorating security situation, low savings rate, weak tax structure, large debt re-payment, low investment in human capital and poor governance. Energy shortages intensified during the year, seriously pinching manufacturing sector in the Punjab. Irregular load shedding for a long duration is estimated to come to at least 2 percentage points of GDP growth annually.

The Company's business strategy focuses mainly on reinforcing and establishing presence in the markets in which it operates and expanding its share in potentially high growth market segments. It also includes continued growth based on the Company's existing product range and its ability to launch new products.

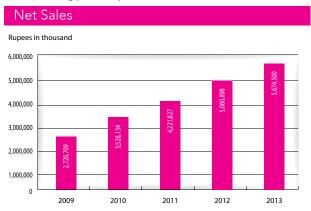

The energy crisis is playing havoc especially in the Punjab. We continuously have to rely on furnace oil in the absence of sui gas and diesel to run our generators when there is no electricity. There seems to be no respite on this front in the near future, all indications are that the energy situation would worsen in the months ahead and add to one cost of production.

However, inspite of a volatile trend in the market, we are pleased that our juice products are showing encouraging sales trends. During the period we have also achieved encouraging growth in export sales of our products. Our production facility in Karachi continued to meet the export requirements in the Middle East, Africa, USA and Europe and performed well during the year. We are optimistic that our products have the potential to sustain our growth momentum in the future. Our advertisement activities cost high and this trend would continue in the coming months due to market conditions. The business environment has become very competitive and our profits are affected by commodity inflation, however, operating profit increased from Rs. 371.206 million to Rs. 440.077 million. The Company added Rs. 613.602 million to the net sales, which grew 12.12%. Earnings per Share were Rs. 37.78.

We made our humble contribution to the National Exchequer by paying a sum of Rs. 1.102 billion in the shape of Sales Tax, Excise Duty and Income Tax for the year ended 30 June 2013.

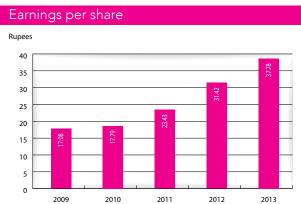

#### **Financial Results**

For the year ended 30 June 2013, total sales were Rs. 5.674 billion against Rs. 5.061 billion in the same period last year, registering an increase of 12.12%. The cost of sales was Rs. 3.964 billion against Rs. 3.603 billion last year. Therefore, the Company earned gross profit of Rs. 1.710 billion against Rs. 1.457 billion in the corresponding year last year.

The distribution cost increased and it grew by 18.81% as compared to the last year. The distribution cost includes an advertisement and sales promotion expense of Rs. 433 million. We had to increase our publicity campaign to boost our sales due to stiff competition in the market. The finance cost was Rs. 45.75 million against Rs. 53.12 million last year. The decrease in finance cost was due to efficient use of borrowed capital. However, borrowings were made during the year to stock the seasonal fruits, pulps and packaging materials to fulfill the sales demands of our products.

Net profit for the year was Rs. 249 million as compared to Rs. 207 million of the corresponding year of 2012 and earnings per share were Rs. 37.78 versus Rs. 31.42 (re-stated) in the last year.

## Directors' Report to the Members

#### **Appropriations**

The Company has earned an after tax profit of Rs. 249.321 million for the year under review.

The Directors are pleased to recommend as follows:

| F  | Rupees in thousand |
|--|--------------------|
| Profit after taxation                        | 249,321            |
| Unappropriated profits brought forward       | 232,088            |
| Dividend @ Rs 9/- per share for the year     |                    |
| ended 30 June 2012                           | (54,000)           |
| Transfer to general reserve                  | (130,000)          |
| Transfer to reserve for issue of bonus share | s for the          |
| year ended June 30, 2012                     | (6,000)            |
| Un-appropriated profits carried forward      | 291,409            |
| Earnings per share in Rupees – Basic         | 37.78              |
|  |                    |

#### Dividend

Keeping in view the satisfactory financial results, the Directors have immense pleasure in proposing a cash dividend of 100%, i.e., Rs. 10/- per share and 10% bonus shares. We hope our shareholders would appreciate our paying generous returns on their investment.

