Citibank, N.A. - Pakistan Branches

(Incorporated In The U.S.A. The Liability of Members Being Limited)

Notes to and Forming Part of the Financial Statements

For the year ended 31 December 2015

1 STATUS AND NATURE OF BUSINESS

Citibank, N.A. - Pakistan Branches (the Bank) operates as a branch of Citibank, N.A. which is a foreign banking company incorporated and domiciled in the U.S.A. with limited liability and is a member of Citigroup Inc., which is the ultimate holding company.

The Bank is engaged in banking business as described in the Banking Companies Ordinance, 1962. Its principal office is at AWT Plaza, I. I. Chundrigar Road, Karachi. At December 31, 2015, the Bank operated through 3 branches (December 31, 2014: 3 branches) in Pakistan.

Credit ratings assigned to Citigroup Inc. and Citibank, N.A., by Moody's Investor Services are as follows:

| | <u>Long-term senior debt</u> | <u>Short-term debt</u> |
|----------------|----------------------------------|----------------------------|
| Citigroup Inc. | Baal | P-2 |
| Citibank, N.A. | A1 | P-1 |

2 BASIS OF PRESENTATION

In accordance with the directives of the Federal Government regarding the shifting of the banking system to the Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade related modes of financing include purchase of goods by the Bank from its customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of mark-up thereon.

3 STATEMENT OF COMPLIANCE

3.1 These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, the requirements of the Companies Ordinance, 1984, the Banking Companies Ordinance, 1962 and the directives issued by the Securities and Exchange Commission of Pakistan (SECP) and the State Bank of Pakistan (SBP). Wherever the requirements of the Companies Ordinance, 1984, Banking Companies Ordinance, 1962 or the directives issued by the SECP and SBP differ with the requirements of IFRSs, the requirements of the Companies Ordinance, 1984, the Banking Companies Ordinance, 1962 and the requirements of the said directives prevail.

3.2 The SBP through its BSD Circular No. 10 dated August 26, 2002, has deferred the applicability of International Accounting Standard (IAS) 39 - "Financial Instruments: Recognition and Measurement" and IAS 40 - "Investment Property" for Banking Companies in Pakistan. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7 "Financial Instruments: Disclosures" through its S.R.O. 411(I)/2008 dated April 28, 2008. Accordingly, the requirements of these standards and their relevant interpretation (issued by the standard interpretation committee-IFRICs) have also not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the SBP through various circulars.

Handwritten signature

3.3 The SBP vide its BSD Circular No. 07 dated April 20, 2010 has clarified that for the purpose of preparation of financial statements in accordance with International Accounting Standard - 1 (Revised), 'Presentation of Financial Statements', two statement approach shall be adopted i.e. separate 'Profit and Loss Account' and 'Statement of Comprehensive Income' shall be presented, and Balance Sheet shall be renamed as 'Statement of Financial Position'. Furthermore, only the surplus / (deficit) on revaluation of available for sale (AFS) securities, may be included in the 'Statement of Comprehensive Income'. However, it should continue to be shown separately in the Statement of Financial Position below equity. Accordingly, the above requirements have been adopted in the preparation of these financial statements.

3.4 Other standards, interpretations and amendments to published approved accounting standards that are effective in the current year

There are certain other new and amended standards and interpretations that are mandatory for the Bank's accounting periods beginning on or after January 1, 2015 but are considered not be to relevant or to have any significant effect on the Bank's operations and are, therefore, not disclosed in these financial statements.

3.5 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after 01 January 2016:

3.5.1 Amendments to IAS 38 Intangible Assets and IAS 16 Property, Plant and Equipment (effective for annual periods beginning on or after 1 January 2016) introduce severe restrictions on the use of revenue-based amortization for intangible assets and explicitly state that revenue-based methods of depreciation cannot be used for property, plant and equipment. The rebuttable presumption that the use of revenue-based amortization methods for intangible assets is inappropriate can be overcome only when revenue and the consumption of the economic benefits of the intangible asset are 'highly correlated', or when the intangible asset is expressed as a measure of revenue. The amendments are not likely to have an impact on Company's financial statements.

3.5.2 Investment Entities: Applying the Consolidation Exception (Amendments to IFRS 10 – Consolidated Financial Statements and IAS 28 – Investments in Associates and Joint Ventures) [effective for annual periods beginning on or after 1 January 2016) clarifies (a) which subsidiaries of an investment entity are consolidated; (b) exemption to present consolidated financial statements is available to a parent entity that is a subsidiary of an investment entity; and (c) how an entity that is not an investment entity should apply the equity method of accounting for its investment in an associate or joint venture that is an investment entity. The amendments are not likely to have an impact on Company's financial statements.

3.5.3 Accounting for Acquisitions of Interests in Joint Operations – Amendments to IFRS 11 'Joint Arrangements' (effective for annual periods beginning on or after 1 January 2016) clarify the accounting for the acquisition of an interest in a joint operation where the activities of the operation constitute a business. They require an investor to apply the principles of business combination accounting when it acquires an interest in a joint operation that constitutes a business. The amendments are not likely to have an impact on Company's financial statements.

3.5.4 Amendment to IAS 27 'Separate Financial Statement' (effective for annual periods beginning on or after 1 January 2016) allows entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. The amendment is not likely to have an impact on Company's financial statements.

LCMST4

3.5.5 Agriculture: Bearer Plants [Amendment to IAS 16 and IAS 41] (effective for annual periods beginning on or after 1 January 2016). Bearer plants are now in the scope of IAS 16 Property, Plant and Equipment for measurement and disclosure purposes. Therefore, a company can elect to measure bearer plants at cost. However, the produce growing on bearer plants will continue to be measured at fair value less costs to sell under IAS 41 Agriculture. A bearer plant is a plant that: is used in the supply of agricultural produce; is expected to bear produce for more than one period; and has a remote likelihood of being sold as agricultural produce. Before maturity, bearer plants are accounted for in the same way as self-constructed items of property, plant and equipment during construction. The amendments are not likely to have an impact on Company's financial statements.

