Directors' Report

The Board of Directors of Punjab Modaraba Services (Pvt.) Limited, the Management Company of First Punjab Modaraba (the Modaraba) is pleased to present the 21st Directors' Report of the Modaraba, together with audited financial statements and auditors' report for year ended June 30, 2014.

Review of Operations

By the grace of Almighty Allah, the Modaraba was able to close the year under consideration with a net profit of Rs.74.29 million after dismal performance for so many years. Resultantly, earning per certificate of Rs.2.18 was recorded against loss per certificate of Rs.3.28 and breakup value per certificate of Rs. 2.73 against Rs.0.91 last year.

The recovery of non-performing assets remained focus of the Modaraba resulting in recovery of over Rs.146.00 million during the year. The positive impact on the profit and loss account was evident in shape of net reversal of provisions of Rs. 55.93 million. The proceeds of recoveries were utilized to adjust outstanding borrowings of the Modaraba for sake of consolidation and will be available when needed in future. Consequently the quantum of redemption of assets was much more than fresh assets booked during the year.

The reduction in profit rate by The Bank of Punjab, the exclusive creditor and sponsoring bank of the Modaraba, remained major source of reduction of Rs.52.64 million in financial cost as compared with corresponding year. A substantial decrease of Rs.8.53 million was also made in administrative cost on year to year basis. All these factors together, contributed towards turnaround of the Modaraba.

Last year's auditors' report was qualified on issue of impairment of Trading Rights Entitlement Certificate. After charging 100% impairment, the qualification of report was removed. In addition, the emphasis of matter paragraph in last year's report was abated by reduction in accumulated losses and management of liquidity risk by transfer of musharikhah lines to non-current liabilities. The improved results also brought almost three times increase in per party limit of the Modaraba, which will go a long way in booking of fresh assets.

Financial Results

The financial results of the Modaraba are summarized below:

| | 2014 Rupees | 2013 Rupees |
|---|------------------------|----------------|
| Profit / (Loss) for the year | 74,296,458 | (111,621,816) |
| Un-appropriated Profit – Brought Forward | (436,489,928) | (325,566,608) |
| Transfer from revaluation surplus | 524,908 | 698,496 |
| Profit available for appropriation | 74,296,458 | - |
| Appropriations: | | |
| Transfer to statutory reserve | 37,148,229 | - |
| Un-appropriated profit / (loss) – Carried Forward | (398,816,791) | (436,489,928) |

The year under consideration remained a turnaround year for the Modaraba. The Management is fully determined to maintain the pace and momentum gained during the year under consideration so as to make the Modaraba a successful and competing financial institution in coming years. Review Report to the Certificate Holders

on Statement of Compliance with Best Practices of Code of Corporate Governance

We have reviewed the Statement of Compliance with the best practices (the Statement) contained in the Code of Corporate Governance (the Code) for the year ended 30 June 2014 prepared by the Board of Directors of First Punjab Modaraba to comply with the Listing Regulation No. 35 of the Karachi Stock Exchange Limited and Lahore Stock Exchange Limited, where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Management Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement reflects the status of the Company's compliance with the provisions of the Code in respect of the Company and report if it does not. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

Further, Listing Regulations of the Karachi Stock Exchange Limited and Lahore Stock Exchange Limited requires the Company to place before the board of directors for their consideration and approval of related party transactions, distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the Board of Directors and placement of such transactions before the audit committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement does not appropriately reflect the status of the Company's compliance, in all material respects, with the best practices contained in the Code in respect of the Company for the year ended 30 June 2014.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 Tangible fixed assets

Assets in own use

Fixed assets except freehold land and office premises are stated at cost less accumulated depreciation and any identified impairment loss. Freehold land is stated at cost less any identified impairment loss. Office premises is stated at revalued amount, being its fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Depreciation on all fixed assets is charged to profit on “straight line method”, so as to write off the historical cost of an asset over its estimated useful life at annual rates mentioned in note 5.

Residual values and the useful lives of the assets are reviewed at least at each financial year end and adjusted if impact on depreciation is significant.

The Modaraba assesses at each balance sheet date whether there is any indication that fixed assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in income currently. The recoverable amount is the higher of an asset’s fair value less costs to sell and value in use. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset’s revised carrying amount over its estimated useful life.

Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Modaraba and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to income during the period in which they are incurred.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

Ijarah Assets

Assets leased out under Ijarah are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Assets under Ijarah are depreciated over the period of lease term. However, in the event the asset is expected to be available for re-ijarah, depreciation is charged over the economic life of asset using straight line basis.

Ijarah income is recognized on an accrual basis as and when the rental becomes due.

4.2 Impairment

The carrying amount of Modaraba's assets is reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated and impairment losses are recognized.

4.3 Cards and rooms

These are stated at cost less impairments, if any. The carrying amounts are reviewed at each balance sheet date to assess whether these are recorded in excess of their recoverable amounts, and where carrying value is in excess of recoverable amount, these are written down to their estimated recoverable amount.

4.4 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and cash with banks in current, savings and deposit accounts.

4.5 Financial instruments

Financial assets

Significant financial assets include short and long term investments, long term deposits, advances and receivables and cash and bank balances. Finances and receivables from clients are stated at their nominal value as reduced by provision for doubtful finances and receivables, while other financial assets are stated at cost except for investments, which have been revalued as per accounting policies.

Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities include short term borrowings, certificates of musharikhah, deposits against lease arrangements, trade and other payables and dividends payable. Markup based financial liabilities are recorded at gross proceeds received. Other liabilities are stated at their nominal value.

