## **BIAFO INDUSTRIES LTD. DIRECTORS' REPORT**

Your directors are pleased to present the 23rd. Annual Report of the company for the year ended June 30th. 2011.

### **FINANCIAL RESULTS**

In the period under review your company was able to function more effectively having invested time and effort with the various Government Ministries both at Provincial and Federal level, to clarify and assuage issues and concerns raised due to the heightened security situation in Pakistan and its fallout on the civil/industrial explosives sector, leading to rationalization in the permissions, transportation and movement, and reporting of explosives from manufacturing units to end users.

The resulting enhanced awareness, cooperation between the authorities and the stakeholders of civil/industrial explosives has allowed smoother supply and delivery situation, resulting in improved sales and financial results of the company in the period under review.

### **Sales and Financial Results**

Local Gross Sales increased by 52.71% to Rs. 873.32 m and net export sales increased by 44.44% to Rs. 282.895 m, while overall net sales increased by 47.9% to Rs. 870.365 m in the period under review against comparable period of the previous year.

Despite rising prices of raw material and cost of goods sold, the company's Gross Profit margin improved by 0.58 % to 33.17% against the comparable period of last year.

Net profit after taxation for the year increased by Rs. 65.02 m (+ 57.88%) to Rs.177.353 m resulting in EPS of Rs. 8.87 (+ 57.83%) (2010 : EPS Rs. 5.62) and percentage of net after tax profit to sales increased by 1.28% to 20.37% compared to the previous years figure.

Exports declined marginally to 32.5% of net sales of Rs. 870.365 m as opposed to 33.28% of the net sales for the year ending June, 2010. Sales to the export, cement, oil and gas, construction and mining and the distributors/small medium enterprises users saw significant increase, where as Government funded large project saw significant decline due to lack of availability of funds. No new projects came onstream in the entire financial year. The later part of the financial year 2010-11 also saw inflationary pressure of 12 to 15 % and increase in prices of oil, chemical, alloys and packaging materials which constitute our main raw material, and could not be fully reflected in sales price.

Finance costs increased, because of short term borrowings, due to enhanced cash outflow and decline in cash availability, being in negative as opposed to surplus in the previous year.

## **BIAFO INDUSTRIES LTD. DIRECTORS' REPORT**

Net worth of the company for the year under review, increased by Rs. 5.99 m (2010 : Rs. 34.32 m) to Rs. 501.425 m.

### **Production:**

Plant performed satisfactorily in meeting increased demand, reflected in significant increase in sales and no disruption in supplies to the customers, due to improved understanding and adherence to the established rules and regulations by all stakeholders, including governmental authorities. The timely availability of deliveries of the product to the customers and general quality satisfaction is reflected in improved sales to all sectors of the Market. Resources continue to be provided to enable improvement in production, manufacturing, Human resources, deliveries and safety across the company.

### **Future Prospects:**

As mentioned earlier no new project came on stream in the entire financial/fiscal year under review. Regrettably the on going projects also suffered due to restricted availability of funds, leading to delays and drawdown of work on development and construction projects. This is reflected in much reduced disbursement to the public sector development programs.

First quarter sales for the year 2011-12 have shown decline, reflecting overall macroeconomic situation of the country, however we expect improvement in the coming quarters of the financial year 2011-12. While the government has indicated its desire to commence large scale Hydel projects like Bhasha, Kohala, Bunji and Munda Dam etc. the continuing issues of finance availability has delayed program implementation.

### **Dividend:**

Board has approved final dividend of Rs.2.80 per share (28%) and also the 1st. interim cash dividend of Rs.1.25 per share (12.5%) declared on October 19, 2010 and 2nd. Interim cash dividend of Rs.1.50 per share (15%) declared on February 18, 2011 and 3rd. Interim cash dividend of Rs.2.20 per share (22%) declared on April 19, 2011 for the year ended June, 2011, making a total Dividend declaration of Rs.7.75 (77.5%) for the financial year ending 30th. June, 2011.