3.5.6 Annual Improvements 2012-2014 cycles (amendments are effective for annual periods beginning on or after 1 January 2016). The new cycle of improvements contain amendments to the following standards:

- IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. IFRS 5 is amended to clarify that if an entity changes the method of disposal of an asset (or disposal group) i.e. reclassifies an asset from held for distribution to owners to held for sale or vice versa without any time lag, then such change in classification is considered as continuation of the original plan of disposal and if an entity determines that an asset (or disposal group) no longer meets the criteria to be classified as held for distribution, then it ceases held for distribution accounting in the same way as it would cease held for sale accounting.
- IFRS 7 'Financial Instruments- Disclosures'. IFRS 7 is amended to clarify when servicing arrangements are in the scope of its disclosure requirements on continuing involvement in transferred financial assets in cases when they are derecognized in their entirety. IFRS 7 is also amended to clarify that additional disclosures required by 'Disclosures: Offsetting Financial Assets and Financial Liabilities (Amendments to IFRS7)' are not specifically required for inclusion in condensed interim financial statements for all interim periods.
- IAS 19 'Employee Benefits'. IAS 19 is amended to clarify that high quality corporate bonds or government bonds used in determining the discount rate should be issued in the same currency in which the benefits are to be paid.
- IAS 34 'Interim Financial Reporting'. IAS 34 is amended to clarify that certain disclosures, if they are not included in the notes to interim financial statements and disclosed elsewhere should be cross referred.

The above amendments are not likely to have an impact on the Bank's financial statements.

4 BASIS OF MEASUREMENT

4.1 Accounting convention

These financial statements have been prepared under the historical cost convention, except that held for trading and available for sale investments and derivative financial instruments have been marked to market and are carried at fair value. In addition, obligation in respect of staff retirement benefit is carried at present value and certain financial asset's are stated net of provision.

4.2 Functional and presentational currency

These financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentational currency. The amounts are rounded to the nearest thousand.

LCQMS 24

4.3 Critical accounting estimates and judgments

The preparation of financial statements in conformity with approved accounting standards as applicable in Pakistan requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgement about carrying values of asset and liabilities that are not readily apparent from other sources. Actual result may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

Significant accounting estimates and areas where judgments were made by the management in the application of accounting policies are as follows:

- i) classification and provisioning against investments (notes 5.3 and 9)
- ii) classification and provisioning against advances (notes 5.4 and 10)
- iii) income taxes (notes 5.8, 12 and 30)
- iv) accounting for defined benefit plan (notes 5.9 and 33)
- v) depreciation / amortisation of fixed assets (notes 5.5 and 11)
- vi) fair value of derivative financial instruments (note 5.15 (b) and 22)
- vii) recording of head office expenses for the current year (note 28)
- viii) fair value of financial instruments (note 37)

5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented in these financial statements, except for the changes due to the following standard, that became effective during the year.

- IFRS 13 - Fair Value Measurement

IFRS 13 'Fair Value Measurement' consolidates the guidance on how to measure fair value, which was spread across various IFRS, into one comprehensive standard. It introduces the use of an exact price, as well as extensive disclosure requirements, particularly the inclusion of non-financial instruments into the fair value hierarchy. The application of IFRS 13 does not have an impact on the financial statements of the Bank except for certain disclosures as mentioned in note 37.

5.1 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement represent cash and balances with treasury banks, balances with other banks and overdrawn nostro accounts.

5.2 Lendings to / borrowings from financial institutions

The Bank enters into inter-bank transactions at contracted rates for a specified period of time. These are recorded as under:

(a) Sale of securities under repurchase agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the financial statements as investments and the counterparty liability for amounts received under these agreements is included in borrowings from financial institutions. The difference between sale and repurchase price is recognised over the period of transaction as an expense.

LCMS 74

(b) Purchase of securities under resale agreements

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised as investments in the statement of financial position. Amounts paid under these agreements are included in lendings to financial institutions. The difference between purchase and resale price is recognised over the period of transaction as income.

(c) Other lendings

These are recorded at the proceeds paid. Mark-up received is recognised in the profit and loss account over the period on an accrual basis.

5.3 Investments

In accordance with the requirements of BSD circular No 10 dated 13 July 2004 the investments are classified as follows:

(a) Held for trading

These are securities, which are either acquired for generating profit from short-term fluctuations in market prices, interest rate movements, dealer's margin or are securities included in a portfolio in which a pattern of short-term profit making exists.

(b) Held to maturity

These are securities with fixed or determinable payments and fixed maturity in respect of which the Bank has the positive intent and ability to hold them till maturity. These are carried at amortised cost.

(c) Available for sale

These are investments that do not fall under the 'held for trading' or 'held to maturity' categories.

Investments are initially recognised at fair value. All purchases and sales of investments that require delivery within the time frame established by regulation or market convention are recognised at trade date, which is the date on which the Bank commits to purchase or sell the investments.

In accordance with the requirements of the State Bank of Pakistan, quoted securities other than those classified as 'held to maturity' are subsequently remeasured to market value. Surplus / (deficit) arising on revaluation of securities classified as 'available for sale' is taken to a separate account shown in the statement of financial position below equity. Surplus / (deficit) arising on revaluation of securities classified as 'held for trading' is taken to the profit and loss account. In accordance with the requirements specified by the State Bank of Pakistan, investments classified as 'held to maturity' are carried at amortised cost.

Investment in unquoted equity securities are stated at cost less impairment.

Impairment loss in respect of investments classified as available for sale (except term finance certificates) and held to maturity is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. Provision for diminution in the value of term finance certificates is made as per the requirements set out in the Prudential Regulations issued by the State Bank of Pakistan. In case of impairment of available for sale securities, the cumulative loss that has been recognised directly in surplus on revaluation of securities on the statement of financial position below equity is removed therefrom and recognised in the profit and loss account. For investments classified as held to maturity, the impairment loss is recognised in profit and loss account. The difference between the face value and the purchase price is amortised over the remaining life of the investment using effective yield method, in order to determine the amortised cost.

14/05/04

Gains and losses on disposal of investments during the year is taken to the profit and loss account.

5.4 Advances

Advances are stated net of specific and general provision against loan losses. Specific and general provisions are made in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan from time to time. The net provision made / reversed during the year is charged to the profit and loss account and accumulated provision is netted-off against advances. Advances are written off when there is no realistic prospect of recovery.

5.5 Fixed assets

Capital work in progress

Capital work in progress is stated at cost less impairment losses, if any.

Tangible

Fixed assets are carried at historical cost less accumulated depreciation and accumulated impairment losses, if any, except for lease hold land which is stated as cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is charged to the profit and loss account applying the straight-line method using the rates specified in note 11.2 to these financial statements. The depreciation charge for the year is calculated after taking into account residual value, if any. The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at each balance sheet date. Depreciation on additions is charged for the whole month if the assets are purchased before 15th day of the month while no depreciation is charged in the month in which assets are disposed off.

Maintenance and normal repairs are charged to profit and loss account as and when incurred. Subsequent costs are included in the assets' carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably.

Gain and loss on disposal of fixed assets is taken to the profit and loss account.

Intangible

Intangible assets having a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Such intangible assets are amortised using the straight-line method over their estimated useful lives. The useful lives and amortisation method are reviewed and adjusted, if appropriate at each balance sheet date. Intangible assets having an indefinite useful life are stated at acquisition cost, less impairment loss, if any.

Amortisation is charged to the profit and loss account applying the straight-line method using the rates specified in note 11.3 to these financial statements.

12/11/2014

5.6 Non-current assets held for sale

The Bank classifies a non-current asset (or disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use.

A non-current asset (or disposal group) held for sale is carried at the lower of its carrying amount and the fair value less costs to sell. Impairment losses are recognised through the profit and loss account for any initial or subsequent write down of the non-current asset (or disposal group) to fair value less costs to sell. Subsequent gains in fair value less costs to sell are recognised to the extent they do not exceed the cumulative impairment losses previously recorded. A non-current asset is not depreciated while classified as held for sale or while part of a disposal group classified as held for sale.

5.7 Impairment

The carrying amount of assets are reviewed at each balance sheet date for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. If such indication exists, and where the carrying value exceeds the estimated recoverable amount, assets are written down to their recoverable amount. The resulting impairment loss is taken to the profit and loss account.

5.8 Taxation

Income tax expense comprises of current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items which are directly recognised in equity or below equity / other comprehensive income, in such cases, the relating income tax is also directly recognised in equity or below equity / other comprehensive income.

Current

Current tax is the expected tax payable on taxable income for the year determined using tax rate enacted or substantively enacted at the statement of financial position date. The charge for current tax also includes adjustments, where considered necessary relating to prior years, which arises from assessments / developments made during the year.

Deferred

Deferred tax is recognised using balance sheet liability method on all material temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for taxation purposes. Deferred tax is calculated at the rates that are expected to apply to the period when the differences are expected to reverse, based on tax rates that have been enacted or substantively enacted at the statement of financial position date.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the assets can be utilised.

The carrying amount of deferred tax asset is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

The Bank also recognises a deferred tax asset / liability on the deficit / surplus on revaluation of securities, which is adjusted against the related surplus / deficit in accordance with the requirements of the International Accounting Standard 12 - Income Taxes.

Leftover

5.9 Staff retirement benefits

Defined benefit plan

The Bank operates an approved funded gratuity scheme for all its permanent employees whose period of service with the Bank is five years or more. Expenses relating to the scheme are recognised and contributions to the fund are made based on actuarial recommendations.

Contributions to the fund are made on the basis of actuarial recommendation. Liability in respect of this benefit is recognised based on actuarial valuation carried out using Projected Unit Cost method. All actuarial gains and losses are recognized in the Statement of Financial Position immediately, with a charge or credit to Other Comprehensive Income in the periods in which they occur.

Amounts arising as a result of remeasurements are recognised in the Statement of Financial Position immediately, with a charge or credit to Other Comprehensive Income in the periods in which they occur.

Gratuity is payable to staff on completion of the prescribed qualifying period of service under the plan.

Defined contribution plan

The Bank operates a recognised provident fund scheme for all its permanent employees to which equal monthly contributions are made both by the Bank and employees at the rate of 10 percent of basic salary. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

5.10 Share based payments

The Bank offers two types of share based incentive plans which are Stock Award and Stock Option programmes. Under these plans, the share option of the holding company are granted by the holding company to high performing employees of the Bank. Pursuant to a separate agreement the Bank makes a cash settlement to Citigroup Inc. for the value of the share-based incentive awards delivered to the Bank's employees under these plans.

The Bank applies equity-settled accounting for its share based incentive plans, with separate accounting for its associated obligations to make payments to Citigroup Inc.

Fair value of the shares awarded under the stock award programme, on the grant date and on each measurement date, is determined with reference to the price quoted on the New York Stock Exchange.

5.11 Borrowings / deposits and their cost

- (a) Borrowings / deposits are recorded at the proceeds received.
- (b) Borrowing / deposit costs are recognised as an expense in the period in which these are incurred using the effective mark-up / interest rate method to the extent that they are not directly attributable to the acquisition of or construction of qualifying assets. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (one that takes a substantial period of time to get ready for use or sale) are capitalised as part of the cost of that asset.

5.12 Provisions

Provision for guarantee claims and other off balance sheet obligations is recognised when intimated and reasonable certainty exists for the Bank to settle the obligation. Expected recoveries are recognised by debiting the customer's account. Charge to the profit and loss account is stated net-of expected recoveries.

(Signature)

Other provisions are recognised when the Bank has a legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

5.13 Revenue recognition

- Mark-up / return / interest on advances and investments is recognised on a time proportion basis, taking into account effective yield on the instrument, except in case of non-performing advances where income is recognised on receipt basis in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan.
- Fee and commission are recognised as and when services are performed.
- Gains and losses on sale of investments and operating fixed assets are recognised in the profit and loss account when the risks and rewards of ownership are transferred.
- Dividend income is recognised when the Bank's right to receive the dividend has been established.

5.14 Foreign currencies

(a) Functional and presentational currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Bank operates. The financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentational currency.

(b) Foreign currency transactions

Foreign currency transactions are translated into Pakistani Rupees at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pakistani Rupees at exchange rates prevailing at the reporting date. Foreign bills purchased and forward foreign exchange contracts are valued at the forward rates applicable to their respective maturities.

