THATTA

PART - V

VILLAGE STATISTICS

AREA, POPULATION, LITERACY,
HOUSES, AND HOUSEHOLDS.

COMPILED BY
A. HAMID
Deputy Director of Census
HYDERABAD

INTRODUCTION

The village is the basic unit of revenue administration and the need for basic statistics for villages is quite obvious as all planning depends on such statistics. They are also indispensable for carrying out sample surveys over limited areas and form the basis of continuous collection of statistics on different aspects of rural life and economy. The village was taken as the basic unit of enumeration if its population was 600 or it was a continuous collection of about 150 houses on an average. Where the village approximated to this size, it was constituted into a Block. A large number of villages had to be split up into a number of Blocks, but the boundaries of Census Block did not go beyond the limits of a revenue estate. All statistics pertaining to a village concerning land administration are given by "Mauza" or revenue estate and the importance of this territorial unit in our administrative set-up is unique. A Mauza may be defined as a parcel or parcels of land having a separate name in the revenue records and known limits. The unit of revenue administration is the revenue estate or "Dah" which is usually identical with the village or "Mauza". A revenue estate is a unit of area—

- (a) for which a separate record-of-rights has been made, or
- (b) which has been separately assessed to land revenue or would have been so assessed, if the land revenue had not been leased, compounded for, or
- (c) which the Local Government may by general rule or special order declare it to be an estate.

The Village Statistics contained in this part have been compiled from Block-wise figures contained in the Summaries prepared by the Census Supervisors and Charge Superintendents. Except for data on houses and households they are based on the results of the "Circle Sort" which was carried out in the Hand Sorting Centres after the physical counting of the individual enumeration schedules. The literacy figures, however, have been lifted from the Summaries prepared by the Supervisors and Charge Superintendents.

The plan of presentation is that for each village, the Hadbast number, its name in English and Urdu and area in acres, the total population by males and females, and the number of literates in each village has been recorded.

The last two columns pertain to number of houses and households. This information is based on the Housing Census which was carried out in September, 1960. The data was collected in the first instance from the Summaries prepared after the Housing Census by the Charge Superintendents. These figures have been checked with the results of the Machine tabulation in the case of urban localities, but since only 10 per cent sample was taken for the villages, the data of villages has been extracted directly from the Household Summaries. The number of houses refers only to the "occupied" houses, while the number of households refers to the commensal unit, the members of which live together and eat from a common kitchen. The definitions of "houses" and "households" are given in the Explanatory Note.

The "Hadbast" numbers are the numbers assigned to a revenue estate at the time of the settlement operations. They are allotted serially within the Taluka at the time of settlement. Hence the arrangement of villages in each Taluka does not follow the serial order of Hadbast numbers, but within each Tapedar Circle they have been arranged serially. Where no survey and settlement operations have been carried out, this column is arranged serially. The area figures have been supplied by the Deputy Commissioners and are based on revenue records. Local details regarding Schools, Colleges, Post Offices, Telegraph Offices, Railway Stations, Police Stations, Rest Houses, Union Council Offices, Hospitals, Dispensaries, Electricity, Tubewells, etc., have been indicated by appropriate symbols against each village. A list of these symbols is appended. These details have been obtained from Deputy Commissioners and from the concerned Departments. The data has been presented by Talukas within each district. In each Taluka, the villages have been grouped by Supervisory Tapedar Circles and within each Supervisory

Tapedar Circle by Tapedar Circles. The name of the Supervisory Tapedar Circle has been separated from the text by double lines and the village in which the Tapedar's headquarter is located is shown in bold print.

The Village Statistics for this district were compiled in the Hand Sorting Centre, Hyderabad, under the supervision of Mr. A. Hamid Deputy Director of Census, Incharge of Hand Sorting Centre, Hyderabad. After completion, the lists were sent by the Officer-in-Charge, Hand Sorting Centre, to the Deputy Commissioner concerned for verification and completion of figures relating to "Hadbast" numbers, area and local details. After this verification, the Village Statistics were sent to my office, where they were further checked, adjusted and consolidated before publication.

A summary giving the total population of the district and distribution by sexes to the nearest thousand has been given in the beginning. Similar summaries by Talukas and by Supervisory Tapedar Circles within each Taluka have also been added.

ASLAM ABDULLAH KHAN, C.S.P.,
Director of Census,
West Pakistan.

EXPLANATORY NOTE

1. Population in the Village Statistics includes persons who claimed nationality other than Pakistani.

2. Taluka figures include those of urban areas within its jurisdiction.

3. Figures for Municipal and Town Committees as well as other Urban localities are given separately under respective Talukas within which they are located.

4. Household is a collection of persons living and eating in one mess with their dependents, relatives, servants and lodgers who normally reside together.

5. House is a structurally separate set of living premises, with an entrance from outside the building or from a common way or courtyard or staircase.

6. Number of literate figures have been taken from Charge Superintendents Abstracts (Provisional results of Census published in February 1961). These may not tally with the final figures published in Part IV of District Census Report.

7. Urban Localities are grouped separately at the top of the Village Statistics of each Taluka. The areas of Urban Localities and their Haddast numbers, being not available, have not been shown separately.

The symbols to denote local details are:—

(1) College or University		کالج یا یونیورسٹی		
(2) Primary School		پرائمری سکول		
(3) Middle School	...	مڈل سکول		
(4) High School		ہائی سکول	...	
(5) Post Office		ڈاک خانہ		
(6) Telegraph Office		تار گھر		
(7) Dispensary		ڈسپنسری		
(8) Hospital		ہسپتال		
(9) Dak/Inspection Bungalow or Circuit House		ڈاک بنگلہ		
(10) Union Council or Committee		یونین کونسل یا کمیٹی		
(11) Police Out-post or Thana		پولیس چوکی یا تھانہ		
(12) Railway Station		ریلوے اسٹیشن		
(13) Historical Monuments or Site	...	آثار قدیمہ		
(14) Tubewell		ٹیوب ویل		
(15) Electricity		بجلی