#### **Future Prospects**

The coming year appears to be another challenging year for the business as economic environment is not favorable due to the power crisis, internal security issues and soaring inflation. Despite above unfavorable conditions, the Company will continue to focus on cost effectiveness and profit maximization.

Looking forward, we are confident that Shezan will achieve growth in juices, syrups and sauces and now expanding production capacity of juice products in tetra packaging. We are hopeful that we will augment our sales growth with the increase in production capacity of juice products. Our marketing force has been focusing on increasing reach of diverse line of products through timely advertisement apart from various promotional activities.

Current Inflationary trends and economic conditions depict that commodity costs will remain high in the next year. In addition, payroll expenses will increase due to increase in minimum wages.

### Review Report to the Members

On the statement of compliance with the best practices of the code of corporate governance

We have reviewed the Statement of Compliance with the best practices (the Statement) contained in the Code of Corporate Governance (the Code) for the year ended 30 June 2013 prepared by the Board of Directors of Shezan International Limited (the Company) to comply with the Listing Regulation No. 35 of the Karachi Stock Exchange Limited and Lahore Stock Exchange Limited, where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement reflects the status of the Company's compliance with the provisions of the Code and report if it does not. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

Further, the Listing Regulations of the Karachi Stock Exchange Limited and Lahore Stock Exchange Limited requires the Company to place before the Board of Directors for their consideration and approval of related party transactions, distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the board of directors and placement of such transactions before the audit committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement does not appropriately reflect the status of the Company's compliance, in all material respects, with the best practices contained in the Code, for the year ended 30 June 2013.

### for the year ended 30 June 2013

#### 3 BASIS OF PREPARATION

#### 3.1 Basis of Measurement

These financial statements have been prepared under historical cost convention, except for investments classified as "available for sale" which are stated at fair value.

#### 3.2 Presentation Currency

These financial statements are presented in Pak Rupee, which is the Company's functional currency. Figures have been rounded off to the nearest thousand of rupees, unless otherwise stated.

#### 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The areas involving a higher degree of judgments or complexity or areas where assumptions and estimates are significant to the financial statements are as follows:

#### 4.1 Provision for taxation

In making the estimate for income tax payable by the Company, the Company takes into account the applicable tax laws and the decision by appellate authorities on certain issues in the past.

#### 4.2 Provision for doubtful receivables

The Company reviews its doubtful trade debts at each reporting date to assess whether provision should be recorded in the profit and loss account. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provisions.

#### 4.3 Useful life and residual values of property, plant and equipment

The Company reviews appropriateness of the rate of depreciation, useful life and residual value used in the calculation of depreciation. Further, where applicable, an estimate of the recoverable amount of assets is made for possible impairment on an annual basis. In making these estimates, the Company uses the technical resources available with the Company. Any change in the estimates in the future might affect the carrying amount of respective item of property, plant and equipment, with corresponding effects on the depreciation charge and impairment.

#### 4.4 Impairment of non-financial assets

The Company assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Non-financial assets are also tested for impairment when there are indicators that the carrying amounts may not be recoverable.

#### 4.5 Provision for compensated absences

The Company accounts for compensated absences on the basis of un-availed earned leave balance of each employee at the end of the year.

#### 5 SIGNIFICANT ACCOUNTING POLICIES

5.1 The accounting policies adopted in the preparation of these financial statements are consistent with those of previous financial year except as mentioned in note 2.2 and note 5.2.

#### 5.2 Change in Accounting Policy

During the year the Company changed its accounting policy for classification of empty bottles, shells, pallets and barrels from Inventory to property, plant and equipment so as to give a better presentation. Previously these items were considered to be of a fragile nature and hence were not expected to last long. However recent experience indicates that such items have been in utilization of the Company for an extended period of time and accordingly the recently adopted policy provides reliable and more relevant information.

### for the year ended 30 June 2013

The policy has been applied prospectively because it was not practicable to estimate the effects of applying the policy either retrospectively or prospectively from any earlier date. Accordingly, the adoption of the new policy has no effect on prior years. The effect on the current year is to increase the closing carrying amount of property, plant and equipment by Rs. (thousand) 185,892 decrease in closing carrying amount of inventory by Rs. (thousand) 227,755 increase depreciation expense by Rs. (thousand) 61,953 decrease in deterioration in Shells, Pallets and Barrels by Rs. (thousand) 20,090 and reduce tax expense by Rs. (thousand) 5,980.

#### 5.3 Property, plant and equipment

#### Owned assets

Property, plant and equipment except for freehold land and leasehold land held on 99 years lease, are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Free hold and lease hold land are also stated at cost.

Depreciation is calculated using the reducing balance method at rates disclosed in note 6, which are considered appropriate to write off the cost of the assets over their useful lives.

Depreciation on additions is charged from the month in which an asset is available for use while no depreciation is charged for the month in which the asset is disposed off.

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment is recognized in the income currently. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. Where an impairment loss is recognized, the depreciation charge is adjusted for the future periods to allocate the asset's revised carrying amount over its estimated useful life.

Subsequent costs are included in the asset's carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to income during the period in which they are incurred.

The gain or loss on disposal or retirement of an asset represents the difference between the sale proceeds and the carrying amount of the asset and is recognized as an income or expense in the period it relates.

#### Capital work in progress

These are stated at cost including capitalization of borrowing costs. It consists of expenditures incurred and advances made in respect of fixed assets in the course of their construction and installation.

#### Leased assets

Leases where the Company has the substantially all the risks and rewards of ownership are classified as finance leases. At inception, finance leases are capitalized at the lower of present value of minimum lease payments under the lease agreements and the fair value of the assets.

The related rental obligations, net of finance cost, are included in liabilities against assets subject to finance lease as referred to in note 19. The liabilities are classified as current and non-current depending upon the timing of the payment.

Each lease payment is allocated between the liability and finance cost so as to achieve a constant rate on the balance outstanding. The interest element of the rental is charged to profit over the lease term. The financial charges are calculated at the interest rates implicit in the lease and are charged to the profit and loss account.

Assets held under finance lease are stated at cost less accumulated depreciation and accumulated impairment losses, if any, at the rates and basis applicable to Company owned assets.

### for the year ended 30 June 2013

#### 5.4 Ijarah assets

The Company recognizes ijarah payments under an Ijarah agreement as an expense in the profit and loss account on a straight line basis over the Ijarah term.

#### 5.5 Investments

#### Investments in associates

The Company's investment in its associate is accounted for under the equity method of accounting. An associate is an entity in which the Company has significant influence and which is neither a subsidiary nor a joint venture.

Under the equity method, the investment in the associate is carried in the balance sheet at cost plus post-acquisition changes in the Company's share of net assets of the associate. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortized. After application of the equity method, the Company determines whether it is necessary to recognize any additional impairment loss with respect to the Company's net investment in the associate. The profit and loss account reflects the share of the results of the operations of the associate. Where there has been a change recognized directly in the equity of the associate, the Company recognizes its share of any changes and discloses this, when applicable, in the statement of changes in equity.

The reporting dates of the associate and the Company are identical and the associate's accounting policies conform to those used by the Company for like transactions and events in similar circumstances.

#### Available for sale

Available for sale investments, after initial recognition, are measured at fair value with gains or losses being recognized as a separate component of equity until the investment is derecognized or until the investment is determined to be impaired at which time the cumulative gain or loss previously reported in equity is included in the profit and loss account.