(c) Translation gains and losses

Translation gains and losses are included in the profit and loss account.

(d) Contingencies and commitments

Commitments for outstanding forward foreign exchange contracts are disclosed at contracted rates with the fair value adjustment disclosed in other assets/ other liabilities as case may be. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Pakistani rupees terms at the exchange rate prevailing at the reporting date.

5.15 Financial instruments

(a) Financial assets and financial liabilities

The Bank initially recognises financial assets and liabilities on the date at which they originate except for investments which are recognised on the trade date.

Financial assets are derecognised when the contractual rights to the cash flows from the asset expire or are transferred. The Bank also enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or part of the risks and rewards of the transferred assets. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognised from the statement of financial position.

(4/2/2014)

Financial liabilities are derecognised when the contractual obligations expire, or are discharged or cancelled.

(b) Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at fair value using appropriate valuation techniques. All derivative financial instruments having positive fair value are carried as assets and instruments having negative fair value are carried as liabilities. Any change in the fair value of derivative financial instruments is taken to profit and loss account.

(c) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the financial statements only when there is a legally enforceable right to offset the recognised amounts and the Bank intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Income and expense items of such assets and liabilities are also off-set and the net amount is reported in the financial statements.

5.16 Assets acquired in satisfaction of claims

The Bank occasionally acquires vehicles and other assets in settlement of certain advances. These are stated at the lower of related advances and the current fair value of such assets. Gains or losses on disposal and unrealised losses on revaluation are recognised in income currently. In case certain repossessed assets cannot be disposed of within pre-determined number of days, impairment loss is recognised by the Bank against such assets.

5.17 Acceptances

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. The Bank expects most acceptances to be simultaneously settled with the reimbursement from the customers. Acceptances are accounted for as off balance sheet transactions and are disclosed as contingent liabilities and commitments.

5.18 Segment reporting

A segment is a distinguishable component of the Bank that is engaged either in providing product or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risk and rewards that are different from those of the other segments. The operations of the Bank are based in Pakistan, therefore geographical segment is not relevant.

5.18.1 Business segments

Trading and sales

It includes fixed income, foreign exchange, funding, own position securities, lending, borrowing and derivatives.

Corporate banking

Corporate banking includes syndicated financing and services provided in connection with merger and acquisitions, project finance, export finance, trade finance, short-term and long-term lending, bill discounting and negotiation, letter of credit, acceptances, guarantees and deposits.

22 DERIVATIVE INSTRUMENTS

A derivative financial instrument is a contract the value of which is determined by reference to one or more underlying financial instruments, reference rates or indices. Forward contracts, options and swaps are the most common types of derivatives. Also included in derivatives are structured financial products that have one or more characteristics of forwards, futures, swaps and options.

The Bank enters into derivatives contracts for market making and for creating effective hedges to enable customers and the Bank to transfer, modify or reduce their interest rate and foreign exchange risks. The Bank as an Authorised Derivative Dealer (ADD) is an active participant in the derivative market of Pakistan.

Overall responsibility for derivatives trading activity lies with the treasury. Existence of an independent market risk function together with the Asset Liability Committee (ALCO) assists in the identification and quantification of risks on derivatives. This involves:

- co-ordinating approvals of market risk limits;
- formulation of policies and procedures with respect to market risk; and
- monitoring of market risk and credit risk exposure.

Treasury operations records transactions in the books, while product control reports the price and liquidity information independently.

The risk embedded in derivatives transactions are discussed in note 41.

22.3 The fair value of derivative financial instruments has been determined using valuation techniques with significant inputs such as forecasted market interest rates and foreign exchange rates. The determination of the fair value of these instruments is most sensitive to these key assumptions. Any significant change in these key assumptions may have an effect on the fair value of these derivative financial instruments.

Settlement loss

| | |
|---------------|---------------|
| 26,713 | 22,653 |
| 16,466 | 10,769 |
| 4,729 | - |
| <u>47,908</u> | <u>33,422</u> |

33.6 The plan assets and defined benefit obligations are based in Pakistan.

33.7 Principal actuarial assumptions

Discount rate

Expected rate of salary increase

Estimated service length of the employees

| | 2015 | 2014 |
|---|------------|-------------|
| Discount rate | 9.75% p.a. | 11.75% p.a. |
| Expected rate of salary increase | 9.25% p.a. | 11% p.a. |
| Estimated service length of the employees | 9 years | 9 years |

33.8 Assumptions regarding future mortality are set based on actuarial advice in accordance with published statistics and experience in Pakistan. The rates assumed are based on the adjusted SLIC 2001 - 2005 mortality tables with one year age set back.

V. Anwar

33.9 The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

| | Impact on defined benefit obligation - increase / (decrease) | | |
|--------------------|--|---|---|
| | Change in assumption | Increase in assumption | Decrease in assumption |
| | (Rupees in '000) | | |
| Discount rate | 1.0% | (22,583) | 26,339 |
| Salary growth rate | 1.0% | 27,355 | (23,798) |
| Withdrawal rate | 10.0% | 122 | (126) |
| | | Increase by 1 year in assumption | Decrease by 1 year in assumption |
| Mortality Rate | 1 year | 29 | (28) |

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the gratuity liability recognised within the Statement of Financial Position.

33.10 The weighted average duration of the defined benefit obligation is 11 years.

33.11 Expected maturity analysis of undiscounted defined benefit obligation for the gratuity scheme is as follows:

| At December 31, 2015 | Less than a year | Between 1-2 years | Between 2-5 years | Over 5 years | Total |
|----------------------|------------------|-------------------|-------------------|--------------|---------|
| | (Rupees in '000) | | | | |
| Gratuity | 5,442 | 5,432 | 45,744 | 773,721 | 830,339 |

33.12 Historical information

| | 2015 | 2014 | 2013 | 2012 | 2011 |
|------------------------------------|------------------|-----------|-----------|-----------|-----------|
| | (Rupees in '000) | | | | |
| Defined benefit obligation | (223,308) | (238,954) | (215,011) | (369,450) | (314,062) |
| Fair value of plan assets | 79,250 | 87,380 | 129,162 | 55,526 | 97,375 |
| Deficit | (144,058) | (151,574) | (85,849) | (313,924) | (216,687) |
| Remeasurements of plan liabilities | (5,855) | (45,426) | 31,198 | (36,317) | (89,215) |
| Remeasurements of plan assets | (4,047) | (6,747) | 286 | 1,101 | 2,399 |

33.13 Funding levels are monitored on an annual basis and are based on actuarial recommendations. Contribution for the next year works out to Rs. 38.504 million (2014: Rs 43.179 million) as per the actuarial valuation report of the Bank as of December 31, 2015.

ICM 5TH

33.14 Through its defined benefit gratuity plan, the Fund is exposed to a number of risks, the most significant of which are detailed below:

- Asset volatility** The plan liabilities are calculated using a discount rate set with reference to corporate bond yields; if plan assets underperform this yield, this will create a deficit. The Fund believes that due to long-term nature of the plan liabilities and the strength of the Bank's support, current investment strategy manages this risk adequately.
- Inflation risk** The majority of the plans' benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities. However plan assets are variable rate instruments and are re-priced at regular intervals to off set inflationary impacts.
- Life expectancy / Withdrawal rate** The majority of the plans' obligations are to provide benefits on severance with the Bank on achieving retirement. Any change in life expectancy / withdrawal rate would impact plan liabilities.

33.15 The disclosure made in notes 33.1 to 33.13 are based on the information included in the actuarial valuation report of the Bank as of December 31, 2015.

34 DEFINED CONTRIBUTION PLAN

All permanent employees of the Bank are entitled to end of service benefits through a recognised provident fund, whereby the Bank and all permanent employees are required to make monthly contributions to the scheme at 10 percent of basic salary.

During the year, the Bank contributed Rs 23.705 million (2014: Rs 23.190 million) in respect of the defined contribution plan.

35 SHARE-BASED INCENTIVE PLANS

The Bank offers a number of share based incentive plans to attract, retain and motivate employees, to compensate them for their contributions to the Bank, and to encourage employee stock ownership.

35.1 Stock option programme

Information with respect to stock option activity under the stock option programme is as follows:

| | 2015 | | 2014 | |
|--|----------------------------------|--|----------------------------------|---|
| | Options (Number of shares) | Weighted average share price \$ USD | Options (Number of shares) | Weighted average share price \$ USD |
| Outstanding at the beginning of the year | 2,865 | 40.8 | 2,940 | 40.80 |
| Granted | - | - | - | - |
| Forfeited | - | - | - | - |
| Exercised | (976) | 40.8 | (75) | 40.80 |
| Transfers | - | - | - | - |
| Expired | (1,889) | 40.8 | - | - |
| Outstanding at the end of the year | - | - | 2,865 | 40.80 |
| Exercisable at the end of year | - | - | 2,865 | 40.80 |

35.2 The following table summarises the information about stock options outstanding under the programme at December 31, 2015:

| Range of exercise prices | Shares Outstanding | Options outstanding | | Options exercisable | |
|--------------------------|-----------------------|---|---|-----------------------|---|
| | | Weighted average contractual life remaining | Weighted average exercise price \$ USD | Number Exercisable | Weighted average exercise price \$ USD |
| < \$50.00 | - | - | - | - | - |
| \$50.00 - \$399.99 | - | - | - | - | - |
| \$400.00 - \$449.99 | - | - | - | - | - |
| \$450.00 and above | - | - | - | - | - |
| | - | - | - | - | - |

The following table summarises the information about stock options outstanding under the programme at December 31, 2014:

| Range of exercise prices | Shares Outstanding | Options outstanding | | Options exercisable | |
|--------------------------|-----------------------|---|---|-----------------------|---|
| | | Weighted average contractual life remaining | Weighted average exercise price \$ USD | Number Exercisable | Weighted average exercise price \$ USD |
| < \$50.00 | 2,865 | 0.83 | 40.8 | 2,865 | 40.8 |
| \$50.00 - \$399.99 | - | - | - | - | - |
| \$400.00 - \$449.99 | - | - | - | - | - |
| \$450.00 and above | - | - | - | - | - |
| | <u>2,865</u> | <u>0.83</u> | <u>40.80</u> | <u>2,865</u> | <u>40.8</u> |

35.3 Stock award programme

The Bank offers a stock award programme, under which shares are awarded in the form of restricted or deferred stock to certain employees. During the applicable vesting period, the shares awarded cannot be sold or transferred by the employees, and the award is subject to cancellation if the employment is terminated. Stock awards granted generally vest over a four year period.

Information with respect to unvested stock awards is as follows:

| | 2015 | | 2014 | |
|---------------------------------------|--------------|--|--------------|---|
| | Shares | Weighted average share price \$ USD | Shares | Weighted average share price \$ USD |
| Unvested at the beginning of the year | 4,092 | 44.5 | 6,083 | 40.7 |
| Awards | 2,000 | 50.1 | 1,097 | 49.7 |
| Cancellations | - | - | - | - |
| Deletions | - | - | - | - |
| Vestings | (1,994) | 45.2 | (3,088) | 40.3 |
| Unvested at the end of the year | <u>4,098</u> | <u>46.9</u> | <u>4,092</u> | <u>44.5</u> |

- 35.4 Net charge/ (reversal) of Rs. 8.464 million (2014: Rs. (5.286) million) was recognised in equity arising mainly due to fair value adjustment as required by IFRS 2 - Share Based Payment. As of December 31, 2015 recognised liability for outstanding share based incentive plans was Rs. 159.593 million (2014: Rs. 147.196 million). Fair value of shares has been determined on the basis of market value of shares of Citigroup Inc. as at December 31, 2015. i.e. \$ USD 51.75 (2014: \$ USD 54.11) per share.

36 COMPENSATION OF CHIEF EXECUTIVE AND EXECUTIVES

| | Citi Country Officer | | Executives | |
|---|------------------------------|---------------|----------------|----------------|
| | 2015 | 2014 | 2015 | 2014 |

| Number of persons | <u>1</u> | <u>1</u> | <u>123</u> | <u>150</u> |

The Bank also provides free use of furnished accommodation to the Citi Country Officer (CCO) and bank maintained cars to the CCO and certain Executives.

37 FAIR VALUE OF FINANCIAL INSTRUMENTS

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in principal or, in its absence, the most advantageous market to which the Bank has access at that date.

K Pms 74

37.1 The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

On balance sheet financial instruments

| Note | 2015 | | | | | | Fair Value | | | |
|--|--------------------|------------------|-----------------------|------------------------|-----------------------------|------------------|------------|------------|---------|------------|

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

37.2 The Bank has not disclosed the fair values for these financial assets and liabilities, as these are short term or reprice over short term. Therefore their carrying amounts are reasonable approximation of fair value.

Khan S G

- 37.3 The fair value of traded investments other than those classified as held to maturity is based on quoted market price. Fair value of unquoted equity investments is determined on the basis of break-up value of these investments as per the latest available audited financial statements.

Fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 5.4 to these financial statements.

The repricing profile, effective rates and maturity are stated in note 41.2.3 to these financial statements.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short term in nature or in the case of customer loans and deposits are frequently repriced.

38 SEGMENT DETAILS WITH RESPECT TO BUSINESS ACTIVITIES

The Chief Operating Decision Maker (CODM) is the Managing Director and Citi Country Officer of the Bank. The segment analysis with respect to business activity presented to the CODM is as follows:

| | 2015 | | |
|--|------------------|-------------------|------------|
| | Trading & Sales | Corporate Banking | Total |
| | (Rupees in '000) | | |
| Total Income | 4,537,194 | 5,287,323 | 9,824,517 |
| Total Expenses | 2,011,039 | 4,204,254 | 6,215,293 |
| Net Income / (loss) | 2,526,155 | 1,083,069 | 3,609,224 |
| Segment Assets (Gross) | 63,344,640 | 28,379,688 | 91,724,328 |

40 CAPITAL ASSESSMENT AND ADEQUACY BASEL SPECIFIC

40.1 The State Bank of Pakistan (SBP) through BPRD circular No. 6 dated 15 August 2013 has issued Basel III capital instruction for Bank's / DFI's. The reviews to the previously applicable capital adequacy regulation pertain to components of eligible capital and related disclosures. Further SBP has introduced new guidelines with respect to disclosure of capital adequacy related information in the financial statements of banks vide its communication dated November 5, 2014. The SBP has specified a transitional period till 2018 for implementation of Basel III. The disclosures below have been prepared on the basis of these new guidelines.

Capital Management

The objective of managing capital is to safeguard the Bank's ability to continue as a going concern, so that it could continue to provide adequate returns to investors by pricing products and services commensurately with the level of risk. It is the policy of the Bank to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

KRM 5/14

Statutory minimum capital requirement and management of capital

The State Bank of Pakistan through its BSD Circular No. 07 dated April 15, 2009 has prescribed the minimum paid-up capital (net of losses) for Banks / Development Finance Institutions to be raised to Rs.10 billion by the year ending December 31, 2013. The raise is to be achieved in a phased manner requiring Rs. 10 billion capital (net of losses) from the end of the financial year 2013 onwards. However, branches of foreign banks operating in Pakistan whose head office holds paid-up capital (free of losses) of at least US\$ 300 million, have a CAR of 8% or minimum prescribed by the home regulator and have prescribed number of branches, are allowed to maintain lower amount with prior approval of SBP. In this regard the Bank is maintaining higher capital to support business requirements.

The Head office capital account of the Bank for the year ended December 31, 2015 stands at Rs 6.813 billion and is in compliance with the SBP requirement for the said year. In addition the banks are also required to maintain a minimum Capital Adequacy Ratio (CAR) of 10% of the risk weighted exposures of the Bank. The Bank's CAR as at December 31, 2015 was 31.62% of its risk weighted exposure.

40.2 Capital Structure

Under Basel III framework, Bank's regulatory capital has been analysed into two tiers as follows:

- Tier 1 capital (going concern capital) which is sub divided into:
 - a) Common Equity Tier 1 (CET1), which includes fully paid up capital, reserve for bonus issue, general reserves and un-appropriated profits (net of losses), etc after deductions for investments in the equity of subsidiary companies engaged in banking and financial activities (to the extent of 50%), reciprocal crossholdings and deficit on revaluation of available for sale investments and deduction for book value of intangibles.
 - b) Additional Tier 1 capital (AT1), which includes instruments issued by the Bank which meet the specified criteria after deduction of remaining 50% investment in the equity of subsidiary companies engaged in banking and financial activities and other specified deductions.
- Tier II capital, which includes general provisions for loan losses (upto a maximum of 1.25% of credit risk weighted assets), reserves on revaluation of fixed assets and available for sale investments after deduction of deficit on available for sale investments.

Banking operations are categorised in either the trading book or the banking book and risk weighted assets are determined according to the specified requirements that seek to reflect the varying levels of risk attached to assets and off balance sheet exposures.

The required capital adequacy ratio is achieved by the Bank through:

- a) Adequate level of paid up capital;
- b) Adequate risk profile of asset mix;
- c) Ensuring better recovery management; and
- d) Maintaining acceptable profit margins.

40.3 Capital adequacy ratio

The capital to risk weighted assets ratio, calculated in accordance with the SBP guidelines on capital adequacy, under Basel III and Pre-Basel III treatment using Standardised Approach for Credit and Market Risk and Basic Indicator Approach for Operational Risk is presented below:

(Annex 24)

40.4 Capital Adequacy Ratio (CAR) disclosure template:

41 RISK MANAGEMENT

The Head office capital account of the Bank for the year ended December 31, 2015 stands at Rs 6.813 billion and is in compliance with the SBP requirement for the said year. In addition the banks are also required to maintain a minimum Capital Adequacy Ratio (CAR) of 10% of the risk weighted exposures of the Bank. The Bank's CAR as at December 31, 2015 was 31.62% of its risk weighted exposure.

- These standards are governed by specific policies which are defined and documented.
- Risks are measured using defined methodologies.
- Limits for credit, market and liquidity risks are approved by Risk Management, which is "independent" of the business areas.
- Dedicated risk management and control functions are in place for credit (Corporate and Consumer), market, liquidity and operational risks.

Additionally, Risk Management maintains oversight of the regulatory, economic, reputational and legal risks associated with the above-mentioned risk areas.

41.1 Credit risk

This represents the potential for financial loss resulting from the failure of a borrower or counterparty to honour its financial or contractual obligations arising out of activities which include lending, sales and trading, derivatives, securities transaction and settlement.

41.1.1 Corporate credit risk

This risk is managed through the following:

- Single centre of control for each credit relationship that coordinates credit activities with the borrower.
- Documented target market and portfolio concentration limits that establish the credit appetite and minimum acceptable standards (both borrower and industry specific), provide portfolio diversification and maintain risk / capital alignment.
- Consistent standards for credit origination, documentation and remedial management.
- Maintenance of accurate and consistent borrower risk ratings through use of statistical models (periodically validated) or approved scoring methodologies after taking into consideration the available credit risk mitigates.
- Periodic stress testing of the credit portfolio based on emerging or expected risk events.

41.1.2 Consumer credit risk

Independent credit risk management is responsible for establishing the Consumer credit policy, approving specific policies and procedures, providing ongoing assessment of Consumer portfolio risk and approving new products. The Consumer Credit Cycle management entails the following:

- Product approval.
- Consistent and prudent underwriting standards.
- Robust account management policies to manage the portfolio.
- Efficient collection and recovery unit to ensure acceptable loss norms.
- Reliable and accurate Management Information System to support informed decision making.
- Effective anti-fraud controls to minimize fraud losses.

41.1.3 Credit Risk - General Disclosures

The Bank has adopted standardised approach for calculation of capital charge against credit risk in line with SBP requirement.

K. Anand

41.1.4 Credit Risk: Disclosures for portfolio subject to the Standardised Approach

Under standardized approach the capital requirement is based on the credit rating assigned to the counterparties by the External Credit Assessment Institutions (ECAIs) duly recognized by SBP for capital adequacy purposes. In this connection, Bank utilizes the credit ratings assigned by ECAIs and has recognized agencies such as PACRA (Pakistan Credit Rating Agency), JCR-VIS (Japan Credit Rating Company - Vital Information System), Moody's and Standard & Poors which are also recognized by the SBP.

Types of exposures and ECAI's used:

| Exposures | JCR-VIS | PACRA | Standard & Poors | Moody's |
|-------------------------------|---------|-------|------------------|---------|
| Corporate | ✓ | ✓ | N/A | N/A |
| Banks | ✓ | ✓ | ✓ | ✓ |
| SME's | ✓ | ✓ | N/A | N/A |
| Public Sector Entities (PSEs) | ✓ | ✓ | N/A | N/A |

Use of ECAI Ratings

The Bank prefers solicited ratings over unsolicited ratings at all times, owing to the greater degree of accuracy (in general) associated with solicited ratings as compared to unsolicited ratings. Unsolicited ratings may only be used in cases where a solicited rating is not available.

Mapping to SBP Rating Grades

The selected final ratings (after application of the principles stated above) for all exposures need to be translated to the standard rating grades given by the SBP. In this regard, the mapping tables to be used for converting ECAI ratings to SBP rating grades are given below:

Long – Term Rating Grades Mapping

| SBP Rating grade | Fitch | Moody's | S & P | PACRA | JCR-VIS | ECA Scores |
|------------------|----------------|----------------|----------------|----------------|---------------------|------------|
| 1 | AAA | Aaa | AAA | AAA | AAA | 0 |

CRM= Credit Risk Mitigation

41.1.6 Credit Risk: Disclosures with respect to Credit Risk Mitigation for Standardised Approach

The Bank has adopted the Comprehensive Approach of Credit Risk Mitigation for the Banking Book. In instances where the Bank's exposure on an obligor is secured by collateral that conforms to the eligibility criteria under the Comprehensive Approach of CRM, then the Bank reduces its exposure under that particular transaction by taking into account the risk mitigating effect of the collateral for the calculation of capital requirement i.e. risk weight of the collateral instrument securing the exposure is substituted for the risk weight of the counter party.

The Bank accepts cash, lien on deposits, government securities under the Comprehensive Approach of Credit Risk Mitigation. The Bank has in place detailed guidelines with respect to valuation and management of various collateral types. In order to obtain the credit risk mitigation benefit, the Bank uses realizable value of eligible collaterals to the extent of outstanding exposure.

Counterparty ratings are obtained through the two local SBP authorized External Credit Rating Agencies; JCR VIS and PACRA and other international sources such as Standard and Poor's and Moody's. Credit risk assessment and the continuous monitoring of counterparty and portfolio credit exposures is carried out by the Credit Risk Management function.

The wholesale portfolio, which includes corporate and commercial are ideally collateralized by cash equivalents, fixed and current assets including property plant and equipment and land. Loans to individuals are typically secured by autos for car loans and private or income producing real estate is secured by a mortgage over the relevant property.

41.1.7 Credit concentration risk

Credit concentration risk arises mainly due to concentration of exposures under various categories viz. industry, geography, and single/group borrower exposures. Within credit portfolio, as a prudential measure aimed at better risk management and avoidance of concentration of risks, the SBP has prescribed regulatory limits on banks' maximum exposure to single borrowers and group borrowers.

12/20/14

41.1.8 Leverage ratio

The State Bank of Pakistan (SBP) through its BPRD Circular No. 06 of 2013 has issued instructions regarding implementation of parallel run of leverage ratio reporting and its components from December 31, 2013 to December 31, 2017. During this period the final calibration, and any further adjustments to the definition, will be completed with a view to set the leverage ratio as a separate capital standard on December 31, 2018. Banks are required to disclose the leverage ratio from December 31, 2015:

The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator), with this ratio expressed as a percentage:

$$\text{Leverage Ratio} = \frac{\text{Tier 1 capital (after related deductions)}}{\text{Total Exposure}}$$

As at December 31, 2015 the Bank's Leverage ratio stood at 8.42% which is well above the minimum requirement of 3.0%

*Contingent liabilities for the purpose of this note includes direct credit substitutes, transaction related contingent liabilities and trade related contingent liabilities.

Total assets employed include intra group items of Rs. 5,481.015 million (2014: Rs.129.698 million).

41.2 Market risk

Market risk is the risk of losses arising from fluctuation in the market value of trading and non-trading portfolios. The primary sources of market risk are fluctuation in interest rates and foreign exchange rates.