Recognition and derecognition

All the financial assets and financial liabilities are recognized at the time when the Modaraba becomes party to the contractual provisions of the instrument. Financial assets are derecognized when the Modaraba loses control of the contractual rights that comprise

the financial assets. Financial liabilities are derecognized when they are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expires. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to income currently.

Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the financial statements when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on net basis, or realize the asset and settle the liabilities simultaneously.

4.6 Provisions

Provisions are recognized when the Modaraba has a legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

4.7 Staff retirement benefit

Defined contribution plan

The Modaraba operates a recognized provident fund for all eligible employees. Equal monthly contributions @ 8.33% of the basic salary are made to the fund both by the Modaraba and employees.

4.8 Provision against non performing financing (Suspense income)

The Modaraba reviews its overdue Ijarah rentals at each reporting date to assess whether provision should be recorded in profit and loss account, in addition to the mandatory provisions required in accordance with the Prudential Regulations issued by the SECP. In particular, judgment by management is required in the estimation of the amount and the timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provisions.

4.9 Revenue recognition

Ijarah

Ijarah rentals are recognized as income on accrual basis, as and when rentals become due.

Documentation charges, front-end fee and other Ijarah income are recognized as income on receipt basis. Unrealized lease income pertaining to non-performing leases is held in suspense account, where necessary, in accordance with the requirements of the Prudential Regulations (PR).

Morabaha transaction

Profit on morabaha transaction is recognized over the period the payment becomes due. The unearned portion is reflected as deferred morabaha revenue.

Musharikah Finance

Profit on musharikah arrangement is recognized under the effective markup rate based on the amount outstanding.

Return on bank deposits are recognized on accrual basis, using the effective interest rate method.

Capital gain or losses on sale of investment

Capital gain / loss on investment is recognized on sale of the respective investments.

Dividend income

Dividend income is recognized when the right to receive payment is established.

Commission income

Commission income is recognized on accrual basis.

4.10 Trade date accounting

All 'regular way' purchases and sales of quoted equity securities are recognized on the trade date i.e. the date that the Modaraba commits to purchase/sell the asset. 'Regular way' purchases or sales of quoted investments require delivery within three working days after the transaction date as per stock exchange regulations.

4.11 Ijarah rentals and Musharikah investments

Ijarah rentals and Musharikah investments are stated net of provision and suspense income. Provision is recognized for Ijarah rentals receivable and musharikah investment, in accordance with the Prudential Regulations for Modarabas issued by Securities and Exchange Commission of Pakistan (SECP). Bad debts are written-off when identified.

4.12 Finance arrangements including Certificates of Musharikah

These are carried on the balance sheet at their principal amount.

Profits on these arrangements are recognized as expense in the period in which they are incurred.

Profit on Musharikah finance is accounted for on the basis of the projected rate of profit. The effect of adjustments, if any, between actual rate and projected rate of profit is accounted for at the end of each year after determination of the actual rate.

4.13 Profit distribution and appropriations

Profit distribution and appropriation to reserves are recognized as liability in the financial statements in the period in which these are approved. Transfer to statutory reserve and any of the mandatory appropriations, as may be required by law, are recognized in the period to which these relate.

4.14 Taxation

Current

Provision for current taxation is made on taxable income at the prevailing rates of tax after taking into account tax credits available, if any. The income of non-trading modarabas is exempt from tax provided that not less than 90% of their profits are distributed to the certificate-holders.

Deferred

The Modaraba accounts for deferred taxation using the liability method arising between the amounts attributed to assets and liabilities for financial reporting purposes and financial statements used for taxation purposes. However, deferred tax liability has not been provided in these financial statements as the management believes that the timing differences will not reverse in the foreseeable future due to the fact that the Modaraba intends to continue availing the tax exemption.

4.15 Morabaha Investments

Morabaha investments are stated net of provision. Provision is recognized for Morabaha Investments in accordance with the Prudential Regulations for Modaraba's issued by the Securities and Exchange Commission of Pakistan. Bad debts are written off when identified.

The profit on that portion of sales revenue not due for payment are deferred by accounting for a debit to "Unearned Morabaha Income" account with the corresponding credit to "Deferred Morabaha Income" account and shown in the balance sheet as a liability.

32.2 Liquidity risk

Liquidity risk is the risk that the Modaraba will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Modaraba could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Modaraba's operations either internally within the Modaraba or externally at the Modaraba's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment Management behavior. Operational risks arise from all of the Modaraba's activities.

- The Modaraba's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its objective of generating returns for certificate holders.
- The primary responsibility for the development and implementation of controls over operational risk rests with the Board of Directors of the Management Company. This responsibility encompasses the controls in the following areas:
 - requirements for appropriate segregation of duties between various functions, roles and responsibilities;
 - requirements for the reconciliation and monitoring of transactions;

- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- ethical and business standards;
- risk mitigation, including insurance where it is effective.

32.5 Fair value of financial instruments

The carrying values of financial assets and financial liabilities reported in balance sheet approximate their fair values. The Modaraba measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Valuation techniques using significant unobservable inputs.

32.6 Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain investors, creditors and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital, which the Modaraba defines as net operation income divided by total capital employed. The Board of Directors also monitors the level of dividend payouts to certificate holders.

34 Accounting estimates and judgments

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amount of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The areas involving a higher degree of judgments or complexity or areas where assumptions and estimates are significant to the financial statements are as follows:
