Efforts into profits

Pakistan Oilfields Limited

Annual Report 2020

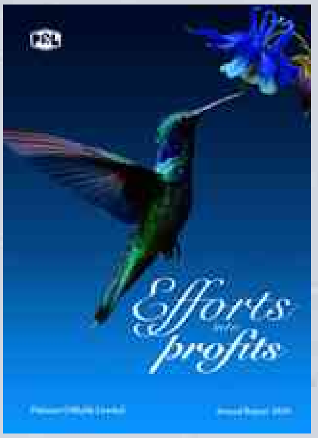
OVERVIEW

Pakistan Oilfields Limited is a leading oil and gas exploration and production Company listed on Pakistan Stock Exchange (PSX). The Company's prime focus is to deliver performance through excellence in the field of exploration, drilling and production of crude oil and gas. Pakistan Oilfields Limited (POL), a subsidiary of The Attock Oil Company Limited (AOC), was incorporated on November 25, 1950.

AOC was founded in 1913 and made its first oil discovery in 1915 at Khaur, District Attock. AOC has, therefore, pioneered exploration and production of oil and gas in this region nearly a century ago. In 1978, POL took over the exploration and production business of AOC. Since then, POL has been investing independently and in joint venture with various exploration and production companies for the search of oil and gas in the country.

In addition to exploration and production of oil and gas, POL plants also manufacture LPG, solvent oil and sulphur. POL markets LPG under its own brand named POLGAS as well as through its subsidiary CAPGAS (Private) Limited. POL also operates a network of pipelines for transportation of its own as well as other companies' crude oil to Attock Refinery Limited. In 2005, the Company acquired a 25% share in National Refinery Limited, which is the only refining complex in the country producing fuel products as well as lube base oils.

COVER STORY



This year's title depicts a humming bird making great effort to extract nectar for its being. Humming birds are the smallest migratory birds who travel thousands of miles to explore and survive. Pakistan Oilfields as an E&P Company is in business of exploring oil and gas reserves. These efforts turn into profits when discoveries are made and fruit of labour benefits the Company and the stakeholders.

POLICY FOR PROTECTION AGAINST HARASSMENT

Policy

Pakistan Oilfields Limited (POL) is committed to creating a working environment where people can achieve their full potential. The Company's policy on protection against harassment is designed to provide:

an environment where it is clear that harassment is unacceptable, thereby reducing the chance that harassment will occur in the first instance; and a mechanism to resolve complaints where it is felt that harassment has taken place.

Disciplinary action will be taken to deal with actions or behavior, intentional or unintentional, which results in a breach of this policy.

Disciplinary action may also be taken if allegations of harassment are found to be made with a malicious intent. Harassment is not necessarily confined to the behavior of seniors towards juniors;it can take place between colleagues at the same level or involve staff behaving in appropriately towards more senior staff.

It should be noted that harassment can also lead to civil and criminal claims beyond the Company's own disciplinary proceedings.

Explanation

Definition of harassment

For the purpose of this policy, harassment is defined as any unwelcome conduct or comments which: violates an individual's dignity, and / or creates an intimidating, hostile, degrading,humiliating or offensive environment.

Responsibility of all employees

All employees can help to:

- prevent harassment by being sensitive to the reactions and needs of others, and ensuring that their conduct does not cause offence;
- discourage harassment by others through making it clear that such conduct is unacceptable, and supporting colleagues and peers who are taking steps to stop the harassment.

The examples given below, which include unacceptable physical and verbal conduct,are not exhaustive.

Gender-related harassment

Examples include displaying unacceptable behavior to a man or a woman due to their gender through disparaging gender- related remarks and threatening behavior.

Stalking

This can be physical or psychological. Examples include leaving repeated or alarming messages on voice mail or e-mail, following people home, or approaching others to ask for personal information.

Employees, who have been subjected to harassment, may write directly to the chief executive for resolution of their cases.

GRIEVANCES POLICY

A grievance is defined, as a condition of employment, which the employee feels, is unjust or inequitable. It is the policy of the Company to provide all employees with an opportunity for full consideration of their cases in a situation where the grievance procedure could be applied. A grievance may be presented orally or in writing.

Procedure:

1. In case of any grievance relating to employment, the employee should raise the matter initially with his / her immediate supervisor within a maximum of five (5) working days of the event prompting the grievance. In no case, should the grievance be raised after the expiry of thirty (30) days of the event.
2. Having inquired into an employee's grievance, the immediate supervisor should discuss the issue and make an effort to resolve the matter at the initial level.
3. If the grievance is not or cannot be settled by the immediate supervisor, the employee or the immediate supervisor should, within three (3) working days, present the case to the departmental head. The departmental head should discuss the matter and make all efforts to resolve the issue. A written report is required to be filed with the P&A department as to whether the grievance was resolved or not and confirming the steps taken toward resolution.
4. If the grievance is not or cannot be settled by the departmental head within three (3) working days, the grievance should be presented to the Management Committee, which shall consider all relevant information and take a decision to resolve the problem or give a ruling within three (3) working days of the case being forwarded by P&A.
5. If the decision of the Management Committee is not acceptable to " the employee and any other party concerned, they may then refer the matter in writing to the Chief Executive, who shall decide whether or not to review the case. The CEO's decision shall be final and binding.
6. It should be noted that in the process of attempting to resolve any employee grievance, it is also the obligation of the employee, as a mature individual, to be receptive to suggestions and to make a serious effort to resolve the matter.
7. Employees are expected to exercise this right in a sensible and judicious manner. Misuse of this policy is strongly discouraged.

WHISTLE BLOWING POLICY

This Policy addresses the commitment of the Company to integrity and ethical behavior by helping to foster and maintain an environment where employees can act appropriately, without fear of retaliation.

To maintain these standards, the Company encourages its employees who have concerns about suspected serious misconduct or any breach or suspected breach of law or regulation that may adversely impact the Company, to come forward and express these concerns without fear of punishment or unfair treatment.

The Company conducts business based on the principles of fairness, honesty, openness, decency, integrity and respect.

It is the Company's policy to support and encourage its employees to report and disclose improper or illegal activities, and to fully investigate such reports and disclosures.

It is also the policy of the Company to address any complaints that allege acts or attempted acts of interference, reprisal, retaliation, threats, coercion or intimidation against employees who report, disclose or investigate improper or illegal activities (the "Whistleblowers") and to protect those who come forward to report such activities. Company assures that all reports will be treated strictly confidentially and promptly investigated and that reports can be made anonymously, if desired.

The internal control and operating procedures of the Company are in place to detect and to prevent or deter improper activities. However, even the best systems of controls cannot provide absolute safeguards against irregularities. The Company has the responsibility to investigate and report to appropriate parties, allegations of suspected improper activities and to take appropriate actions.

Employees and others are encouraged to use guidance provided by this policy for reporting all allegations of suspected misconduct or improper activities.

General Guidance

This policy presumes that employees will act in good faith and will not make false accusations when reporting of misconduct . An employee who knowingly or recklessly makes statements or disclosures that are not in good faith may be subject to disciplinary procedures, which may include termination. Employees who report acts of misconduct pursuant to this policy can and will continue to be held to the Company's general job performance standards and adherence to the Company's policies and procedures.

In case of reports sent through e-mail, it is recommended to mark the subject as Whistleblower' for ease of identification.

Although the whistleblower is not expected to prove the truth of an allegation, he/she needs to demonstrate to the person contacted that there are sufficient grounds for concern.

CORPORATE SOCIAL RESPONSIBILITY (CSR) POLICY

POL believes that to be successful as a company it must act responsibly and with integrity in all areas of its activities. POL is committed to its business operations being conducted in a manner that is consistent with relevant good practice in relation to social responsibility.

It is the responsibility of everyone working within the company to ensure that wherever we operate:

- We will work within the standards in our Code of Ethics to ensure that all our business practices are conducted with integrity.
- We will treat our employees fairly, complying with the Fundamental Principles and Rights at Work and providing a rewarding environment in which our employees are engaged and developed.

PRODUCTS

CRUDE OIL

An oily, flammable liquid that occurs naturally in deposits, usually beneath the surface of the earth. It consists principally of a mixture of hydrocarbons, with traces of various nitrogenous and sulphurous compounds. During the past 600 million years, incompletely decayed plant and animal remains have become buried under thick layers of rock. It is believed that petroleum consists of the remains of these organisms but it is the small microscopic plankton organism remains that are largely responsible for the relatively high organic carbon content of fine-grained sediments which are the principle source rocks for petroleum.

Little use other than as lamp fuel was made of petroleum until the development of the gasoline engine and its application to automobiles, trucks, tractors and airplanes. Today the world is heavily dependent on petroleum for motive power, lubrication, fuel, dyes, drugs and many synthetics.

NATURAL GAS

Natural mixture of gaseous hydrocarbons found issuing from the ground or obtained f rom specially driven wells. The composition of natural gas varies in different localities. Its chief component, methane, usually makes up from 70% to 95% and the balance is composed of varying amounts of ethane, propane, butane and other hydrocarbon compounds. Although commonly associated with deposits, it also occurs separately in sand, sandstone and limestone deposits. Some geologists theorize that natural gas is a byproduct of decaying vegetable matter in underground strata, while others think it may be primordial gases that rise up from the mantle. Because of its flammability and high calorific value, natural gas is used extensively as an illuminant and a fuel.

LIQUEFIED PETROLEUM GAS (LPG)

LPG is a mixture of gases, chiefly propane and butane, produced commercially from petroleum and stored under pressure to keep it in a liquid state. The boiling point of liquefied petroleum gas varies from about -44°C to 0°C, so that the pressure required to liquefy it is considerable and the containers for it must be of heavy steel. Common uses are for cooking and heating and lighting. It is also used for powering automotive vehicles. LPG is an attractive fuel for internal- combustion engines because it burns with little air pollution and little solid residue.

SOLVENT OIL

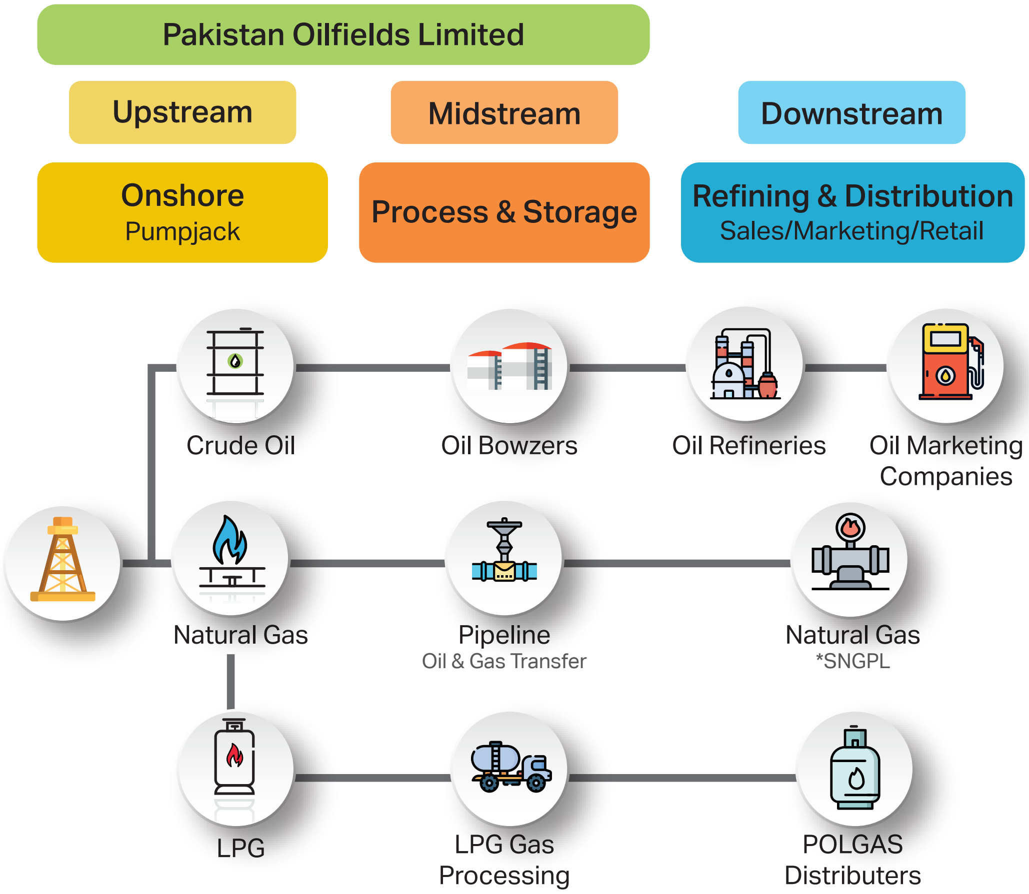
Solvent oil is one of the five major oil products closely related to people's daily life. Its application sectors also have a constant expansion. There are also extensive uses in rubber, leather and adhesive sectors.

SULPHUR

Solid Sulphur occurs principally in three forms, all of which are brittle, yellow in color, odorless, tasteless, and insoluble in water. It is a chemically active element and forms many compounds, both by itself (sulfides) and in combination with other elements. It is part of many organic compounds.

Sulphur is used in black gunpowder, matches and fireworks; in the vulcanization of rubber; as a fungicide and insecticide; and in the treatment of certain skin diseases. The principal use of Sulphur is in the preparation of its compounds. The most important Sulphur compound is Sulphuric acid.

PAKISTAN OILFIELDS LIMITED - OIL AND GAS VALUE CHAIN



The oil and gas value chain starts with discovering fields and ends with providing products to end consumers. The different stages include exploration, production, storage, processing/refining and marketing.

The three facets of the value chain are:

Upstream sector *(Exploration, Production)* - known as Exploration and Production companies, are primarily involved in identifying and assessing potential Oil & Gas producing blocks, drilling exploratory wells & developing infrastructure in economically viable oil fields to produce commercial quantities of hydrocarbon.

Midstream sector *(Transportation and Storage)* - primarily involved in transportation of hydrocarbons. The various modes of transportation include pipelines, rail and road transportation.

Downstream sector *(Refining and Retail Markets)* - is the process of refining, marketing & selling. These companies transform & refine crude oil into a variety of derivative products such as liquefied petroleum gas, gasoline, jet fuel, diesel oil, other fuel oils etc., which are in turn, sold to different end-users.

Pakistan Oilfields Limited – After conducting seismic surveys to assess fields for potential presence of hydrocarbon reserves, wells are then drilled to extract Oil & Gas. Main products extracted by POL include Crude Oil and Natural Gas.

Crude oil is stored in storage tanks and then transported through pipelines and bowzers to our own Khaur Crude Decanting Facility. After decanting it is transported through pipelines and oil bowzers to refineries. Similarly, Natural Gas is transported through pipelines to SNGPL.

The LPG supply chain starts with production of oil and gas at wells. Gas is then converted into LPG and distributed to end users in LPG cylinders.

STRATEGIC FOCUS AND FUTURE ORIENTATION

Pakistan Oilfields Limited is a full cycle exploration and production company. Our focus is to grow shareholder value by leveraging our development capabilities and balance sheet to deliver high quality projects while maintaining exposure to upside from successful exploration.

The company's strategic objectives were reviewed in the meeting of Directors. A process is already in place whereby long term strategies and annual operational plans established by management are regularly reviewed by the Directors in line with the Company's overall business objectives. Following are the strategic and management objectives:

1. **Exploration & Production**
   The main focus in this area is on enhancement of reserves, increase in production and expansion of exploration activities.
2. **POLGAS Marketing**
   Focus is on delivering a quality LPG to end consumer in all parts of Pakistan.
3. **Financial**
   Focus is on increasing revenues through production enhancement, cost cutting and budgetary control measures along with increasing return to the shareholders.
4. **Internal Controls**
   Company's focus in this area is Business process re-engineering to ensure effective controls are in place and enriched management reporting system to improve visibility over key operational areas and to assist the management in strategic decision making.
5. **Stakeholders**
   Company is determined to meet expectations of its stakeholders including shareholders, JV partners, employees and Corporate Social Responsibility works for local communities in areas of the Company's operations.

The objectives and targets in each focus area are also classified into;

- short term (<2 years)
- medium term (2-7 years)
- long term (7-12 years)

Management Strategies to Meet the Objectives

For effective monitoring, following measures are adopted by the Management:

- Monthly review meetings of the senior management are held to make adjustments or alterations in course of actions, to achieve the targets within specified time.
- BEACON HR, a POL specific Self Service System has been where Supervisors can manage and develop their teams, assign tasks and record feedback for management review.

- Our strategy and legal obligation is to generate value for our shareholders. Taking consideration the capital needs of the company, offering higher return in the shape of cash dividend to our shareholders from current year profits.
- Key Performance Indicators (KPIs) are used and monitored to compare the overall performance of the Company.

Resource Allocation

Company believes in efficient allocation of all available resources at hand including financial capital, human capital, manufactured capital, intellectual capital and social capital in order to implement and achieve desired strategic / management objectives.

Key Performance Indicators

POL measures its performance in line with its strategic objectives of growing the value of the underlying assets of the business and creating significant returns for shareholders in a safe and responsible manner.

Financial Capital Planning

There are no liquidity issues for the company and POL is in strong financial position due to effective strategic management.

Future Orientation

a) In-depth evaluation of granted Exploration Blocks to identify drillable prospects.

b) Exploit full potential of own and operated fields and delineation any possible / drillable potential in the already granted D & P Leases.

c) Evaluation of open acreage to apply for new prospective blocks in the forth coming bidding round.

d) Search for possible farm-in after in-depth review of Exploration Blocks, with credible companies.

e) Efforts to farm-out high risk Exploration Blocks.

f) Extend hydrocarbon exploration activities overseas where technically and economically viable.

g) Evaluate producing blocks which are being offered for sale in Pakistan and overseas.

Significant Changes in Objectives and Strategies from the Previous Year

There has been no significant change in the Company's objectives as strategies are well planned by management. However, actual measureable targets are revised each year taking into consideration different internal and external factors.

Our focus is to grow shareholders' value by leveraging our development capabilities

FORWARD LOOKING STATEMENT AND FUTURE PLAN

We are committed to increase the reserves of hydrocarbons and to explore all possible options to optimally produce the proven reserves in economically viable manner. Driven by our vision to be the leading oil and gas exploration and production Company of Pakistan, the Company is investing substantial amount on exploration/development activities.

Presently, two development wells are under testing. In the year 2020-21 two exploratory wells will be spudded. The Company is investing a substantial amount to increase its reserve base and with the Grace of Allah we are pretty much hopeful to get new successes. A new discovery at Mamikhel South has been added in the discoveries of TAL Block, it will be evaluated and appraised on fast track basis.

The Company is continuously investing in seismic data acquisition, processing and interpretation. Presently 3D/2D Seismic data acquisition, processing and interpretations are under way at Ikhlas, TAL West area and Gurgalot blocks which is a prerequisite for the decisions of new wells.

At DG. Khan, DGK-1 well has been finalized and presently road to well location and well site construction is in progress. At Kirthar South Block, environment study is in progress prior to initiating the exploration activities.

At Tal block, Mamikhel South-01, tested 3,240 barrels per day of condensate, 16.12 mmscf per day of gas and 48 barrels per day of water at 32/64 fixed choke size at the flowing wellhead pressure of 4,476 psi. Efforts are underway to connect this well to the production line. Location has been approved for Mardankhel-4 well.

At Gurgalot block, 320 square kilometers 3D seismic data acquisition has been completed and data processing /interpretation is in progress.

At Taung block, 3D Seismic acquisition planning is in progress.

Ratana-5 well has been approved by the Joint Venture Partners and expected to be drilled during this year

Trends and uncertainties affecting the Company's revenue and operations

The spread of Covid - 19 as a pandemic and consequently imposition of lock down by Federal and Provincial Governments of Pakistan (Authorities) caused an overall economic slowdown and disruption to various businesses. It resulted in decrease in demand

and price of petroleum products during the lockdown period. However, the businesses are resuming as per relaxation given by the Authorities. Management successfully faced these challenges allowing only minimum adverse impact on the operating results of the Company. Management will continue to monitor and will take all steps possible to mitigate any effects.

Oil prices in international market and exchange rates have significant impact on the Company's revenue, The Company has no control over both factors but we have reviewed our Capital/Revenue Budgets and allowed only those spending which are most crucial and necessary for the Company's operations.

Performance related to forward looking disclosure made in last year.

Due to drilling challenges in salt formation at Balkassar Deep-1, further proceeding to the target depth was abandoned and testing of only upper zones is in progress.

At Pindori-10 due to early water incursion, the well is currently producing around 50 barrels per day of oil and 0.5 mmscf per day of gas. Testing of another zone which was the main target of this well is under evaluation and will be tested at later stage.

At Tal block, Development well Makori Deep-02 was connected to the production line as on November 19, 2019. Due to water incursion the well is presently producing around 850 barrels of oil per day and 8.38 mmscf of gas per day. At KOT area, 152.93 square kilometers Seismic data acquisition was completed and data processing work is going on. At TAL West area, 3D Seismic acquisition at of 510 square kilometers has been completed.

At Adhi field, Adhi-33 well is producing 200 barrels of oil and 3.15 million cubic feet of gas per day at plant.

Drilling of Adhi 34 well has been completed and after testing is producing around 46 barrels of oil per day and 0.4 million cubic feet of gas per day.

Adhi South-4 well tested and is currently producing 1,160 barrels of oil and 1.12 cubic feet of gas per day at plant.

At Margalla block, 2D Seismic acquisition of 203 line kilometers has been completed, processed and interpreted. A prospect has been mapped.

" Due to efforts of the management and the guidance of the Board, the company earned profit after tax of Rs16.376 billion during the year ended June 30, 2020

CHAIRMAN'S REVIEW

The year under review had to face serious challenges of COVID 19, consequential lock downs and slow down of economic activity. I am glad that the management and the Board of your company successfully faced these challenges allowing only minimum adverse impact on the operating results of the company. Due to efforts of the management and the guidance of the Board, the company earned profit after tax of Rs16.376 billion during the year ended June 30, 2020, which is only 2.9% lower than that of previous year. This decline was due to lower oil prices and the pandemic. The company continued its core activities of exploration and development during the year with some successes particularly at Mamikhel South.

The company's Board comprised of seven directors out of whom two were independent, three were non executive and two were executive directors. The directors had rich experience drawn from different fields like petroleum, finance, corporate sector and regulations. I would like to express my profound appreciation for the contribution made by them.

The Board provides strategic direction to the management and fulfills its fiduciary responsibilities with a sense of commitment. During the pandemic, the Board remained engaged with the management which helped it to meet the exceptional and unforeseen challenges. During the year, five board meetings were held. The Board has fulfilled all its mandatory responsibilities including ensuring compliance with all legal and regulatory requirements for the Company. The Board has constituted Audit and Human Resource and Remuneration Committees. These committees provided valuable input and assistance to the Board. The Audit Committee particularly focused on detailed review of financial statements and internal controls.

Best practices of corporate governance having been embedded into the Company's culture to maintain highest level of professionalism and business conduct. An annual evaluation of performance of the Board, members of the Board and its Committees was carried out with the help of a formal and effective mechanism. On the basis of the feedback received through this mechanism overall role of the Board has been found to be effective.

A new discovery at Mamikhel South has been added in the discoveries of TAL Block, it will be evaluated and appraised on fast track basis. The Company is continuously investing in seismic data acquisition, processing and interpretation. During the year, 3D/2D Seismic data acquisition and processing has been completed at TAL and Gurgalot blocks. The decision of new wells will be based on interpretations of the data.

Presently, two development wells are under testing. In the year 2020-21 two exploratory wells will be spudded. The Company is investing a substantial amount to increase its reserve base and with the Grace of Allah we are pretty much hopeful to get new successes.

We are driven by our vision to be the leading oil and gas exploration and production company of Pakistan with ever increasing proven hydrocarbon reserves and continuous and improved production. As we move forward, we have a number of factors in our favor; the strength of our balance sheet, our strong cash generation, our expertise and most of all, the dedication and will of our employee.

On behalf of the Board, I would like to acknowledge with thanks the contributions made by the both management and non-management staff, regulatory authorities and various Government functionaries. Without their support these results would not have been possible.

I would also like to thank all the shareholders for their continued support.

I hope and pray that the company may maintain momentum of growth in the future years.

Laith G. Pharaon
Chairman Attock Group of Companies

DIRECTORS' REPORT

In the name of ALLAH, The Most Gracious, The Most Merciful

The Directors of the Company take pleasure in presenting Annual Report along with financial statements for the year ended June 30, 2020.

Financial Results

These are summarized below:

	Rs (000)
Profit for the year after providing for all expenses including depreciation, exploration, amortization and workers' funds.	21,734,396
Less: provision for taxation	(5,358,546)
Profit after tax	16,375,850

During the year, the Company made profit after tax of Rs 16,375.9 million (2019: Rs 16,871.7 million), which is lower by 2.9 % as compared to last year. The profit translates into earnings per share of Rs 57.69 (2019: Rs 59.44 per share). Overall net sales were lower by Rs 5,472 million (12.5%), mainly because of 22.26% decrease in average price of crude oil and 12.87% and 8.89% decrease in sales volumes of crude oil and gas respectively, offset to some extend by favourable US. dollar/ rupee parity. Cost of sales has declined by 13.3% mainly due to lower amortization, well workovers, and POLGAS operating cost. Exploration cost decreased by Rs 644 million as during the year no dry well was charged to expense. Finance cost decreased due to lesser exchange loss (due to rupee devaluation) on decommissioning cost. Other income decreased by 36.5%, mainly because of lower exchange gain on foreign currency accounts, offset to some extend by increased income on bank deposits.