The fair value of investments, which are actively traded in organized financial markets, is determined by reference to quoted market bid prices at the close of business on the balance sheet date. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument, which is substantially the same; discounted cash flow analysis and option pricing models.

#### 5.6 Stores, spares and stock in trade

Stocks, stores and spares are valued at lower of cost or net realizable value except those in transit, which are valued at invoice value including other charges, if any, incurred thereon. Basis of determining cost is as follows: -

Raw materials – Monthly average Packing material – Monthly average Finished goods – Quarterly average

Pulps, concentrates etc. – Manufacturing cost according to annual average method

Stores and spares – Monthly average

Stock in transit – Cost

Net realizable value is determined on the basis of estimated selling price of the product in the ordinary course of business less costs of completion and costs necessary to be incurred for its sale.

#### 5.7 Trade debts

Trade debts are carried at invoice amount on transaction date less any estimate for doubtful receivable. Known bad debts are written off as and when identified.

#### 5.8 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cheques in hand, cash at bank in current, saving and deposit accounts and other short term highly liquid instruments that are readily convertible into known amount of cash and which are subject to an insignificant risk of changes in value.

### for the year ended 30 June 2013

#### 5.9 Financial instruments

All the financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. The Company derecognizes a financial asset or a portion of financial asset when, and only when, the enterprise loses control of the contractual rights that comprise the financial asset or portion of financial asset. While a financial liability or part of financial liability is derecognized from the balance sheet when, and only when, it is extinguished, i.e., when the obligation specified in the contract is discharged, cancelled or expires.

Financial assets are investments, deposits, trade debts, other receivables, cash and bank balances. These are stated at their nominal values as reduced by the appropriate allowances for estimated irrecoverable amount.

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities are short term running finance utilized under mark-up arrangements, creditors, accrued and other liabilities. Mark-up bearing finances are recorded at the gross proceeds received. Other liabilities are stated at their nominal value.

#### 5.10 Impairment

The carrying amount of the Company's asset is reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of such assets is estimated. An impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognized in profit and loss account. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit and loss account.

#### 5.11 Offsetting of financial assets and financial liabilities

A financial asset and financial liability is offset and the net amount is reported in the balance sheet if the Company has a legal enforceable right to set off the recognized amounts and intends either to settle on net basis or to realize the assets and settle the liabilities simultaneously.

#### 5.12 Dividend and appropriation to reserves

Dividend and appropriation to reserves are recognized as a liability in the Company's financial statements in the period in which these are approved.

#### 5.13 Taxation

#### Current

Provision for current taxation is based on taxable income at the current rate of tax after taking into account applicable tax credits, rebates and exemptions available, if any. The charge for the current tax includes adjustments to charge for prior years, if any.

#### Deferred

Deferred tax is provided in full using the balance sheet liability method on all temporary differences arising at the balance sheet date, between the tax bases of the assets and liabilities and their carrying values. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized.

The carrying amounts of all deferred tax assets are reviewed at each balance sheet date and reduced to the extent, if it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilized.

The tax rates enacted at the balance sheet date are used to determine deferred tax.

### for the year ended 30 June 2013

#### 5.14 Revenue recognition

#### Sale of goods

Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer which generally coincides with the delivery of goods to customers.

#### Interest income

Return on bank deposit is accrued on a time proportion basis by reference to the principal outstanding on the applicable rate of return.

#### Dividend income

It is recognized when the Company's right to receive the payment is established.

#### 5.15 Staff retirement benefits

The Company operates a recognized provident fund scheme (Defined contribution plan) for all permanent employees. Equal monthly contributions are made both by the Company and the employees to the fund.

#### 5.16 Compensated absences

The Company accounts for compensated absences on the basis of un-availed earned leave balance of each employee at the end of the year.