## **REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH THE BEST PRACTICES OF CODE OF CORPORATE GOVERNANCE**

We have reviewed the Statement of Compliance with the best practices contained in the Code of Corporate Governance prepared by the Board of Directors of Biafo Industries Limited (“the Company”) to comply with the Listing Regulations of the Karachi and Islamabad Stock Exchanges where the Company is listed.

The responsibility for compliance with the Code of Corporate Governance is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company’s compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the Company personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board’s statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company’s corporate governance procedures and risks.

Further, Sub-Regulation (xiii) of Listing Regulations 37 notified by the Karachi Stock Exchange (Guarantee) Limited vide circular KSE/N-269 dated 19 January 2009 requires the Company to place before the board of directors for their consideration and approval related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm’s length transactions and transactions which are not executed at arm’s length price recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the board of directors and placement of such transactions before the audit committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm’s length price or not.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement of Compliance does not appropriately reflect the Company’s compliance, in all material respects, with the best practices contained in the Code of Corporate Governance.

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

### **1 LEGAL STATUS AND OPERATIONS**

Biafo Industries Limited (“the Company”) was incorporated in Pakistan on 07 September 1988 as a public limited company under the Companies Ordinance, 1984 and its shares are quoted on the Karachi and Islamabad Stock Exchanges.

The Company started its commercial production on 01 July 1994 and is principally engaged in the manufacturing of commercial explosives and blasting accessories including detonators and other materials. The Company has set up its industrial undertaking in Hattar Industrial Estate, Khyber Pakhtunkhwa, with its registered office located at 203-204, 2nd Floor, M. Gulistan Khan House, 82-E, Fazal-ul-Haq Road, Blue Area, Islamabad, Pakistan.

### **2 BASIS OF PREPARATION**

#### **2.1 Statement of compliance**

These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives of the Companies Ordinance, 1984, shall prevail.

#### **2.2 Basis of measurement**

These financial statements have been prepared on the historical cost basis except for the following;

- certain items of property, plant and equipment are measured at revalued amounts; and
- investment at fair value through profit or loss is measured at fair value.

The methods used to measure fair values are discussed further in their respective policy notes.

#### **2.3 Functional and presentation currency**

These financial statements are presented in Pakistan Rupee (PKR), which is the Company’s functional currency. All financial information presented in PKR has been rounded off to the nearest of PKR, unless otherwise stated.

#### **2.4 Significant estimates**

The preparation of financial statements in conformity with the approved accounting standards

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgment about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by the management in the application of approved accounting standards that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in the ensuing paragraphs.

### **Property, plant and equipment**

The Company reviews the useful lives of property, plant and equipment on regular basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of assets with a corresponding affect on the depreciation and impairment.

### **Provisions**

Estimates of the amount of provisions recognized are based on current legal and constructive requirements. Because actual outflows can differ from estimates due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provisions are regularly reviewed and adjusted to take account of such changes.

### **Impairment of assets**

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. Any change in the estimates in future years might affect the carrying amounts of the respective assets with a corresponding affect on the impairment.

### **Taxation**

Estimates and judgments occur in the calculation of certain tax liabilities and in the determination

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2011**

of the recoverability of certain deferred tax assets, which arise from temporary differences and carry forwards. The Company takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

The regularly reviews the trend of proportion of incomes between Presumptive Tax Regime and Normal Tax Regime income and the change in proportions, if significant, is accounted for in the year of change.

**2.5 New accounting standards and IFRIC interpretations that are not yet effective**

The following approved accounting standards, interpretations and amendments to approved accounting standards are effective for accounting periods beginning from the dates specified below. These standards, interpretations and the amendments are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

IAS 1 (amendments) - Presentation of Financial Statements: (effective for annual periods beginning on or after 01 January 2011).

IAS 24 (revised definition of related parties) - Related Party Disclosures: (effective for annual periods beginning on or after 01 January 2011).

IAS 34-(amendments) - Interim Financial Reporting: (effective for annual periods beginning on or after 01 January 2011).

IFRS 7 (amendments ) - Disclosures - Transfer of Financial Assets (effective for annual periods beginning on or after 01 January 2011).

IAS 12 (amendments ) - Deferred Tax: Recovery of underlying assets: (effective for annual periods beginning on or after 01 January 2011).

IFRIC 13 (amendments ) - Customer Loyalty Programmes: (effective for annual periods beginning on or after 01 January 2011).

IFRIC 14 (IAS 19 - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction), amendment with respect to voluntary prepaid contributions is effective for annual periods beginning on or after 01 January 2011.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2011****3 SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

**3.1 Property, plant and equipment****3.1.1 Owned**

Property, plant and equipment other than leasehold land and capital work in progress, is stated at cost or revalued amount less accumulated depreciation and accumulated impairment losses, if any. Leasehold land is stated at cost or revalued amount, as the case may be. Capital work in progress is stated at cost less accumulated impairment losses, if any, and is transferred to the respective item of property, plant and equipment when available for intended use. Cost in relation to property, plant and equipment comprises acquisition and other directly attributable costs.

Depreciation is recognized in profit or loss account on a reducing balance method except for electric appliances which are depreciated on straight line method at the rates specified in note 4 to the financial statements. Depreciation is charged from the date the asset is acquired or capitalized to the date it is disposed off. Leasehold land is not depreciated.

Surplus arising on revaluation is credited to the surplus on revaluation of fixed asset account. Deficit arising on subsequent revaluation of property, plant and equipment is adjusted against the balance in the above mentioned surplus account or charged to profit and loss account in the absence of any surplus therein. The surplus on revaluation of fixed assets to the extent of incremental depreciation charged on the related assets (net of deferred tax) is transferred to unappropriated profit.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within “other operating income” in profit or loss account. When revalued asset is sold, the amount included in the surplus on revaluation of fixed assets net of deferred tax is transferred directly to equity.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2011**

**3.1.2 Leased**

Leased property, plant and equipment in terms of which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Minimum lease payments made under finance leases are apportioned between the finance charges and the reduction of outstanding liability. The outstanding obligations under the lease agreements are shown as a liability net of finance charges allocable to future periods. The finance charge is allocated to each period using the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Leased assets are depreciated over the useful life of the asset using the reducing balance method at the rates given in note 4 to these financial statements.

**3.2 Stock in trade**

Stock in trade is measured at lower of cost and net realizable value. Cost is determined as follows:

|                      |   |
|----------------------|---|
| Material in transit: | at material cost plus other charges paid thereon          |
| Raw material:        | at moving average cost                                    |
| Work in process:     | at material and related manufacturing cost                |
| Finished goods:      | at moving average cost and related manufacturing expenses |

Cost comprises of purchase and other costs incurred in bringing the material to their present location and condition. Net realizable value signifies the estimated selling price in the ordinary course of business less estimated costs necessarily to be incurred in order to make a sale.

**3.3 Stores, spare parts and loose tools**

Stores, spare parts and loose tools are valued at the lower of cost and net realizable value less allowance for slow moving and obsolete items. Cost is determined on the weighted average basis and comprises costs of purchase and other costs incurred in bringing the items to their present location and condition. Net realizable value signifies the estimated selling price in the ordinary course of business less costs necessarily to be incurred in order to make a sale.

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

The Company reviews the carrying amount of stores and spare parts on a regular basis and provision is made for obsolescence.

### **3.4 Investments**

All purchases and sale of investments are recognized using settlement date accounting. Settlement date is the date on which investments are delivered to or by the Company. All investments are derecognized when the right to receive economic benefits from the investments has expired or has been transferred and the Company has transferred substantially all the risks and rewards of ownership.