During the year the Company has made consolidated profit after tax of Rs 14,565 million (2019: Rs 13,282 million) which translates into consolidated earnings per share of Rs 51.23 (2019: Rs 46.77).

Details of the exploration activities are covered in detail geographical area wise later in subsequent paras.

Cash Flows

Cash and cash equivalents increased by Rs 7,287 million during the year (2019: increased by Rs 14,229 million). Cash flows provided from operating activities were Rs 23,263 million higher by 8.6% as compared to last year.

Contribution Towards the Economy

The Company continues to play a vital role in the oil and gas sector of the Country. During the year the Company saved foreign exchange in excess of US$ 320 million (2019: US$ 520 million) for the country. The contribution to the national exchequer, in the shape of royalty and other government levies, was Rs 14,142 million (2019: Rs 18,601 million).

Dividend

The Directors have recommended a final cash dividend @ 300% (Rs 30 per share). This is in addition to the interim cash dividend @ 200% (Rs 20 per share) already declared and paid to the shareholders thereby making it a total cash dividend of Rs 50 per share for the year 2019 -20 (2018-19: Total cash dividend of Rs 50 per share).

Production

Comparative Production figures from the Company's fields including proportionate operated and non-operated joint ventures are given below:

	June 30, 2020	June 30, 2019
Crude Oil/Condensate (US Barrels)	2,282,029	2,615,981
Gas (Million Cubic Feet)	29,336	32,189
LPG (Metric Tonnes)	55,778	61,076
Sulphur (Metric Tonnes)	451	645
Solvent Oil (US Barrels)	19,453	23,452

The Company's share in production, including that from joint ventures, for the period under review averaged 6,232 barrels per day (bpd) of crude, 80.14 million standard cubic feet per day (mmscfd) of gas, 152.39 metric tonnes per day (MTD) of LPG, 1.23 MTD of Sulphur and 53 bpd of solvent oil.

EXPLORATION AND DEVELOPMENT ACTIVITIES

Producing Fields

At Balkassar lease (100% owned by POL), Balkassar Deep-1, due to drilling challenges in salt formation, further proceeding to the target depth was abandoned and testing of only upper zones is in progress.

At Pindori Lease (operated by POL with a 35% share), drilling of Pindori-10 was commenced on January 28, 2019 and achieved its target depth at 13,701 feet. As a result of Drill Stem Test (DST) conducted at the well to test the potential of Lockhart Formation, the well has tested the following hydrocarbons:

CHOKE	Production parameters	OIL (Barrels per day)	GAS (Million Standard Cubic Feet per day)	WATER (Barrels per day)	WHFP (PSI)
20/64" Fixed	Minimum	655	2.57	220	2,850
	Maximum	1,103	2.98	397	3,068
	Average	832	2.76	330	2,951

Due to early water incursion, the well is currently producing around 50 barrels of oil per day and 0.5 million cubic feet of gas per day. Testing of another zone which was the main target of this well is under evaluation and tested at later stage.

At Tal block, (operated by MOL, where POL has a pre-commerciality share of 25%), Development well Makori Deep-02, as a result of Drill Stem Test (DST) conducted at the well to test the potential of Lockhart formation, the well has tested 1,844 barrels per day of oil and 18.25 mmscf of gas per day at 32/64" fixed choke size at the flowing wellhead pressure of 3,767 psi. Makori Deep-2 well was connected to the production line as on November 19, 2019. Due to water incursion the well is presently producing around 850 barrels of oil per day and 8.38 million cubic feet of gas per day. Mardankhel-3 has also been connected to the production line on July 05, 2019 and presently producing around 9.58 million standard cubic feet of gas per day and 240 barrels of oil per day. Mardankhel-4 location has been approved.

At Adhi field (operated by Pakistan Petroleum Limited, where POL has 11% share).

Adhi-33: After fracturing job, well is producing 200 barrels of oil and 3.15 million cubic feet of gas per day at plant.

Adhi 34: Drilling of well has been completed and after testing is producing around 46 barrels of oil per day and 0.4 million cubic feet of gas per day.

Adhi South-4: Well tested and is currently producing 1,160 barrels of oil and 1.12 cubic feet of gas per day at plant.

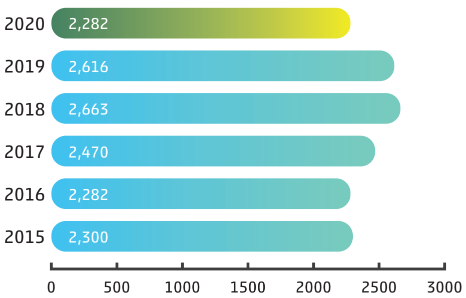
Adhi South-3: Well tested and producing around 789 barrels of oil per day and 0.618 million cubic feet of gas per day.

Adhi South-2: Well tested and producing around 781 barrels of oil per day and 0.69 million cubic feet of gas per day.

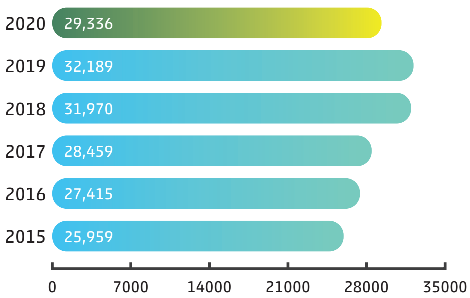
At Jhal Magsi (Operated by OGDCL, where POL has 24% share), work has been stopped as decision regarding laying of pipeline by SSGCL is not finalised.

At Ratana field (operated by Orient Petroleum Inc., where POL has 4.545% share), on the basis of 3D seismic data processing and interpretation, Ratana-5 Well will be drilled to explore un-drained compartment.

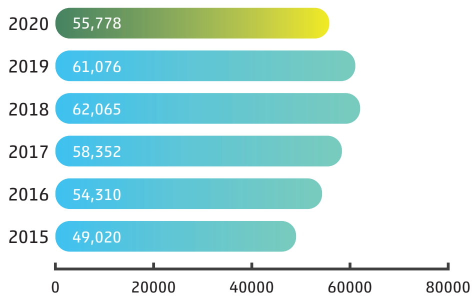
Crude oil production (barrels thousand)



Gas production (million cubic feet)



LPG production (metric tons)



Chak Naurang (operated by OGDCL, where POL has 15% share), Chak Naurang South-1 well tested for 900 barrels of oil per day at Well Head Flowing Pressure of 150 psi at choke size of 32/64”. Production from the well has not yet been started.

Exploration Blocks

At Ikhlas block (operated by POL with an 80% share), 3D Seismic Acquisition of 213 square kilometers over Langrial prospect was in progress and so far acquisition of 36 square kilometers has been completed. Further contract has been terminated due to non-performance. Jhandial – 2 well target depth was achieved and testing is in progress.

At DG Khan Block (operated by POL with a 70% share), DGK-1, an exploratory well, has been approved. Presently, construction of access road and well site is in progress.

At Kirthar South Block (operated by POL with an 85% share), environment study is in progress prior to initiating the exploration activities.

At Margala block (operated by MOL where POL has a 30% share), 2D Seismic acquisition of 203 line kilometers has been completed, processed and interpreted. A prospect has been mapped.

At Tal block (operated by MOL where POL has pre commerciality share of 25%), 152.93 square kilometers Seismic data acquisition over KOT area was completed and data processing work is going on. At TAL West Area, 3D Seismic acquisition of 510 square kilometers has been completed.

Mamikhel South-01, tested 3,240 barrels per day of condensate, 16.12 mmscf of gas per day and 48 barrels per day of water at 32/64” fixed choke size at the flowing wellhead pressure of 4,476 psi. Efforts are underway to connect this well to the production line.

At Gurgalot block (operated by OGDCL where POL has a 20% share), 320 square kilometers 3D seismic data acquisition has been completed and data processing /interpretation is in progress.

At Taung block (operated by Mari Petroleum where POL has 40% share), 3D Seismic acquisition planning is in progress.

Subsidiary

Capgas (Private) Limited (Capgas)

CAPGAS earned a profit after tax of Rs 47.2 million during the year (2019: Rs 9.6 million). It has declared a total dividend of 680% for the year 2020 (2019: 300%). The Company received an average of 24.68 metric tons per day LPG from the Adhi plants and an average of 3.64 metric tons per day of LPG from PARCO.

Crude Oil Transportation

Khaur Crude Oil Decanting Facility (KCDF) continued to operate satisfactorily. During the year, a total of 6.7 million barrels (2019: 9.5 million barrels) of crude oil from Nashpa, TAL Blocks and others were pumped to Attock Refinery Limited through this facility and pipeline.

RISKS AND OPPORTUNITIES

The Company is in a continuous process to implement, monitor and improve its risk management policy. Risks are identified, prioritized and incorporated into a risk management response to effectively address risks.

Following are some material risks being faced by the Company along with mitigation measures:

Oil price volatility:

The pricing for the Company's oil and gas production is benchmarked with international prices of crude oil and related products. Any unfavorable variance in the international prices adversely affect the Company's profitability.

Exploration risk:

Exploration activity is prone to the risk of not finding commercial quantities of hydrocarbons due to a number of factors such as incorrect selection of exploration acreage, poor quality of seismic data, error in processing or interpretation of seismic data, incorrect selection of drilling site. The Company is mitigating exploration risks by using latest technologies and hiring experienced professionals. The Company is in continuous process to explore new opportunities and increasing the chances of success by joining hands with other E & P companies by way of farm-in and farm-out agreements.

Drilling risk:

Oil and gas drilling by its very nature is a high risk activity. The Company is exposed to a number of hazards during drilling of wells including well blow out, fishing, fire hazards and personal injury. In addition, the risk of not discovering oil and/or gas as expected, would have an adverse effect on earnings. The Company is mitigating these risks by selecting efficient and professional teams and also by having strict criterion for selecting rig and other allied services/equipment. Further, the Company also obtains control of well insurance cover for all drilling wells.

Under performance of major oil and gas fields:

The Company's future earnings and profitability is dependent upon the production and reserves of its oil and gas fields. The actual production from fields may differ materially from estimates due to possible under performance of the oil and gas reservoirs or other production related factors.

Procurement planning related risk:

Vulnerability to the procurement process is a possible threat to the Company's profitability.

The vulnerability can give rise to the following risks

- Commercial risks
- Operational risk– not having materials
- Contractual risk– exposure to liquidated damages

The company is mitigating these risks by preparing of detailed well prognosis before the spud date and timely placement of procurement orders for long lead items.

Reservoir engineering and process:

The over estimation of reserves and production can lead to investment of significant capital in the form of plant design by the engineering function. As far as practical, the Company obtains third party reserve certification to mitigate this risk.

Laws & Environmental regulations:

The oil and gas industry is regulated by a number of government regulations which are required to be strictly followed. Default in this regard can have serious consequences. E&P Companies must take extra precaution to ensure they are complying with all mandatory regulations when proceeding on a project. The risks of non compliance can range from cost overruns, fines, prosecution, work stoppage and physical security threats. This industry must also be cautious about where they are drilling and be well informed and aware of the applicable laws.

Increased competition:

With increased competition in the oil and gas exploration and production sector, particularly in relation to the application and award of exploration concessions, the Company may be faced with increased competition. The Company's LPG marketing business may also be adversely affected due to increased competition, decline in margins or disruption to LPG supply sources. The Company is in a continuous process to explore new opportunities by joining hands with other E & P companies by way of farm-in and farm-out agreements. In LPG marketing business, the Company has established a good storage capacity for continuous supply to keep margins intact and it continues to explore sustainable cost-effective sources of further supplies.

Information technology failures:

The Company's operations may be adversely affected due to information technology failures especially in today's environment of reliance on IT systems, regulation and reporting deadlines. The company has a separate IT wing to control and monitor all related functions especially in relation to back up policy for continuous functioning.

Economic and political risks:

Uncertain economic and financial market conditions resulting from economic or political instability.

Joint Venture Partners:

Joint-venture operations are becoming increasingly common across E&P companies as these improve their business by leveraging the expertise and resources of other participants. In particular, when some fields/blocks are new and too challenging to be handled exclusively and the operational costs are high, then companies opt to have another partner in order to have their expertise and to share the excessive cost. We are also operating in a joint venture environment and many of our projects are operated by other partners. Our ability to influence partners is sometimes limited, due to our small share in non-operated ventures. Non-alignment on various strategic decisions in joint ventures may result in operational and production inefficiencies or delay. We mitigate this risk by continuous and regular engagement with joint venture partners in operated and non-operated projects and by providing them necessary resources/information/approvals they may require for steady flow of work.

Terrorist attacks:

A terrorist attack could have a material and adverse effect on our business. The company has taken a terrorist insurance cover of all its material installations to mitigate this risk.

Third party liability:

A third party liability could have a material and adverse effect on our business. In order to mitigate the risk, the company is continuously evaluating the areas where insurance cover is required and it has also taken a third party liability insurance which covers its drilling areas, pipelines and material installations.

Human Resource Risks:

Lack of succession planning may lead to hierarchical breakdown. The company has prepared department wise organograms and jobs descriptions. Requisitions for new positions and replacements are promptly processed and advertised accordingly.

Lost in hole/damage beyond repair:

During drilling costly equipment are run in the hole for several jobs at different depths. In order to mitigate the risk, the Company maintains strong control and has also taken insurance coverage.

BUSINESS PROCESS REENGINEERING (BPR) / DEVELOPMENT ACTIVITIES

The Company believes that quality and an unyielding commitment to continuous improvement are indispensable ingredients to achieve success. All processes are subject to continuous evaluation and improvement. Being an Oil and Gas Exploration and Production company, research is an essential activity.

Seismic data acquisition, processing and interpretation during geophysical activities involve selection of optimum data acquisition parameters through careful experimental investigation in the field. The Company undertakes comprehensive analysis to calculate the volume of sub-surface hydrocarbon's trap of any area, also uses latest sub-surface imaging technology, before drilling any prospect. Research is also conducted by in-house and outsourced G&G and reservoir studies. Research is also conducted to study to enhance and to maintain recovery from the fields.

Apart from the drilling of development wells already mentioned earlier by geographical location the major business development projects under taken during the year are as follows:

POL IT Up-gradation

Human Resource Management System

An Online Leave Management Module is in development phase.

SharePoint, e-mail and Internet

- POL e-mail and SharePoint System have been migrated to HP SAN Storage for improved performance and reliability.
- Internet bandwidth has been increased for improved internet performance.
- Provision to work from home and remotely over internet has been made available for POL users.

CCTV Monitoring and Control

To enhance the security control, the following additional CCTV cameras have been installed at the following locations.

- 14 Qty IP Based High Definition CCTV Cameras - POL Head Office
- 12 Qty Fixed and 05 Qty PTZ High Definition CCTV Cameras - POL Khaur Office Compound Area and KCDF

Video Conferencing Facility

A video conferencing facility has been established for online meetings.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Strong commitment of the company to corporate social responsibility (CSR) is reflected by a comprehensive programe introduced by it with particular focus on the socio economic uplifting and development of the regions in which the company is operating. Our CSR vision is aimed at:

- Protecting our environment.
- Operating in a socially responsible manner.
- Developing the communities in which we operate.
- Maintaining standards of excellence in our work and advocating healthy lifestyles.
- Acting with integrity and adhering to the highest ethical standards.
- Promoting diversity in our work force and partnering with diverse suppliers.
- Ensuring a safe, healthy workplace.

Our CSR initiative covers a wide spectrum of activities from the construction of roads and bridges to building schools, colleges and healthcare centers, conducting sports events and support to humanitarian and social work organizations. We are proud of our progress, but there is still much that we plan to do. Following are the activities of Corporate Social Responsibilities:

Education

Education is a leading instrument of nation building and economic growth of people. Here, at POL, our key focus is on education, which we are keenly supporting in a number of ways. POL focuses on education at the basic, primary, secondary and higher secondary levels.

Since inception POL has spent approx. Rs 96 million to improve the infrastructure of government educational institutions through up gradation of schools & colleges of the vicinity by constructing class rooms, toilets, providing computers and science laboratory apparatuses and also providing furniture and fixtures that serve more than 50,000 students.

POL is not only spending on social welfare activities of its areas of operation but we are also running our own Technical Institute, Higher Secondary Schools and Degree College Khaur with well-equipped lab facilities, modern library, highly qualified teaching staff and facilities for extracurricular activities.

Dr. Rashad Institute of Technical Education

Dr. Rashad Institute of Technical Education Khaur started in 2015, is now growing to become a full-fledged institute of Technical Education. At present there are 80 students studying in Electrical and Petroleum technologies in 3 classes i.e. first, second and third year.

Registration with TEVTA, Lahore was acquired in the Electrical and Electronics technologies in 2015. Affiliation with Punjab Board of Technical Education, Lahore was attained to start the Diploma in Associate Engineering (03 years course) in the above mentioned two fields in September, 2015. People of Khaur and its adjacent areas are employed in petroleum and other technical fields of petroleum technology. Therefore, syllabus of petroleum was sent to TEVTA board for review / approval after which, registration and affiliation was attained from TEVTA and PBTE, Lahore. In the year 2016 DAE in petroleum technology was also started in the Institute to help the local people.

Dr. Rashad Degree College

The college, started as an Intermediate College in 2007, was upgraded to a Degree College in the year 2010 with the objective of providing quality education to the next generation of Khaur and its surroundings. Two-year bachelor's programs in pure sciences, including Botany, Zoology, Chemistry, Double Maths and Physics were initially started. However these programs now have only 16 students, as the HEC converted the two-year program into an Associate's Degree Program therefore the college also shifted to a four-year BS program.

Dr. Rashad Degree College also received affiliation with Punjab University to start the BS in computer science program, and we are pleased to inform that we now have 49 students enrolled in this program.

In order to adapt to the new situation caused by COVID-19, we have slowly been shifting from in-person education to an online format in order to ensure that our students continue to receive quality education. All classes have transitioned online with the help of trained teachers.

During the COVID-19, the College has put into place safety measures for students and teacher. Hand sanitizers have been placed at all entrances, wearing mask is required, and social distancing practices have been enforced to ensure the safety of our students, faculty and staff.

POL Model School

POL Model Secondary School Khaur was started and registered with Punjab Education Department w.e.f. 1st January, 1994 to impart quality education to the children of POL employees, later on the facility was extended to local community as well. It has now grown with a population of 783 students both girls and boys. The school not only focuses on academic education but also training for social, moral and physical growth of its students. During Covid, on line education was imparted. Some of the students have achieved distinction in SSC examination.

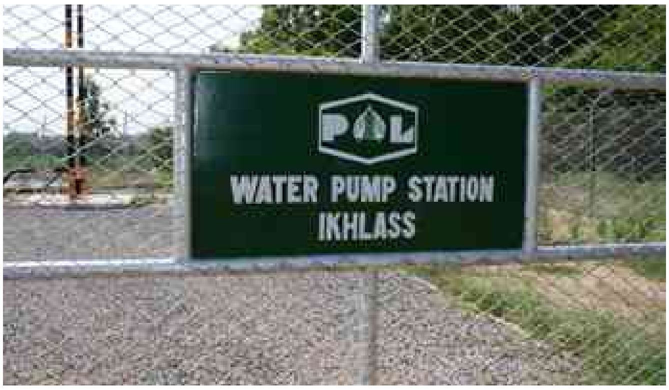
POL Vocational Training Centre

POL has established a vocational training center for women in 2004. The aim of establishing a vocational center is the development of attitudes, knowledge, and skills for entrepreneurship and self-employment among women of the local community Up till now, more than 1000 women & girls have been trained over the period.

On July 2016, POL established Safety Coveralls stitching unit at VTC Khaur. Stitching unit is conceived to ensure its viability being cost effective and also make VTC staff members and students proficient in stitching skills. VTC Teachers stitched face masks for company labour & field's security during COVID -19 Pandemic.

Sports, Cultural & Religious Activities

At Khaur, the company is providing facilities for sports and cultural activities for the local community. For sports, facilities for cricket, hockey and football grounds as well as for badminton and volley ball, courts have been provided.



The ceremony of 14th August (Independence Day) is also celebrated with great enthusiasm at Khaur Workers Club. People from all walks of life including company employees and local community participate in the events conducted on the occasion.

Infrastructure Development

In order to upgrade living standards of the local community in the areas of operation, POL has not only spent on construction of road network, but we have also extended this facility to their door step through concrete pavement of their streets and construction of cause ways / culverts and drainage systems.

Provision of "Clean Water" for Local Community

Basic needs of the rural people are met by POL by providing easy access to safe drinking water. Several projects have been undertaken in this regard.

POL has spent money and time on the development of water supply schemes in different villages located around its Pariwali and Meyal fields. These projects range from installation of motor pumps and construction of overhead water tanks to setting up a wide distribution network to supply clean drinking water to more than 6,500 households in several villages. The community has participated well by taking ownership of these projects for maintenance and sustainability through village based water management committees.

In Pariwali field, inhabitant of Ahmadal village were facing major problem of safe drinking water. In order to facilitate the local community of Ahmadal village, POL management constructed an underground water storage tank at estimated cost of Rs3.5 million having capacity of 150,000 gallons. More than 17,000 inhabitants of the local community are directly and indirectly enjoying this clean water facility.

POL was supplying water to Khaur production facility and local community from Sohan River since long through 14.5 KM, 06 inch diameter pipeline. With the passage of time the source dried out and the quality of water also suffered due to contamination.

Considering the increased demand of water supply and to improve the quality of water, POL drilled 04 Nos. 250 feet deep water wells near Sil River at Ikhlas. Water is supplied through 15.3 KM, 06 inch diameter pipeline with an uninterrupted supply of 250,000 gallons/day to meet demand of local community at Khaur and company's requirements. The project was completed at a cost of Rs82.6 Million and now it is contributing in development of local community. Open water connections have been given to households and mosques and maintenance cost is shared by the Company.

At Meyal, 42 water connections have been provided benefiting more than 500 households. To further our support, two million rupees have been donated to the Union Council of Kharpa for provision of water facility to the locals.

Khaur Hospital

The Company is maintaining an end-to-end smart hospital with state of the art medical technologies at Khaur, providing quality patient care. The hospital provides quality medical care, vital health services and free emergency assistance round the clock.

Presently the hospital is manned by specialists in the field of Medicine, Surgery, Gynecology and Obstetrics, Pediatrics, Anesthesiology, Family Medicine supported by visiting specialists in the fields of ENT, Eye, Gastroenterology, Skin and Ultrasonolgy.

The primary care structure comprises of six medical residents giving round the clock medical coverage to outdoor and indoor patients.

Khaur hospital provides residents access to medical expertise and clinical services that are not generally available in a rural areas.

The hospital is equipped with state of the art operation theatre, fixed and mobile X-ray machines, sophisticated medical laboratory and latest facilities. The hospital has indoor facilities for 40 beds and. air conditioned wards. It also provides services of consultants and specialist doctors. Modern emergency services are provided free of cost to road accident injured persons. It is the only hospital in the area providing such facilities to the general public.

A state of the art dental unit has been added recently which started functioning on 27th April, 2019. Qualified dental surgeon and technician are providing all types of dental treatment to POL employees and local population.

Other Healthcare Facilities

Other healthcare facilities provided by the Company at fields are:

- Regular free dispensaries have been organized for the local community of the Pindori and Balkassar area.
- Field hospital / Free dispensaries at Meyal.
- Annual vaccination program launched in collaboration with District Health Department.
- POL is running a Poor Patient Fund (Contributed by Chairman and employees) catering for about 250 plus registered persons providing day to day medical care.

Community Health Program

In addition to facilitating the general public through POL Hospital, medical camps in different areas were also arranged where besides medical checkup, medicines were distributed free of cost.

- Total Poor patients treated at POL hospital during the year : 2,335
- Total patients treated during the year at Free dispensary Pindori : 1,910

Consolidated Financial Statements

The consolidated accounts of the Company and its subsidiary are annexed to the Annual Report.

Future Outlook

Your Company has successfully passed COVID-19 situation where demand and prices of oil were on the declining trend. Our oil prices are linked with the international oil prices which is uncontrollable factor for us and for the industry as well. According to Gas price formula, Gas Prices for the first six month of 2020-21 will be slightly reduced and for next six months gas prices will be dependent on the trend of oil prices from June-2020 to November-2020.

On the production side we are pretty much hopeful to maintain our existing production volume and sales, as Pakistan is energy deficient and will be able to absorb all local oil and gas production easily. We have all resources to complete our development and exploration activities as mentioned in the earlier part of our report.

طلب اور تیل کی قیمتوں میں کمی کا رُ جحان رہا ہمارے تیل کی قیمتیں بین الاقوامی تیل کی قیمتوں سے منسلک ہیں۔ جن پر ہمارا اور صنعت کا اختیار نہیں۔ گیس کی قیمت کے قاعدے کے مطابق ۲۱-۲۰۲۰ء کے پہلے چھ ماہ میں گیس کی قیمتوں میں قدرے کمی کی جائے گی جب کہ اگلے چھ ماہ تک گیس کی قیمتوں کا انحصار جون ۲۰۲۰ء سے نومبر ۲۰۲۰ء تک تیل کی قیمتوں کے رُ جحان پر ہوگا۔

پیداوار کے لحاظ سے ہم اپنے موجودہ پیداواری حجم اور فروخت کو برقرار رکھنے کے لئے بہت پراُمید ہیں، کیوں کہ پاکستان میں توانائی کی کمی ہے اس لئے وہ تیل اور گیس کی تمام تر پیداوار کو بآسانی جذب کرنے کے قابل ہوجائے گا۔ ہمارے پاس وہ تمام وسائل موجود ہیں جو ہماری ان ترقیاتی اور پیداواری سرگرمیوں کو پایۂ تکمیل تک پہنچانے کے لئے درکار ہیں جن کا رپورٹ میں پہلے تذکرہ کیا جاچکا ہے۔

اعتراف۔

ملازمین کی وفاداری، محبت، جانفشانی اور بلند عزائم کے بغیر سالانہ نتائج حاصل نہیں کیے جاسکتے تھے۔ بورڈ آف ڈائریکٹرز کمپنی کے مقاصد کو حاصل کرنے کے لئے ان کی کاوش کو خراجِ تحسین پیش کرتا ہے۔

پالیسیاں کاروبار کو موثر اور ہموار انداز سے چلانے کو یقینی بنانے، کمپنی کے اثاثوں کی حفاظت، دھوکہ دہی اور غلطیوں کی روک تھام اور ان کا پتہ لگانے، کھاتوں کی درستگی، مکمل اور قابلِ اعتماد مالی معلومات کی بروقت تیاری کو یقینی بنانے کے لئے بنائی گئی ہیں۔ داخلی مالیاتی کنٹرول کا وقتاً فوقتاً جائزہ لیا جاتا ہے۔ تاکہ اس بات کو یقینی بنایا جاسکے کہ یہ موثر رہیں اور تبدیل شدہ قوانین، قواعد وضوابط اور / مالیاتی معیارات سے ہم آہنگ رہیں۔

متعلقہ پارٹی سے لین دین:

متعلقہ فریقوں کے ساتھ تمام لین دین کا آڈٹ کمیٹی کے زریعے جائزہ لیا جاتا ہے اور کمپنیز ایکٹ ۲۰۱۷ کے سیکشن ۲۰۸ کے تحت سہ ماہی کی بنیاد پر منظوری کے لئے بورڈ کو سفارش کی جاتی ہے۔

آخری سالانہ عمومی اجلاس میں اُٹھائے گئے اُمور:

۱۷ ستمبر، ۲۰۱۹ء کو منعقدہ ۶۸ ویں سالانہ عمومی اجلاس کے دوران کمپنی کی مالی کارکردگی اور شائع شدہ مالی بیانات کے بارے میں حصص داران کی جانب سے عام وضاحتوں کے علاوہ کوئی اور مسئلہ نہیں اُٹھایا گیا۔

سرمایہ کاروں کے تحفظات:

چھوٹے سرمایہ کاروں اور اقلیتی حصص یافتگان کی دلچسپی کمپنی کے لئے انتہائی اہم ہے۔ سرمایہ کاروں کے تحفظات پر گہری نظر رکھتے ہوئے ان کے تحفظات کمپنی تک پہنچانے کے لئے کارپوریٹ سیکشن میں ایک ٹیم مقرر کی گئی ہے تاکہ وہ سرمایہ کاروں کے تحفظات / شکایات کو سنے اور ان کا فوری ازالہ کرے۔

شکایات / معاملات کو درج کرانے کے لئے کمپنی کی ویب سائٹ پر طریقہ کار وضع کردیا گیا ہے۔ کمپنی ریگولیٹرز کے متعلقہ فون نمبرز اور برقی پتے بھی کمپنی کے ذرائع سے سرمایہ کاروں کو دیئے گئے ہیں۔

سرمایہ کاروں کے ساتھ تعلقات بڑھانے اور اُن کے تحفظات بآسانی کمپنی تک پہنچانے کے لئے " Investors Relations " کا شعبہ بھی پی او ایل کی ویب سائٹ www.pakoil.com.pk میں بنادیا گیا ہے۔

کمپنی ویب سائیڈ پر حصص داران کی رسائی:

ہمارے تمام حصص داران اور عام عوام کمپنی کی ویب سائیڈ www.pakoil.com.pk ملاحضہ کرسکتے ہیں۔ جس میں سرمایہ کاروں کے لئے سالانہ، نصف سالانہ اور سہ ماہی مالی بیانات سے متعلق معلومات شامل ہیں اور حصص داران سے متعلق معلومات پر ایک نظر ڈالی گئی ہے۔

حصص کی قیمت کی حساسیت:

کمپنی پاکستان سٹاک ایکسچینج (PSX) کو تمام مادی اور قیمتوں سے متعلق معلومات کو پاکستان یونیفائیڈ کارپوریٹ ایکشن رپورٹنگ سسٹم (PUCARS) کے ذریعے آگاہ کرتی ہے۔

آڈیٹرز۔

آڈیٹرز، اے۔ ایف۔ فرگوسن اینڈ کمپنی، چارٹرڈ اکاؤنٹنٹس، ریٹائر ہوگئے ہیں اور دوبارہ تقرری کے لئے خود کو پیش کرتے ہیں۔

حصہ داران۔

۳۰ جون ۲۰۲۰ء کو حصہ داران کی تفصیلی رپورٹ ساتھ لگادی گئی ہے۔

ہولڈنگ کمپنی۔

دی اٹک آئل کمپنی لمیٹڈ برطانیہ میں تشکیل شدہ، پاکستان آئل فیلڈز لمیٹڈ کی ہولڈنگ کمپنی ہے۔

یکجا مالیاتی بیانات۔

کمپنی اور اس کے ماتحت ادارے کے یکجا اکاؤنٹس اس رپورٹ کے ساتھ لگا دے گئے ہیں۔

مستقبل کا نظریہ۔

آپ کی کمپنی کووڈ۔19 کی صورت حال سے کامیابی سے نکل آئی ہے جہاں

دار ہیں وہ کمپنی کی طرف سے حصص یافتگان، ملازمین، سرکاری حکام اور دیگر مُتعلقین کو معلومات فراہم کرتے ہیں۔

بورڈ کی کارکردگی کا اندازہ:

مجلس ادارت (بورڈ آف ڈائریکٹرز) کمپنی کے مقاصد اور اہداف کو مدِ نظر رکھتے ہوئے حصص یافتگان کی جانب سے کمپنی کے گورننگ ٹرسٹی کے طور پر کام کرتی ہے۔

لسٹڈ کمپنیوں (کوڈ آف کارپوریٹ گورننس) کے ریگولیشن، ۲۰۱۹ء کے تحت، ایک باضابطہ اور موثر نظام تشکیل دیا گیا ہے تاکہ بورڈ کی اپنی سالانہ کارکردگی، بورڈ ممبران اور اس کی کمیٹیوں کو جانچا جا سکے۔

مجلس ادارت نے اپنی کارکردگی جانچنے کے لئے درج ذیل معیار مقرر کیا ہے۔

۱۔ اسٹریٹیجک منصوبوں اور کاروباری خطرات کا جائزہ لینا کمپنی کے مستقبل کے منصوبوں کی نگرانی کرنا اور انتظامیہ کو اس بارے میں مشورے دینا۔

۲۔ ایک ٹیم کے طور پر کام کرتے ہوئے بورڈ کے پاس درست صلاحیت مہارت اور جدت اپنانے کی مناسب صلاحیت ہے بورڈ کے اجلاسوں میں حکمت عملی اور پالیسی جیسے اہم معاملات پر باقاعدہ توجہ مرکوز رکھی جاتی ہے۔

۳۔ کمپنی میں اندرونی کنٹرول کا مناسب نظام تشکیل دینا اور انٹرنل آڈٹ اور خود احتسابی نظام کے ذریعے اس کی مسلسل جانچ پڑتال کرنا۔

۴۔ ریگولیٹرز، آجر، حصص یافتگان اور سی بی اے جیسے اہم اسٹیک ہولڈرز کے ساتھ مستقل اور کھلی مواصلت بہت مفید ہے۔

۵۔ انتظامیہ سے مفید تجاویز لینے کے لئے اس کے ساتھ بہتر روابط قائم کرنا تاکہ فیصلے کرنے میں وہ بورڈ کی مدد کر سکے۔

۶۔ اس بات کو یقینی بنانا کہ ڈائریکٹرز میمورینڈم اور آرٹیکل آف ایسوسی ایشن کی روشنی میں موجودہ قوانین کے مطابق اپنے کردار کے متعلق پوری طرح آگاہ ہوں۔

۷۔ انتظامیہ کی کارکردگی کی نگرانی اور جانچ پڑتال کرنا۔

چیف ایگزیکٹو کی کارکردگی کا اندازہ:

چیف ایگزیکٹو (CE) بورڈ کا حصہ ہونے کے ناطے، بورڈ کے ہر اجلاس میں موجود ہوتا ہے۔ چیف ایگزیکٹو بورڈ کو کمپنی کی کارکردگی کا ایک جائزہ پیش کرتا ہے اور بورڈ ممبروں کے ذریعے کسی خاص سوالوں کا ازالہ کرتا ہے۔ چیف ایگزیکٹو کی کارکردگی کا اندازہ پی او ایل کے ذریعے مقرر کردہ تشخیصی نظام کے ذریعے کیا جاتا ہے۔ تشخیص کے اصولی عوامل میں مالی کارکردگی، کاروباری عمل تعمیل، کروباری فضیلت اور لوگوں کا انتظام شامل ہے۔

تقرریری میں باضابطہ واقفیت:

جب بورڈ کا نیا ممبر بنتا ہے تو اس بات کو یقینی بنایا جاتا ہے کہ اسے کمپنی کا تفصیلی رخ فراہم کیا جائے گا۔ واقفیت بنیادی طور پر کمپنی کے نقطہ نظر، حکمت عملی، بنیادی قابلیت، تنظیمی ڈھانچے، متعلقہ فریقوں، بڑے خطرات (بیرونی اور اندرونی دونوں) پر مرکوز ہوتی ہے۔

ڈائریکٹر کا تربیتی پروگرام:

کمپنی اس بات کو یقینی بناتی ہے کہ سیکیوریٹیز اینڈ ایکسچینج کمیشن کے قواعد وضوابط پر پوری طرح عمل کرے اور سند حاصل کر کے ڈائریکٹرز کے تربیتی پروگرام (ڈی ٹی پی) کے معیار کی شرائط کو پورا کرے۔ پانچ ڈائریکٹرز، ڈائریکٹرز کے تربیتی پروگرام کی استثنٰی کی شرط کو پورا کرتے ہیں باقی دو ڈائریکٹرز نے ڈائریکٹرز کے تربیتی پروگرام کی سند حاصل کر لی ہے۔

داخلی مالیاتی کنٹرول۔

داخلی کنٹرول کا نظام خدوخال کے لحاظ سے بہترین انداز میں نافذ کیا گیا ہے اور اس کی نگرانی کی جارہی ہے۔ مالی بیانات کی تیاری کے لئے مناسب اکاؤنٹنگ پالیسیاں مستقل طور پر لاگو کی گئی ہیں۔ ہم نے اپنی سرگرمیوں کے تمام علاقوں میں وقت کے ساتھ ساتھ موثر پالیسیاں اور طریقہء کار وضع کیے ہیں۔ یہ کنٹرول/

پاکستان سے باہر بورڈ کے منعقدہ اجلاس:

بورڈ کے تمام اجلاس پاکستان میں منعقد ہوئے سوائے دو اجلاس کے جو ۲۹ جولائی ۲۰۱۹ء اور ۲۱ جنوری ۲۰۲۰ءکو دبئی میں منعقد ہوئے۔

ڈائریکٹرز کا معاوضہ:

بورڈ کے ڈائریکٹرز کو بورڈ یا ڈائیریکٹرز کی کسی بھی کمیٹی کے اجلاسوں میں شرکت کے لئے فیس کا ڈھانچہ وقتاً فوقتاً طے کرنے، جائزہ لینے اور اس میں ترمیم کرنے کا اختیار ہے۔ ڈائریکٹرز یا کمپنیوں کے کسی بھی کمیٹی یا عام اجلاس میں شریک ہونے اور واپس آنے میں ڈائریکٹرز کو تمام سفری ہوٹلوں اور دیگر اخراجات کی مناسب ادائیگی بھی کی جاسکتی ہے۔

غیرملکی ڈائریکٹرز کا حفاظتی اجازت نامہ:

پی او ایل کے بورڈ میں منتخب ہونے والے غیر ملکی ڈائریکٹرز کو SECP کے ذریعے وزارت داخلہ سے حفاظتی اجازت نامہ کی ضرورت ہوتی ہے۔ اس بابت تمام قانونی تقاضوں اور ضروریات کو پورا کیا گیا ہے۔

دیگر کارپوریٹ گورننس:

کارپوریٹ گورننس سے متعلق دیگر امور ڈائریکٹرز کی رپورٹ سے منسلک ہیں۔

ڈائریکٹرز اور ایگزیکٹوز کی حصص میں تجارت:

ڈائریکٹرز اور ایگزیکٹوز یا ان کے شریک حیات کے ذریعے کمپنی کے حصص کی ساری بلواسطہ یا بلا واسطہ تجارت کمپنی سیکریٹری کو قیمت، حصص کی تعداد، حصص کی شکل اور لین دین کی نوعیت کے ساتھ تحریری آگاہ کیا جاتا ہے، جو کہ کمپنی سیکریٹری بورڈ کو مقررہ وقت کے اندر مطلع کرتا ہے۔ اس طرح کی تمام ہولڈنگ کا انکشاف پیٹرن آف شیئر ہولڈنگ میں کردیا گیا ہے۔

بورڈ اراکین کے مابین مفادات کا تضاد:

کمپنی کے بورڈ اراکین کے مابین اصل یا سمجھے جانے والے تضاد کو ختم کرنے کے لئے ایک ضابطہ بنایا گیا ہے۔ اس ضابطے کے تحت ہر ڈائریکٹر کو کسی معاہدے یا تقرری وغیرہ میں اپنی دلچسپی ظاہر کرنا ہوتی ہے۔ اس بارے میں دیگر بورڈ اراکین کو آگاہ کیا جاتا ہے اور اس بات کو یقینی بنایا جاتا ہے کہ دلچسپی رکھنے والا ڈائریکٹر اس فیصلے میں نہ تو حصہ لے اور نہ ہی ووٹ دے۔ مزکورہ حقائق کے نتائج (اگر کوئی ہیں) تو اجلاس کے نکات میں درج کئے جاتے ہیں۔ مفادات کے اس طرح کے کسی بھی تضاد کو کمپنی کے قانونی رجسٹر میں درج کیا جاتا ہے۔ جبکہ متعلقہ فریقوں کے معاملات کے انکشافات مالی بیانات میں فراہم کیے جاتے ہیں۔

چیئرمین اور چیف ایگزیکٹو کا کردار:

چیئرمین بورڈ کے اجلاسوں کی سربراہی کرتے ہیں اور مجلسِ ادارت (بورڈ) کے کام کو موثر بنانے کو یقینی بناتے ہیں۔ چیئرمین انتظامیہ اور بورڈ کے مابین رابطے کا ذریعہ ہیں ان کے پاس ایجنڈا طے کرنے، ہدایات جاری کرنے اور بورڈ کے اجلاس کے منٹ پر دستخط کرنے کے اختیارات ہیں۔ چیئرمین اس بات کو یقینی بناتے ہیں کہ ڈائریکٹر کو باضابطہ آگاہ کردیا گیا ہے اور انہیں اہم معلومات فراہم کردی گئی ہیں تاکہ وہ مناسب فیصلے کرنے کے قابل ہوسکیں۔ چیئرمین بورڈ کی سالانہ افادیت کا بحیثیت مجموعی جائزہ لیتے ہیں۔

چیف ایگزیکٹو (سی ای) ایگزیکٹو ڈائریکٹر ہیں جو کمپنی کے انتظامی سربراہ کے طور پر بھی کام کرتے ہیں۔ وہ کمپنی کی طویل المدتی حکمت عملی کی تیاری اور اس کے اس طرح نفاذ کے ذمہ دار ہیں کہ اس سے حصص یافتگان اعتماد میں اضافہ ہو۔ چیف ایگزیکٹو کی قائدانہ ذمہ داریوں میں یہ بات بھی شامل ہے کہ وہ یومیہ انتظامی فیصلوں اور کمپنی کے طویل اور قلیل المدتی منصوبوں پر عمل درآمد کے ذمہ

بیانات کی تیاری میں پیروی کی گئی ہے۔

۵۔ اندرونی کنٹرول کے نظام کا ڈیزائن صحیح ہے اور اس پر موثر طریقے سے عمل درآمد اور اس کی نگرانی کی گئی ہے۔

۶۔ کمپنی کو جاری رکھنے کی صلاحیت پر کوئی شکوک وشبہات نہیں ہیں۔

۷۔ کارپوریٹ گورننس کے بہترین طریقوں پر عمل کیا گیا ہے جو کہ لسٹنگ کے ضابطے میں موجود ہیں۔

۸۔ گذشتہ سال کے آپریٹنگ نتائج سے اہم انحراف کو (اگر کوئی ہے تو) ڈائریکٹرز رپورٹ/چیئرمین جائزہ میں مناسب طور پر اکاؤنٹس کی تفصیل (Notes) میں بتایا گیا ہے۔

۹۔ کمپنی مستقبل میں اپنے آپریشنز کی کارپوریٹ تنظیمِ نو کو ختم کرنے یا روکنے کے لئے غور نہیں کر رہی۔

بنیادی ڈھانچہ کی ترقی۔

مقامی باشندوں کے معیارِ زندگی کو بہتر بنانے کے لئے آپریشن کے علاقوں میں مقامی باشندوں کے معیارِ زندگی کو بلند کرنے کے لئے پی او ایل نے نہ صرف سڑکوں کے نیٹ ورک کی تعمیر پر خرچ کیا بلکہ ہم نے گھروں تک پختہ گلیوں، پلیوں اور نکاسی آب کے نظام میں بہتری لانے کے لئے اپنی خدمات پیش کی ہیں۔

مقامی آبادی کے لئے صاف پانی کی سہولت۔

دیہی لوگوں کی بنیادی ضروریات کو پورا کیا گیا جن میں پینے کے صاف پانی تک آسان اور کم وقت میں رسائی کی کوششوں میں مدد فراہم کرنا ہے۔ اس سلسلے میں کئی منصوبوں پر کام شروع کر دیا گیا ہے۔

پی او ایل، پری والی اور میال کے اردگرد واقع مختلف دیہاتوں میں پانی کی فراہمی کے منصوبوں کی ترقی پر رقم اور وقت صرف کر چکی ہے۔ ان منصوبوں کے تحت کئی دیہات میں ۶،۵۰۰ سے زائد گھرانوں کو پینے کے صاف پانی کی فراہمی کے لئے ایک وسیع تقسیم کے نیٹ ورک قائم کرنے کے لئے موٹر پمپس کی تنصیب اور اوور ہیڈ پانی کے ٹینکوں کی تعمیر کی گئی ہے۔ علاقے کے لوگوں نے گاؤں کی بنیاد پر پانی کی انتظامیہ کمیٹیوں کے ذریعے بحالی اور پائیداری کے ان منصوبوں کو سنبھالنے میں مدد کی ہے۔

پری والی میں احمدال گاؤں کے رہنے والوں کو پینے کے صاف پانی کی سہولت کا بڑا مسئلہ درپیش تھا کیونکہ دستیاب پانی کی فراہمی ان کی بنیادی ضرورت کو پورا کرنے کے لئے ناکافی تھا۔ کمپنی نے احمدال گاؤں کی مقامی آبادی کی سہولت کے لئے زیرِ زمین پانی سٹوریج ٹینک ۵۔۳ ملین روپے کی لاگت سے (۶۰'x۴۰'x۳') سائز کا ۱۵۰،۰۰۰ گیلن سٹوریج کا حامل ٹینک تعمیر کیا۔ مقامی آبادی کے ۱۷،۰۰۰ سے زائد باشندے براہِ راست اور بالواسطہ طور پر اس کے صاف پانی کی سہولت سے مستفید ہو رہے ہیں۔

پی او ایل ۵۔۱۴ کلومیٹر طویل ۶ انچ قُطر کی پائپ لائن کے ذریعے کھوڑ پیداواری سہولت اور مقامی آبادی کو طویل عرصہ سے پانی مُہیّا کر رہی تھی۔ وقت گزرنے کے ساتھ ساتھ پانی کا ذریعہ خُشک ہو گیا اور آلودگی کی وجہ سے پانی کا معیار بھی مُتاثر ہو گیا ہے۔

پانی کی بڑھتی ہوئی طلب اور اس کے معیار کو بہتر بنانے کے پیشِ نظر پی او ایل نے اخلاص میں دریائے سِل کے قریب ۲۵۰ فٹ گہرے پانی کے ۴ کنویں کھودے۔ ۳۔۱۵ کلومیٹر طویل ۶ انچ قُطر کی پائپ لائن کے ذریعے روزانہ ۲۵۰،۰۰۰ گیلن پانی مُہیّا کیا جا رہا ہے تا کہ کھوڑ کی مقامی آبادی کی بڑھتی ہوئی طلب اور کمپنی کی اپنی ضروریات کو پورا کیا جا سکے۔ اِس منصوبے پر ۶۔۸۲ ملین روپے لاگت آئی تھی اور اب یہ مقامی آبادی کی ترقی اور ان کی مشکلات کو دُور کرنے میں اپنا کردار ادا کر رہا ہے۔ مساجد اور گھروں میں پانی کے کنکشن دیئے جا رہے ہیں اور مرمت کا خرچ بھی کمپنی برداشت کر رہی ہے۔

میال میں پانی کے ۴۲ کنیکشنز دیئے گئے جن سے ۵۰۰ گھرانے فائدہ اُٹھا رہے ہیں۔ مزید یہ کہ یونین کونسل کھڑپہ کو دو ملین روپے کی رقم بطور عطیہ دی گئی تا کہ مقامی آبادی کو پانی کی سہولت فراہم کی جا سکے۔

کھوڑ ہسپتال۔

کمپنی مریض کی بہتر نگہداشت، باہمی تعاون کا ماحول اور صحت سے متعلق فیصلوں میں مزید بہتری، بہتر معیارِ زندگی اور اعلیٰ فلاح و بہبود کے مقاصد کے لئے کھوڑ میں جدید ترین ٹیکنالوجی کا حامل ہسپتال چلا رہی ہے۔ ہسپتال ۲۴ گھنٹے معیاری طبی دیکھ بھال، اہم بنیادی صحت کی خدمات اور مفت ہنگامی امداد فراہم کرتا ہے۔

اس وقت ہسپتال میں میڈیسن، جراحی، زچہ بچہ، شعبہ اطفال، اینستھیزیا کے ماہرین کو تعینات کیا گیا ہے، فیملی میڈیسن کان، ناک اور گلہ (ENT)، آنکھ، معدہ، جلد اور Ultrasonology کے شعبوں میں ماہرین سے مدد لی جاتی ہے۔

بیرونی اور داخل شدہ مریضوں کو بنیادی طبی سہولتیں ۲۴ گھنٹے فراہم کرنے کے لئے چھ میڈیکل آفیسر ہر وقت موجود رہتے ہیں۔

کھوڑ ہسپتال رہائشیوں کو ماہرین طب اور کلینیکل خدمات کی زبردست سہولت مہیّا کرتا ہے جو مقامی لوگوں کو میسّر نہیں۔ ہسپتال جدید ترین آلات کے ساتھ آپریشن تھیٹر، منجمد اور متحرک ایکس رے مشینیں، بہترین طبی تجربہ گاہ اور جدید

میں پنجاب بورڈ آف ٹیکنیکل ایجوکیشن لاہور کے ساتھ وابستگی ایسوسی ایٹ انجینئرنگ میں ڈپلومہ (۳سالہ کورس) شروع کرنے کے لئے حاصل کی گئی۔ کھوڑ اور گرد ونواح کے لوگ پٹرولیم اور پٹرولیم کے دیگر ٹیکنالوجیکل شعبوں میں کام کرتے ہیں تاہم پٹرولیم کا نصاب TEVTA Board کو جائزے/منظوری کے لئے بھیجا گیا اور پھر ٹیوٹا بورڈ اور PBTE، لاہور سے منسلک کیا گیا۔

۲۰۱۶ میں مقامی افراد کی مدد کے لئے ڈاکٹر رشاد انسٹیٹیوٹ آف ٹیکنیکل ایجوکیشن میں پٹرولیم ٹیکنالوجی میں DAE کا آغاز کیا گیا۔

