P R E F A C E

The District in Pakistan is the basic unit of administration under a Deputy Commissioner and the focal point of all social, cultural, economic, administrative and developmental activities. It was, therefore, for the first time, decided in the 1961 Census that a separate report on each District be published. The need for publishing these District Census Reports was all the more felt in the absence of the regular publication of the District Gazetteers. Keeping in view these considerations it was decided to publish the District Census Reports of the 1972 Census as well. These reports will be found useful by the local administrators and planners in their day to day work and will also be of interest to the general reader since dull and dreary statistics of the District have been presented against the living background of its history, geography, traditions and culture.

2. The District Census Reports are in two parts :

PART I—General description of the District.

PART II—Statistical tables.

3. PART I—The general description of the District is further divided into the following five sections :

(i) *Geography*

Area, boundary, geology and physical features, climate, flora and fauna, forestry, irrigation, agriculture, industries, transport and trade.

(ii) *History and culture*

History, races and tribes, food and health, dress, occupations, culture, customs and traditions.

(iii) *Administrative set-up*

Executive, judiciary and revenue system, educational, medical and health facilities.

(iv) *Description of important/historical places*

Importance, cultural aspects, socio-economic conditions,

(v) *Population*

Growth, distribution and composition of population.

It also includes 'District at a Glance' containing basic facts about the District and a few photographs of places of importance and scenic beauty as well as of the people and their cultural heritage. These photographs will be found to be fairly representative of the places and people of the District.

4. PART II—It includes twelve statistical tables. Statistics have been presented in these tables at different geographical levels keeping in view the importance of these statistics at these levels. Tables 4, 5 and 12 deserve special mention. Table 4 not only gives population by sex and age for rural and urban areas at District level but also at Tehsil/Taluka level and for individual urban areas. Table 5, which provides population by sex, age group and marital status has also been tabulated at the geographical levels similar to that of Table 4. These statistics had not been published in earlier censuses at these geographical levels and will be found of much help for the purpose of research on population dynamics which at the moment has engaged the attention of planners and researchers in all walks of life because of the population explosion problem being faced by Pakistan and many other countries. Table 12 gives Mauza statistics on population by sex, number of households and household size besides land area and local facilities. This table gives more information about Mauzas than published for the 1961 Census.

5. The reader may find that the 1972 District Census Reports do not contain all the data which was available in similar reports of the 1961 Census. This is because while planning the 1972 Census, many departures were made in the methodology and procedures from the practices followed in the past censuses with a view to improve the reliability and timeliness of data at as low a cost as possible.

(ii)

6. The 1972 Census was planned to be conducted in three phases, namely, Household Listing, Big Count and Housing, Economic and Demographic Survey :

PHASE I—The Household Listing was conducted from the 1st to 15th September, 1972 just before the Big Count in order to provide an up-to-date list of households for enumeration in the Big Count.

PHASE II—The Big Count was a cent-percent count of the total population conducted from the 16th to 30th September, 1972. In this operation basic characteristics of each individual, i.e., name, relationship to the head of household, sex, age, marital status, religion and literacy were collected. The District Census Reports contain data collected during this phase of the census operation only.

PHASE III—The Housing, Economic and Demographic (HED) Survey was a sample survey conducted during August to November, 1973 to obtain detailed data on almost all topics usually covered in a population and housing census. The HED Survey results will be published separately and will provide data on housing and housing conditions, migration, educational attainment, labour force, fertility, etc.

7. The initial responsibility of writing the District Census Reports was assigned to the Census District Officers/Deputy Commissioners concerned. These drafts were received in the provincial offices of the Census Organization where these were further examined. When the reports were received at the headquarters, it was found that in some cases the reports were not in accordance with the layout and instructions issued by the Census Organization. Besides, in many cases these lacked up-to-date information. Therefore, the work of vetting these reports was assigned to the officers of the Census Organization. There is no doubt that the first part of the District Census Reports of the 1972 Census are largely adaptations from the 1961 District Census Reports but these have been modified and revised wherever necessary to bring the information up-to-date as far as possible.

8. Statistical tables given in this report have been produced on computer. The use of computer for processing of census data was made for the first time. The work relating to the preparation of data for input to computer and quality control was the responsibility of the Data Preparation Centre of the Census Organization. The tabulation of data was done on the computer of the Statistics Division.

9. I am grateful to the officers and staff of various Ministries, Departments of the Federal and Provincial Governments and their officers at District and lower levels, public spirited men and women who gave their unstinted support, in the execution of the 1972 Census and preparation of the District Census Reports. I gratefully acknowledge the help that the Chief Secretaries of the Provincial Governments gave us in this regard. It was indeed creditable that in the atmosphere prevailing in 1972, they were able to collect thousands of enumerators and supervisory staff to undertake the huge task of census taking all over the country.

10. My special thanks are due to the Joint Secretary, Statistics Division and his officers for their valuable help for processing the census data on their computer. I am grateful to the Surveyor-General of Pakistan and his staff who have been generous with the supply of maps as and when required for the census work. I would also like to thank the Managing Director, Printing Corporation of Pakistan Ltd., and his officers for their unstinted support and prompt service at all stages of printing of the census reports.

11. I must also thank officers and staff of the Census Organization who worked untiringly in planning and conducting the census and to edit these reports. The material and data contained in these reports represents cumulative efforts of a large number of persons, both paid and unpaid, to whom I acknowledge a debt of gratitude. I am grateful to all of them and in the end I would like to thank again all those who took part in the 1972 Census operation in any capacity to make it a success.

BRIGADIER (Retd.) ABDUL LATIF,
Census Commissioner.

CENSUS PLANNING AND PROCEDURES

In planning the 1972 Census criticism about incomplete coverage and reliability of the 1961 Census data was kept in view at all stages of planning. Difficulties and problems faced in the planning and execution of the 1961 Census were also not lost sight of. The last census was found to suffer from lack of technical staff, inadequate maps, insufficient tabulation equipment, unscientific pre-testing and post-enumeration evaluation. In addition, the 1961 Census schedule contained too many questions resulting in not only under-enumeration but also lack of response to some of these questions. Therefore, certain fundamental departures were made in the 1972 Census from the practices followed in the 1961 Census with a view to overcome the above shortcomings.

2. The Census Commissioner as well as the Technical Advisory Committee were of the view that the basic questions on individuals, i.e., sex, age, marital status, etc., be asked on hundred percent enumeration basis, while all other questions on housing, economic and demographic characteristics be asked on sample basis. Thus, not only was the 1961 questionnaire bifurcated, but a few more questions on population and housing characteristics were added. It was also decided that instead of carrying out the post-enumeration census evaluation survey by the Census Organization themselves (which obviously would have produced biased results) the census evaluation survey be planned and conducted under the direction and supervision of an independent agency. To avoid confrontation of any problems in conducting the census pre-testing and rehearsal of all census steps was scientifically planned and conducted in urban as well as rural areas in all the Provinces. In order to make available the census results expeditiously and correctly the data was processed and tabulated on computer. With a view to creating discipline and getting the desired results from the enumerators, they were paid honoraria.

3. The 1972 Census was planned to be conducted in three phases, namely, Household Listing, Big Count, and Housing, Economic and Demographic Survey. The Big Count provided for enumeration of all persons living in

Pakistan on the dawn of 16th of September, 1972 excluding foreign diplomats and their dependent family members. All persons were enumerated at their usual places of residence, i.e., the place where they lived and slept usually (dejure enumeration). However, persons of armed forces (including prisoners of war) were enumerated at the places where their families were living because of the circumstances prevailing at the time of census taking. A simple questionnaire was used providing for collection of data on name of person, his relationship to head of household, sex, age, marital status, religion and literacy. This information was collected on hundred percent enumeration basis, whereas the data on complex population characteristics and housing topics was collected later through a sample survey. The Big Count was conducted from the 16th to 30th September, 1972 and was preceded by Household Listing operation for 15 days with the purpose to identify households for enumeration in the Big Count. The Big Count and Household Listing operations were conducted simultaneously in a few hilly areas which were not easily accessible to avoid the enumeration staff going twice to those areas. The sample survey called the Housing, Economic and Demographic (HED) Survey was conducted from August to November, 1973 and provided for collection of data from three hundred thousand households on housing conditions, migration, educational status, labour force, fertility, etc. Report on these aspects will be published separately. These steps resulted in a simple schedule and smaller assignments for enumerators and thus ensured better coverage and reliable data.

4. Improvements were made in delimitation of census areas by way of providing in advance corrected lists of Mauzas and updated maps of urban areas, which later helped the enumerators considerably in their enumeration work.

5. To overcome omissions of households and persons in enumerated households, special reporting centres were established in each village and different places in towns and cities so that people could report the missed households or persons. Wide publicity was given in this regard beside the regular census publicity campaign.

(iv)

6. In spite of the fact that the schedule of the Big Count was quite simple, elaborate arrangements were made that enumerators and their supervisors were properly and adequately trained in their duties. This included practical training before conducting the actual enumeration. Detailed procedures and guidelines for enumerators and their supervisors were laid down in two manuals—Manual of Instructions for Enumerators and Manual of Instructions for Supervisors. A Training Guide was also issued which contained specific and typical questions on the procedures and questionnaire to guide and provide answers in specific cases. This guide proved to be of immense value to the enumerators and the supervisory staff. Instructions which could not be covered in these manuals were issued later as Census Commissioner's Circulars. These instructions helped a lot in achieving uniformity in enumeration and better quality of reporting.

7. Some of the terms used in this report which may need explanation, are given below :—

URBAN AREA—Urban areas include Municipal Corporations, Municipal Committees, Cantonment Boards and Town Committees. Other places having a concentration of population of at least 5,000 persons in continuous collection of houses where the community sense was well developed and the community maintained public utilities, such as, roads, street lighting, water supply, sanitary arrangements, etc., were also treated as urban areas. These places were generally centres of trade and commerce with a population mostly non-agricultural and having comparatively higher literacy rate. As a special case, a few areas

having the above urban characteristics but population less than 5,000 persons were also treated as urban.

HOUSEHOLD—A household means a single person living alone or a group of persons living and eating together which may include family members, relatives, friends, servants and other non-relatives. Eating together implied common cooking arrangement.

AGE—Age has been reported in completed years except for infants whose age has been reported in completed months.

MARITAL STATUS—Marital status has been classified into never-married, married, widowed and divorced. Never married applies to persons who have never been married. Married includes all persons who are at present married and living as husband and wife as well as all other married persons living apart having a living wife/husband and who are not presently widowed or divorced. Widowed applies to a person whose husband or wife is dead and who has not married again. Divorced applies to both divorcer and divorcee, if not re-married.

RELIGION—Religion has been tabulated as reported by the respondents themselves.

LITERATE—A person who is able to read and write with understanding in any language is literate. This was a departure from the 1961 Census, where persons able to read and write (even without understanding) and able to read with understanding were treated as literates.

DISTRICT CENSUS REPORT

BAHAWALNAGAR

PART I

GENERAL DESCRIPTION OF THE DISTRICT

BAHAWALNAGAR DISTRICT AT A GLANCE

1. AREA	3,428 sq. miles
2. POPULATION	1,073,891 persons
3. DENSITY	313 persons per sq. mile
4. SEX RATIO (males per 1000 females)	1,186
5. LITERACY	12.7 percent
6. MAIN LANGUAGES SPOKEN	Punjabi and Urdu,
7. TRIBES	Arain, Jat, Rajput, Gujjar, Joiya, Watoo, Baloch, Syed, Pathan, Mehr, Khakar, Bohar, Larak and Dehr
8. ECONOMY	Mainly Agricultural and Partly Industrial
9. CLIMATE	Hot in summer and cold in winter
10. MAIN CROPS	Wheat, rice, sugarcane and cotton
11. MAIN INDUSTRIES	Cotton ginning & pressing and textile. Small scale industries include <i>Lungis</i> , <i>Khes</i> , <i>chaddars</i> , <i>jai namaz</i> , <i>doshalas</i> and <i>kuppas</i> of camel skin
12. COMMUNICATIONS :	
(a) Metalled Roads	250 miles
(b) Unmetalled Roads	25 miles
(c) Railways	The district is served by :
(d) Air Service	—
(e) Post Offices]	134
(f) Telegraph Offices	7
13. EDUCATIONAL FACILITIES :	
(a) Universities	—
(b) Colleges	4
(c) High Schools	22
(d) Middle Schools	104
(e) Primary Schools	1,083

14. MEDICAL FACILITIES :

(a) Hospitals	5
(b) Dispensaries	55

15. IMPORTANT/HISTORICAL PLACES

Bahawalnagar, Chishtian, Minchinabad, Fort Abbas and Fort Maroot

16. ADMINISTRATIVE DIVISIONS :

(a) Tehsils/Talukas	4
(b) Qanungo/Supervisory Tapedar Halqas	28
(c) Patwar/Tapedar Halqas	220
(d) Mauzas/Dehs	1,099
(e) Municipal Committees	3
(f) Town Committees	4
(g) Cantonment Boards	—
(h) Other Urban Areas	—

PART I—GENERAL DESCRIPTION OF THE DISTRICT

SECTION 1—GEOGRAPHY

1.1 NAME, LOCATION BOUNDARY AND AREA

Bahawalnagar District owes its name to the pioneering dynasty of Bahawal Khan who originally ruled over former Bahawalpur State which comprised the districts of Bahawalpur, Bahawalnagar and Rahimyar Khan. The district was set-up in January, 1953. Prior to that it formed part of Bahawalpur District.

It lies between 28°-55' and 30°-20' north latitudes and 72°-20' and 73°-58' east longitudes. It is bounded on the north by Sahiwal District, on the east by Ferozepur District of India, on the south by Bikanir (India) and on the west by Bahawalpur District. The river Sutlej forms the north-western boundary of this district. The total area of the district is 3,428 square miles.

1.2 PHYSICAL FEATURES

The dominant feature of the district is the varied topographical pattern ranging from the low-lying areas in Minchinabad and Mandi Sadiq Ganj to the vast wilderness of Cholistan presenting features of antiquity of a semi arid zone of hard crust of soil with practically no habitation. The three main physical features of the district are (a) Riverain area, (b) Colony area and (c) Cholistan area. A portion of Chishtian Tehsil also constitutes the riverain area, but the greater part of this tehsil and Fort Abbas have developed into new colonies under perennial irrigation system. Cholistan is locally known as *rohi*. It is the desert area which lies south of the irrigated tract and north of the desert of Bikanir and Jaisalmer in India. It extends along the entire length of Bahawalpur Division. The entire tract is a parched and thirsty desert region. During the summer season extremely hot winds blow. The surface of this desert consists of a succession of sand dunes, rising in places to a height of 500 feet with the vegetation peculiar to sandy tracts. There is no soil down to the lowest depths, except sand. Cultivation is seldom possible

in this tract. The strata, being about forty feet high from the level of river Sutlej, have not yet been able to penetrate through the sandy depth of this region. The underground water is brackish and generally 80 to 300 feet below surface level.

1.3 RIVER AND LAKE

River Sutlej passes along the north-western boundary of the district for about 80 miles in length. No other river or nullah passes through the district.

In Minchinabad Tehsil, Dhand Mahi Wali, 5 miles in length and 1/2 to 1 mile in width, is a low-lying place which during rainy season looks like a lake.

1.4 CLIMATE

The district has extremes of climate. The hottest months are from May to August. The maximum and minimum mean temperature in summer is 111° F., and 75° F.; while in winter is 60° F., and 40° F., respectively. Fort Abbas is the hottest place during summer. The winter season spreads over December, January and half of February. Dust-storms are frequent in June and July. These sometimes cause damage to crops and property.

The average annual rainfall in the district is about 11 inches which generally falls during the month of June.

1.5 FLORA AND FAUNA

Shisham (*dalbergia sissoo*), *leikar* (*acacia arabica*), *mulberry* (*morus alba*), *farash* (*tamarix articulata*), *jal* (*salvadora oleoides*), *ber* (*zizyphus jujaba*), *pipal* (*ficus religiosa*), and *wim* are the common trees. *Dabh*, *kama* and *kahel* types of grasses are found in abundance and are used as fodder, *Jawar*, *phos* and *lana* shrubs are grown in abundance and are used as fuel.

Among wild animals, wolf is common in Cholistan area. Pigs are found in large number in Bahawalnagar and Minchinabad Tehsils. Hog deer (pahra), ravine deer (hiran), black buck (kala hiran), *nilgai* and wild ass are found in Cholistan. Other animals are fox, jackal, hare, wild-cat, porcupine, mongoose (*neota*), *bijju*, *gulehri*, and wild rats of brownish colour.

Lark, owls of different kinds, *baz*, *bashin*, *lagar*, *chahin*, *tamturi*, parrot and pigeon are also found. Peacocks are also found near the border. Snakes and lizards are numerous and are of various species. In Fort Abbas Tehsil a peculiar type of snake called *sah-pina* (breath drinking) is found. This snake does not bite during the day time but at night it crawls in a sleeper's bed and poisons his breath. People in *rohi* (Cholistan) usually sleep with a burning lamp in the house, as the snake is afraid of light. Alligators (*samsars*) are also found. Scorpions and spiders are in abundance. An insect called *jawa*, found in Cholistan is very poisonous, and its bite is almost fatal.

1.6 FORESTRY

The total area under forests is 2,432,000 acres of which 2,506 acres are reserved forests and 2,429,500 acres protected forests. The trees grown in the forest of Bahawalnagar are *shisham* and *keekar*.

1.7 IRRIGATION

The canal irrigation network in this district is a part of Sutlej Valley Project completed in 1933 at a cost of Rs. 333,100,000. Under this scheme 5,000 miles long canals were built.

Ford Wah, Sadiqia and Hakra are the three major canals which irrigate the district. Ford Wah irrigates Minchinabad, Bahawalnagar and Chishtian Tehsils. Hakra Canal provides water for irrigation to Minchinabad, Bahawalnagar and Chishtian Tehsils. Hakra branch flows along the eastern border of the district and tails in the west of Fort Abbas Tehsil. Besides, irrigation on a

limited scale is also done by wells. Total area irrigated by canals is over a million acres, while 15,000 acres are irrigated by tube-wells, etc.

1.8 AGRICULTURE

The main *rabi* crops are wheat, gram, pulses, *sarshaf*, oil-seeds and fodder and in *kharif* maize, rice, *bajra*, *jawar*, sugarcane, cotton and fodder. In addition there are subsidiary crops known as *zaid rabi* and *zaid kharif* and *dobari*. A statement showing area and production of major crops during 1971-72 is given below :—

Crop	Area in acres	Production in tons
Wheat	348,000	163,000
Rice	32,000	14,000
Sugarcane	45,000	496,000
Cotton	237,000	148,000 (bales)

1.9 HORTICULTURE

The main fruits grown in the district are mango, *malta*, *sangtra* and melons. Total area under orchards is 13,186 acres which produce a total of 43,356 tons of fruits. The principal vegetables are potatoes, cauli-flowers, lady-fingers, carrots, tomatoes, beans, brinjals, turnips, bitter-gourd, radish and *tori*. A statement showing area and production of major fruits during 1971-72 is given below :—

Fruit	Area in acres	Production in tons
Mango	3,308	17,014
Banana	27	61
Guava	2,527	6,486
Citrus	5,772	16,083

1.10 LIVESTOCK

Cholistan area is famous for sheep breeding. Buchi (short ear sheep), *khadali* (black face sheep) and *baggari* are famous breeds of sheep. There is a livestock farm at Harunabad which comprises an area of 627 acres. In this farm *lohi* breed of sheep and *teedy* goats are kept for cross breeding. According to the 1972 Agricultural Census there are 305,000 cattle ; 256,000 buffaloes ; 250,000 sheep ; 270,000 goats ; 25,000 camels ; 5,000 horses ; 1,000 mules and 29,000 donkeys. The number of poultry birds stood at 238,000.

1.11 INDUSTRIES

There are 27 units of various factories in the district, which constitute one percent of the total number of registered factories in the Punjab. The major industrial activities are in the field of cotton ginning and pressing. There are 23 units of cotton ginning and pressing, one unit each of sugar, edible oils and fats and non-edible oils. Bahawalnagar Sugar Mills Limited is the biggest unit in the district which employ more than 500 persons.

The small scale industry of the district consists of silk and cotton weaving which is carried on extensively at Shahr Farid in Chishtian Tehsil. *Lungis*, *khes*, *chaddars*, *jai namaz* and *doshalas* of good quality are produced. The main cottage industry is the making of woollen blankets, leather and goat hair ropes and *kuppas* made of camel skin.

1.12 COMMUNICATIONS

Bahawalnagar is connected by metalled roads with Sulemanki Headworks and Mcleod Ganj in the north-east, Fort Abbas and Marat in the south and chishtian and Bahawalpur in the west. Link metalled roads from Harunabad to Dharanwala and Bahawalnagar to Sahiwal border in the north also exist. There are 250 miles of metalled and 25 miles of un-metalled roads in the district, which are maintained by the Highway Department.

The district is served by two branch railway lines viz. :—

- (a) Samasatta-Bahawalnagar-Amruka Branch Railway line enters in the district from west and ends towards the north-east of the district. The railway stations on this line, within this districts, are Sadiqpur, Chishtian, Chak Abdullah, Madirisa, Girdhariwala, Bahawalnagar, Mittiaroya, Chaweka Road, Charbiana, Minchinabad, Mandi Sadiq Ganj, Subhawala and Amruka.
- (b) Bahawalnagar-Fort Abbas Branch Railway Line serves the eastern and southern parts of the district. The railway stations on this line are Dhab Santeka, Sawaiwala, Donga Bonga, Kathan, Harunabad, Mubarakpur, Faqirwali, Rafiqabad, Tiba Alamgir and Fort Abbas.

In this district there are 134 post offices and 7 telegraph offices.

1.13 TRADE AND TRADE CENTRES

Chishtian, Harunabad and Bahawalnagar are the major food grain markets in the district. Other small *mandis* are Faqirwali and Fort Abbas. Ground nuts and oil-seeds in Faqirwali and citrus fruits in Chishtian are the major items of trade.

SECTION 2—HISTORY AND CULTURE

2.1 HISTORY

When Alexander gained victory over Multan, he appointed one of his generals Phillipos to rule Multan and Uch and advanced himself towards Alor. The country remained under Phillipos, who was afterwards driven out by Poros after the death of Alexander. This part of the country is also said to have been a part of the Buddhist empire of Asoka. Authenticated history of the district begins by about 493 A.D., when Raja Divaji of Rai dynasty came to the throne. In the Rai dynasty dominions were

vast, extending from Kashmir and Kanauj to Kandhar and Seistan, and on the west to Mekran and a part of Debal, while on the south to Surat. Their capital was Alor and during their rule Sind was divided into four provinces of Bahmanabad, Siwistan, Chachpur (which comprised the greater part of Bahawalpur Division) and the province consisting of Multan and the west Punjab. The Rai dynasty governed Sind for 137 years and met its fate when the king Rai Sahasi II allowed a Brahman Chach to gain influence in his kingdom. On the death of Rai Sahasi II, Chach married his widow and established himself on the throne after killing the rightful heir of the *Rais*. After a reign of 33 years, Chach died and was succeeded by his brother Chandar, who after ruling for eight years was succeeded by his nephew Raja Dahir. During Dahir's reign some Arab ships carrying merchandise were attacked and plundered by his subjects. Arabs demanded compensation and on refusal by Raja Dahir, Muhammad-Bin-Qasim invaded this area in April 712 A.D., and conquered the whole territory upto Multan. Dahir was killed in the battle at Pawar. The territory remained under various governors appointed by the Abbassides and the Umayyids from 712—870 A.D. In 871 A.D., the power of Caliphs declined and the province of Sind slipped from their control and went under the Balkh, dynasty when two principalities; Multan and Mansura (Bahawalpur Division) were founded. In 985 A.D., the Balkh ruler was overthrown by Karamatian (a Persian sect), after their over-throw in Iraq. In 978 A.D., when Subaktagin invaded the sub-continent, he left the territory under the sovereignty of Hamid Khan Lodhi, who ruled till 1204 A.D., when Abdul Fateh son of Hamid Khan Lodhi revolted against Ghaznavids and was jailed by Mahmud Ghaznavi. Fourteen years later Mahmud again visited Multan and marched to Somnath passing through Bahawalpur territory and on his way visiting Moujgarh Fort (in Bahawalpur Tehsil). On his return from the conquest of Somnath, Mahmud placed a Karamatian prince on the throne in this area. The reign of Karamatian was followed by Sumaras and Samas who ruled it for nearly 500 years. In 578 A.D., the territory was invaded and conquered by the Ghoris Sultans of Delhi, who were succeeded by the Mughals.

The exodus of the Abbassides nobles of Egypt to India had already started in the reign of Mohammad

Tughlak-Bin-Ghiasuddin. This Tughlak emperor of India recognised the Abbassides Caliph, Abdul Abbas-Al-Hakim in Egypt and accepted his spiritual leadership. He even got the name of the Caliph inscribed on the Indian coinage of his reign.

In 1366 A.D., *Amir* Sultan Ahmed II, Abbasi, fiftieth direct descendant from Abdul Qasim Ahmed (the first Abbasside Caliph installed in Egypt) migrated to India with his family and a few hundred of followers, entered into Sind through Baluchistan and settled down in Sind. Those Arabs who had already settled in Sind rallied round the *Amir*. In the course of time the *Amir's* family gradually moved northward losing much of the Sind territory, but finally settled down at Fort Derawar (which they captured from the ruler of Jaisalmer).

In 1540, Duddes a well-known tribe rose to considerable power in the eastern part of Bahawalpur. In the same period *Amir* Channi Khan Abbasi was made *Ranjhazari* by Prince Murad, the son of Emperor Akbar. After the death of *Amir* Mohammad Channi Khan, quarrels arose between the two sections of Abbasis, the Kalhora and Daudpotra tribes. The Arab tribes settled in Bahawalpur sided with the latter who were destined to create and rule Bahawalpur State. *Amir* Bahadur Khan Abbasi, the chief of Daudpotra then came to power. He and his descendants wielded small principalities of Bahawalpur State into a united kingdom. *Amir* Muhammad Mubarik Khan I, Abbasi, who came to power in 1702, was an able commander and leader of men. Throughout his reign he had to fight many battles against Kalhoras. He abdicated in 1723 A.D., in favour of his son Sadiq Mohammad Khan I. Sadiq Mohammad Khan I (1723—1746) was killed in a battle with Khuda Yar Khan Kalhora. *Amir* Mohammad Bahawal Khan I (1746—1749) ascended the throne in 1746. During his short rule, he built the towns of Bahawalpur, Qaimpur, Hasilpur, Tranda Ali Murad Khan, Shahbazpur and Mohammadpur Laman. During his reign three canals namely Khan Wah, Qutab Wah and Wahi Qadir Dina were dug. As a result the agriculture of the State improved considerably and the people became prosperous. *Amir* Mubarik Khan II (1749—1772) succeeded *Amir* Muhammad

Bahawal Khan I. In 1750 he wrested Maroot from Jaisalmir, Madwala and its dependencies west of the Sutlej and Panjnad, now part of Muzaffargarh District from Nahr. Bet Doma territory which belonged to Makhdum Sheikh Raju of Sitpur was also conquered. Later a part of the country including important towns of Dunyapur and Kahrur were occupied. In 1766, the Sikh confederates—Jhanda Singh, Ganda Singh and Hari Singh invaded the *Amir's* trans-Sutlej territories but were repulsed. Pakpattan was fixed as the boundary between Bahawalpur and the Sikh State. *Amir* Muhammad Mubarik Khan II Abbasi was an able administrator and a powerful ruler. He took keen interest in building his army. Many of the forts on the border of the State were built during his reign. He kept the Sikhs in check. Many canals on which the prosperity of the district depend were constructed during his time.

Amir Muhammad Bahawal Khan II Abbasi succeeded him and ruled from 1772 to 1809 A.D. In 1777, the Sikh captured Multan. From 1785 to 1788, the *Amir* had to encounter Taimur Shah, the powerful Durrani monarch of Kabul. Bahawalpur was plundered by Durrani. The town was burnt and destroyed. The fort of Derawar was also occupied and Taimur Shah garrisoned it with troops under his General Shah Muhammad Khan Badozai, but eventually the *Amir* drove out the Durrani after fighting many fierce battles. In 1802, Shah Muhammad of Kabul sent a valuable *Khilat* and title of *Mukhlis-ud-Daula*. A mint was started at Bahawalpur in 1802, where gold, silver and copper coins were made. The first treaty between Bahawalpur and the British Government was effected in 1833 which remained in force till the 14th August, 1947 when the State acceded to Pakistan. After Muhammad Bahawal Khan II, Prince Abdullah Khan under the title of Sadiq Muhammad Khan II (1809—1825) was proclaimed *Amir* of Bahawalpur. The greater part of his reign passed in repelling the attacks of the *Amirs* of Sind, in suppressing the rebellions of his own *Umaras* and protecting his conquered territories.

On the death of *Amir* Sadiq Mohammad Khan II in 1825 A.D.; *Amir* Bahawal Khan III ascended the throne

in 1825 at Derawar. He ruled from 1825—1852 A.D. On his accession to the throne *Amir* sent presents to Maharaja Ranjit Singh. In response Maharaja sent his congratulations and presents to *Amir*.

As some dues for the lease of Dera Ghazi Khan had not been paid for several years, Ranjit Singh sent a force under General Ventura to expel the Governor appointed there by the *Amir* of Bahawalpur without giving him any opportunity for parley. General Ventura occupied Dera Ghazi Khan, Muzaffargarh and Multan, and they thus passed from the rule of the State. The *Amir* was very upset at this loss. Alliances with the neighbouring States—Sind, Bikanir or Jaisalmer—were out of question, for they were already hostile to Bahawalpur.

Ranjit Singh sent a large force under Sham Singh Atariwala to Kahrur to invade the State on any pretext. Thereupon the *Amir* sent an envoy to the British Governor-General at Simla to invoke his intervention. Lord William Bentinck, the then British Governor-General, accepted the proposal and Ranjit Singh was warned not to cross the Sutlej. In 1833 *Nawab* negotiated a treaty of friendship and alliance with the Britishers.

In 1842, *parganas* of Kot Sabzal and Ghung Bhara lost by the State in 1807, were conquered by the British from the *Mirs* of Sind and resorted to Bahawalpur State by Sir Charles Napier. In 1848 the *Amir* of Bahawalpur assisted the British in the battle of Multan. As a result of Bahawalpur-British alliance Multan fell and was made part of the British Indian territory.

On the death of *Amir* Bahawal Khan III, Sadiq Mohammad Khan III, (1852-1853) was crowned as *Amir*. On assuming rulership he confined Prince Haji Khan and his brothers and treated them harshly. A large number of Bahawalpur army was demobilised. All the grants, rights and claims of Daudpotras and other usual expenses were diminished and abolished. These events made the *Amir* un-popular. On the 29th of *Rabi-ul-Sani*, 1269 A.H., Fateh Garh Fort was attacked at night. Prince Haji Khan, who

was kept as prisoner, was freed and brought to Khanpur. Haji Khan entered Ahmedpur East without any resistance and Sadiq Muhammad Khan III was imprisoned. Prince Haji Khan who assumed the title of Fateh Khan ruled the State from 1853 to 1858 A.D. Prince Rahim Yar Khan succeeded his father, the late *Amir* Fateh Khan Abbasi, as Muhammad Bahawal Khan IV (1858—1866). He was poisoned and died on the 25th March, 1866. On the death of *Amir* Bahawal Khan IV, Sir Sadiq Muhammad Khan IV was crowned when he was four and a half years old. He was installed in 1879, when he attained maturity. In the interim period from 1866 to 1879 the State was superintended by the British Officers. *Amir* Sadiq Muhammad Khan IV ruled the State till his death in 1899. *Amir* Muhammad Bahawal Khan V, the next successor was about 16 years of age at the time of his father's death. On the 12th November, 1903 he was vested full ruling powers by Lord Curzon at a *Darbar* held at Bahawalpur. He ruled till his death in 1907. *Amir* Sadiq Mohammad Khan Abbasi V (1907—1955), was proclaimed *Amir* of Bahawalpur on the death of his father in 1907. He was then a child of three years old. He ruled the State till 1955 when the State was integrated in the Punjab Province of Pakistan.

2.2 TRIBES

The major tribes in the Colony area are the Arains, Jats, Rajputs and Gujjars. They have all come from the adjoining districts of East and West Punjab. The old settlers are the Joiya, Wattoo, Daudpotra, Baloch, Syed and Pathans. In Cholistan area the Bohar, Lark, Bhen, Dehr, Joiya, Mehra, and Khakar are inhabited. The Syeds are the descendants of the Arabs, who came from Arabia to preach Islam. The Jats and Rajputs came from Rajputana and Jaisalmer and converted to Islam in the reign of Feroz Shah Tughlak.

2.3 FOOD

Wheat is the staple food-grain of the people of the district. The inhabitants ordinarily take three meals a day, the first in the morning which consists of simple bread made of wheat, with *lassi* in summer and milk in winter. The

second at mid-day at the site of work in the fields, which consists of wheat bread, *lassi*, onion, chillies or pickles. The evening meal is taken after returning to home from the fields, it consists of wheat bread, *dal* or *sag* in winters and milk in summer. The bread is baked mostly in ovens (*tandur*). The curries are not much spicy and contains only salt, onions and pepper. The delicacies in the food are sweets, rice, *halwa*, *kheer* and *siwian*. Dates also form a major part of the staple diet. *Jawar* or *bajra* in lieu of wheat is at times taken. The old inhabitants do not like maize.

2.4 DRESS AND ORNAMENTS

The dress of the inhabitants is somewhat different in the Colony area, riverain and Cholistan areas. The common dress of males is a long loose shirt (*kurta* or *chola*) hanging upto knees, a *chadar* and a *pugri* (turban). The dress of female consists of a shirt (*chola* or *kurta*) hanging below the knees, a *shalwar* and a *dopatta* of white muslin. In Cholistan, women generally wear short shirt, *gharara* and *dopatta*. Women in Colony areas use cheap silken cloth for shirts and trousers and country make muslin for *dopattas*. The *chadar* and *khes* is used during winter. For footwear men wear *chappal* or shoes and women a pair of sandal or *chappal*.

The well-to-do women in the Colony areas wear gold ear-rings, nose-pin, rings and bangles, while in non-Colony areas and Cholistan area women generally wear ear-rings, a big silver nose-ring, thick and heavy silver bangles, a pair of silver *paze* and a necklace (*hasli*) made of silver *taweez*.

2.5 DWELLINGS

The villages in Colony areas are in compact blocks, with broad streets. The houses in non-Colony areas are mostly scattered. The houses are generally *kattha*, having mud walls with a height of about 10-11 feet and *sirkanda* roofs, palm rafters and in some cases matting made of palm leaves with a mud plaster over it. An

average house comprises a compound wall with a height of 4—6 feet, an open space as courtyard and one or two rooms with no ventilation. In the corner of courtyard there is a place for cattle as well.

The houses of *Lambardars* are generally situated in the centre of the village. These are in most cases pucca, with 5-6 living rooms, and two portions, one for family and the other for guests. There may be separate rooms and compounds for the cattle and agriculture produce. These houses are decorated and furnished with relatively modern furniture, whereas the ordinary houses in village are not so well kept.

2.6 OCCUPATIONS

The major occupation is agriculture. This includes the cattle breeders and graziers. In addition to agriculturists and agricultural labourers, there are village *mueens* such as carpenters and blacksmiths who repair and make the agricultural implements. The residents of the Cholistan area entirely depend upon cattle breeding. In district and tehsil headquarters, towns people work in local government offices and in factories established there. They are also engaged in teaching and practising law. A portion of population runs shops in cities.

2.7 CULTURE, CUSTOMS AND TRADITIONS

The elders of a family first settle the preliminaries and then the boy's father, with a few relations, pays visit to the girl's parents, taking with him some presents (ring, sweets, a *dopatta* and cash). In return the party is presented with a *lungi* and some sweets. The party is entertained with milk, and then the *nikah* ceremony is performed. In some cases *nikah* ceremony is not performed at the time of the betrothal, and is put off, till the date of marriage. The parents of the boy are obliged to send sweets and clothes for the girl on *Eids* and other occasions. On the day of marriage, bridegroom proceeds in a procession to the house of the bride, where all are

served with meals, generally comprising *pulao* and curry. The people in Cholistan area spend extravagantly on those occasions. After the meals are served the bride is bid farewell by the family with tears in their eyes. The *doli* is taken mostly in *kacharwas* on the camel's back or on bullock carts.

In accouchment the woman is made to lie on a quilt on the floor. Her head is kept towards the north and feet to the south. She is told to keep her face towards the *Qibla*. With the exception of near female relations and the midwife, nobody is allowed to go near her. A woman in the state of impurity, or one whose children do not survive is not allowed to enter the room or the house until after eight days of the delivery. If the child born is girl, no sings of rejoicing are shown by the family, but there are great rejoicings in the case of the birth of a boy. The mother is kept in confinement for a week, and if in sound health, she is bathed on the eighth day. The *mullah* recites *azan* in the child's ears. After this the most respected and the oldest matron in the family gives the infant some milk mixed with sugar or *gur*, or some honey, and this ceremony is termed as *gurthi*. During *chilla* the head of the child is shaved. In the case of a male child two goats or sheep and in case of a female child one goat or sheep is slaughtered and meat distributed among relatives, friends and the poor. This ceremony is termed as *aqiqa*.

After funeral the near kinsmen of the family and friends arrange the meals of the bereaved family for three days, and no fire is lit for cooking purposes in the house. The relations and friends visit the house continuously for three days for *Fateh Khawani* and on the third day the *Qul* ceremony is performed by reciting the Holy *Quran* and giving alms in the deceased's name. *Chilla* or *chehlum* is observed in the same manner as on the third day of the death.

The illiterates have great faith in *pirs*, saints and shrines. People are fond of music and singing. In the absence of other musical instruments *ghara* (pitcher) is there, to keep the concert aloft. In the non-Colony area and Cholistan, some glimpses of an Arab culture are seen.

The ladies in the Colony areas and those belonging to the Syeds Daudpotras, Pathans and Balochs observe *purdah* by wearing *burgas* (veils). The others in some cases would wrap a big *chadar* round their body. The women in Cholistan and non-Colony areas generally do not observe *purdah*.

Fairs on the shrines of Raushan Din Naushahi in Bahawalnagar Tehsil, Khwaja Nur Muhammad Sahib at Chishtian and Shauq Ilahi Sahib at Mari Shauq Shah in Chishtian Tehsil are well celebrated. The general activities in these fairs are *qawali*, *milad*, wrestling, *kabbadi* and dancing. The principal sports and games are wrestling, *shatranj*, *chaupat* or *chaupar*, playing cards, *ilkipur* (a game played with *cowdies*), keeping sporting pigeons, *kabbadi*, camel fight, cock and quail fight, dog fight and *Jhommer* dance. The children play football, hockey, *guli danda* (tip-cat), *golican* and *lukan michi* and fly kites.

SECTION 3—ADMINISTRATIVE SET-UP

3.1 EXECUTIVE, JUDICIARY AND REVENUE SYSTEM

Subject to the supervision of Commissioner Bahawalpur Division the district is under the general charge of a Deputy Commissioner who combines the functions of a District Magistrate as well as Collector. He is also responsible for the co-ordination of the functions of all nation-building departments in the district. On the judicial side he is assisted by one Additional Deputy Commissioner (General) and four Assistant Commissioners each at Bahawalnagar, Minchinabad, Chishtian and Fort Abbas. On the revenue side he is assisted by two Revenue Assistants with a Tehsildar and Naib-Tehsildars in each tehsil.

The police administration is vested in the District Superintendent of Police, who is assisted by one Deputy Superintendent of Police. The district is divided into a number of police stations each under the charge of a Station House Officer (S.H.O.).

The judicial administration is under the charge of District and Sessions Judge who is assisted by Civil Judges.

3.2 EDUCATIONAL FACILITIES

The literacy ratio of the district in 1972 was 12.7 percent. A statement showing number of institutions and students during 1971-72 is given below :—

Institutions/enrolment	Primary	Middle	High	College
No. of Institutions	1,083	104	22	4
No. of Students	52,000	19,000	13,000	1,657

3.3 MEDICAL FACILITIES

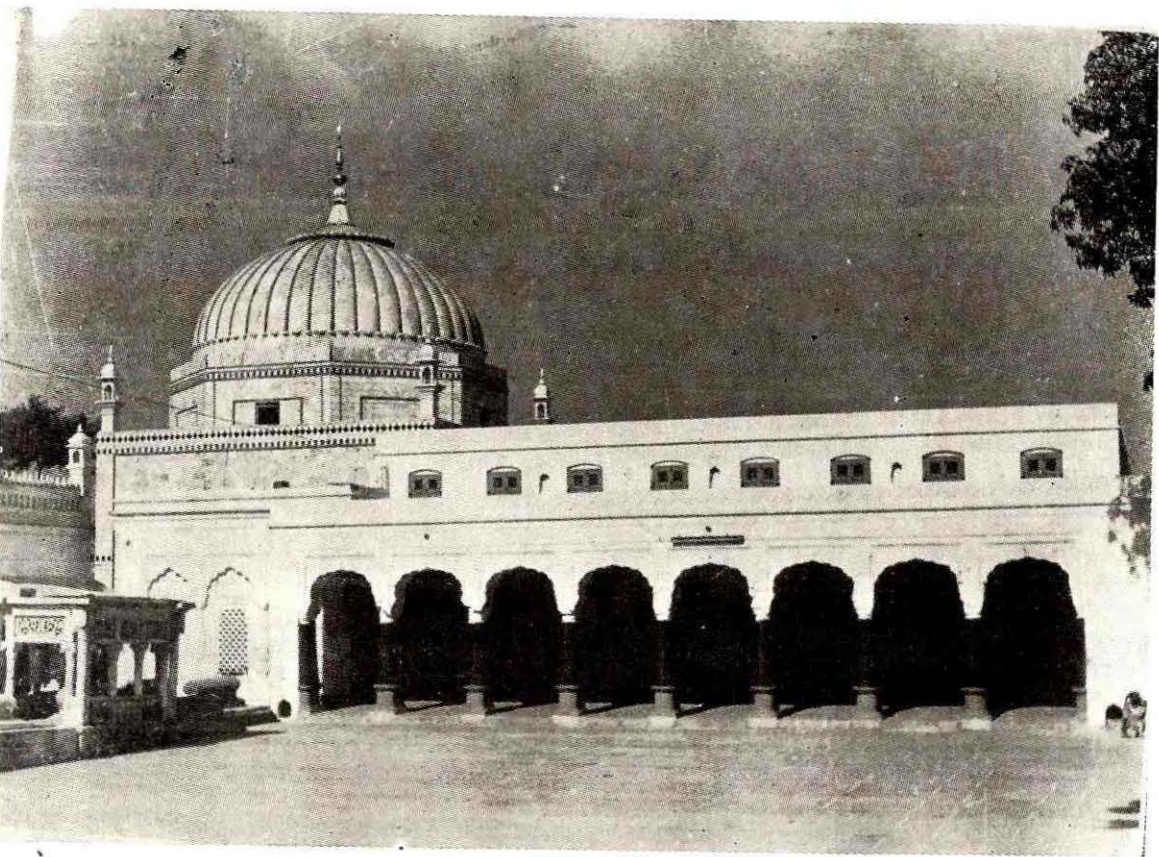

There are two hospital in Fort Abbas, one each at Bahawalnagar, Chishtian and Minchinabad Tehsil headquarters. Besides, there are fifty five dispensaries, two rural health centres and one T.B. clinic in the district.

SECTION 4—IMPORTANT/HISTORICAL PLACES

4.1 BAHAWALNAGAR

Bahawalnagar is one of the important cities of the former Bahawalpur State and is the connecting link for Fort Abbas and McLeod Ganj, two important *mandis*, with the main Karachi-Peshawar railway line which passes through Samasatta.

Bahawalnagar is a small town with narrow roads. The main road of the town runs through the city and the railway colony. On the eastern side it leads to grain market and on the south-west it connects the city to the road running towards Harunabad. The road on the western side alongwith the railway line connects the city with Chishtian and Hasilpur.

Mazaar of Khawaja Noor Muhammad Sahib at Chishtian

Government Comprehensive High School Bahawalnagar

There are two colleges ; one for boys and other for girls, six high schools ; five for boys and one for girls, four middle schools for girls, twenty five primary schools, seven for boys and eighteen for girls and one industrial school for girls in the city. For medical care there is a District Civil Hospital and three dispensaries in the city.

Tongas are the main source of communication. Bullock carts and donkey-carts are used for carrying goods. The city is connected by roads with all important places around Bahawalnagar, Multan, Lyallpur, Lahore and Sahiwal.

Daud *Bazaar*, Harun *Bazaar*, and Tailway *Bazaar* are the main shopping centres of general stores, cloth, utensils and grocery. Being an agricultural area the people generally deal in food grains, cotton and oil-seeds.

4.2 CHISHTIAN

Chishtian derives its name from the great Muslim saint, Hazrat Baba Taj-ud-din Sarwar Chishti, who lived here more than 700 years ago. It is the headquarters of a most flourishing tehsil of Bahawalnagar District. The old Chishtian Town is situated on the left of the railway line while the new locality known as Chishtian *Mandi*, which grew up in the thirties in the wake of the Sutlej Valley Project, lies on the right of the railway line running from Bahawalpur to Bahawalnagar. It is 32 miles south of Bahawalnagar, and is connected with it by rail and a metalled road running parallel to each other in close proximity. Chishtian was first declared a Notified Area in 1936. Subsequently it was upgraded as a Municipal Committee under the Bahawalpur Municipal Act, 1943.

The sub-soil water is unfit for human consumption. The Municipal Committee supply tap water for domestic use. Electric and telephone facilities also exist. It is an important market for foodgrains and cotton. The tomb of

Hazrat Baba Taj-ud-Din Sarwar Chishti, a grandson of the celebrated Baba Farid-ud-Din Shakargang of Pakpattan, attracts thousands of devotees, at the time of annual *Urs* in the month of *Zilhaj*. Similarly the shrine of Hazrat Qibla-e-Alam Khawaja Nur Mohammad Moharvi, who died some 150 years back, is visited by a large number of his devotees.

4.3 MINCHINABAD

Standing on the right bank of the Ford Wah Canal, the unostentatious town of Minchinabad was founded about 110 years back by Major Minchin, the then Political Agent of the former Bahawalpur State. It became a district town in 1918-19. During the days of its glory, *Nawab* of Bahawalpur used to hold his court there. The ruins of his *Daulat-Khana* are the only remains visible of that period. Minchinabad lies 23 miles east of Bahawalnagar and is connected with it by rail and road both of these running parallel to each other. There is also a service road of the Irrigation Department along the bank of Ford Wah Canal available for light traffic.

4.4 FORT ABBAS

The ancient Phoolra Fort, which owed its name to a Hindu ruler, Raja Phool Singh Thakur, stood on the left bank of the legendary Hakra river, near the border of Bikanir. There is little trace of the river now but the gorgeous fort though battered and broken, still stands aloft. The cannon-shots on the massive iron shutters of the main entrance still seem to speak with eloquence ;

“Of old, unhappy far off things
And battles long ago ”

At the southern corner of the fort stands in solemn sublimity an age-old mosque, said to have been built by Sultan Mahmud Ghaznavi, when the torch-bearer of Islam marched to this place at the head of his victorious army.

During the period of Nawab Muhammad Mubarak Khan III, its renovation was carried out in 1852. Nawab also renamed it as Fort Abbas.

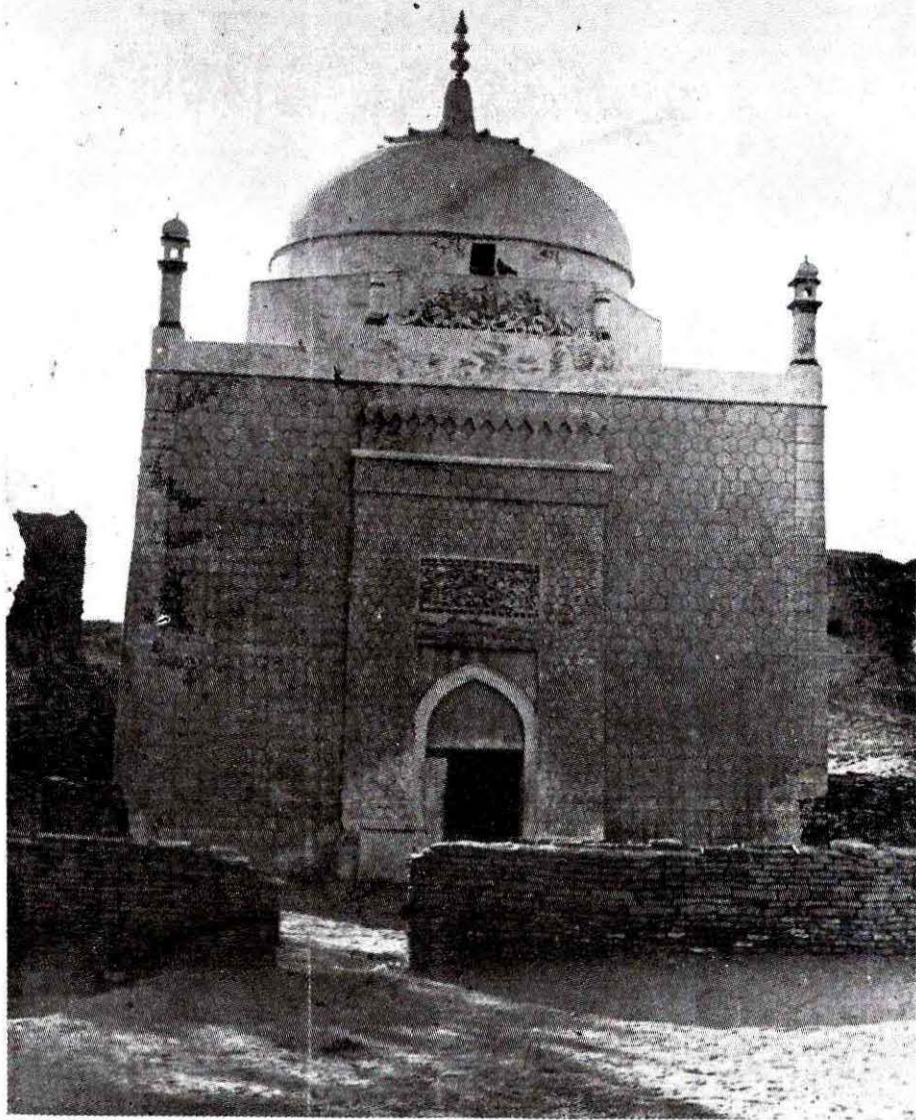

In striking contrast to the ancient fort and the ancient habitation, there was raised, in 1934, on the left bank of the Hakra Canal the new colony town of Fort Abbas Mandi. It was named after Hazrat Abbas, from whom the dynasty of Ex-Nawabs of Bahawalpur claimed its direct descent. Fort Abbas is a flourishing *Mandi*. The Indian border of the Ex-Bikanir State is twelve miles towards the south and three miles to the west is a vast unexplored desert of Cholistan. The virgin lands have become fascinating hunting-ground for birds and beasts.

4.5 FORT MAROOT

The remains of Fort Maroot are at a distance of about 30 miles in the south of Fort Abbas Town. In the remains of this Fort, there are only two mosques, which are said to be built by Emperor Akbar. This Fort is said to be built by a *Hakim* of Chittaur and was named after him as Maroot. Nawab Muhammad Mubarik Khan III of the Ex-Bahawalpur State captured it in 1749 from the Raja of Jaisalmer. The mighty defence walls of the Fort reveal that once it was a big Fort like Uch, Moenjodaro, Taxila and Multan. According to Ain-i-Akbari the area of the Fort and land affiliated to it was 54,560 *bighas*.

Remains of Fort Abbas, renovated in 1852 by Nawab Mubarak Khan-III

A Mosque in Fort Maroot said to be built by Emperor Akbar

SECTION 5—POPULATION

5.1 GROWTH AND DISTRIBUTION

The total population of Bahawalnagar District was 1,073,891 according to the 1972-Census, whereas it was 822,827 in the 1961-Census. The percentage increase dur-

ing the intervening period of 11 years and 8 months between the two censuses was 30.5% with an annual growth rate of 2.3%. The following statement also shows at a glance the variation in population before 1961 starting 1901 :—

Description	1901	1911	1921	1931	1941	1951	1961	1972
Population	249,320	269,990	270,180	340,534	463,865	630,538	822,827	1,073,891
Increase/decrease over last census ..	—	20,670	190	70,354	123,331	166,673	192,289	251,064
Percentage increase/decrease ..	—	8.3	0.1	26.0	36.2	35.9	30.5	30.5

The total area of the district is 3,428 square miles which gives a population density of 313 persons per square mile.

The urban population of the district was 164,337 (i.e. 15.3%) and the rural population was 909,554 (i.e. 84.7%). The percentage increase in urban and rural areas during the last two censuses was 59.9% and 26.3% respectively against the total increase of 30.5%.

5.2 COMPOSITION

The male and female population was 582,787 and 491,104 respectively, giving a sex ratio of 1,186 against 1,145 in the 1961 Census.

The infant (less than one year) population was 43,226 (i.e. 4.0%), 32.0% were less than 10 years and the adult (18 years and above) population was 49.8%.

The population of 10 years and above was 730,328 out of whom 278,247 (i.e. 38.1%) were never-married, 405,446 (i.e. 55.5%) were married 44,664 (i.e. 6.1%) were widowed and 1,971 (i.e. 0.3%) were divorced.

Out of the total population of 1,073,891, the Muslim population was 1,064,728 (i.e. 99.2%). 'Others' came after Muslims whose population was 5,161 (i.e. 0.5%).

The literacy ratio of the district was 12.7% for both sexes and 19.0% and 15.2% for males and females respectively. In urban areas the literacy ratio was 21.5% for both sexes and 29.3% and 11.9% for males and females respectively. In rural areas the literacy ratio was 11.1% for both sexes and 17.0% and 4.0% for males and females respectively.

CENSUS PUBLICATIONS

1. CENSUS BULLETIN 1

This bulletin contains provisional population figures by sex and variation between the 1961 and 1972 Censuses in respect of Provinces, Divisions, Districts and 20 big cities of Pakistan. (Price Re. 1.00)

2. DISTRICT CENSUS REPORT

There is one report for each district containing its description, i.e., geography, history and culture, administrative set-up and important historical places of the District and statistical tables. (Price Rs. 10.00)

3. CENSUS REPORT OF FEDERALLY ADMINISTERED TRIBAL AREAS

This report is in respect of the federally administered tribal areas and similar to the District Census Reports. (Price Rs. 10.00)

4. CENSUS REPORT OF FEDERAL CAPITAL TERRITORY, ISLAMABAD

This report is also similar to the District Census Reports. (Price Rs. 4.00)

5. PROVINCIAL CENSUS REPORT

This report describes briefly the geography and population dynamics of each Province. There are 10 tables for each Province with brief explanatory notes. These tables are similar to the first 10 tables of the District Census Reports with the only difference that the level of tabulation by geographical areas is different.

(Price :—Punjab Rs. 25.00 ; Sind Rs. 22.00 ; N.W.F.P. Rs. 20.00 ; Baluchistan Rs. 15.00)

6. PAKISTAN CENSUS REPORT

This report includes the 1972 Census methodology and procedures and short description of Pakistan's geography and population dynamics. There are 10 statistical tables for Pakistan with brief explanatory notes. These tables are similar to the first 10 tables of the District Census Reports with the only difference that the level of tabulation by geographical areas is different. (Price Rs. 25.00)

7. ADMINISTRATIVE REPORT

This publication contains Census Commissioner's report in respect of the administrative planning and methodology of the 1972 Census. (Not for sale)
