VILLAGE STATISTICS
CHITRAL STATE

**OFFICE OF THE CENSUS COMMISSIONER
MINISTRY OF HOME AND KASHMIR AFFAIRS
HOME AFFAIRS DIVISION
KARACHI.**

INTRODUCTION

The village is the basic unit of revenue administration and the need for basic statistics for village is quite obvious as all planning depends on such statistics. They are also indispensable for carrying out sample surveys over limited areas and form the basis of continuous collection of statistics on different aspects of rural life and economy. The village was taken as the basic unit of enumeration if its population was 600 or it was a continuous collection of about 150 houses on an average. Where the village approximated to this size, it was constituted into a Block. A large number of villages had to be split up into a number of Blocks, but the boundaries of Census Block did not go beyond the limits of a revenue estate.

The Village Statistics for Agencies/States give a statistical analysis of the tribes and this will be for the population enumerated on the Tribal Individual Schedule only as the population enumerated on Standard and Family Schedule will not give the tribes. The Village statistics contained in this Part have been compiled from block-wise figures contained in the summaries prepared by the Census Supervisors and Charge Superintendents.

In some parts of the Tribal Areas census schedule could not be used and the population of the various tribes residing there was estimated by the respective Political Agents. The following points were kept in view while arriving at these estimates:—

- (a) The estimated population of each major tribe was divided into main section and sub-section with sex-wise break up.
- (b) The estimates of population were checked in a Jirga of the Elders of

the entire tribes, so that the danger of inflation of the strength of a particular tribe was eliminated.

Since estimated population was collected tribe-wise and not village-wise it has been shown in the main summary table only.

The plan of presentation for each village is the serial number, its name in English and Urdu, total population by males and females and its tribe-wise population.

Local details regarding Colleges, Schools, Post Offices, Telegraph Offices, Railway Stations, Police Stations, Rest Houses, Union Council Offices, Hospitals, Dispensaries, Electricity, Tube-wells, Historical Monuments and Levy Posts, etc. have been indicated by appropriate symbols against each village.

A list of these symbols is appended. These details have been obtained from the Political Agent concerned. The data has been presented by tehsils within each Agency/State.

The tribal village statistics were compiled in the Hand Sorting Centre, Peshawar under the supervision of Mr. A. U. Saleem, Assistant Director of Census, Incharge Hand Sorting Centre, Peshawar. After compilation the list was sent to the Provincial Directorate of Census as the Hand Sorting Centre was wound up. The list was then sent to the Political Agent concerned for verification and completion of local details. After the verification these statistics were further checked, adjusted and consolidated, before their publication, in my office.

A summary giving the tehsil-wise total population and distribution of tribes of each Agency/State has been given in the beginning.

MUHAMMAD SHARIF SHEIKH,
T.K., P.C.S. (Retd.),
Deputy Director of Census,
West Pakistan,
Lahore.