ڈاکٹر رشاد ڈگری کالج۔

کالج کا آغاز ۲۰۰۷ء میں انٹرمیڈیٹ کالج کے طور پر کیا گیا جِسے ۲۰۱۰ء میں ڈگری کالج کا درجہ دے دیا گیا تاکہ کھوڑ اور اس کے مضافاتی علاقوں کی نئی نسل کو اعلیٰ تعلیم دی جاسکے۔ ابتدائی طور پر خالص سائنسی مضامین بشمول باٹنی، زوالوجی، کیمیاء، ڈبل ریاضی اور طبعیات کے دو سالہ پروگرام پیش کیے گئے۔ تاہم ان پروگراموں میں اب صرف ۱۶ طلباء ہیں، چوں کہ HEC نے دو سالہ پروگرام ایسوسی ایٹ ڈگری پروگرام میں تبدیل کر دیئے ہیں اس لئے کالج نے چار سالہ BS پروگرام شروع کر دیئے ہیں۔ ڈاکٹر رشاد ڈگری کالج کا کمپیوٹر سائنس میں BS پروگرام شروع کرنے کے لئے پنجاب یونیورسٹی کے ساتھ الحاق ہو چکا ہے اور ہمیں یہ بتاتے ہوئے خوشی ہو رہی ہے کہ اس پروگرام میں ۹۴ طُلباء داخل ہو چکے ہیں۔

کووڈ۔۱۹ کی نئی صورتِ حال کی بناء پر ہم بتدریج آن لائن تعلیم کی طرف اس طرح بڑھ رہے ہیں کہ ہمارے طلباء اعلیٰ معیاری تعلیم مسلسل حاصل کرتے رہیں ۔تمام جماعتیں تربیت یافتہ اساتذہ کی مدد سے آن لائن پر منتقل کر دی گئی ہیں۔ دورانِ کووڈ۔۱۹ کالج نے اساتذہ اور طُلباء کے بہتر تحفظ کو یقینی بنانے کے لئے مزید اقدامات کیے۔ تمام داخلی راستوں پر ہاتھوں کو صاف کرنے والا محلول رکھا گیا، چہرے پر ماسک لازم قرار دیا گیا اور سماجی فاصلہ برقرار رکھنے پر زور دیا گیا تاکہ ملازمین اور طُلباء کا تحفظ کیا جاسکے۔

پی او ایل ماڈل سکول۔

پی او ایل کے ملازمین کے بچوں کو معیاری تعلیم دینے کے لئے یکم جنوری ۱۹۹۴ء کو پی او ایل ماڈل سیکنڈری سکول کا آغاز کیا گیا۔ جسے پنجاب ایجوکیشن ڈیپارٹمنٹ سے رجسٹرڈ کرایا گیا۔ بعدازاں اس مقامی آبادی کو بھی مستفید ہونے کی سہولت دے دی گئی۔ اِس وقت ۸۳۷ طلباء و طالبات زیورِ علم سے آراستہ ہو رہے ہیں۔ سکول نہ صرف بچوں کی تعلیم پر توجہ مرکوز کرتا ہے بلکہ اُن کی روحانی سماجی اِخلاقی اور جسمانی ترقی اس کا مطمعٔ نظر ہے۔ کووڈ۔۱۹ کے دوران آن لائن تعلیم دی گئی۔ کچھ طُلباء نے میٹرک کے امتحان میں نمایاں کامیابی حاصل کی۔

پی او ایل ووکیشنل ٹریننگ سنٹر۔

۲۰۰۴ء میں پی او ایل نے خواتین کے لئے پیشہ ورانہ تربیتی مرکز قائم کیا ہے۔ اس مرکز کو قائم کرنے کے مقاصد میں رویوں، علم، اور مقامی علاقے کی خواتین میں خود روزگار کے لئے مہارت کی ترقی ہے۔ اب تک ۱،۰۰۰ سے زائد خواتین اور لڑکیوں کو تربیّت دی جا چکی ہے۔ جولائی ۲۰۱۶ء میں پی او ایل نے VTC کھوڑ میں Safety Coveralls Stitching یونٹ قائم کیا ہے۔ سلائی مرکز کے قیام کا مقصد اخراجات میں کمی اور VTC کے عملہ اور طالبات کی سلائی کڑھائی کی مہارت میں مزید نکھار پیدا کرنا ہے۔ VTC اساتذہ نے کووڈ۔۱۹ کے دوران کمپنی ملازمین اور سیکیورٹی سٹاف کے لئے چہرے کے ماسک بھی تیار کئے ہیں۔

کھیل، ثقافتی اور مذہبی سرگرمیاں۔

کمپنی کھوڑ میں مقامی آبادیوں کے لئے کھیلوں کی سہولت اور ثقافتی سرگرمیاں مہیّا کرتی ہے۔ کھیلوں میں کرکٹ، ہاکی اور فٹ بال کے میدان اور بیڈمنٹن، والی بال کی جگہیں مہیّا کی گئی ہیں۔

۱۴ اگست (یوم آزادی) کی تقریب کو کھوڑ ورکرز کلب میں بڑے جوش وجذبے سے منایا جاتا ہے۔ کمپنی کے ملازمین اور مقامی علاقے سے زندگی کے تمام شعبہ ہائے جات کے لوگ اس میں شرکت کرتے ہیں۔

بیان کر دیئے گئے۔اس سال درج ذیل بڑے کاروباری ترقیاتی منصوبے شروع کئے گئے ہیں۔

پی او ایل آئی ٹی کی درجہ بندی :

انسانی وسائل کے انتظام کا نظام : ایک آن لائن رِخصت کا نظام زیرِ تکمیل ہے۔

شیئر پوائنٹ، برقی ڈاک اور انٹرنیٹ: پی او ایل کی برقی ڈاک اور شیئر پوائنٹ کے نظام کو بہتر کارکردگی اور قابلِ اعتماد بنانے کیلئے HP SAN Storage پر منتقل کر دیا گیا ہے۔ پی او ایل کے استعمال کنندگان کو گھر سے اور دور کے علاقے سے انٹرنیٹ کے ذریعے کام کرنے کی سہولت دے دی گئی ہے۔

سی سی ٹی وی نگرانی اور کنٹرول: تحفظ کے نظام کو مزید بہتر کرنے کے لئے نئے سی سی ٹی وی کیمرے مندرجہ ذیل جگہوں پر نصب کئے گئے ہیں۔

۔۱۴ عدد IP پر مبنی اعلیٰ کارکردگی کے حامل سی سی ٹی وی کیمرے۔ پی او ایل ہیڈ آفس

۔۱۲ عدد منجمد اور ۵ عدد PTZ اعلیٰ کارکردگی کے حامل سی سی ٹی وی کیمرے۔ پی او ایل کے دفتر کے احاطے میں اور KCDF میں۔

وڈیو کانفرنس کی سہولت : آن لائن اجتماعات کے لئے وڈیو کانفرنس کی سہولت متعارف کرادی گئی ہے۔

کارپوریٹ سماجی ذمہ داری (CSR):

اس شعبے میں کمپنی کی مضبوط وابستگی اس کی طرف سے پیش کردہ ایک جامع نظام سے ظاہر ہوتی ہے جس پر کمپنی عمل پیرا ہے۔ کمپنی ان علاقوں کی سماجی و معاشی ترقی پر خصوصی توجہ مرکوز کیے ہوئے ہے جہاں یہ کام کر رہی ہے۔ ہمارے CSR پروگرام کا بنیادی مقصد ہے کہ:

۔اپنے ماحول کی حفاظت

۔ذمہ داری سے کام کرنا

۔جن علاقوں میں ہم کام کریں ان کی ترقی میں حصہ ڈالیں

۔اپنے کام کے معیار کو برقرار رکھنا اور صحتمند طرزِ زندگی کی وکالت

۔دیانتداری کے ساتھ کام اور اعلیٰ ترین اخلاقی معیارات کو برقرار رکھنا

۔کام کے تنوع کو فروغ دینا اور متنوع سپلائرز کے ساتھ شراکت داری

۔ایک محفوظ، صحت مند کام کی جگہ کو یقینی بنانا۔

ہمارا CSR وسیع سرگرمیوں پر مشتمل ہے جن میں سکولوں، کالجوں اور صحت کے مراکز کی تعمیر، سڑکوں اور پُلوں کی تعمیر انسانی اور سماجی کام کرنے والی تنظیموں کی حمایت اور کھیلوں کا انعقاد ہیں۔ ہمیں اپنی ترقی پر فخر ہے، لیکن پھر بھی ہمیں بہت کچھ کرنا ہے جس کی ہم منصوبہ بندی کر رہے ہیں۔

تعلیم۔

تعلیم قوم کی تعمیر اور لوگوں کی اقتصادی ترقی کا ایک بڑا ذریعہ ہے۔ یہاں، پی او ایل میں، ہماری کلیدی توجہ تعلیم ہے جس کی ہم مکمل طور پر حمایت کرتے ہیں۔ پی او ایل کی توجہ بنیادی، ثانوی اور اعلیٰ سطح کی تعلیم پر مرکوز ہے۔

قیام کے آغاز سے پی او ایل ۹۶ ملین روپے سرکاری سکولوں اور کالجوں کے بنیادی ڈھانچے کو بہتر بنانے، کلاس رومز اور بیت الخلاؤں کی تعمیر، کمپیوٹرز، سائنس لیبارٹری، فرنیچر اور فکسچر فراہم کرنے میں خرچ کر چکی ہے جس سے ۵۰،۰۰۰ سے زائد طلباء مستفید ہو رہے ہیں۔

پی او ایل نہ صرف کام کے علاقوں میں سماجی بہبود کی سرگرمیوں پر خرچ کرتا ہے بلکہ ہمارے اپنے تکنیکی ادارے، ہائر سیکنڈری سکولز اور ڈگری کالج کھوڑ چل رہے ہیں جو پوری طرح سے لیب کی سہولیات ، جدید کتب خانے، انتہائی مستند تدریسی عملے پر مشتمل ہیں۔ ہم غیر نصابی سرگرمیوں کو بھی فروغ دے رہے ہیں۔

ڈاکٹر رشاد ٹیکنیکل ایجوکیشن انسٹیٹیوٹ۔

۲۰۱۵ء میں قائم ہونے والا ڈاکٹر رشاد انسٹیٹیوٹ آف ٹیکنیکل ایجوکیشن ترقی کرتے ہوئے اَب با قاعدہ فنی تعلیم مہیّا کرنے والا ادارہ بن گیا ہے۔ اِس وقت الیکٹریکل اور پٹرولیم ٹیکنالوجیز کے پہلے، دوسرے اور تیسرے سال میں ۸۰ طلباء زیورِ علم سے آراستہ ہو رہے ہیں۔ ۲۰۱۵ء کی ابتداء میں ٹیوٹا لاہور کے ساتھ الیکٹریکل اور الیکٹرانکس ٹیکنالوجیز میں رجسٹریشن کرائی گئی۔ ستمبر ۲۰۱۵

کی پائیدار اور مناسب قیمت پر فراہمی کے لیے کوشاں ہے۔

۹۔ انفارمیشن ٹیکنالوجی (آئی ٹی) کی ناکامی:

آج کے ماحول میں جہاں آئی ٹی پر انحصار، قوانین اور رپورٹنگ کی حتمی معیاد پوری کرنی ہوں وہاں آئی ٹی کی ناکامی سے کمپنی کی سرگرمیوں پر منفی اثرات پڑھنے کا اندیشہ ہے۔ تمام متعلقہ معاملات کے کنٹرول اور نگرانی خاص طور پر تمام اعداد و شمار کی حفاظت کے لئے ایک علیحدہ IT کا شعبہ بنایا گیا ہے۔

۱۰۔ معاشی اور سیاسی خطرات:

معاشی اور سیاسی عدم استحکام کے نتیجے میں اقتصادی اور مالیاتی بازاروں کا غیر محفوظ ہونا۔

۱۱۔ باہمی شراکت دار:

تمام E&P کمپنیوں میں باہمی شراکت داری میں اضافہ ہورہا ہے۔ اس کے ذریعے یہ دوسروں کی مہارت اور وسائل سے استفادہ کر کے فائدہ اٹھاتے ہیں۔ خاص طور پر جب قطعات/ بلاکس نئے ہوں اور مشکلات بھی بہت ہوں، انتظامی اخراجات بھی زیادہ ہوں تب کمپنیوں کو دوسرے شراکت دار ساتھ شامل کرنے پڑتے ہیں تاکہ ان کی مہارت سے استفادہ کیا جاسکے اور اخراجات میں بھی شراکت ہوسکے۔ ہم باہمی اشتراک کے ماحول میں کام کررہے ہیں اور ہمارے کئی منصوبے دیگر شراکت دار چلاتے ہیں۔ ہمارے تھوڑے حصے کی وجہ سے کئی دفعہ شراکت داروں پر اثر انداز ہونے کی صلاحیت محدود ہوجاتی ہے۔ کئی اہم فیصلوں پر ہم آہنگی نہ ہونے کی بناء پر ان منصوبوں کے انتظامی اور پیداواری معاملات بگڑ یا تاخیر کا باعث بن سکتے ہیں۔ اس کے تدارک کے لئے ہم انتظامی اور غیر انتظامی شراکت داروں سے باہم رابطے میں رہتے ہیں۔

۱۲۔ دہشت گردوں کے حملے:

دہشت گردوں کا حملہ ہمارے کاروبار پر بہت زیادہ منفی اثرات مرتب کرسکتا ہے۔ اس خطرے کے تدارک کے لئے کمپنی نے اپنی تمام اہم تنصیبات کے لئے دہشت گردی کی صورت میں نقصان پورا کرنے کے لئے باقاعدہ انشورنس کرائی ہوئی ہے۔

۱۳۔ تیسرے فریق کی حیثیت سے ذمہ داری:

تیسرے فریق کی حیثیت سے ذمہ داری ہمارے کاروبار پر بہت زیادہ منفی اثرات مرتب کرسکتی ہے۔ اس خطرے کے تدارک کے لئے کمپنی مسلسل ایسے معاملات کا جائزہ لیتی رہتی ہے جہاں انشورنس کی ضرورت ہے، کمپنی نے اپنے کنوؤں کی کھدائی کے علاقوں، پائپ لائنوں اور اہم تنصیبات کے لئے تیسرے فریق کی حیثیت سے ذمہ داری کی انشورنس کروائی ہوئی ہے۔

۱۴۔ انسانی وسائل کے خطرات :

متبادل کی منصوبہ بندی نہ ہونا بڑے نقصان کا باعث بن سکتی ہے۔ کمپنی نے ہر ڈیپارٹمنٹ کی ارگانوگرام اور کام کی تفصیلات تیار کی ہیں۔ نئی آسامیوں اور تبدیلیوں پر فوری عمل درآمد ہوتا ہے اور باقاعدہ اشتہار دیا جاتا ہے۔

۱۵۔ کنووں میں کھو جانا یا مرمت کے قابل نہ رہنا:

کھدائی کے دوران بہت سے مہنگے آلات کنووں میں مختلف گہرائیوں میں داخل کیے جاتے ہیں۔ اس خطرے کے تدارک کے لئے کمپنی بھرپور نظر رکھتی ہے۔ اور ان آلات کی انشورنس بھی کراتی ہے۔

کاروباری عمل/ ترقیاتی سرگرمیاں:

کمپنی کا خیال ہے کہ معیار اور مسلسل بہتری اور مضبوط عزم کامیابی حاصل کرنے کے لئے ناگزیر اجزاء ہیں۔ تمام عمل مسلسل تشخیص اور بہتری سے مشروط ہے ۔تیل و گیس کی دریافتی اور پیداواری کمپنی کی حیثیت سے تحقیق بنیادی کام ہے۔

ارضیاتی اعداد و شمار کا حصول، عمل اور جیالوجیکل سرگرمیوں کے دوران ان کی تشریح زیادہ سے زیادہ اعداد و شمار کے پیمانوں کا انتخاب محتاط تجرباتی تحقیق کے ذریعے ہی ممکن ہے۔ کمپنی کسی بھی جگہ میں ہائیڈرو کاربن کے حجم کو ماپنے کے لئے جامع تجزیہ کرتی ہے، کسی بھی جگہ کھدائی سے پہلے ذیلی سطح کی جدید ذرائع سے منظر کشی بھی کرتی ہے۔

یہ تحقیق اپنے اور بیرونی G&G ذرائع اور ذخائر کے مطالعہ کے ذریعے کی جاتی ہے۔ تحقیق اس لئے بھی کی جاتی ہے تاکہ فیلڈز سے حاصل ہونے والی پیداوار کو نہ صرف برقرار رکھا جائے بلکہ اس میں مزید اضافہ کیا جائے۔

ان ترقیاتی کنوؤں کی کھدائی کے ساتھ ساتھ جو پہلے جغرافیائی محلِ وقوع میں

۱۔تیل کی قیمت میں اتار چڑھاؤ:

کمپنی کی تیل اور گیس کی قیمتیں بین الاقوامی خام تیل اور متعلقہ مصنوعات سے منسلک ہیں۔ بین الاقوامی قیمتوں میں ناموافق تبدیلی کمپنی کے منافع پر منفی اثر ڈالتی ہے۔

۲۔دریافتی خطرات:

دریافتی عمل کے دوران ہائیڈروکاربنز کے مناسب مقدار میں نہ ملنے کا قوی امکان رہتا ہے۔اس کی بڑی وجوہات میں رقبے یا کھدائی کی جگہ کا غلط انتخاب، غیر معیاری ارضیاتی اعدادوشمار یا اس کی پروسسنگ میں غلطیاں شامل ہیں۔ان ممکنہ خطرات کا تدارک کرنے کے لیے کمپنی تجربہ کار ماہرین کی خدمات حاصل کرتے ہوئے جدید ترین ٹیکنالوجی کا استعمال یقینی بناتی ہے۔کمپنی نئے مواقع تلاش کرنے کے لئے مسلسل کوشاں رہتی ہے اور کامیابی کے امکانات کو بڑھانے کے لئے دیگر E&P کمپنیوں کے ساتھ مختلف معاہدوں کے ذریعے دستِ تعاون بڑھاتی ہے۔

۳۔کھدائی کے دوران درپیش ممکنہ خطرات:

تیل اور گیس کے لیے کھدائی فطری طور پر خطرات سے پُر ہے جن میں کنویں کا نذرِ آتش ہونا، پائپ یا دیگر آلات کا پھنس جانا، آگ کے حادثات اور کام کے دوران چوٹ لگ جانا شامل ہیں۔اس کے علاوہ مناسب مقدار میں تیل یا گیس نہ دریافت ہونے سے کمپنی کی آمدنی پر منفی اثر پڑتا ہے۔ان خطرات کے تدارک کے لیے کمپنی موئثر اور پیشہ ور افراد کا انتخاب کرتی ہے اور رِگ اور اس سے وابستہ خدمات اور آلات کے لیے بھی اعلیٰ معیار کو یقینی بنایا جاتا ہے۔اس کے علاوہ تمام کنوؤں کے لیے دورانِ کھدائی کنویں کی کنٹرول کی انشورنس کرائی جاتی ہے۔

۴۔تیل اور گیس کے اہم فیلڈز (قطعات) کی کارکردگی میں کمی:

کمپنی کی مستقبل کی آمدنی اور منافع اس کے تیل اور گیس کی فیلڈز کی پیداوار اور ذخائر پر منحصر ہے۔فیلڈز کی اصل پیداوار تیل اور گیس کے ذخائر کی کارکردگی میں کمی یا پیداوار سے متعلقہ دیگر عوامل کی وجہ سے اندازوں سے یکسر مختلف ہوسکتی ہے۔

۵۔منصوبہ بندی سے متعلق ممکنہ خطرات:

خریداری کے عمل میں کمزوری کمپنی کے منافع کے لیے ممکنہ خطرے کا باعث ہے۔یہ کمزوری مندرجہ ذیل ممکنہ خطرات کو جنم دے سکتی ہے:

- کاروباری خطرات
- انتظامی سامان کا وقت پر نہ موجود ہونا
- معاہدوں سے متعلق جرمانوں کا امکان ہونا

کمپنی ان ممکنہ خطرات کے تدارک کے لیے کھدائی شروع کرنے سے پہلے کنویں کا تفصیلی خاکہ تیار کرتی ہے اور جس سامان کے پہنچنے میں طویل مدت درکار ہوتی ہے، ان کی خریداری کا پہلے آرڈر دے دیا جاتا ہے۔

۶۔ذخائر کے متعلق خطرات:

ذخائر اور پیداوار کے غلط زائد تخمینہ کے نتیجہ میں سرمایہ ضائع ہوسکتا ہے۔اس لیے اس خطرے کو کم کرنے کے لیے جہاں تک ممکن ہو کمپنی ایک خودمختار ادارے سے ذخائر کی تصدیق کرواتی ہے۔

۷۔قوانین اور ماحولیاتی قواعد وضوابط:

تیل وگیس کی صنعت حکومتی قوانین کے مطابق قواعد وضوابط کی سختی سے عمل درآمد کی پابندی ہوتی ہے۔اس معاملے میں کوتاہی سے سنگین نتائج برآمد ہوسکتے ہیں۔E&P کمپنیوں کو کسی بھی پروجیکٹ پر کام کرتے وقت لازماً اضافی احتیاطی اقدامات اٹھانے پڑتے ہیں۔ان قواعد وضوابط پر عمل نہ کرنے کی صورت میں اضافی اخراجات، جرمانوں، قانونی چارہ جوئی، کام کے رک جانے اور انسانی جان کے تحفظ جیسے خطروں کا سامنا کرنا پڑتا ہے۔

۸۔بڑھتا ہوا مقابلہ:

تیل اور گیس کی تلاش اور پیداوار کے شعبے میں بڑھتے ہوئے مقابلے اور خاص طور پر تیل کی تلاش کے concession کے حصول کے بڑھتے ہوئے مقابلے کی صورتِ حال کا سامنا ہوسکتا ہے۔اس کے علاوہ مقابلے میں اضافہ، مارجن میں کمی اور ایل پی جی کی فراہمی میں خلل سے کمپنی کے ایل پی جی کے کاروبار پر منفی اثرات پڑ سکتے ہیں۔کمپنی فارم اِن اور فارم آؤٹ معاہدوں کے ذریعے اور E & P کمپنیوں سے شراکت قائم کرنے کے لئے مسلسل کوشاں ہے۔ایل پی جی کے کاروبار میں مارجن کو برقرار رکھنے کی غرض سے کمپنی نے ایل پی جی ذخیرہ کرنے کی مناسب صلاحیت حاصل کرلی ہے اور مزید ایل پی جی

دریافتی قطعات :

اخلاص بلاک (۸۰ فی صد حصص کے ساتھ زیرِ انتظام پی او ایل)، لنگر یال میں ۲۱۳ مربع کلومیٹرز کے علاقے میں 3D ارضیاتی اعداد و شمار پر کام ہو رہا تھا۔ اس وقت تک ۶ ۳ مربع کلومیٹرز پر کام کی تکمیل ہو چکی ہے۔ بہتر نتائج نہ ملنے کی بناء پر مزید کام روک دیا گیا ہے۔ جنڈیال۔ ۲ کی گہرائی کا ہدف حاصل کر لیا گیا ہے۔ اب اس کی جانچ کی جا رہی ہے۔

ڈی جی خان بلاک (۷۰ فی صد حصص کے ساتھ پی او ایل کے زیرِ انتظام)، ڈی جی کے۔ ا کے دریافتی کنویں کی منظوری دی جا چکی ہے۔ فی الوقت رابطہ سڑک اور کنویں کی جگہ تیار کی جا رہی ہے۔

کرتھر جنوبی بلاک (۸۵ فی صد حصص کے ساتھ زیرِ انتظام پی او ایل)، دریافتی سرگرمیوں سے قبل ماحولیاتی مطالعہ کیا جا رہا ہے۔

مارگلہ بلاک (زیرِ انتظام مول جہاں پی او ایل کا حصہ ۳۰ فی صد ہے)، ۲۰۳ لائن کلومیٹرز پر 2D ارضیاتی اعداد و شمار مکمل کر لئے گئے ہیں۔ ان پر عمل اور تشریح بھی کر لی گئی ہے۔ یہاں بہتر اثرات دکھائی دے رہے ہیں۔

تل بلاک (زیرِ انتظام مول جہاں پی او ایل کا قبل از تجارتی پیداوار حصہ ۲۵ فی صد ہے)

کوٹ (KOT) میں ۹۳۔ ۱۵۲ مربع کلومیٹرز علاقے کے ارضیاتی اعداد و شمار کا حصول مکمل ہو گیا ہے اور ان اعداد و شمار پر عمل جاری ہے۔ تل جنوبی میں ۵۱۰ مربع کلومیٹرز کے 3D ارضیاتی اعداد و شمار مکمل ہو چکے ہیں۔

مامی خیل جنوبی۔ ا: یومیہ ۲۴۰، ۳ بیرلز کنڈنسیٹ ۱۲۔ ۱۱۶ ایم ایم ایس سی ایف گیس اور ۸ ۴ بیرلز پانی کی" ۳۲/۶۴ ۲ فکسڈ چوک سائز پر ۷.۴ ۶، ۴ پی ایس آئی بہاؤ کے دباؤ پر جانچ کی گئی۔ اس کنویں کو پیداواری لائن سے منسلک کرنے کے لئے کوششیں جاری ہیں۔

گرگلوٹ بلاک (زیرِ انتظام او جی ڈی سی ایل جہاں پی او ایل کا حصہ ۲۰ فی صد ہے)، ۲۰ ۳ مربع کلومیٹرز 3D ارضیاتی اعداد و شمار کے حصول کا کام مکمل کیا جا چکا ہے۔ ان اعداد و شمار پر عمل / تشریح کا کام جاری ہے۔

توہنگ بلاک (زیرِ انتظام ماری پٹرولیم جہاں پی او ایل کا حصہ ۴۰ فی صد ہے)، 3D ارضیاتی اعداد و شمار کے حصول کی منصوبہ بندی کی جا رہی ہے۔