#### **3.4.1 Investments held to maturity**

Investments with fixed or determinable payments and fixed maturity and where the Company has positive intent and ability to hold investments to maturity are classified as investments held to maturity. These are initially recognized at cost inclusive of transaction costs and are subsequently carried at amortized cost using the effective interest rate method, less any impairment losses.

#### **3.4.2 Investment at fair value through profit or loss**

An investment is classified at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's investment strategy. All investments classified as investments at fair value through profit or loss are initially measured at cost being fair value of consideration given. At subsequent dates these investments are measured at fair value, determined on the basis of prevailing market prices, with any resulting gain or loss recognized directly in the profit and loss account.

### **3.5 Taxation**

Taxation comprises current and deferred tax income tax. Income tax expense is recognized in the profit and loss account except to the extent that it relates to items recognized directly in equity, if any, in which case the tax amounts are recognized in equity.

#### **3.5.1 Current**

Provision for current taxation is based on taxable income for the year at the applicable tax rates after taking into account tax credit and tax rebates, if any and any adjustment to tax payable in respect of previous years.

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

### **3.5.2 Deferred**

Deferred tax is recognized using the balance sheet liability method providing for temporary differences between the carrying amounts of assets and liabilities for financial statements and the corresponding tax bases used in the computation of tax. In addition Company also records deferred tax asset on available tax losses. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities using the tax rates enacted at the balance sheet date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Further the Company also recognizes deferred tax liability on surplus on revaluation of depreciable fixed assets which is adjusted against the related surplus. The effect on deferred taxation of the portion of income expected to fall under presumptive tax regime is adjusted in accordance with the requirements of accounting technical release 27 of the Institute of Chartered Accountants of Pakistan.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

### **3.6 Employee benefits**

Salaries, wages and benefits are accrued in the period in which the associated services are rendered by employees of the Company and measured on an undiscounted basis. The accounting policy for employee retirement benefits is described below;

#### **3.6.1 Accumulating compensated absences**

The Company makes provision for compensated un-availed absences accumulated by its employees and charge for the year is recognized in profit and loss account.

#### **3.6.2 Provident fund**

The Company has established a recognized provident fund for the management employees. Effective 01 July 2004, the benefit is also available to workers of the Company. Provision is made in the financial statements for the amount payable by the Company to the fund and in this regard contributions are made monthly at the rate of 8.33 % of basic salary equally by the Company and the employee. Obligations for contributions to plan is recognised as an employee benefit expense in profit or loss account when they are due.

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

### **3.7 Revenue recognition**

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of government levies, trade discounts and commission. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

Services include training, and professional services. Revenue from services is recognized as the services are completed or ratably over the contractual period.

### **3.8 Foreign currencies**

PKR is the functional currency of the Company. Transactions in foreign currencies are recorded at the rates of exchange ruling on the date of the transaction. All monetary assets and liabilities denominated in foreign currencies are translated into PKR at the rate of exchange ruling on the balance sheet date and exchange differences, if any, are charged to income for the year.

### **3.9 Finance income and cost**

Finance income comprises interest income on funds invested, exchange gain and changes in the fair value of financial asset at fair value through profit or loss. Income on bank deposits is accrued on a time proportion basis by reference to the principal outstanding and the applicable rate of return. Foreign currency gains and losses are reported on a net basis.

Finance cost comprises interest expense on borrowings, finance charge on leased assets and bank charges. Borrowing costs incurred for the construction of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Other borrowing costs are expensed in the profit and loss account in the period in which they are incurred.

### **3.10 Financial instruments**

Financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. The Company de-recognizes a financial asset or a portion of financial asset when, and only when, the Company loses control of the contractual right that comprise the financial asset or portion of financial asset. While, a financial liability or part of financial liability is de-recognized from the balance sheet when, and only when, it is extinguished i.e., when the obligation specified in the contract is discharged, cancelled or expired.

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

Financial assets mainly comprise long term deposits, trade debts, advances, other receivables, cash and bank balances. Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities are obligations under lease finance, long term loans, creditors, accrued and other liabilities.

