DIRECTORS' REPORT TO THE SHAREHOLDERS

The Directors of Security Investment Bank Limited (SIBL) are pleased to present the Eighteenth Annual Report alongwith the Audited Financial Statements and Auditor's Report thereon for the year ended 31 December 2009.

Economic Outlook

Investment climate of the country remained weak throughout the year. Political disorder and law & order situation of the country also dampened the economic and capital market activities. Decline in exports proceeds also built pressure on the country's reserves. Power crises also remained front line issue for domestic as well as commercial consumers. However, some key indicators have shown improvement in the backdrop of the IMF program. Inflation has reduced to a more manageable level. Current Account deficit improved from 8.4% to 5.3% and it was also witnessed in fiscal deficit, which reduced to 5.2% of GDP from 7.4% of last year. Agriculture sector depicted a stellar growth of 4.7 percent, as compared to 1.1 percent witnessed last year and the target of 3.5 percent for the year. Government remained on track with the IMF programme and continued to meet monetary and structural reforms targets. SBP eased its monetary policy by declining its policy rate from 15% to 12.5%. Karachi stock market's benchmark index KSE-100 produced a strong performance in year 2009 by gaining 62 percent as compared to the previous year. The outgoing year started on a negative note as investors were digesting the impact of the floor which remained in place (between August 27 and December 12, 2008), with the index bottoming out to 4,815 on Jan 26.

Operational Performance

During the year, company continued its policy to remain in-active and side line in the market because of uncertain economic conditions and non availability of funds from commercial banks. Capital Market after reaching at its bottom on Jan 26, surged by 62% through out the year which helped the company to recover its loss of impairment on available for sale investment in stocks by Rs. 122 million. Leverage product remained inactive through out the year. On the other side, most of the commercial banks remained reluctant for their lending to NBFCs other than secured lendings which has substantially affected availability of funds for NBFCs.

Impairment on Available for Sale Listed Equity Investments:

Attention is invited to the S.R.O. No.150(I)/2009 dated 13 February 2009 issued by the Securities and Exchange Commission of Pakistan. Under the said SRO, total impairment loss of the company was calculated to be Rs. 301 million as of December 31, 2008. During the year 2009, with market registering upsurge, a major portion of this loss amounting to Rs. 122 million has been recovered and the remaining loss of Rs. 179 million is reflected in Profit and Loss Account.

35 CREDIT RISK AND CONCENTRATIONS OF CREDIT RISK

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Concentration of credit risk arise when a number of counter-parties are engaged in similar business activities, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of credit risk indicate the relative sensitivity of a company's performance to developments affecting a particular industry.

a Standards, amendments to published standards and interpretations that are effective in 2009 and are relevant to the company

IAS 1 (revised), 'Presentation of financial statements' (effective from January 1, 2009). All non-owner changes in equity are required to be shown in a performance statement, but entities can choose whether to present one performance statement (the statement of comprehensive income) or two statements (the income statement and the statement of comprehensive income). CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2009

37 CREDIT RISK AND CONCENTRATIONS OF CREDIT RISK

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counter-parties, and continually assessing the credit worthiness of counter-parties.

Concentration of credit risk arise when a number of counter-parties are engaged in similar business activities, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of a company's performance to developments affecting a particular industry.

The company follows two sets of guidelines. Firstly, it has its own operating policies duly approved by the Board of Directors. Secondly, it adheres to the regulations issued by the SECP and SBP. The operating policies define the extent of fund and non-fund based exposures with reference to a particular sector or group.

The company seeks to manage its credit risk exposure through diversification of lending activities to avoid undue concentration of risks with individuals or groups of customers in specific locations or business. It also obtains security when appropriate. Details of Industry / sector analysis of finance portfolio is given below:

The Board of Directors monitors the return on capital, which the company defines as net operating income divided by total capital employed. The Board of Directors also monitors the level of dividends to ordinary shareholders.

The Company is exposed to externally imposed capital requirements.

In accordance with the requirement of Non-Banking Finance Companies and Notified Entities Regulations 2008 (vide SRO No. 1203 (1)/2008), the Securities and Exchange Commission of Pakistan has allowed different time limits for aligning existing NBFCs with different Capital requirements. The management of the company is of the view that it will be able to meet its capital requirement within the time frame allowed under the said regulations.