ذیلی ادارہ :

کیپ گیس (پرائیویٹ) لمیٹڈ:

اِمسال کیپ گیس نے بعد از ٹیکس ۲۔ ۷ ۴ ملین روپے نفع کمایا (۲۰۱۹ : ۶۔ ۹ ملین روپے) اس سال کُل ۶۸۰٪ منافع کا اعلان کیا گیا ہے۔ (۲۰۱۹ : ۳۰۰ فی صد) کمپنی نے یومیہ اوسطاً ۶۸۔ ۲۴ میٹرک ٹن مائع پٹرولیم گیس آہدی پلانٹس سے اور اوسطاً ۶۴۔ ۳ میٹرک ٹن پارکو سے حاصل کی۔

خام تیل کی نقل و حمل :

کھوڑ خام تیل ڈیکینٹنگ کی سہولت پر اطمینان بخش طریقے سے کام ہو رہا ہے۔ دورانِ سال اس سہولت اور پائپ لائن کے ذریعے ۷۔ ۶ ملین بیرل خام تیل (۲۰۱۹ : ۵۔ ۹ ملین بیرل) نشپہ (Nashpa)، تل بلاک اور دیگر مقامات سے اٹک ریفائنری لمیٹڈ کو پمپ کیا گیا۔

کمپنی کو درپیش خطرات اور ان کا تدارک :

کمپنی خطرات کے تدارک کے نظام کو بہتر کرنے، نافذ کرنے اور مسلسل نگرانی کرنے پر عمل پیرا ہے۔ خطرات کی نشاندہی اور ترجیحات مقرر کی گئی ہیں تاکہ ان خطرات سے بہتر طریقے سے نمٹا جا سکے۔

کمپنی کو درپیش کچھ بڑے ممکنہ خطرات اپنے تدارک کے لئے کئے اقدامات سمیت مندرجہ ذیل ہیں :

پنڈوری (۳۵ فی صد حصص کے ساتھ پی او ایل کے زیرِ انتظام) پنڈوری۔ ۱۰ کی کھدائی کا آغاز ۲۸ جنوری ۲۰۱۹ء کو کیا گیا تھا اس کی گہرائی کے ہدف ۱۳،۱۰۷ فٹ کو حاصل کرلیا گیا ہے۔ لوکارٹھ فارمیشن کی صلاحیتوں کو جانچنے کے لئے ڈرل سسٹم ٹیسٹ (DST) کرایا گیا۔ اس کے نتیجے میں کنویں کے درج ذیل ہائیڈروکاربنز کی جانچ کی گئی۔

چوک	پیداواری مقدار	تیل (یومیہ بیرل)	گیس (ملین سٹینڈرڈ مکعب فٹ یومیہ)	پانی (یومیہ بیرل)	ویل ہیڈ فلوئینگ پریشر) پی ایس آئی)

پانی کی جلد آمد کی وجہ سے فی الوقت کنویں سے یومیہ ۵۰ بیرلز تیل اور ۵۔۰ ملین مکعب فٹ گیس حاصل ہورہی ہے۔ دیگر زونز کی جانچ جو اس کنویں کا بڑا ہدف تھا۔ تشخیص کے مرحلے میں ہے۔ اور اس کی جانچ دوسرے مرحلے میں کی جائے گی۔

ٹل بلاک (زیرِ انتظام مول جہاں قبل از تجارتی پیداوار پی او ایل کا حصہ ۲۵ فی صد ہے)

ترقیاتی کنواں مکوڑی ڈیپ۔ ۲ لوکارٹھ فارمیشن کی صلاحیتوں کو جانچنے کے لئے ڈرل سسٹم ٹیسٹ (DST) کرایا گیا۔ جس کے نتیجے میں کنویں سے یومیہ ۱،۸۴۴ بیرلز تیل اور ۲۵۔۱۸ ایم ایم ایس سی ایف گیس" ۳۲/۶۴ فکسڈ چوک سائز پر ۳،۷۶۷ پی ایس آئی بہاؤ کے دباؤ پر پیداوار حاصل ہوئی۔

مکوڑی ڈیپ۔ ۲ کنواں ۱۹/نومبر ۲۰۱۹ء کو پیداواری لائن کے ساتھ منسلک کیا گیا ہے۔ پانی کی آمد کی بناء پر اس کنویں سے یومیہ تقریباً ۸۵۰ بیرلز تیل اور ۸۰۳۸ ملین مکعب فٹ گیس کی پیداوار حاصل ہورہی ہے۔ مردان خیل۔ ۳ بھی ۵/جولائی ۲۰۱۹ء کو پیداواری لائن کے ساتھ منسلک کیا گیا تھا۔ اس وقت اس کنویں سے یومیہ تقریباً ۵۸۔۹ ملین مکعب فٹ گیس اور ۲۴۰ بیرلز تیل کی پیداوار حاصل ہورہی ہے۔

مردان خیل۔ ۴ جگہ کی منظوری دی جا چکی ہے۔

ڈائریکٹرز رپورٹ

شروع اللہ کے نام سے جو بے حد مہربان نہایت رحم کرنے والا ہے۔

السّلامُ علیکم!

ڈائریکٹرز کو ۳۰ جون، ۲۰۲۰ء کو ختم ہونے والے سال کے لئے کمپنی کے مالیاتی نتائج اور سالانہ رپورٹ پیش کرتے ہوئے خوشی محسوس ہو رہی ہے۔

مالیاتی نتائج:

خلاصہ درج ذیل ہے :

	رقم ('۰۰۰)
منافع تمام اخراجات کے بعد	۲۱،۷۳۴،۳۹۶
ٹیکسیشن	(۵،۳۵۸،۵۴۶)
منافع بعد از ٹیکس	۱۶،۳۷۵،۸۵۰

الحمدللہ ! امسال کمپنی نے بعد از ٹیکس ۱۶،۳۷۵.۵۹ ملین روپے نفع کمایا لیکن یہ منافع گذشتہ برس (۲۰۱۹ء : ۱۷،۱۶۸.۷۷ ملین روپے) کی نسبت ۲۹. فی صد کم رہا منافع ظاہر کرتا ہے کہ فی حصص آمدنی ۵۷.۶۹ روپے رہی۔ (۲۰۱۹ء : ۵۹۔۴۴ روپے فی حصص) بحیثیت مجموعی خالص فروخت (Net Sales) ۵،۴۷۲ ملین روپے (۵۔۱۲ فی صد) کم ہوئی۔ جس کی بڑی وجہ خام تیل کی اوسط قیمت میں ۲۶۔۲۲ فی صد کمی اور بالترتیب ۸۷۔۱۲ فی صد خام تیل اور ۸۹۔۸ فی صد گیس کے فروخت کے حجم میں کمی تھی۔ اس کمی کو کچھ حد تک روپے کے مقابلے میں ڈالر کے نرخ میں بہتری نے پورا کیا۔ قیمت فروخت میں ۳۔۱۳ فی صد کمی ہوئی۔ جس کی بڑی وجہ کم Amortisation کنویں کے اضافی اخراجات اور پول گیس کے انتظامی اخراجات میں کمی رہی۔ دریافتی اخراجات میں ۶۴۴ ملین روپے کی کمی ہوئی۔ کیونکہ دوران سال کسی خشک کنویں کی قیمت اخراجات میں شامل نہیں کی گئی۔ مالیاتی اخراجات (روپے کی قدر میں کمی کی وجہ سے) تخفیفی لاگت پر مالیاتی نقصانات میں کمی کی وجہ سے کم ہوئے۔

دیگر آمدنی ۲،۶۱۸ ملین روپے ۵۔۶۳ فی صد کم ہوئی اس کی بڑی وجہ غیر ملکی کرنسی کے کھاتوں میں کم منافع رہا۔ تاہم اس کمی کو کسی حد تک بینکوں میں جمع شدہ رقوم سے حاصل ہونے والی آمدنی نے پورا کر دیا۔ دوران سال کمپنی کا بعد از ٹیکس مجموعی منافع ۱۴،۵۶۵ ملین روپے رہا (۲۰۱۹ء : ۱۳،۲۸۲ ملین روپے) جو ظاہر کرتا ہے کہ فی حصص مجموعی منافع ۵۱۔۲۳ روپے رہا (۲۰۱۹ء : ۴۶۔۷۷ فی حصص) دریافتی سرگرمیوں کا احاطہ آگے ہر جغرافیائی علاقے کی تفصیل کے ساتھ اس رپورٹ میں کیا گیا ہے۔

ANALYSIS OF PERFORMANCE INDICATORS

Liquidity ratio

The overall liquidity ratio of POL is satisfactory and geared towards enhanced liquidity with operating activities generating enough cash to meet majority of the Company needs including the investments activities. Increase in ratios from the previous year is mainly because of cash and bank balances increased by 20% due to lower operating and exploration cost paid.

Profitability ratio

The overall profitability (gross profit and net profit) have increased while other profitability ratio (EBITDA, ROE and ROCE) have seen decline due to lower net sales by decrease sales volume and international crude oil prices as a result of COVID-19.

Activity / Turnover Ratios

POL has seen effective utilization of its assets base to generate high multiples of revenue consistently. Operating cycle has been effectively kept in range by minimal credit sales and improved collection of receivables.

Investment / Market Ratios

POL core objective is to generate consistent high returns for its valued shareholders. This is reflected in steady increase in earnings of the past years and consistent dividend to its valued shareholders. POL shares are highly valued by investors and is considered as a blue chip investment due to high price earnings ratio.

Economic Value Added (EVA)

of Crude Oil decreased by 9.4%, Gas by 3.1 % and POLGAS by 2.4% as compared to corresponding period.

Cost of sales
decreased by 16.1% to Rs3,956 million (Sep 30, 2018: Rs4,714 million), mainly because of lower operating cost and amortization during the current period.

Gross profit
increased by 7.5% to Rs6,295 million (Sep 30, 2018: Rs5,526 million).

Exploration costs
decreased by 48.6% to Rs376 million (Sep 30, 2018: Rs731 million), mainly due to charging of dry and abandon well cost of Mamikhel deep 1 of Rs644.5 million in previous period.

Finance costs
decreased by 65.5% to Rs139 million (Sep 30, 2018: Rs402 million). Exchange difference is lower by Rs475 million due to Rupees appreciation against US dollar as compared to last period. This was offset by unwinding cost increased by Rs212 million as compared to the last period.

Other income
decreased by 44.4% to Rs467 million (Sep 30, 2018: Rs841 million), mainly because of exchange loss and lower dividend received from associated company.

Profit after tax
increased by 3.6% to Rs4,008 million (Sep 30, 2018: Rs3,867 million).

Earnings per share (EPS)
increased by 3.6% to Rs14.12 (Sep 30, 2018: Rs13.62).

Quarter 2

Net sales
increased by 12 % to Rs11,461 million as compared to first quarter due to higher sales volume and higher exchange rate as compared to the first quarter.

Sales volumes
of Crude Oil increased by 8.8%, Gas increased by 2.1% and POLGAS increased by 7.5% as compared to first quarter.

Cost of sales
ncreased by 21.7% to Rs4,824 million as compared to first quarter mainly because of higher royalty and operating costs during the period.

Gross profit
increased by 5.6% to Rs6,637 million as compared to first quarter due to higher sales during the period.

Exploration costs
increased by 7.9% to Rs415 million as compared to first quarter.

Finance costs
increased by 121.4% to Rs309 million as compared to first quarter. Exchange difference is lower by Rs164.8 million due to rupees depreciation against US dollar as compared to last period.

Other income
increased by 51.4% to Rs707 million as compared to first quarter mainly because of lower exchange loss i.e. 230 million as against 467 million in first quarter.

Profit after tax
increased by 13.8% to Rs4,560 million as compared to first quarter due to increase in sales volume as compared to last quarter.

Earnings per share (EPS)
increased by 13.8% to Rs16.07 as compared to first quarter.

Quarter 3

Net sales decreased
by 6.3 % to Rs10,737 million as compared to second quarter due decrease in production and prices during the period.

Sales volumes
of Crude Oil and POLGAS decreased by 2% and by 5% respectively, while Gas increased by 2% as compared to second quarter.

Cost of sales
decreased by 7% to Rs4,470 million as compared to second quarter mainly because of lower amortized cost during the period.

Gross profit
decreased by 6% to Rs6,267 million as compared to second quarter due to lower sales during the period.

Exploration costs
increased by 12% to Rs362 million as compared to second quarter.

Finance costs
increased by 300% to Rs1,240 million as compared to second quarter due to higher appreciation of rupees against US $ during the period.

Other income
increased by 256.7% to Rs2,523 million as compared to second quarter mainly because of higher exchange gain of Rs1,723 million.

Profit after tax
increased by 18% to Rs5,379 million as compared to second quarter due to lower cost of sales and lower income tax as compared to last quarter.

Earnings per share (EPS)
increased by 18% to Rs18.95 as compared to second quarter.

Quarter 4

Net sales decreased
by 47 % to Rs5,746 million as compared to third quarter due to decrease in production and prices as TAL block production remained shut down due to COVID 19.

Sales volumes
of Crude Oil decreased by 25%, Gas decreased by 30% and POLGAS decreased by 22% as compared to third quarter.

Cost of sales
decreased by 42% to Rs2,577 million as compared to third quarter mainly because of lower operating costs, lower royalty paid and lower amortization of development and decommissioning costs during the period.

Gross profit
decreased by 49.4% to Rs3,169 million as compared to third quarter due to lower sales and lower prices during the period.

Exploration costs
decreased by 28% to Rs253 million as compared to quarter third lesser activities due to COVID 19 during the period.

Finance costs
decreased by 58% to Rs524 million as compared to third quarter due to lower depreciation of rupees against US $ during the quarter.

Other income
decreased by 68% to Rs861 million as compared to third quarter mainly because of lower exchange gain and interest income.

Profit after tax
decreased by 55% to Rs2,429 million as compared to third quarter due to decrease in sales volumes and prices as compared to last quarter.

Earnings per share (EPS)
decreased by 55% to Rs8.55 as compared to third quarter.

ANNUAL FINANCIAL REVIEW

Analysis of Statement of Profit or Loss

Sales

Net sales decreased by 12.51 %. Volume variance and Price Variance is negative by Rs 4,949 million and Rs 523 million respectively. Price variance has two components, one is exchange rate which is positive by Rs 5,646 million (decline in Rupee against US $ from Rs 139.18 to Rs 158.54 per US $) and the other is price variance which is negative by Rs 6,169 million. Sales volumes of Crude Oil, Gas and POLGAS decreased by 12.87%, 8.89 % and 10.98%, respectively, as compared to corresponding period mainly due to COVID 19 lockdown as TAL block production remained shut down. Production also decreased due to annual turnaround of MOL plants, (MGPF ATR 15th to 19th July 2019) and CPF (September 2019). Tolanj West-1 was shut in September 2019 to October 2019 to carry out process built up survey. Crude Oil and POLGAS prices decreased by 22.26% and 0.58% respectively, while Gas price increased by 13.94% as compared to corresponding period.

Cost of sales

Cost of sales decreased by 13.3% to Rs 15,827 million (2019: Rs 18,258 million), mainly because of lower operating cost, amortization and lesser royalty paid on decreased sales during the year.

Exploration costs

Exploration costs decreased by 31.4% to Rs 1,405 million (2019: Rs 2,049 million) as last year dry and abandon well cost of Mamikhel deep-1 amounting to Rs 645 million and Hisal amounting to Rs 1,033 million was charged as against nil this year.

Other income

Other income decreased by Rs 3,828 million mainly consisted of exchange gain decrease by Rs 3,336 million due to less depreciation of rupee against US $ as compared to last corresponding period. Dividend from subsidiary & associated companies is lower by Rs 308 million as compared to last corresponding period. Crude transportation income decreased by Rs 77 million mainly due to decrease in throughput. Gas processing fee decreased by Rs 45 million, because of lower quantity of Ratana gas processed. Sale of stores and scrape decreased by Rs 56 million.

The above decreases were offset by increases of Rs1,210 million due to income from bank deposits increased by Rs1,056 million due to higher rate was earned against bank deposits. Dividend on financial assets increased by Rs9 million. Rental income increased by Rs95 million as compared to last period. Profit on sales of property, plant and equipment increased by Rs11 million. Fair value adjustment on investments classified as fair value through profit or loss increased by Rs39 million. Thus, making a net decrease of Rs2,618 million i.e. by 6.5%.

Taxation

The decrease is mainly attributable to addition in development and exploration assets of Rs6.2 billion in current Period. Whereas deferred tax liability has increased due to development and exploration of assets has increased as compared to the last period. Further, in last period super tax was provided for which is nil in current period.

Profit for the year

Profit after tax decreased by 2.9% to Rs16,376 million (2019: Rs16,872 million).

Analysis of Statement of Financial Position

Non-Current Assets:

During the period, the additions to Property, Plant & Equipment was Rs543 million (2019: Rs 736 million). During the period development cost increased by Rs 3,472 million mainly due to addition of Rs 6 million at Balkassar, Rs 708 million at Pindori, Rs 1,666 million at Jhandial, Rs 464 million at Adhi, Rs 443 million in Adhi South and

Rs 186 million in Makori Deep. Decommissioning cost was increased by Rs 174 million due to additional decommissioning liability of Pindori-10, Adhi, Adhi South & Makori Deep wells. Decommissioning cost also increased by Rs 279 million due to revision in decommissioning estimates. Further amortization of development & decommissioning cost during the period is Rs 2,619 million which is net-off by Rs 209 million reversal due to revision in decommissioning estimates. Exploration and Evaluation of Assets of Rs 2,721 million were incurred. It consists of Rs 1,389 million at Balkassar, Rs 380 million at DG. Khan and Rs 1,005 million at Mamikhel South.

Non-Current Liabilities:

Provision for deferred income tax increased by Rs 693 million and increase in decommissioning liability by Rs 2,278 million.

Analysis of Cash Flow Statement

Operating activities:

A total of Rs 35,761 million was available as cash and cash equivalents at the beginning of the year. Cash generated from operations in 2020 higher by 8.6% to Rs 23,263 million (2019: Rs 21,425 million).

Investing activities:

A total of Rs 2,706 million cash was used on investing activities (2019: Rs 137 million) which consists outlay for addition in fixed assets of Rs 6,737 million. It was reduced by inflow from income on bank deposits by Rs 3,061 million, redemption of mutual funds Rs 807 million and dividend income of Rs 155 million.

Financing activities:

Rs 14,170 million of cash were used in financing activities related to payment of dividends. The cash balance includes effect of exchange rate changes of Rs 900 million during the year. Cash and cash equivalents at the end of year 2020 was Rs 43,048 million (2019: Rs 43,048 million).

Analysis of variation in interim results as compared to full year results

Production volumes were higher in Q-1, Q-2, Q-3, as compared to Q-4. The lower production in Q-4 was mainly due to COVID-19 as TAL Block production remained shut down during the month of April 2020.

Price showed a decreasing trend in Q-4 because of decrease in international crude oil prices due to COVID-19.

Gas volumes and prices were on increasing trend except Q-4.

Net sales were decreased by 12.5% due to decrease in international crude oil price because of COVID-19. This decrease was offset against lower cost of sales, exploration and finance cost. Profit after tax of Rs 16,376 million (2019: Rs16,872 million)

INDEPENDENT AUDITOR'S REVIEW REPORT

TO THE MEMBERS OF PAKISTAN OILFIELDS LIMITED

REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Pakistan Oilfields Limited (the Company) for the year ended June 30, 2020 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2020.

Further, we highlight content of paragraph 1 of the statement where the matter of representation of female director on the Board of Directors of the Company has been explained.

STATEMENT OF COMPLIANCE WITH LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

FOR THE YEAR ENDED JUNE 30, 2020

THE COMPANY HAS COMPLIED WITH THE REQUIREMENTS OF THE REGULATIONS IN THE FOLLOWING MANNERS:

1. The total number of directors are seven as per the following, -

   a. Male: 7

   b. Female: None

   The regulation related to representation of female director on the Board is not yet applicable as the manner and terms and conditions are not specified by the Securities and Exchange Commission of Pakistan at the time of election of Directors of the Company.

2. The composition of the Board is as follows:

Category	Names
i. Independent Directors ***	Mr. Shamim Ahmad Khan Mr. Tariq Iqbal Khan
ii. Non-Executive Directors	Mr. Laith G. Pharaon * Mr. Wael G. Pharaon** Mr. Abdus Sattar
iii. Executive Directors	Mr. Shuaib A. Malik Mr. Sajid Nawaz

* Alternate Director Mr. Shuaib A. Malik, Chairman & Chief Executive Pakistan Oilfields Limited

** Alternate Director Mr. Babar Bashir Nawaz

*** Best practices of corporate governance entail having an optimal number and mix of board members with adequate skills and experience.

The current Board of Directors of the Company adequately meets this requirement. Further, existing independent directors play an effective part within the Board and make valuable contribution. Therefore, the fraction (2.3) has not been rounded up.

3. The directors have confirmed that none of them is serving as a director on more than seven listed companies, including this company;

4. The company has prepared a “Code of Conduct” and has ensured that appropriate steps have been taken to disseminate it throughout the Company along with its supporting policies and procedures;

5. The Board has developed a vision/mission statement, overall corporate strategy and significant policies of the Company. The Board has ensured that complete record of particulars of significant policies along with their date of approval or updating is maintained by the Company;

6. All the powers of the Board have been duly exercised and decisions on relevant matters have been taken by the Board/shareholders as empowered by the relevant provisions of the Act and these Regulations;

Name	Role
Mr. Babar Bashir Nawaz	Chairman *
Mr. Shuaib A. Malik	Member
Mr. Abdus Sattar	Member

* Chairman of HR & Remuneration Committee is a non-executive director having vast experience of management and the Board considers him the most suitable for this position who has the required knowledge and experience.

A constitutional petition filed by the Company is currently pending in the Sindh High Court challenging compliance with below mentioned requirements and to declare that the impugned provisions, namely Section 166, proviso to Section 154 of the Companies Act 2017; Regulations 6,7,9,16,28 and 29 of the Listed Companies (Code of Corporate Governance) Regulations, 2017 [which are now replaced by Regulation 6, 7, 9, 27, 28 (Regulation 16 of 2017 Regulations deleted) of the Listed Companies (Code of Corporate Governance) Regulations, 2019]; S.R.O 556(i)/2018; and S.R.O 73(i)/2018 relating to appointment of independent directors on the Board of Directors, appointment of independent director as Chairman of the Audit Committee and HR & Remuneration Committee, appointment of female director on the Board and appointment of separate persons as Chairman of the Board and Chief Executive of the Company are illegal and unconstitutional and to strike them down; and to further declare that shareholders are lawfully entitled to elect Directors and to elect a Chairman of the Board of Directors without reference to the impugned provisions. The law officer of Securities and Exchange Commission of Pakistan has undertaken that no action contrary to the law would be taken against the Company.

The Chairman and Chief Executive is the same person. The duties of both positions are distinct and clearly spelled out. These positions are handled by one person since long who is managing the affairs of the Company successfully. He has exhaustive knowledge and experience of the Company's business and the Board is very much satisfied and considers him the most suitable person for these positions.

The Board itself has constituted Audit Committee and HR & Remuneration Committee and also feels that there is no need to have separate Nomination Committee.

The Board itself and through its Audit Committee continuously reviews business risks facing the Company to ensure that a sound system of risk identification, risk management and implementation of related systemic and internal controls exists. Major risks and mitigating factors are also published in annual report of the Company. The Board feels that there is no need to have separate Risk Management Committee.

13. The terms of reference of the aforesaid committees have been formed, documented and advised to the committee for compliance.

14. The frequency of meetings (quarterly/half yearly/ yearly) of the committee were as per following:

Committee	Frequency
Audit Committee	Quarterly
HR and Remuneration Committee	Yearly

15. The Board has set up an effective internal audit function.

16. The statutory auditors of the company have confirmed that they have been given a satisfactory rating under the Quality Control Review program of the Institute of Chartered Accountants of Pakistan and registered with Audit Oversight Board of Pakistan, that they and all their partners are in compliance with International Federation of Accountants (IFAC) guidelines on code of ethics as adopted by the Institute of Chartered Accountants of Pakistan and that they and the partners of the firm involved in the audit are not a close relative (spouse, parent, dependent and non-dependent children) of the chief executive officer, chief financial officer, head of internal audit, company secretary or director of the Company;

17. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the Act, these Regulations or any other regulatory requirement and the auditors have confirmed that they have observed IFAC guidelines in this regard.

18. We confirm that all requirements of regulations 3, 6, 7, 8, 27, 32, 33 and 36 of the Regulations have been complied with. Also refer paragraph 1 of the Statement.

19. Explanation for non-compliance with requirements, other than regulations 3, 6, 7, 8, 27, 32, 33 and 36 of the Regulations have been given in paragraph 10 & 12.

We have audited the annexed financial statements of Pakistan Oilfields Limited (the Company), which comprise the statement of financial position as at June 30, 2020, and the statement of profit or loss, the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2020 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

S.No.	Key Audit Matters	How the matter was addressed in our audit
(i)	**Analysis of impairment of development and decommissioning costs and exploration and evaluation assets** *(Refer note 14 and 15 to the financial statements)* As at June 30, 2020, the development and decommissioning costs amounted to Rs 12,356 million and exploration and evaluation assets amounted to Rs 2,774 million. The Company assesses at the end of each reporting period whether there is any indication that a Cash Generating Unit (CGU) may be impaired. Where impairment indicator is triggered for any CGU, an impairment test is performed by the Company based on estimates of the value in use of that CGU. The calculation of value in use of development and decommissioning costs requires the exercise of significant management's estimates and judgements on certain assumptions such as (i) estimation of the volume of oil and gas recoverable reserves; (ii) estimation of future oil and gas prices; (iii) cost profiles and inflation applied; (iv) foreign exchange rates; and (v) discount rates. We considered this matter as key audit matter due to significant value of the related assets at reporting date and due to significance of judgements used by management.	Our audit procedures in relation to management's impairment test, amongst others, included the following: • Assessed the methodology used by management to estimate value in use of each CGU; • Assessed the assumptions of cash flow projections in calculation of the value in use of CGUs, challenging the reasonableness of key assumptions i.e. oil and gas reserves, oil and gas prices, production costs, foreign exchange rates and discount rates based on our knowledge of the business and industry by comparing the assumptions to historical results, and published market and industry data; • Assessed the impairment indicators as per IFRS 6 "Exploration for and Evaluation of Mineral Resources" for material balances included in exploration and evaluation assets; • Performed sensitivity analysis in consideration of the potential impact of reasonably possible downside changes in assumptions relating to oil and gas prices and discount rate; and • Assessed the appropriateness of disclosures made in the financial statements.

S.No.	Key Audit Matters	How the matter was addressed in our audit
(ii)	**Investment in associated company** *(Refer note 16 to the financial statements)* The Company has investment in its associated company National Refinery Limited (NRL). As at June 30, 2020, the carrying amount of investment in above referred associated company amounted to Rs 8,047 million which carrying value is higher by Rs 5,902 million in relation to the quoted market value of such shares. The Company carries out impairment assessment of the value of Investment where there are indicators of impairment. The Company has assessed the recoverable amount of the investment in associated companies based on the higher of the value-in-use ("VIU") and fair value. VIU is based on a valuation analysis carried out by an independent external investment advisor engaged by the management using a discounted cash flow model which involves estimation of future cash flows. This estimation is inherently uncertain and requires significant judgement on both future cash flows and the discount rate applied to the future cash flows. In view of significant management judgement involved in the estimation of value in use we consider this as a key audit matter.	Our audit procedures in relation to assessment of carrying value of investment in associated company, amongst others, included the following: • Assessed the appropriateness of management's accounting for investment in associated company; • Considered management's process for identifying the existence of impairment indicators in respect of investment in associated company; • Evaluated the independent external investment advisor's competence, capabilities and objectivity; • Assessed the valuation methodology used by the independent external investment advisor; • Checked, on sample basis the reasonableness of the input data provided by the management to the independent external investment advisor, to supporting evidence; • Assessed the reasonableness of cash flow projection, challenging and performing audit procedures on assumptions such as growth rate, future revenue and costs, terminal growth rate and discount rate by comparing the assumptions to historical results, budgets and comparing the current year's results with prior forecast and other relevant information; • Tested mathematical accuracy of cash flows projection; • Performed independently a sensitivity analysis in consideration of the potential impact of reasonably possible upside or downside changes in key assumptions; and • Assessed the appropriateness of disclosures made in the financial statements.

S.No.	Key Audit Matters	How the matter was addressed in our audit
(iii)	**Recognition of Revenue** *(Refer note 4.24 and 25 to the financial statements)* The Company is engaged in the production and sale of oil and gas resources. The Company recognised net sales during the year from the sale of crude oil, natural gas and POLGAS – Refill of cylinders amounting to Rs 17,264 million, Rs 14,136 million and Rs 6,567 million respectively. Revenue is recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the product. Revenue is measured at the fair value of the consideration to which the Company expects to be entitled in exchange for transferring good/ services. Effect of adjustments, if any, arising from revision in sale prices is reflected as and when the prices are finalised with the customers and / or approved by Government of Pakistan. We considered this as key audit matter due to the significance of the amounts requiring significant time and resource to audit due to magnitude, inherent risk of material misstatement and revenue being a key economic indicator of the Company.	Our audit procedures in relation to the matter, amongst others, included the following: • Assessed the design, implementation and operating effectiveness of the relevant key internal controls over revenue recognition from the sale of products; • Performed test of details on sample basis for sales transactions by inspecting respective invoices, delivery challans and acknowledgement of customers; • Checked on sample basis, notifications of OGRA for natural gas and POLGAS prices. For POLGAS, also checked on sample basis Company's mechanism for the calculation of price based on OGRA's notification. Performed, on a sample basis, recalculation of crude oil and natural gas prices in accordance with applicable petroleum policies / agreements/ decision of Economic Coordination Committee of the Cabinet; • Where pricing is provisional / sales agreement not finalised, (a) reviewed correspondence with the customers and relevant government authorities during the year and held discussions with the Company; (b) inspected term sheets etc; and (c) checked price recorded is in line with applicable petroleum policy / agreed with the customers; • Assessed sales transactions on either side of the statement of financial position date to assess whether they are recorded in relevant accounting period; • Performed analytical procedures to analyse variation in the price and quantity sold during the year; • Tested journal entries related to revenue recognized during the year based on identified risk criteria; and • Assessed the appropriateness of disclosures made in the financial statements.

S.No.	Key Audit Matters	How the matter was addressed in our audit
(iv)	**Litigation with respect to conversion of TAL Block petroleum concession to Petroleum Policy 2012** *(Refer note 25 to the financial statements)* The Ministry of Energy (Petroleum Division) issued a notification dated December 27, 2017 (SRO) which requires that the Supplemental Agreement already executed in respect of TAL block for conversion of petroleum concession from Petroleum Exploration and Production Policy 1997 to Petroleum Exploration and Production Policy 2012 shall be amended (within 90 days) to include Windfall Levy on Oil and Condensate (WLO), failing which the working interest owners will not remain eligible for gas price incentive as per Petroleum Policy 2012. The impugned notification has been issued after the approval of Council of Common Interest (CCI) dated November 24, 2017. The Company has challenged the said notification in the Islamabad High Court and the matter is pending before the Court in principle on the ground that an already executed arrangement cannot be retrospectively altered unilaterally. The Honourable Court has restrained the Government for any action under the impugned notification and to maintain status quo. Company's contention is duly supported by the legal advice on the matter. The supplemental agreement was signed under the conversion package where gas price was enhanced and WLO was not applicable. The impugned SRO, by giving retrospective effect, amounts to taking away the vested rights already accrued in favour of the Company. As per the legal opinion Government has no authority to give any law or policy a retrospective effect. The Company has not recognised the revenue (net of sales tax) to the extent of Rs 13,949 million since inception to June 30, 2020 on account of enhanced gas price incentive due to conversion from Petroleum Policy 1997 to Petroleum Policy 2012 and will be accounted for upon resolution of this matter. We considered this as key audit matter due to the significant amounts involved and significant judgments made by management regarding the matter.	Our audit procedures in relation to the matter, amongst others, included the following: · Reviewed Petroleum Concession Agreement (PCA) and Supplemental Agreements signed with the Government of Pakistan; · Reviewed SRO issued by the Ministry of Energy; · Reviewed relevant clauses of Petroleum Exploration & Production Policy 2012 for applicability of WLO; · Discussed the matter with directors, management and internal legal department of the Company; · Obtained confirmation from the Company's external legal advisor and reviewed legal opinion obtained by the Company and the order issued by the Islamabad High Court; · Evaluated technical ability of the internal and external legal advisors used by the Company; · Assessed the matter under applicable accounting frame work; and · Reviewed the disclosures made in the financial statements in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

(a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

(b) the statement of financial position, the statement of profit or loss, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

(c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and

(d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Asim Masood Iqbal.

1. LEGAL STATUS AND OPERATIONS

Pakistan Oilfields Limited (the Company) is incorporated in Pakistan as a public limited company and its shares are quoted on Pakistan Stock Exchange Limited. The registered office of the Company is situated at Morgah, Rawalpindi. The Company is principally engaged in exploration, drilling and production of crude oil and gas in Pakistan. Its activities also include marketing of liquefied petroleum gas under the brand name POLGAS and transmission of petroleum. The Company is a subsidiary of The Attock Oil Company Limited, UK and its ultimate parent is Coral Holding Limited.

Geographical location and addresses of all other business units of the Company have been disclosed in note 44.

2. STATEMENT OF COMPLIANCE

These are separate financial statements of the Company. These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

3. NEW AND AMENDED STANDARDS AND INTERPRETATIONS

- IFRS 16 "Leases" has replaced IAS 17 "Leases", the former lease accounting standard, and has become effective from annual accounting periods beginning on or after January 1, 2019. Under the new standard, almost all leases which meet the criteria described in the standard will be recognized on the statement of financial position with only exceptions of short term and low value leases. Under IFRS 16, an asset (the right to use the leased item) is recognized along with corresponding financial liability to pay rentals at the present value of future lease payments over the lease term, discounted with the specific incremental borrowing rate.

The Company's lease portfolio includes lease contracts which are extendable through mutual agreement between counter parties or cancellable by both parties immediately or on a short notice. Accordingly, the Company has concluded that where the lease term of contracts are short-term in nature i.e. with a lease term of twelve months or less at the commencement date, right of use assets is not recognized and payments made in respect of these leases are expensed in the statement of profit or loss.

The Company has adopted IFRS 16 from July 1, 2019 using the modified retrospective approach and the Company has assessed that the adoption of IFRS 16 does not have any material financial impact on these financial statements.

In applying IFRS 16 for the first time, the Company has used the following practical expedient permitted by the standard:

- The accounting for operating leases with a remaining lease term of less than 12 months as at July 1, 2019 as short-term leases

During the year, Rs 998,207 thousand have been capitalised in Development & Decommissioning costs and Exploration & Evaluation assets in respect of short-term leases.

- As per Securities and Exchange Commission of Pakistan (SECP) SRO 985 (1)/ 2019, dated September 2, 2019, for companies holding financial assets due from Government of Pakistan, the requirements contained in IFRS 9 with respect to expected credit losses method shall not be applicable till June 30, 2021, provided that such companies shall follow relevant requirements of IAS 39 – Financial Instruments: Recognition and Measurement, in respect of above referred financial assets during the exemption period. The Company has assessed that the above SRO does not have any significant impact on its financial statements.

3.1 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company:

		Effective date (annual reporting periods beginning on or after)
IAS 1	Presentation of financial statements (Amendments)	January 1, 2020
IAS 8	Accounting policies, changes in accounting estimates and errors (Amendments)	January 1, 2020
IAS 16	Property, Plant and Equipment (Amendments)	January 1, 2022
IAS 37	Provisions, Contingent Liabilities and Contingent Assets (Amendments)	January 1, 2022
IAS 41	Agriculture (Amendments)	January 1, 2020
IFRS 3	Business Combinations (Amendments)	January 1, 2020
IFRS 4	Insurance Contracts (Amendments)	January 1, 2023
IFRS 7	Financial Instruments : Disclosures (Amendments)	January 1, 2020
IFRS 9	Financial Instruments (Amendments)	January 1, 2020
IASB	Conceptual framework for financial reporting (Revised)	January 1, 2020
IFRS 16	Leases (Amendments)	June 1, 2020

The management anticipates that adoption of above standards, amendments and interpretations in future periods, will have no material impact on the financial statements other than in presentation / disclosures.

3.2 Further, the following new standards and interpretations have been issued by the International Accounting Standards Board (IASB), which are yet to be notified by the Securities and Exchange Commission of Pakistan (SECP), for the purpose of their applicability in Pakistan:

IFRS 1	First-time Adoption of International Financial Reporting Standards
IFRS 17	Insurance contracts

3.3 The following interpretation issued by the IASB has been waived off by SECP:

IFRIC 12	Service concession arrangements

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of measurement

These financial statements have been prepared under the historical cost convention except as otherwise disclosed in the respective accounting policy notes.

4.2 Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions. The management has determined that the Company has a single reportable segment as the Board of Directors views the Company's operations as one reportable segment.

4.3 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Pakistan Rupees, which is the Company's functional currency.

4.4 Foreign currency transactions and translation

Transactions in foreign currencies are recorded at the rates of exchange ruling on the date of transaction. All assets and liabilities in foreign currencies are translated into rupees at the rates of exchange ruling on the date of the statement of financial position. Exchange differences are dealt with through the statement of profit or loss.

4.5 Taxation

Provision for current taxation is based on taxable income at applicable tax rates, adjusted for royalty payments to the Government.

Deferred tax is accounted for on all temporary differences using the liability method. Deferred tax liability has been calculated at the estimated effective rate of 30% after taking into account availability of future depletion allowance and set off available in respect of royalty payments to the Government.

4.6 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events and when it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

4.7 Provision for decommissioning costs

Provision for decommissioning costs is recognized in full for development wells and production facilities. The amount recognized is the present value of the estimated cost to abandon a well and remove production facilities. A corresponding intangible asset of an amount equivalent to the provision is also created and is amortized on unit of production basis over the total proved developed reserves of the field or @ 5% where the life of a field is more than 20 years.

Most of these abandonment and removal events are many years in the future and the precise requirements that will have to be met when the abandonment and removal event actually occurs are uncertain. Abandonment and asset removal technologies and costs are constantly changing, as are political, environmental, safety and public expectations. Consequently, the timing and amount of future cash flows are subject to significant uncertainty.

The timing and amount of future expenditures are reviewed annually, together with the interest rate to be used in discounting the cash flows. Any difference between the liability recognized and actual costs incurred are charged/credited to statement of profit or loss in the year of decommissioning.

The effect of changes resulting from revisions to the estimate of the liability are incorporated on a prospective basis.

The decommissioning cost has been discounted at a real discount rate of 1.65% (2019: 4.03%) per annum.

4.8 Employee compensated absences

The Company provides for compensated absences for all eligible employees in accordance with the rules of the Company.

4.9 Staff retirement benefits

The Company operates the following staff retirement benefits plans:

(i) A pension plan for its management staff and a gratuity plan for its management and non-management staff. The pension and gratuity plans are invested through approved trust funds. Both are defined benefit final salary plans. The pension and gratuity plans are complementary plans for management staff. Pension payable to management staff is reduced by an amount determined by the actuary equivalent to amount paid by the gratuity fund. Management staff hired after January 1, 2012 are only entitled to benefits under gratuity fund. Actuarial valuations are conducted annually using the "Projected Unit Credit Method" and the latest valuation was conducted as at June 30, 2020.

Actuarial gain and losses arising from experience adjustments and change in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past service costs are recognized immediately in statement of profit or loss.

Since both are complementary plans, combined details and valuation for pension plan and gratuity plan are given in note 38.

(ii) Separate approved contributory provident funds for management and non-management employees for which contributions are made by the Company and the employee at the rate of 10% of basic salary.

(iii) These include charge against employee retirement benefits of Rs 103,205 thousand (2019: Rs 97,202 thousand).

4.10 Trade and other payables

Liabilities for trade and other payables are carried at cost which is the fair value of the consideration to be paid in future for goods and services received.

4.11 Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

4.12 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses except for freehold land and capital work in progress, which are stated at cost.

Depreciation is provided on straight line method at rates specified in note 13.1 to the financial statements. Depreciation is charged on additions from the month the assets become available for the intended use up to the month in which these are derecognized.

Maintenance and normal repairs are charged to income as and when incurred. Major renewals and improvements are capitalized and the assets so replaced, if any, are retired. Gains and losses on derecognition of assets are included in income currently.

4.13 Exploration assets/ costs and development costs

4.13.1 Exploration and development costs are accounted for using the “Successful Efforts Method” of accounting.

4.13.2 Exploration costs

All exploration costs, other than those relating to exploratory drilling, are charged to income as incurred. Exploratory drilling costs i.e. costs directly associated with drilling of an exploratory well, are initially capitalized pending determination of proven reserves. These costs are either charged to income if no proved reserves are found or transferred to development costs after impairment loss, if proved reserves are found.

All capitalized costs are subject to review for impairment at least once a year and any impairment determined is immediately charged to income.

4.13.3 Development costs

Development costs are stated at cost less accumulated amortization and impairment losses. Expenditure on drilling of development wells, including unsuccessful development wells, is capitalized within development costs. Capitalized development costs are amortized on a unit of production basis over the total proved developed reserves of the field or @ 5% per annum where the life of the field is more than 20 years.

4.14 Investments in subsidiary and associated companies

These are carried at cost less impairment losses. The profits and losses of the subsidiary and associated companies are carried forward in the financial statements of the subsidiary and associated companies and not dealt within or for the purpose of these financial statements except to the extent of dividend declared by the subsidiary and associated companies. Gain and loss on disposal of investment is included in income currently.

4.15 Stores and spares

Stores and spares are valued at cost determined on moving average formula less allowance for obsolete items. Stores in transit are stated at invoice value plus other charges paid thereon.

4.16 Stock in trade

Stocks are valued at the lower of average annual cost (including appropriate production overheads) and net realizable value. Net realizable value is determined on the basis of estimated selling price of the product in the ordinary course of business less costs necessary to be incurred for its sale.

4.17 Impairment of non-financial assets

Assets that have an indefinite useful life, for example land, are not subject to depreciation and are tested annually for impairment. Assets that are subject to depreciation are reviewed for impairment at each statement of financial position date, or wherever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount for which the asset's carrying amount exceeds its recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each statement of financial position date. Reversals of the impairment loss are restricted to the extent that asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no new impairment loss had been recognized. An impairment loss or reversal of impairment loss is recognized in income for the year.

4.18 Trade debts and other receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components when they are recognised at fair value. They are subsequently measured at amortised cost using the effective interest rate method, less loss allowance. Refer note 4.21 for a description of the Company's impairment policies.

4.19 Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument. All the financial assets are derecognized at the time when the Company losses control of the contractual rights that comprise the financial assets. All financial liabilities are derecognized at the time when they are extinguished that is, when the obligation specified in the contract is discharged, cancelled, or expired. Any gains or losses on derecognition of the financial assets and financial liabilities are taken to the statement of profit or loss.

4.20 Financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

(i) Amortised cost where the effective interest rate method will apply;

(ii) Fair value through profit or loss (FVTPL); and

(iii) Fair value through other comprehensive income (FVTOCI)

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income (OCI). For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVTOCI).

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset. Further, financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in statement of profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company can classify its debt instruments:

a) Amortised cost

Financial assets that are held for collection of contractual cash flows where the contractual terms of the financial assets give rise on specified dates to cash flows that represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

b) Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the contractual terms of the financial asset give rise on specified dates to cash flows that represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses and interest revenue, and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to statement of profit or loss and recognised in other income. Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income and impairment expenses are presented as separate line item in the statement of profit or loss.

c) Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in profit or loss and presented net within other income in the period in which it arises.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in statement of profit or loss.

4.21 Impairment of financial assets

The Company assesses on a historical as well as on a forward looking basis the expected credit losses (ECL) as associated with its trade debts, deposits and other receivables and cash and bank balances carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade debts, the Company applies IFRS 9 simplified approach to measure the expected credit losses (loss allowance) which uses a lifetime expected loss allowance while general 3-stage approach for deposits and other receivables and cash and bank balances i.e to measure ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition.

Following are financial instruments that are subject to the ECL model:

- Trade debts
- Deposits and other receivables
- Cash and bank balances

(i) General approach for short term investment, deposits and other receivables and cash and bank balances.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information (adjusted for factors that are specific to the counterparty, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate). As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Loss allowances are forward looking, based on 12 month expected credit losses where there has not been a significant increase in credit risk rating, otherwise allowances are based on lifetime expected losses.

Expected credit losses are a probability weighted estimate of credit losses. The probability is determined by the risk of default which is applied to the cash flow estimates. In the absence of a change in credit rating, allowances are recognised when there is reduction in the net present value of expected cash flows. On a significant increase in credit risk, allowances are recognised without a change in the expected cash flows, although typically expected cash flows do also change; and expected credit losses are rebased from 12 month to lifetime expectations.

Significant increase in credit risk

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of a default occurring on the instrument as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forward-looking information.

The following indicators are considered while assessing credit risk

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its obligations;
- actual or expected significant changes in the operating results of the debtor;
- significant increase in credit risk on other financial instruments of the same debtor; and
- significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees, if applicable.

Definition of default

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collaterals held by the Company).

Irrespective of the above analysis, in case of trade debts, the Company considers that default has occurred when the debt is more than 365 days past due, unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit - impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

(ii) Simplified approach for trade debts

The Company recognises lifetime ECL on trade debts, using the simplified approach. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Trade debts with individually significant balance are separately assessed for ECL measurement. All other receivables are grouped and assessed collectively based on shared credit risk characteristics and the days past due. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments;
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Recognition of loss allowance

The Company recognizes an impairment gain or loss in the statement of profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

Write-off

The Company write off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Company may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains.

4.22 Financial Liabilities

Classification, initial recognition and subsequent measurement

Financial liabilities are classified in the following categories:

- fair value through profit or loss; and
- other financial liabilities.

The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in case of other financial liabilities also include directly attributable transaction costs. The subsequent measurement of financial liabilities depends on their classification, as follows:

a) Fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as being at fair value through profit or loss. The Company has not designated any financial liability upon recognition as being at fair value through profit or loss.

b) Other financial liabilities

After initial recognition, other financial liabilities which are interest bearing subsequently measured at amortized cost, using the effective interest rate method. Gains and losses are recognized in profit or loss for the year, when the liabilities are derecognized as well as through effective interest rate amortisation process.

Derecognition of financial liabilities

The Company derecognises financial liabilities when and only when the Company's obligations are discharged, cancelled or they expire.

4.23 Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position if the Company has a legally enforceable right to setoff the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

4.24 Revenue recognition

Revenue is recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the product. Revenue is recognised as follows:

a) Crude oil, upon delivery to customer;
b) Natural gas, upon delivery to the customer; and
c) Liquefied Petroleum Gas (LPG), upon delivery to distributors at LPG plant facility

Revenue is measured at the fair value of the consideration to which the Company expects to be entitled in exchange for transferring goods/services. Effect of adjustment, if any, arising from revision in sale price is reflected as and when the prices are finalized with the customers and/or approved by the Government.

Billings are generally raised in the following month which are payable within 30 to 45 days in accordance with the contractual arrangement with customers.

Income on investments at amortised costs and bank deposits is recognized on time proportion basis using the effective yield method.

Dividend income is recognized when the right to receive dividend is established.

4.25 Joint arrangements

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual right and obligations of the parties to the arrangement. The Company has assessed the nature of its joint arrangements and determined them to be joint operations.

The Company has recognized its share of assets, liabilities, income and expenditure jointly held or incurred under the joint operations on the basis of latest available audited accounts of the joint operations and where applicable, the cost statements received from operators of the joint arrangements for the intervening period up to the statement of financial position date.

4.26 Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise cash in hand, demand deposits and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value, and finances under mark up arrangements.

4.27 Dividend distribution

Dividend distribution to the shareholders is accounted for in the period in which dividend is declared.

4.28 Leases

4.28.1 Right of use asset

The Company assesses whether a contract is or contains a lease at inception of the contract. If the Company assesses contract contains a lease and meets requirements of IFRS 16, the Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

4.28.2 Lease liability

If applicable, the lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments in the measurement of the lease liability comprise the following:

a. fixed payments, including in-substance fixed payments;
b. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
c. amounts expected to be payable under a residual value guarantee; and
d. the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Variable lease payments are recongnised in profit or loss in the period in which the condition that triggers those payments occurs.

The Company has opted not to recognize right of use asssets for short-term leases i.e. leases with a term of twelve(12) months or less. The payments associated with such leases are recognized in profit or loss when incurred.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with approved accounting standards requires the use of certain accounting estimates. It also requires management to exercise judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectation of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgment was exercised in application of accounting policies are as follows:

i) Estimated crude oil/gas reserves used for amortization of development and decommissioning costs - note 4.13 and 14

ii) Estimated useful life of property, plant and equipment - note 4.12 and 13.1

iii) Estimated costs, discount and inflation rate used for provision for decommissioning costs - note 4.7 and 9.2

iv) Estimate of recoverable amount of investment in associated Company - note 4.14 and 16

v) Estimated value of staff retirement benefits obligations - note 4.9 and 38

vi) Provision for taxation - note 4.5 and 33

vii) Price adjustment related to crude oil sales - note 4.24 and 25

viii) Impairment of financial assets - note 4.21

ix) Right of use asset and corresponding lease liability - note 4.28

25.1 On August 28, 2015, the Company signed the Supplemental Agreement with the Government of Pakistan (the Government) for conversion of TAL Block Petroleum Concession Agreement (PCA) signed under the 1997 Petroleum Policy to Petroleum (Exploration & Production) Policy 2012 (Petroleum Policy 2012). Price regimes prevailing in Petroleum Policy 2007, Petroleum Policy 2009 and Petroleum Policy 2012 shall be applicable correlated with the spud date of wells in the respective policies starting from November 27, 2007 and for future exploratory efforts under the above mentioned block. The conversion package included Windfall levy on Natural gas only. Draft statements specifying sums aggregating US $ 34,213 thousand (Rs 3,393,389 thousand) till June 30, 2015 due to the Company in respect of Mamikhel, Maramzi & Makori East discoveries in TAL block were submitted to the Government on December 8, 2015. On October 9, 2017 Oil and Gas Regulatory Authority (OGRA) issued gas price notifications of the subject arears.

On December 27, 2017, the Ministry of Energy (Petroleum Division) notified certain amendments in Petroleum Policy 2012 which also included addition of following explanation of conversion package:

“the conversion package shall include (i) price of Natural Gas for New Exploration Efforts (ii) windfall levy on Natural Gas (iii) EWT gas production, pricing and obligations (iv) Windfall levy on Oil & Condensate, only for PCAs converting from 1994 and 1997 Petroleum Policies and (v) Financial obligations relating to production bonus, social welfare and training”.

Under the said Notification, the Supplemental Agreements already executed for conversion from Petroleum policies of 1994 & 1997 shall be amended within 90 days, failing which the working interest owners will not remain eligible for gas price incentive. On January 3, 2018, Directorate General Petroleum Concessions (DGPC) has required all exploration and production companies to submit supplemental agreements to incorporate the aforementioned amendments in Petroleum Concession Agreements (PCAs) signed under 1994 and 1997 policies, for execution within the stipulated time as specified above.

Based on legal advice, the Company is of the view that already executed Supplemental Agreement cannot be changed unilaterally, the Supplemental Agreement was signed under the Conversion Package where gas price was enhanced and Windfall Levy on Oil/Condensate (WLO) was not applicable, the impugned SRO by giving retrospective effect amounts to taking away the vested rights already accrued in favour of the Company. The Government has no authority to give any law or policy a retrospective effect. The Company filed Constitutional Petition challenging the imposition of WLO on February 19, 2018 against Federation of Pakistan through Ministry of Energy (Petroleum Division), Islamabad. The Honorable Islamabad High Court after hearing the petitioner on February 20, 2018, directed the parties to maintain the status quo in this respect. The case came up for hearing on June 12, 2019 but was adjourned on the request of legal counsel of the Government. The Islamabad High Court had fixed March 19, 2020 as next date of hearing, but the hearing was cancelled due to preventive measures taken in the courts amid Coronavirus.

On prudent basis additional revenue (net of sales tax) on account of enhanced gas price incentive due to conversion from Petroleum Policy 1997 to Petroleum Policy 2012 since inception to June 30, 2020 amounting to Rs 13,949,495 thousand will be accounted for upon resolution of this matter (including Rs 10,855,542 thousand related to period since inception to June 30, 2019). Additional revenue on account of enhanced gas price incentive of Rs 15,389,552 thousand including sales tax of Rs 2,236,089 thousand received from customer on the basis of notified prices has been shown as "Other liabilities" under "trade and other payables".

37.3 FINANCIAL RISK MANAGEMENT

37.3.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including currency risk, interest rates risk and price risk). The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

(a) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

As of June 30, 2020, trade debts of Rs 3,951,419 thousand (2019: Rs 2,188,039 thousand) were past due but not impaired. The ageing analysis of these trade receivables is as follows:

	2020	2019
	Rupees ('000)	
Related parties		
Up to 3 months	49,655	824,827
3 to 6 months	229,139	1,525
6 to 12 months	768,602	1,591
Above 12 months	-	31,277
	1,047,396	859,220
Others		
Up to 3 months	763,195	1,314,242
3 to 6 months	1,521,465	773
6 to 12 months	595,363	550
Above 12 months	24,000	13,254
	2,904,023	1,328,819
	3,951,419	2,188,039

(b) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company manages liquidity risk by maintaining sufficient cash and marketable securities. At June 30, 2020, the Company had financial assets of Rs 51,671,953 thousand (2019: Rs 46,032,785 thousand).

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the maturity date. The amounts disclosed in the table are undiscounted cash flows which have been inflated using appropriate inflation rate, where applicable.

	Less than 1 year	Between 1 to 5 years	Over 5 years
		Rupees ('000)

Long term deposits	-	844,756	-
Trade and other payables	16,432,998	-	-
Unclaimed dividend	191,166		

(c) Market risk

(i) Currency risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign exchange risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Company is exposed to currency risk arising from currency exposure with respect to the US dollar. Currently foreign exchange risk is restricted to trade debts, bank balances, receivable from/ payable to joint operating partners, payable to suppliers and provision for decommissioning costs.

Financial assets include Rs 48,920,065 thousand (2019: Rs 36,206,859 thousand) and financial liabilities include Rs 226,988 thousand (2019: Rs 1,751,687 thousand) which are subject to currency risk.

If exchange rates had been 10% lower/higher with all other variables held constant, profit after tax for the year would have been Rs 13,451,018 thousand lower/higher (2019: Rs 1,585,050 thousand higher/lower).

(ii) Interest rate risk

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company has no significant long term interest bearing financial assets and liabilities whose fair value or future cash flows will fluctuate because of changes in market interest rates.

Financial assets include Rs 43,046,489 thousand (2019: Rs 35,756,123 thousand) which are subject to interest rate risk. Applicable interest rates for financial assets have been indicated in respective notes.

If interest rates had been 1% higher/ lower with all other variables held constant, profit after tax for the year would have been Rs 275,390 thousand (2019: Rs 174,511 thousand) higher/ lower, mainly as a result of higher/ lower interest income from these financial assets.

(iii) Price risk

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar instruments traded in the market.

The Company is exposed to equity securities price risk because of investments held by the Company and classified on the statement of financial position as investments classified as fair value through profit or loss . To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the investment policy of the Company.

Investments classified as fair value through profit or loss of Rs 6,519 thousand (2019: Rs 813,478 thousand) were subject to price risk.

37.3.2 Capital risk management

The Company's objectives when managing capital are to ensure the Company's ability not only to continue as a going concern but also to meet its requirements for expansion and enhancement of its business, maximize return of shareholders and optimize benefits for other stakeholders to maintain an optimal capital structure and to reduce the cost of capital.

In order to achieve the above objectives, the Company may adjust the amount of dividends paid to shareholders, issue new shares through bonus or right issue or sell assets to reduce debts or raise debts, if required.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. The gearing ratio of the Company has always been low and the Company has mostly financed its projects and business expansions through equity financing. Further, the Company is not subject to externally imposed capital requirements.

37.3.3 Fair value of financial assets and liabilities

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. The table below analyzes financial assets that are measured at fair value, by valuation method. The different levels have been defined as follows:

- Level 1 : Quoted prices in active markets for identical assets and liabilities;
- Level 2 : Observable inputs ; and
- Level 3 : Unobservable inputs

The Company held the following financial assets at fair value:

	Level 1	Level 2	Level 3	Total
	Rupees ('000)			
June 30, 2020				
Other financial assets classified as fair value through profit or loss	6,519	-	-	6,519

Closing defined benefit obligation	1,519,369	1,500,143

		2020	2019
		Rupees ('000)	
38.5	Changes in fair value of plan assets are as follows:		
	Opening fair value of plan assets	1,553,843	1,471,863
	Interest income	208,533	128,413
	Remeasurement (loss)/ gain	(49,613)	43,609
	Contribution by employer	86,911	84,312
	Benefits paid	(150,342)	(174,354)
	Closing fair value of plan assets	1,649,332	1,553,843

38.6 The major categories of plan assets as a percentage of total plan assets of defined pension and gratuity plan are as follows:

	2020		2019	
	Rupees ('000)	%	Rupees ('000)	%
Government bonds	984,102	60	4,761	-
Mutual Funds	23,429	1	22,027	1
Cash and cash equivalents	641,801	39	1,527,055	99
	1,649,332	100	1,553,843	100

Government bonds are valued at quoted market price and are therefore level 1. Cash equivalents and National Savings deposits include level 2 assets.

Both funds covered were invested within limits specified by regulations governing investment of approved retirement funds in Pakistan. The funds have no investment in the Company's own securities.

38.7 Principal actuarial assumptions

The principal assumptions used in the actuarial valuation are as follows:

	2020	2019
	%	%
Discount rate	8.7	13.7
Expected rate of salary increase	7.4	12.0
Expected rate of pension increase	2.7	7.4

38.8 Mortality was assumed to be 70% of the EFU (61-66) Table at valuations on both dates, June 30, 2019 and 2020.

38.9 The pension and gratuity plans are defined benefits final salary plans and both plans are invested through approved trust funds. The trustees of the funds are responsible for plan administration and investment. The Company appoints the trustees who are employees of the Company.

The plans expose the Company to various actuarial risks: investment risk and salary risk from both plans and longevity risk from the pension plan.

The asset ceiling does not apply. The Company can use the surplus in the pension and gratuity fund to reduce its future contributions or can apply to the Commissioner of Income Tax for a refund.

38.10 Sensitivity analysis

The calculation of the defined benefit obligation is sensitive to assumptions set out above. The following table summarizes how the impact on the defined benefit obligation at the end of the reporting period would have increased/ (decreased) as a result of a change in respective assumptions by one percent.

	Defined benefit obligation	
	1 percent increase	1 percent decrease
	Rupees ('000)	
Discount rate	(125,641)	149,052
Salary increase	44,023	(39,517)
Pension increase	105,694	(92,594)

If life expectancy increases by 1 year, the obligation increases by Rs 48,492 thousand.

The impact of changes in financial assumptions has been determined by revaluation of the obligations on different rates. The impact of increase in longevity has been calculated on the aggregate for each class of employees.

38.11 The weighted average number of the defined benefit obligation is given below:

Plan Duration	Pension	Gratuity
	Years	
June 30, 2020	11.2	5.9
June 30, 2019	11.2	6.3

38.12 The Company contributes to the pension and gratuity funds on the advice of the fund's actuary. The contributions are equal to the current service cost with adjustment for any deficit.

47. GENERAL

47.1 COVID 19

The spread of Covid - 19 as a pandemic and consequently imposition of lock down by Federal and Provincial Governments of Pakistan (Authorities) caused an overall economic slow down and disruption to various businesses. It resulted in decrease in demand and price of petroleum products during the lockdown period. However, the businesses are resuming as per relaxation given by the Authorities. Management will continue to monitor and will take all steps possible to mitigate any effects.

47.2 Capacity

Following is production from the Company's fields including proportionate share from all operated and non-operated joint ventures:

INDEPENDENT AUDITORS' REPORT

To the members of Pakistan Oilfields Limited
Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the annexed consolidated financial statements of Pakistan Oilfields Limited and its subsidiary (the Group), which comprise the consolidated statement of financial position as at June 30, 2020, and the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at June 30, 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

S.No.	Key Audit Matters	How the matter was addressed in our audit
(i)	**Analysis of impairment of development and decommissioning costs and exploration and evaluation assets** *(Refer note 15 and 16 to the consolidated financial statements)* As at June 30, 2020, the development and decommissioning costs amounted to Rs 12,356 million and exploration and evaluation assets amounted to Rs 2,774 million. The Group assesses at the end of each reporting period whether there is any indication that a Cash Generating Unit (CGU) may be impaired. Where impairment indicator is triggered for any CGU, an impairment test is performed by the Group based on estimates of the value in use of that CGU. The calculation of value in use of development and decommissioning costs requires the exercise of significant management's estimates and judgements on certain assumptions such as (i) estimation of the volume of oil and gas recoverable reserves; (ii) estimation of future oil and gas prices; (iii) cost profiles and inflation applied; (iv) foreign exchange rates; and (v) discount rates. We considered this matter as key audit matter due to the significant value of the related assets at reporting date and due to significance of judgements used by management.	Our audit procedures in relation to management's impairment test, amongst others, included the following: • Assessed the methodology used by management to estimate value in use of each CGU; • Assessed the assumptions of cash flow projections in calculation of the value in use of CGUs, challenging the reasonableness of key assumptions i.e. oil and gas reserves, oil and gas prices, production costs, foreign exchange rates and discount rates based on our knowledge of the business and industry by comparing the assumptions to historical results, and published market and industry data; • Assessed the impairment indicators as per IFRS 6 "Exploration for and Evaluation of Mineral Resources" for material balances included in exploration and evaluation assets; • Performed sensitivity analysis in consideration of the potential impact of reasonably possible downside changes in assumptions relating to oil and gas prices and discount rate; and • Assessed the appropriateness of disclosures made in the financial statements.

S.No.	Key Audit Matters	How the matter was addressed in our audit
(ii)	**Investment in associated companies** *(Refer note 18 to the consolidated financial statements)* The Group has investment in its associated companies National Refinery Limited (NRL) and Attock Petroleum Limited (APL). As at June 30, 2020, the carrying amount of investments in above referred associated companies amounted to Rs 8,396 million (net of recognised impairment loss of Rs 5,434 million) and Rs 2,537 million respectively which carrying values are higher by Rs 6,252 million and Rs 406 million respectively in relation to the quoted market value of their respective shares. The Group carries out impairment assessment of the value of investment where there are indicators of impairment. The Group has assessed the recoverable amounts of the investments in associated companies based on the higher of the value-in-use ("VIU") and fair value. The VIU of NRL and APL are based on valuation analysis carried out by independent external investment advisor and by the management's expert in respective cases. The VIU analysis are based on a discounted cash flow model which involves estimation of future cash flows. This estimation is inherently uncertain and requires significant judgement on both future cash flows and the discount rate applied to the future cash flows. In view of significant management judgement involved in the estimation of VIU we consider this as a key audit matter.	Our audit procedures in relation to assessment of carrying value of investment in associated companies, amongst others, included the following: • Assessed the appropriateness of management's accounting for investment in associated companies; • Considered management's process for identifying the existence of impairment indicators in respect of investment in associated companies; • Evaluated the independent external investment advisor and management expert's competence, capabilities and objectivity; • Assessed the valuation methodology used by the independent external investment advisor and management expert; • Checked, on sample basis, the reasonableness of the input data provided by the management to the independent external investment advisor/ used by the management's expert, to supporting evidence; • Assessed the reasonableness of cash flow projection, challenging and performing audit procedures on assumptions such as growth rate, future revenue and costs, terminal growth rate and discount rate by comparing the assumptions to historical results, budgets and comparing the current year's results with prior year forecast and other relevant information; • Tested mathematical accuracy of cash flows projection; • Performed independently a sensitivity analysis in consideration of the potential impact of reasonably possible upside or downside changes in key assumptions; and • Assessed the appropriateness of disclosures made in the financial statements.

S.No.	Key Audit Matters	How the matter was addressed in our audit
(iii)	**Recognition of Revenue** *(Refer note 4.25 and 27 to the consolidated financial statements)* The Group is engaged in the production and sale of oil and gas resources. The Group recognised net sales during the year from the sale of crude oil, natural gas and POLGAS/CAPGAS – Refill of cylinders amounting to Rs 17,264 million, Rs 14,136 million and Rs 7,478 million respectively. Revenue is recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the product. Revenue is measured at the fair value of the consideration to which the Group expects to be entitled in exchange for transferring good/ services. Effect of adjustments, if any, arising from revision in sale prices is reflected as and when the prices are finalised with the customers and / or approved by Government of Pakistan. We considered this as key audit matter due to the significance of the amounts requiring significant time and resource to audit due to magnitude, inherent risk of material misstatement and revenue being a key economic indicator of the Group.	Our audit procedures in relation to the matter, amongst others, included the following: • Assessed the design, implementation and operating effectiveness of the relevant key internal controls over revenue recognition from the sale of products; • Performed test of details on sample basis for sales transactions by inspecting respective invoices, delivery challans and acknowledgement of customers; • Checked on sample basis, notifications of OGRA for natural gas and POLGAS/CAPGAS prices. For POLGAS/CAPGAS, also checked on sample basis Group's mechanism for the calculation of price based on OGRA's notification. Performed, on a sample basis, recalculation of crude oil and natural gas prices in accordance with applicable petroleum policies / agreements/ decision of Economic Coordination Committee of the Cabinet; • Where pricing is provisional / sales agreement not finalised, (a) reviewed correspondence with the customers and relevant government authorities during the year and held discussions with the Group; (b) inspected term sheets etc; and (c) checked price recorded is in line with applicable petroleum policy / agreed with the customers; • Assessed sales transactions on either side of the statement of financial position date to assess whether they are recorded in relevant accounting period; • Performed analytical procedures to analyse variation in the price and quantity sold during the year; • Tested journal entries related to revenue recognized during the year based on identified risk criteria; and • Assessed the appropriateness of disclosures made in the financial statements.

S.No.	Key Audit Matters	How the matter was addressed in our audit
(iv)	**Litigation with respect to conversion of TAL Block petroleum concession to Petroleum Policy 2012** *(Refer note 27 to the consolidated financial statements)* The Ministry of Energy (Petroleum Division) issued a notification dated December 27, 2017 (SRO) which requires that the Supplemental Agreement already executed in respect of TAL block for conversion of petroleum concession from Petroleum Exploration and Production Policy 1997 to Petroleum Exploration and Production Policy 2012 shall be amended (within 90 days) to include Windfall Levy on Oil and Condensate (WLO), failing which the working interest owners will not remain eligible for gas price incentive as per Petroleum Policy 2012. The impugned notification has been issued after the approval of Council of Common Interest (CCI) dated November 24, 2017. The Group has challenged the said notification in the Islamabad High Court and the matter is pending before the court in principle on the ground that an already executed arrangement cannot be retrospectively altered unilaterally. The Honourable Court has restrained the Government for any action under the impugned notification and to maintain status quo. Group's contention is duly supported by the legal advice on the matter. The supplemental agreement was signed under the conversion package where gas price was enhanced and WLO was not applicable. The impugned SRO, by giving retrospective effect, amounts to taking away the vested rights already accrued in favour of the Group. As per the legal opinion Government has no authority to give any law or policy a retrospective effect. The Group has not recognised the revenue (net of sales tax) to the extent of Rs 13,949 million since inception to June 30, 2020 on account of enhanced gas price incentive due to conversion from Petroleum Policy 1997 to Petroleum Policy 2012 and will be accounted for upon resolution of this matter. We considered this as key audit matter due to the significant amounts involved and significant judgments made by management regarding the matter.	Our audit procedures in relation to the matter, amongst others, included the following: • Reviewed Petroleum Concession Agreement (PCA) and Supplemental Agreements signed with the Government of Pakistan; • Reviewed SRO issued by the Ministry of Energy; • Reviewed relevant clauses of Petroleum Exploration & Production Policy 2012 for applicability of WLO; • Discussed the matter with directors, management and internal legal department of the Group; • Obtained confirmation from the Group's external legal advisor and reviewed legal opinion obtained by the Group and the order issued by the Islamabad High Court; • Evaluated technical ability of the internal and external legal advisors used by the Group; • Assessed the matter under applicable accounting frame work; and • Reviewed the disclosures made in the consolidated financial statements in respect of this matter.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Asim Masood Iqbal.

1. LEGAL STATUS AND OPERATIONS

Pakistan Oilfields Limited (the Company) is incorporated in Pakistan as a public limited company and its shares are quoted on Pakistan Stock Exchange Limited. The registered office of the Company is situated at Morgah, Rawalpindi. The Company is principally engaged in exploration, drilling and production of crude oil and gas in Pakistan. Its activities also include marketing of liquefied petroleum gas under the brand name POLGAS and transmission of petroleum. The Company is a subsidiary of The Attock Oil Company Limited, UK and its ultimate parent is Coral Holding Limited.

CAPGAS (Private) Limited (CAPGAS), the subsidiary company is incorporated in Pakistan as a private limited company under the Companies Act, 2017 and is principally engaged in buying, filling, distribution and dealing in Liquefied Petroleum Gas (LPG).

For the purpose of these financial statements, POL and its consolidated subsidiary are referred as the Group.

Geographical location and addresses of all other business units of the Group have been disclosed in note 48.

2. STATEMENT OF COMPLIANCE

These are consolidated financial statements of the Group. These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017 have been followed.

3. NEW AND AMENDED STANDARDS AND INTERPRETATIONS

- IFRS 16 "Leases" has replaced IAS 17 "Leases", the former lease accounting standard, and has become effective from annual accounting periods beginning on or after January 1, 2019. Under the new standard, almost all leases which meet the criteria described in the standard will be recognized on the statement of financial position with only exceptions of short term and low value leases. Under IFRS 16, an asset (the right to use the leased item) is recognized along with corresponding financial liability to pay rentals at the present value of future lease payments over the lease term, discounted with the specific incremental borrowing rate.

The Group's lease portfolio includes lease contracts which are extendable through mutual agreement between counter parties or cancellable by both parties immediately or on a short notice. Accordingly, the Group has concluded that where the lease term of contracts are short-term in nature i.e. with a lease term of twelve months or less at the commencement date, right of use assets is not recognized and payments made in respect of these leases are expensed in the statement of profit or loss.

The Group has adopted IFRS 16 from July 1, 2019 using the modified retrospective approach and the Group has assessed that the adoption of IFRS 16 does not have any material financial impact on these financial statements.

In applying IFRS 16 for the first time, the Group has used the following practical expedient permitted by the standard:

- the accounting for operating leases with a remaining lease term of less than 12 months as at July 1, 2019 as short-term leases

During the year, Rs 998,207 thousand have been capitalised in Development & Decommissioning costs and Exploration & Evaluation assets in respect of short-term leases.

- As per Securities and Exchange Commission of Pakistan (SECP) SRO 985 (1)/ 2019, dated September 2, 2019, for companies holding financial assets due from Government of Pakistan, the requirements contained in IFRS 9 with respect to expected credit losses method shall not be applicable till June 30, 2021, provided that such companies shall follow relevant requirements of IAS 39 – Financial Instruments: Recognition and Measurement, in respect of above referred financial assets during the exemption period. The Group has assessed that the above SRO does not have any significant impact on its financial statements.

3.1 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group:

		Effective date (annual reporting periods beginning on or after)
IAS 1	Presentation of financial statements (Amendments)	January 1, 2020
IAS 8	Accounting policies, changes in accounting estimates and errors (Amendments)	January 1, 2020
IAS 16	Property, Plant and Equipment (Amendments)	January 1, 2022
IAS 37	Provisions, Contingent Liabilities and Contingent Assets (Amendments)	January 1, 2022
IAS 41	Agriculture (Amendments)	January 1, 2020
IFRS 3	Business Combinations (Amendments)	January 1, 2020
IFRS 4	Insurance Contracts (Amendments)	January 1, 2023
IFRS 7	Financial Instruments : Disclosures (Amendments)	January 1, 2020
IFRS 9	Financial Instruments (Amendments)	January 1, 2020
IASB	Conceptual framework for financial reporting (Revised)	January 1, 2020
IFRS 16	Leases (Amendments)	June 1, 2020

The management anticipates that adoption of above standards, amendments and interpretations in future periods, will have no material impact on the financial statements other than in presentation / disclosures.

3.2 Further, the following new standards and interpretations have been issued by the International Accounting Standards Board (IASB), which are yet to be notified by the Securities and Exchange Commission of Pakistan (SECP), for the purpose of their applicability in Pakistan:

IFRS 1	First-time Adoption of International Financial Reporting Standards
IFRS 17	Insurance contracts

3.3 The following interpretations issued by the IASB have been waived off by SECP:

IFRIC 12 Service concession arrangments

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of measurement

These financial statements have been prepared under the historical cost convention except as otherwise disclosed in the respective accounting policies notes.

4.2 Basis of consolidation

The consolidated financial statements include the financial statements of POL and its subsidiary CAPGAS with 51% holding (2019: 51%).

a) Subsidiary

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The assets and liabilities of subsidiary company have been consolidated on a line by line basis and the carrying value of investments held by the parent company is eliminated against the subsidiary shareholders' equity in the consolidated financial statements.

Material intra-group balances and transactions have been eliminated.

Non-controlling interests are that part of the net results of the operations and of net assets of the subsidiary attributable to interests which are not owned by the parent company. Non-controlling interest are presented as a separate item in the consolidated financial statements.

b) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investment in associates are accounted for using the equity method of accounting. Under this method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investment in associates includes goodwill identified on acquisition.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to statement of profit or loss where applicable.

The Group's share of post-acquisition profit is recognized in the statement of profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in statement of profit or loss and other comprehensive income with the corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying amount and recognises the amount adjacent to share of profit/ (loss) of associates in the statement of profit or loss.

4.3 Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions. The management has determined that the Group has a single reportable segment as the Board of Directors views the Group's operations as one reportable segment.

4.4 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Group operates. The financial statements are presented in Pakistan Rupees, which is the Group's functional currency.

4.5 Foreign currency transactions and translation

Transactions in foreign currencies are recorded at the rates of exchange ruling on the date of transaction. All assets and liabilities in foreign currencies are translated into rupees at the rates of exchange ruling on the date of the statement of financial position. Exchange differences are dealt with through the statement of profit or loss.

4.6 Taxation

Provision for current taxation is based on taxable income at applicable tax rates, adjusted for royalty payments to the Government.

Deferred tax is accounted for on all temporary differences using the liability method. Deferred tax liability has been calculated at the estimated effective rate of 30% after taking into account availability of future depletion allowance and set off available in respect of royalty payments to the Government whereas deferred tax liability of CAPGAS has been calculated at applicable tax rate.

4.7 Provisions

Provisions are recognized when the Group has a legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

4.8 Provision for decommissioning costs

Provision for decommissioning costs is recognized in full for development wells and production facilities. The amount recognized is the present value of the estimated cost to abandon a well and remove production facilities. A corresponding intangible asset of an amount equivalent to the provision is also created and is amortized on unit of production basis over the total proved developed reserves of the field or @ 5% where the life of a field is more than 20 years.