#### 5.17 Borrowing costs

Borrowing costs directly attributable to acquisition, construction, or production of an asset that necessarily takes substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

Borrowing cost consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### 5.18 Foreign currency transactions

Foreign currency transactions are converted into rupees at the rates prevailing on the date of transactions. Monetary assets and liabilities in foreign currencies are translated into rupees at the rates of exchange prevailing at the date of balance sheet.

Gain or losses arising on translation are recognized in the profit and loss account.

#### 5.19 Pricing for related party transactions

All transactions with related parties and associated undertakings are entered into arm's length determined in accordance with comparable uncontrolled price method except for transactions with M/s. Shahnawaz (Private) Limited, where an additional discount of 40% is given by them on service charges and 15% on spare parts in connection with the repairs of motor vehicles, due to group policy duly approved by the Board of Directors.

#### 5.20 Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

The normal annual capacity, as shown above, has been worked out on the basis of 350 working days (2012: 350 working days) except for bottling plant and squashes and syrups plant, which have been worked out on 150 days because of the seasonal nature of the business of the Company.

The variance between normal capacity and actual production is because of change in demand and supply condition.

#### 38 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

The main risks arising from the Company's financial instruments are credit risk, liquidity risk, foreign currency risk, interest rate risk and equity price risk. The management reviews and agrees policies for managing each of these risks which are summarised below.

### 38.1 Credit Risk

Credit risk is the risk which arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties. The Company does not believe it is exposed to major concentration of credit risk, however to manage any possible exposure the Company applies approved credit limits to its customers.

The management monitors and limits Company's exposure to credit risk through monitoring of client's credit exposure review and conservative estimates of provisions for doubtful receivables.

The Company is exposed to credit risk on long-term deposits, trade debts, advances, deposits, other receivables and bank balances. The Company seeks to minimize the credit risk exposure through having exposures only to customers considered credit worthy and obtaining securities where applicable. The maximum exposure to credit risk at the reporting date is:

### 38.2 Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its commitments associated with financial liabilities when they fall due. Liquidity requirements are monitored regularly and management ensures that sufficient liquid funds are available to meet any commitments as they arise.

Financial liabilities are analysed below, with regard to their remaining contractual maturities.

#### 38.3 Market Risk

### 38.3.1 Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the export of its products and import of some chemicals. The Company does not view hedging as financially viable considering the materiality of transactions.

2012

### for the year ended 30 June 2013

### Sensitivity analysis

With all other variables remain constant, a 1 % change in the rupee dollar parity existed at 30 June 2013 would have affect the profit and loss account and liabilities and equity by Rs. (thousands) 499 (2012: Rs. (thousands) 177).

#### 38.3.2 Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rate will affect the value of financial instruments. The Company is exposed to interest rate risk for short term borrowings obtained from the financial institutions, liabilities against assets subject to finance lease and bank deposits, which have been disclosed in the relevant note to the financial statements.

### Sensitivity analysis

If interest rates at the year end, fluctuate by 100 basis points higher/ lower, profit for the year would have been Rs. (thousand) 1,549 (2012: Rs. (thousand) 508) higher/ lower. This analysis is prepared assuming that all other variables held constant and the amounts of liabilities outstanding at the balance sheet dates were outstanding for the whole year.

#### 38.4 Capital Management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholders' value. The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions. Capital includes ordinary share capital and reserves.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue of new shares.

Consistent with industry norms, the Company monitors its capital on the basis of gearing ratio. The ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings as shown in the balance sheet less cash and cash equivalent. Total capital is calculated as 'equity' as shown in the balance sheet plus net debt (as defined above).

The Company finances its operations through equity, short term borrowing and managing working capital. The Company has no gearing risk in current year that is to be managed as it does not have any long term borrowing.

The Company is not subject to any externally imposed capital requirements.

### 38.5 Fair value of financial instruments

The carrying value of all financial assets and liabilities reflected in the financial statements approximate their fair value.

Fair value is determined on the basis of objective evidence at each reporting date.