Market risk is measured in accordance with the Bank's established standards, under which the business is required to establish, with approval from independent market risk management, a market risk limit framework, including risk measures, limits and controls, that clearly defines approved risk profiles and is within the parameters of the Bank's overall risk appetite. In all cases, businesses are ultimately responsible for the market risk they take and for remaining within their defined limits.

The Bank's principal measure of earnings risk to earnings from non-trading portfolios due to interest rate changes is Interest Rate Exposure (IRE). This measures the change in expected Net Interest Revenue from changes in market rates of interest. Market risk in trading portfolios is measured through a complementary set of tools, including factor sensitivities, value-at-risk and stress testing.

The Bank uses the Standardized Approach to calculate capital charge for market risk as per the current regulatory framework under Basel II. This approach covers the Bank's trading portfolios, comprising off-balance sheet transactions including derivatives and securities classified under the trading portfolio.

← m s r d

41.2.1 Foreign exchange risk

Foreign Exchange Risk is the risk of loss resulting from adverse movement in exchange rates. The Bank's principal exchange rate related contracts are forward foreign exchange conducts, cross currency swaps and options. Non traded foreign exchange risk arises through the provision of banking products and services in foreign currency. The objectives of foreign exchange risk management function is to minimise the adverse impact of foreign exchange assets and liabilities mismatch and maximise the earnings observing the limits set by the Bank. Exchange position arising from trading activities are monitored through foreign exchange limits on aggregate and individual basis. Hedging strategies and mark to market valuations are used to mitigate exchange risk resulting from open positions. Overall exchange position risk is maintained in accordance with the regulatory requirements prescribed by the State Bank of Pakistan.

The analysis below represents the concentration of the Bank's foreign currency risk for on and off balance sheet financial instruments.

* Includes head office capital account, unremitted profit and deficit on revaluation of assets in Pakistan Rupees.

41.2.2 Equity position risk

The risk arising from taking long or short positions, in the trading book, in the equities and all instruments that exhibit market behaviour similar to equities. The Bank does not maintain equity trading portfolio.

41.2.3 Mismatch of Interest Rate Sensitive Assets and Liabilities

Yield risk is the risk of decline in earnings due to adverse movement of the yield curve.

Interest rate risk is the risk that value of the financial instrument will fluctuate due to changes in the market interest rates. Sensitivity to the interest rate risk arises from mismatches of financial assets and liabilities and off-balance sheet financial instruments that mature or reprice in a given period. The Bank manages these mismatches through risk management strategies where significant changes in gap positions can be adjusted.

10/11/14

41.2.4 Reconciliation of assets and liabilities exposed to Yield / Interest Rate risk with total assets and liabilities

| | 2015 | 2014 |
|---|-------------------|-------------------|
| | (Rupees in '000) | |
| Total financial assets as per note 41.2.3 | 86,446,502 | 77,933,784 |
| Add: Non financial assets | | |
| Operating fixed assets | 458,331 | 355,154 |
| Deferred tax asset | 201,088 | 233,885 |
| Other assets | 1,537,564 | 2,731,149 |
| Total assets as per statement of financial position | 88,643,485 | 81,253,972 |
| Total liabilities as per note 41.2.3 | 77,849,300 | 70,665,885 |
| Add: Non financial liabilities | | |
| Other liabilities | 27,617 | 54,058 |
| Total liabilities as per statement of financial position | 77,876,917 | 70,719,943 |

41.3 Liquidity Risk

Liquidity risk is the potential for loss to the Bank arising from either its inability to meet its obligations or to fund increases in assets as they fall due without incurring any unacceptable losses.

A uniform liquidity risk management policy exists for the Bank, under which there is a single set of standards for the measurement of liquidity risk. Management of liquidity is performed on a daily basis by the Treasurer and is monitored by independent risk management with oversight by Country Asset and Liability Committee (ALCO). The objective of ALCO is to monitor and review the overall liquidity and balance sheet positions of the bank.

An annual funding and liquidity plan is approved by ALCO and independent risk management team. The plan includes analysis of the balance sheet, as well as the economic and business conditions impacting the liquidity of the bank. As part of the plan, liquidity limits, ratios and triggers are established and approved.

41.3.1 Maturities of Assets and Liabilities - Based on contractual maturity of the assets and liabilities of the Bank

41.3.3 The Bank has assets and liabilities that have contractual and non-contractual maturities. The Bank conducts statistical studies to assess the expected maturity of assets and liabilities with non-contractual maturities. The Bank uses this methodology on such assets and liabilities to determine the core portion which is stable and constantly appears on the balance sheet and the non-core portion that is relatively volatile. The behavioral maturities of demand deposits, bills payable and running finance is determined on such basis based on the past three years data. Consumer assets categorised as held for sale has been classified in short term buckets. The maturity buckets have been adjusted accordingly where the non-contractual assets and liabilities are highly probable to deviate from its maturities worked out based on statistical models.

41.4 Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or systems, or from external events. Operational risk is inherent in the Bank's activities and as with other risk types is managed through an overall framework with checks and balances that include recognised ownership of the risk by the businesses, independent risk management oversight and independent review by corporate audit. The operational risk policy codifies the core governing principles for operational risk management and provides a framework for operational risk. In accordance with the policy, each business area is responsible to identify its key operational risks as well as the controls established to mitigate those risks and to ensure compliance with laws, regulations, regulatory administrative actions and the Bank's policies.

The operational risk policy and its requirements facilitate the effective communication of operational risks both within and across businesses. Information about the businesses' operational risk, historical losses and the control environment is reported by each major business segment and functional area and summarised for senior management.

The Bank has created a strategic framework for information security technology initiatives and has implemented enhancements to various Information Security programs across its business covering Risk Management, Security Incident Response and Electronic Transportable Media. The Bank also implemented tools to increase the effectiveness of its data protection and entitlement management programs.

The business continuity program provides risk analysis and robust support for business resiliency. The office of Business Continuity, with the support of the senior management continued to coordinate preparedness and mitigate business continuity risks by reviewing and testing recovery procedures.

ICMS 21

The position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date. The position for off-balance sheet financial instruments is based on settlement dates.