Most of these abandonment and removal events are many years in the future and the precise requirements that will have to be met when the abandonment and removal event actually occurs are uncertain. Abandonment and asset removal technologies and costs are constantly changing, as are political, environmental, safety and public expectations. Consequently, the timing and amount of future cash flows are subject to significant uncertainty.

The timing and amount of future expenditures are reviewed annually, together with the interest rate to be used in discounting the cash flows. Any difference between the liability recognized and actual costs incurred are charged/credited to statement of profit or loss in the year of decommissioning.

The effect of changes resulting from revisions to the estimate of the liability are incorporated on a prospective basis.

The decommissioning cost has been discounted at a real discount rate of 1.65% (2019: 4.03%) per annum.

4.9 Employee compensated absences

The Group provides for compensated absences for all eligible employees in accordance with the rules of the Group.

4.10 Staff retirement benefits

The Company and its subsidiary operates the following staff retirement benefits plans:

POL

POL operates the following staff retirement benefits plans:

(i) A pension plan for its management staff and a gratuity plan for its management and non-management staff. The pension and gratuity plans are invested through approved trust funds. Both are defined benefit final salary plans. The pension and gratuity plans are complementary plans for management staff. Pension payable to management staff is reduced by an amount determined by the actuary equivalent to amount paid by the gratuity fund. Management staff hired after January 1, 2012 are only entitled to benefits under gratuity fund. Actuarial valuations are conducted annually using the "Projected Unit Credit Method" and the latest valuation was conducted as at June 30, 2020.

Actuarial gain and losses arising from experience adjustments and change in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past service costs are recognized immediately in statement of profit or loss.

Since both are complementary plans, combined details and valuation for pension plan and gratuity plan are given in note 40.

(ii) Separate approved contributory provident funds for management and non-management employees for which contributions are made by the Company and the employee at the rate of 10% of basic salary.

CAPGAS

The subsidiary is operating a non funded gratuity plan for management and non-management employees. The liability for gratuity plan is provided on the basis of actuarial valuation conducted as at June 30, 2020 using the "Project Unit Credit Method".

4.11 Trade and other payables

Liabilities for trade and other payables are carried at cost which is the fair value of the consideration to be paid in future for goods and services received.

4.12 Contingent liabilities

A contingent liability is disclosed when the Group has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Group; or the Group has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

4.13 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses except for freehold land and capital work in progress, which are stated at cost.

Depreciation is provided on straight line method at rates specified in note 14.1 to the financial statements. Depreciation is charged on additions from the month the asset become available for the intended use upto the month in which these are derecognized.

Maintenance and normal repairs are charged to income as and when incurred. Major renewals and improvements are capitalized and the assets so replaced, if any, are retired. Gains and losses on derecognition of assets are included in income currently.

4.14 Other intangible assets

These are carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization is calculated using the straight line method over the period of useful life of the asset at the rates specified in note 17. Costs associated with maintaining intangibles are recognized as expense as and when incurred. Amortization on additions is charged from the month in which an intangible asset is acquired or capitalized, while no amortization is charged for the month in which the intangible asset is disposed off.

4.15 Exploration assets / costs and development costs

4.15.1 Exploration and development costs are accounted for using the "Successful Efforts Method" of accounting.

4.15.2 Exploration costs

All exploration costs, other than those relating to exploratory drilling, are charged to income as incurred. Exploratory drilling costs i.e. costs directly associated with drilling of an exploratory well, are initially capitalized pending determination of proven reserves. These costs are either charged to income if no proved reserves are found or transferred to development costs if proved reserves are found.

All capitalized costs are subject to review for impairment at least once a year and any impairment determined is immediately charged to income.

4.15.3 Development costs

Development costs are stated at cost less accumulated amortization and impairment losses. Expenditure on drilling of development wells, including unsuccessful development wells, is capitalized within development costs. Capitalized development costs are amortized on a unit of production basis over the total proved developed reserves of the field or @ 5% per annum where the life of the field is more than 20 years.

4.16 Stores and spares

Stores and spares are valued at cost determined on moving average formula less allowance for obsolete items. Stores in transit are stated at invoice value plus other charges paid thereon.

4.17 Stock in trade

Stocks are valued at the lower of average annual cost (including appropriate production overheads) and net realizable value. Net realizable value is determined on the basis of estimated selling price of the product in the ordinary course of business less costs necessary to be incurred for its sale.

4.18 Impairment of non-financial assets

Assets that have an indefinite useful life, for example land, are not subject to depreciation and are tested annually for impairment. Assets that are subject to depreciation are reviewed for impairment at each statement of financial position date, or wherever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount for which the asset's carrying amount exceeds its recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each statement of financial position date. Reversals of the impairment loss are restricted to the extent that asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no new impairment loss had been recognized. An impairment loss or reversal of impairment loss is recognized in income for the year.

4.19 Trade debts and other receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components when they are recognised at fair value. They are subsequently measured at amortised cost using the effective interest rate method, less loss allowance. Refer note 4.22 for a description of the Group's impairment policies.

4.20 Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instrument. All the financial assets are derecognized at the time when the Group loses control of the contractual rights that comprise the financial assets. All financial liabilities are derecognized at the time when they are extinguished that is, when the obligation specified in the contract is discharged, cancelled or expired. Any gains or losses on de-recognition of the financial assets and financial liabilities are taken to the statement of profit or loss.

4.21 Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

(i) Amortised cost where the effective interest rate method will apply;
(ii) Fair value through profit or loss (FVTPL); and
(iii) Fair value through other comprehensive income (FVTOCI)

The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income (OCI). For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVTOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Further, financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in statement of profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group can classifies its debt instruments:

a) Amortised cost

Financial assets that are held for collection of contractual cash flows where the contractual terms of the financial assets give rise on specified dates to cash flows that represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

b) Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the contractual terms of the financial asset give rise on specified dates to cash flows that represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses and interest revenue, and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to statement of profit or loss and recognised in other income. Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income and impairment expenses are presented as separate line item in the statement of profit or loss.

c) Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in profit or loss and presented net within other income in the period in which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in statement of profit or loss.

4.22 Impairment of financial assets

Effective from July 1, 2018, the Group assesses on a historical as well as on a forward looking basis the expected credit losses (ECL) as associated with its trade debts, deposits and other receivables and cash and bank balances carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade debts, the Group applies IFRS 9 simplified approach to measure the expected credit losses (loss allowance) which uses a life time expected loss allowance while general 3-stage approach for deposits and other receivables and cash and bank balances i.e to measure ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition.

Following are financial instruments that are subject to the ECL model:

- Trade debts
- Deposits and other receivables
- Cash and bank balances

(i) General approach for short term investment, deposits and other receivables and cash and bank balances.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information (adjusted for factors that are specific to the counterparty, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate). As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Loss allowances are forward looking, based on 12 month expected credit losses where there has not been a significant increase in credit risk rating, otherwise allowances are based on lifetime expected losses.

Expected credit losses are a probability weighted estimate of credit losses. The probability is determined by the risk of default which is applied to the cash flow estimates. In the absence of a change in credit rating, allowances are recognised when there is reduction in the net present value of expected cash flows. On a significant increase in credit risk, allowances are recognised without a change in the expected cash flows, although typically expected cash flows do also change; and expected credit losses are rebased from 12 month to lifetime expectations.

Significant increase in credit risk

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the instrument as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forward-looking information.

The following indicators are considered while assessing credit risk:

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its obligations;
- actual or expected significant changes in the operating results of the debtor;
- significant increase in credit risk on other financial instruments of the same debtor; and
- significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees, if applicable.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, in case of trade debts, the Group considers that default has occurred when a the debt is more than 365 days past due, unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit - impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

(ii) Simplified approach for trade debts

The Group recognises life time ECL on trade debts, using the simplified approach. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Trade debts with individually significant balance are separately assessed for ECL measurement. All other receivables are grouped and assessed collectively based on shared credit risk characteristics and the days past due. The expected credit losses on these financial assets are estimated based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments;
- Past-due status;
- Nature, size and industry of debtors; and
- external credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Recognition of loss allowance

The Group recognizes an impairment gain or loss in the statement of profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 60 days past due in making a contractual payment.

Write-off

The Group write off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Group may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains.

4.23 Financial Liabilities

Classification, initial recognition and subsequent measurement

Financial liabilities are classified in the following categories:

- fair value through profit or loss; and
- other financial liabilities.

The Group determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in case of other financial liabilities also include directly attributable transaction costs. The subsequent measurement of financial liabilities depends on their classification, as follows:

a) Fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as being at fair value through profit or loss.

The Group has not designated any financial liability upon recognition as being at fair value through profit or loss.

b) Other financial liabilities

After initial recognition, other financial liabilities which are interest bearing subsequently measured at amortized cost, using the effective interest rate method. Gain and losses are recognized in profit or loss for the year, when the liabilities are derecognized as well as through effective interest rate amortisation process.

Derecognition of financial liabilities

The Group derecognises financial liabilities when and only when the Group's obligations are discharged, cancelled or they expire.

4.24 Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position if the Group has a legally enforceable right to setoff the recognized amounts and the Group intends to settle on a net basis, or realize the asset and settle the liability simultaneously.

4.25 Revenue recognition

Revenue is recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the product. Revenue is recognised as follows:

a) Crude oil, upon delivery to customer;
b) Natural gas, upon delivery to the customer; and
c) Liquefied Petroleum Gas (LPG), upon delivery to distributors at LPG plant facility

Revenue is measured at the fair value of the consideration to which the Group expects to be entitled in exchange for transferring goods/services. Effect of adjustment, if any, arising from revision in sale price is reflected as and when the prices are finalized with the customers and/or approved by the Government.

Billings are generally raised in the following month which are payable within 30 to 45 days in accordance with the contractual arrangement with customers.

Income on investments at amortised costs and bank deposits is recognized on time proportion basis using the effective yield method.

Dividend income is recognized when the right to receive dividend is established.

4.26 Joint arrangements

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual right and obligations of the parties to the arrangement. The Group has assessed the nature of its joint arrangements and determined them to be joint operations. The Group has recognized its share of assets, liabilities, income and expenditure jointly held or incurred under the joint operations on the basis of latest available audited accounts of the joint operations and where applicable, the cost statements received from operators of the joint arrangements for the intervening period up to the statement of financial position date.

4.27 Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise cash in hand, demand deposits and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value, and finances under mark up arrangements.

4.28 Dividend distribution

Dividend distribution to the shareholders is accounted for in the period in which dividend is declared.

4.29 Leases

4.29.1 Right of use asset

The Group assesses whether a contract is or contains a lease at inception of the contract. If the Company assesses contract contain a lease and meet requirements of IFRS 16, the Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

4.29.2 Lease liability

If applicable, the lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments in the measurement of the lease liability comprise the following:

a. fixed payments, including in-substance fixed payments;
b. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
c. amounts expected to be payable under a residual value guarantee; and
d. the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Variable lease payments are recongnised in profit or loss in the period in which the condition that triggers those payments occurs.

The Group has opted not to recognize right of use asssets for short-term leases i.e. leases with a term of twelve(12) months or less. The payments associated with such leases are recognized in profit or loss when incurred.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with approved accounting standards requires the use of certain accounting estimates. It also requires management to exercise judgement in the process of applying the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectation of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Group's financial statements or where judgment was exercised in application of accounting policies are as follows:

i) Estimated crude oil/gas reserves used for amortization of development and decommissioning costs - note 4.15 and 15
ii) Estimated useful life of property, plant and equipment - note 4.13 and 14.1
iii) Estimated costs, discount and inflation rate used for provision for decommissioning costs - note 4.8 and 10.2
iv) Estimate of recoverable amount of investment in associated companies - note 4.2 and 18
v) Estimated value of staff retirement benefits obligations - note 4.10 and 40
vi) Provision for taxation - note 4.6 and 36
vii) Price adjustment related to crude oil sales - note 4.25 and 27
viii) Impairment of financial assets - note 4.22
ix) Right of use assets and corresponding lease liability - note 4.29

13.1 Contingencies

13.1.1 POL

There were no material contingencies as at June 2020 (2019 : Rs Nil).

13.1.2 CAPGAS

In 2018, the Islamabad High Court held that the use of cylinders for the supply of LPG by the company did not attract the levy and charge of sales tax under sales tax Act, 1990 and consequently the Company was not entitled to claim and adjust input tax amounting to Rs 5,644 thousand. The Company has filed an appeal with the Supreme Court of Pakistan which is pending adjudication. The management and legal advisor of the Company are confident that the matter will be decided in favour of the Company. Accordingly, no provision has been made in the financial statements of CAPGAS.

27.1 On August 28, 2015, the Company signed the Supplemental Agreement with the Government of Pakistan (the Government) for conversion of TAL Block Petroleum Concession Agreement (PCA) signed under the 1997 Petroleum Policy to Petroleum (Exploration & Production) Policy 2012 (Petroleum Policy 2012). Price regimes prevailing in Petroleum Policy 2007, Petroleum Policy 2009 and Petroleum Policy 2012 shall be applicable correlated with the spud date of wells in the respective policies starting from November 27, 2007 and for future exploratory efforts under the above mentioned block. The conversion package included Windfall levy on Natural gas only. Draft statements specifying sums aggregating US $ 34,213 thousand (Rs 3,393,389 thousand) till June 30, 2015 due to the Company in respect of Mamikhel, Maramzi & Makori East discoveries in TAL block were submitted to the Government on December 8, 2015. On October 9, 2017 Oil and Gas Regulatory Authority (OGRA) issued gas price notifications of the subject arears.

On December 27, 2017, the Ministry of Energy (Petroleum Division) notified certain amendments in Petroleum Policy 2012 which also included addition of following explanation of conversion package:

“the conversion package shall include (i) price of Natural Gas for New Exploration Efforts (ii) windfall levy on Natural Gas (iii) EWT gas production, pricing and obligations (iv) Windfall levy on Oil & Condensate, only for PCAs converting from 1994 and 1997 Petroleum Policies and (v) Financial obligations relating to production bonus, social welfare and training”.

Under the said Notification, the Supplemental Agreements already executed for conversion from Petroleum policies of 1994 & 1997 shall be amended within 90 days, failing which the working interest owners will not remain eligible for gas price incentive. On January 3, 2018, Directorate General Petroleum Concessions (DGPC) has required all exploration and production companies to submit supplemental agreements to incorporate the aforementioned amendments in Petroleum Concession Agreements (PCAs) signed under 1994 and 1997 policies, for execution within the stipulated time as specified above.

Based on legal advice, the Company is of the view that already executed Supplemental Agreement cannot be changed unilaterally, the Supplemental Agreement was signed under the Conversion Package where gas price was enhanced and Windfall Levy on Oil/Condensate (WLO) was not applicable, the impugned SRO by giving retrospective effect amounts to taking away the vested rights already accrued in favour of the Company. The Government has no authority to give any law or policy a retrospective effect. The Company filed Constitutional Petition challenging the imposition of WLO on February 19, 2018 against Federation of Pakistan through Ministry of Energy (Petroleum Division), Islamabad. The Honorable Islamabad High Court after hearing the petitioner on February 20, 2018, directed the parties to maintain the status quo in this respect. The case came up for hearing on June 12, 2019 but was adjourned on the request of legal counsel of the Government. The Islamabad High Court had fixed March 19, 2020 as next date of hearing, but the hearing was cancelled due to preventive measures taken in the courts amid Coronavirus.

On prudent basis additional revenue (net of sales tax) on account of enhanced gas price incentive due to conversion from Petroleum Policy 1997 to Petroleum Policy 2012 since inception to June 30, 2020 amounting to Rs 13,949,495 thousand will be accounted for upon resolution of this matter (including Rs 10,855,542 thousand related to period since inception to June 30, 2019). Additional revenue on account of enhanced gas price incentive of Rs 15,389,552 thousand including sales tax of Rs 2,236,089 thousand received from customer on the basis of notified prices has been shown as "Other liabilities" under "trade and other payables".

39.3 Financial risk management

39.3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including currency risk, interest rates risk and price risk). The Group's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

(a) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

As of June 30, 2020, trade debts of Rs 3,951,419 (2019: Rs 2,158,039 thousand) were past due but not impaired. The ageing analysis of these trade receivables is as follows:

	2020	2019

	2,904,023	1,328,819
	3,951,419	2,158,039

(b) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Group manages liquidity risk by maintaining sufficient cash and marketable securities. At June 30, 2020, the Group had financial assets of Rs 51,947,838 thousand (2019: Rs 46,296,357 thousand).

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the financial position date to the maturity date. The amounts disclosed in the table are undiscounted cash flows which have been inflated using appropriate inflation rate, where applicable.

	Less than 1 year	Between 1 to 5 years	Over 5 years
		Rupees ('000)	
At June 30, 2020

Long term deposits	-	844,756	131,760
Trade and other payables	16,496,315	-	-
Unclaimed dividend	191,166		

(c) Market risk

(i) Currency risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign exchange risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Group is exposed to currency risk arising from currency exposure with respect to the US dollar. Currently foreign exchange risk is restricted to trade debts, bank balances, receivable from/ payable to joint operating partners, payable to suppliers and provision for decommissioning cost.

Financial assets include Rs 48,920,065 thousand (2019: Rs 36,206,859 thousand) and financial liabilities include Rs 226,988 thousand (2019: Rs 1,751,687 thousand) which are subject to currency risk.

If exchange rates had been 10% lower/higher with all other variables held constant, profit after tax for the year would have been Rs 13,451,018 thousand lower/higher (2019: Rs 1,585,050 thousand higher/lower).

(ii) Interest rate risk

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group has no significant long term interest bearing financial assets and liabilities whose fair value or future cash flows will fluctuate because of changes in market interest rates.

Financial assets include Rs 43,046,489 thousand (2019: Rs 35,756,123 thousand) which are subject to interest rate risk. Applicable interest rates for financial assets have been indicated in respective notes.

If interest rates had been 1% higher/ lower with all other variables held constant, profit after tax for the year would have been Rs 275,390 thousand (2019: Rs 174,511 thousand) higher/ lower, mainly as a result of higher/ lower interest income from these financial assets.

(iii) Price risk

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated statement of financial position as available for sale. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the investment policy of the Group.

Investments classified as fair value through profit or loss of Rs 6,519 thousand (2019: Rs 813,478 thousand) were subject to price risk.

39.3.2 Capital risk management

The Group's objectives when managing capital are to ensure the Group's ability not only to continue as a going concern but also to meet its requirements for expansion and enhancement of its business, maximize return of shareholders and optimize benefits for other stakeholders to maintain an optimal capital structure and to reduce the cost of capital.

In order to achieve the above objectives, the Group may adjust the amount of dividends paid to shareholders, issue new shares through bonus or right issue or sell assets to reduce debts or raise debts, if required.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. The gearing ratio of the Group has always been low and the Group has mostly financed its projects and business expansions through equity financing. Further, the Group is not subject to externally imposed capital requirements.

39.3.3 Fair value of financial assets and liabilities

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. The table below analyzes financial assets that are measured at fair value, by valuation method. The different levels have been defined as follows:

- Level 1 : Quoted prices in active markets for identical assets and liabilities;
- Level 2 : Observable inputs ; and
- Level 3 : Unobservable inputs

The Group held the following financial assets at fair value:

	Level 1	Level 2	Level 3	Total

Cash and cash equivalents	641,801	39	1,527,055	99
	1,649,332	100	1,553,843	100

Government bonds are valued at quoted market price and are therefore level 1. Cash equivalents and National Savings deposits include level 2 assets.

Both funds covered were invested within limits specified by regulations governing investment of approved retirement funds in Pakistan. The funds have no investment in the Group's own securities.

40.8 Principal actuarial assumptions

The principal assumptions used in the actuarial valuation are as follows:

	2020	2019
	%	
Discount rate	8.7%	13.7%
Expected rate of salary increase	7.4%	12.0%
Expected rate of pension increase	2.7%	7.4%

40.9 Mortality was assumed to be 70% of the EFU(61-66) Table at valuations on both dates, June 30, 2019 and 2020.

40.10 The pension gratuity plans are defined benefits final salary plans both plans are invested through approved trust funds. The trustees of the funds are responsible for plan administration and investment. The Group appoints the trustees who are employees of the Group.

The plans expose the Group to various actuarial risks: investment risk and salary risk from both plans and longevity risk from the pension plan.

The asset ceiling does not apply. The Group can use the surplus in the gratuity fund to reduce its future contributions or can apply to the commissioner of Income Tax for a refund.

40.11 Sensitivity analysis

The calculation of the defined benefit obligation is sensitive to assumptions set out above. The following table summarizes how the impact on the defined benefit obligation at the end of the reporting period would have increased/ (decreased) as a result of a change in respective assumptions by one percent.

	Defined benefit obligation

If life expectancy increases by 1 year, the obligation increases by Rs 48,492 thousand.

The impact of changes in financial assumptions has been determined by revaluation of the obligations on different rates. The impact of increase in longevity has been calculated on the aggregate for each class of employees.

40.12 The weighted average number of the defined benefit obligation is given below:

Plan Duration	Pension	Gratuity
	Years	
June 30, 2020	11.2	5.9
June 30, 2019	11.2	6.3

40.13 The Group contributes to the pension and gratuity funds on the advice of the fund's actuary. The contributions are equal to the current service cost with adjustment for any deficit.

	2020	2019
	%	
Discount rate	8.60	13.50
Expected rate of salary increase	8.60	13.50

40.18 Mortality was assumed to be 70% of the EFU(61-66) Table at valuations on both dates, June 30, 2019 and 2018.

40.19 Sensitivity analysis

The calculation of the defined benefit obligation is sensitive to assumptions set out above. The following table summarizes how the impact on the defined benefit obligation at the end of the reporting period would have increased/ (decreased) as a result of a change in respective assumptions by one percent.

	Defined benefit obligation	
	1 percent increase	1 percent decrease
	Rupees ('000)	
Discount rate	(390)	446
Salary increase	441	(393)

NOTES:

1. COVID-19 RELATED CONTIGENCY PLANNING FOR ANNUAL GENERAL MEETING (AGM)

Considering current COVID-19 pandemic and to protect wellbeing of the shareholders, the Securities and Exchange Commission of Pakistan (SECP) vide its circular No. 25 of 2020 dated August 31, 2020 and Circular No. 5 of 2020 dated March 17, 2020 has allowed the companies to conduct general meetings through video link facility.

To comply with this requirement, the Company informs its shareholders as follows:

The Company will be conducting its AGM through video link (Zoom Application) only while ensuring compliance with the quorum requirements. The shareholders/proxies intending to participate in the meeting are hereby requested to share following information with the Company through email at **cs@pakoil.com.pk** or whatsapp at 0333-5310332 at the earliest but not later than 48 hours before the time of the AGM.

Required information: Name of Shareholder/Proxy, CNIC Number, Folio/CDC Account No. of Member, Mobile Phone Number and Email address.

NOTICE OF ANNUAL GENERAL MEETING

2. CLOSURE OF SHARE TRANSFER BOOKS:

The share transfer books of the Company will remain closed and no transfer of shares will be accepted for registration from October 13, 2020 to October 19, 2020 (both days inclusive). Transfers received in order at the Registered Office of the Company by the close of business on October 12, 2020 will be treated in time for the purpose of payment of the final cash dividend, if approved by the shareholders.

3. PARTICIPATION IN THE ANNUAL GENERAL MEETING:

A member entitled to participate and vote at this meeting is also entitled to appoint another proxy to participate and vote on his/her behalf through video link. Proxies in order to be effective must be received at the Registered Office of the Company duly stamped and signed not later than 48 hours before the time of the meeting.

4. CDC ACCOUNT HOLDERS WILL HAVE TO FOLLOW UNDER MENTIONED GUIDELINES AS LAID DOWN BY SECP:

For appointing proxies

a. In case of individuals, the account holders or sub account holders whose registration details are uploaded as per regulations, shall submit the proxy form as per the above requirements. The proxy form shall be witnessed by two persons whose names, addresses and CNIC numbers shall be mentioned on the proxy form. Copies of CNIC or the passport of the beneficial owners and the proxy shall be furnished with the proxy form.

b. In case of corporate entities, the Board of Directors' resolution / power of attorney with specimen signature of the person nominated to represent and vote on behalf of the corporate entity, shall be submitted (unless it has not been provided earlier) along with proxy form to the Company.

5. CONFIRMATION OF "FILER" STATUS OF INCOME TAX RETURN FOR APPLICATION OF RATES PURSUANT TO THE PROVISIONS OF FINANCE ACT, 2020:

Pursuant to the provisions of Finance Act, 2020, effective July 01, 2020, reforms have been made with regards to deduction of income tax. For cash dividend, the rates of deduction of income tax, under section 150 of the Income Tax Ordinance, 2001 are as follows:

a.	Rate of tax deduction for filer of income tax returns	15.00%
b.	Rate of tax deduction for non filer of income tax returns	30.00%

In case of joint account, each holder is to be treated individually as either a filer or non filer and tax will be deducted on the basis of shareholding of each joint holder as may be notified by the shareholder, in writing to the Company by sending following detail on the registered address of the Company. Members who have deposited their shares into CDC are requested to send a copy of detail regarding tax status also to the relevant member stock exchange or to CDC if maintaining CDC investor account. If no notification is received, each joint holder shall be assumed to have an equal number of shares.
