The fourth decennial population census was conducted from 1st to 15th March, 1981. This preceded by the first ever fullfledged Housing Census from 1st to 15th December, 1980. In the Population Census, two questionnaires were used; a short one (Annexure-A) containing questions on names of household members, their relationship to head of household, sex, age, marital status, religion, literacy, ability to read the Holy Quran (for Muslims only), educational attainment and language spoken in the household, and a long one (Annexure-B) which included all questions of the short questionnaire and some more, namely, field of education, district of previous residence, duration of residence at present district, activity, employment status, occupation, industry, disability, etc. The long questionnaire was used for households selected on probability basis. The sample covered 100 per cent of households in urban areas and 3.6 per cent in rural areas.

This report comprises four parts. In Part-I, general description of the district and the main findings of the 1980 Housing Census and the 1981 population census have been highlighted. Part-II and Part-III consist of Statistical Tables of the Housing Census and the Population Census respectively. In Part-IV, various annexures mentioned in the text of this report have been given.

The tabulation of topics common in both the questionnaires pertains to complete enumeration, whereas tabulation of additional topics in the long questionnaire are the estimates based on the sample data.

The number and scope of statistical tables have been extended and cover data from the Housing Census (Annexure-D) also. Definitions and concepts of the topics in the questionnaires and tables are given at annexure-E. Map of Kachhi district is at annexure-I.

Population Census, conducted once in a decade, is a gigantic operation of immense national importance. This report gives a demographic profile of the district. Thousands of field and office workers have contributed in producing this report. Our Organisation owes a deep debt of gratitude to all those who worked at different stages of census operations and made their inputs for this final output. We also hope that the data presented in this report will be used for planning the progress of the people of this place.

GENERAL DESCRIPTION OF THE DISTRICT
AND
MAIN FINDINGS OF THE CENSUSES

SECTION 1 – GENERAL DESCRIPTION OF THE DISTRICT

1.1 Location

At the time of the 1961 Census, the district of Kachhi was a part of Kalat district. In 1965, Bolan, Dhadar, Lehri, Balanari, Sanni, Bhag, Gandawa, Mirpur, Jhal, Tamboo and Chatter Tehsils were transferred from Kalat district to constitute Kachhi district. After the 1972 Census, Tamboo and Chatter Tehsils were detached from Kachhi district and transferred to new district of Nasirabad.

The district of Kachhi lies from 27°–54' to 29°–59' north latitudes and 67°–10' to 68°–29' east longitudes. It is bounded by Kalat and Sibi districts on the north, by Kohlu agency and Nasirabad district on the east, by Larkana district of Sind province on the south and by Kalat and Khuzdar districts on the west.

The total area of the district is 11,114 sq. km.

1.2 Topography

Kachhi district is mostly a plain area. There are some hilly areas in the north-west which are the northern extension of the central Brahui and the Kirthar ranges. Mostly, these hilly areas are confined to Machh Tehsil and the western part of Sanni Tehsil. The hills vary in height from 300 to 1,200 metres. The Kachhi plain is a flat desert and is formed of alluvial soil with hardly imperceptible slope from north to south.

1.3 Climate

The climate is pleasant in winter and extremely hot in summer. The day and night temperatures vary substantially. The district gets scanty rainfall. The average rainfall varies considerably from place to place and year to year and no average would give a true index. The data on temperature and rainfall are not available for this district which is similar to Sibi and Harnai for plain and mountainous areas respectively.

1.4 Agriculture

Agriculture is the main activity carried out in the traditional pattern. The irrigation is carried out with the help of springs, Karezes and ponds. Tube-wells have also been sunk.

The agricultural statistics of major crops, grown during 1980-81, are given below :

Crop	Area (hectares)	Production (tonnes)
Wheat	7,400	9,800
Jawar	13,700	6,700
Rape seed & Mustard	1,800	700
Corrinder	59	22
Onion	25	250
Date	32	200

Source : Agricultural Statistics of Pakistan 1981, Food and Agriculture Division, Islamabad.

Sheep and goat breeding is common in the district as there are vast pasture lands in the district.

1.5 Industry

There is no major industry in the district except some household industry carried out on traditional patterns. The area of Machh has vast coal reserves. The total production of coal, in 1981, was 111,771 metric tons.

1.6 Communications

The district is well linked by roads and rail. Quetta-Sibi railway line passes through Machh town which is the summer district headquarters of Kachhi district. Sibi-Jacobabad railway line also connects many other localities in the district. Dhadar, which is the winter district headquarters, is situated on the main Quetta-Sibi road. Dhadar, Gandawa, Sanni and other Tehsil headquarters are also linked by roads. There were 399 kilometres metalled and 666 kilometres unmetalled roads. There were 216 telephone connections and 30 posts offices.

1.7 Education

The number of educational Institutions and enrolment in October 1980 are given below :—

Institution	Number	Enrolment
Intermediate College	2	26
School High	12	3,192
Middle School	27	3,118
Primary School	167	6,738