All financial assets and liabilities are initially measured at fair value. These financial assets and liabilities are subsequently measured at fair value, or cost, as the case may be.

### **3.11 Offsetting**

Financial assets and liabilities and tax assets and liabilities are set off in the balance sheet, only when the Company has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

### **3.12 Trade and other payables**

Liabilities for trade and other payables are carried at cost which is fair value of the consideration to be paid in the future for goods and services received.

### **3.13 Trade and other receivables**

Trade and other receivable are stated at original invoice amount as reduced by appropriate provision for impairment. Known impaired receivables are written off, while receivables considered doubtful of recovery are fully provided for.

The allowance for doubtful accounts is based on the Company's assessment of the Collectability of counterparty accounts. The Company regularly reviews its debts and receivables that remain outstanding past their applicable payment terms and establishes allowance and potential write-offs by considering factors such as historical experience, credit quality, age of the accounts receivable balances, and current economic conditions that may affect a customer's ability to pay.

### **3.14 Provisions**

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are reviewed at each balance sheet date and if required are adjusted to reflect the current best estimate.

### **3.15 Dividend**

Dividend distribution to the Company's members is recognised as a liability in the period in which

## **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011**

the dividends are approved.

### **3.16 Cash and cash equivalents**

Cash and cash equivalents for the purpose of cash flow statement comprise cash in hand and at bank and short term borrowings that form an integral part of the Company's cash management. Cash and cash equivalents are carried in the balance sheet at cost.

### **3.17 Impairment**

#### **3.17.1 Financial assets**

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in profit or loss account. An impairment loss is reversed in the profit and loss account if the reversal can be related objectively to an event occurring after the impairment loss was recognised.

#### **3.17.2 Non financial assets**

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In the absence of any information about the fair value of a cash-generating unit, the recoverable amount is deemed to be the value in use. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit")

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2011**

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Where conditions giving rise to impairment subsequently reverse, the effect of the impairment charge is also reversed as a credit to the profit and loss account. Reversal of impairment loss is restricted to the original cost of asset.

**4.2 Revaluation of land, building, plant and machinery**

Leasehold land, building, plant and machinery of the Company were revalued in the year 2009-2010 by an independent professional valuer M/s Consultancy Support & Services. Land and building were revalued on the market basis and plant and machinery under the depreciated replacement cost basis. Accordingly net surplus on revaluation amounting to Rs. 13,518,066 was recognized in the year 2009-2010. The previous revaluation was carried out on 30 June 2005.

Had there been no revaluations, related figures of revalued leasehold land, building and plant and machinery would have been as follows:

**20 CONTINGENCIES AND COMMITMENTS**

**20.1 Contingencies**

**20.1.1** Industrial Estate Hattar of Sarhad Development Authority, Khyber Pakhtunkhwa has raised an additional demand of Rs. 6,203,400 against the Company relating to additional payment to be made to original owners of the land for which lease was signed and full payment was made in 1991. The Company has not acknowledged the claim and has filed an appeal against the demand before the Civil Judge, Haripur. The court has stayed the demand and currently the case is with the Chairman Sarhad Development Authority, Khyber Pakhtunkhwa for arbitration. Pending the outcome of the appeal, no provision has been made in these financial statements for such demand as the management is confident that the appeal will be decided in the Company's favour.

**20.1.2** For contingencies relating to tax matters refer note 27.2 to the financial statements.

### 32 FINANCIAL RISK MANAGEMENT

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout these financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

#### 32.1 Credit risk

Credit risk refers to the risk that the counterparty will fail to perform or fail to pay amounts due, resulting in financial loss to the Company. The primary activities of the Company are manufacturing and sale of commercial explosives. The Company is exposed to credit risk from its operation and certain investing activities.

The Company's credit risk exposures are categorised under the following headings:

##### Counterparties

In relation to the Company's exposure to credit risk, trade debtors, financial institutions are major counterparties and Company's policies to manage risk in relation to these counter parties are explained in the following paragraphs.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

### Trade debts

Credit risk with respect to trade debts is diversified due to the number of entities comprising the Company's customer base. Trade debts are essentially due from the entities engaged in cement manufacturing, construction, mining, oil and gas exploration service providers and agents. The Company has a credit policy that governs the management of credit risk, including the establishment of counterparty credit repayment timeline and specific transaction approvals. The Company limits credit risk by assessing creditworthiness of potential counterparties before entering into transactions with them and continuing to evaluate their creditworthiness after transactions have been initiated. Further the Company for all major customers enters into a written agreement, and amongst the provisions agreed are product rates, discount levels and repayment terms. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Collectability is assessed based on the creditworthiness of the customer as determined by credit checks and the customer's payment history to the Company. The Company establishes a provision for doubtful debts in respect of trade debts and historically such losses have been within management's expectations.

### Bank balances and investments

The Company maintains its bank balances and makes investments in money market funds with financial institutions of high credit ratings. The investment made in a NAFA Cash fund and NAFA Government Securities Liquid Fund is exposed to minimal credit risk as these are open-ended collective schemes, while deposits held with banks can either be redeemed upon demand or have a short term maturity of six months and therefore also bear minimal risk.

### Exposure to credit risk

The management constantly evaluates the creditworthiness of the customers and considers the historical payment record of customers. In relation to the trade debts that are past due the management believes that counterparties will discharge their obligations and accordingly no additional allowance for impairment is required.

The allowance account in respect of other receivables is used to record impairment losses, when no recovery of the amount owing is possible; at that point the amount considered irrecoverable is written off by the Company.

### 32.2 Liquidity risk

Liquidity risk results from the Company's potential inability to meet its financial liabilities, e.g. settlement of borrowings, paying its suppliers and settling finance lease obligations. The responsibility for liquidity risk management rests with the Board of Directors of the Company and their approach in this regard is to ensure that the Company always has sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking damage to the Company's reputation. Beyond effective net working capital and cash management, the Company mitigates liquidity risk by arranging short term financing from highly rated financial institutions.

The maturity profile of the Company's financial liabilities based on the contractual amounts is as follows:

|                               | 2011               |                           | 2010               |                           |

### 32.3 Market risk

Market fluctuations may result in cash flow and profit volatility risk for the Company. The Company's operating activities as well as its investment and financing activities are affected by changes in foreign exchange rates, interest rates and security prices. To optimize the allocation of the financial resources as well as secure an optimal return for its shareholders, the Company identifies, analyzes and proactively manages the associated financial market risks. The Company seeks to manage and control these risks primarily through its regular operating and financing activities.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

### Foreign currency risk management

PKR is the functional currency of the Company and exposure arises from transactions and balances in currencies other than PKR as foreign exchange rate fluctuations may create unwanted and unpredictable earnings and cash flow volatility. The Company's potential currency exposure comprise;

- Transactional exposure in respect of non functional currency monetary items.
- Transactional exposure in respect of non functional currency expenditure and revenues.

The potential currency exposures are discussed below;

### Transactional exposure in respect of non functional currency monetary items

Monetary items, including financial assets and liabilities, denominated in currencies other than the functional currency of the Company are periodically restated to PKR equivalent, and the associated gain or loss is taken to the profit and loss account. The foreign currency risk related to monetary items is managed as part of the risk management strategy.

### Transactional exposure in respect of non functional currency expenditure and revenues

Certain operating and capital expenditure is incurred by the Company in currency other than the functional currency. Certain sales revenue is earned in currencies other than the functional currency of the Company. These currency risks are managed as a part of overall risk management strategy. The Company does not enter into forward exchange contracts.

### Exposure to foreign currency risk

The Company's exposure to foreign currency risk was as follows based on following amounts:

|                       | <b>2011<br/>USD</b>   | <b>2010<br/>USD</b>   |
|-----------------------|-----------------------|-----------------------|
| Trade debts           | 270,178               | -                     |
| Bank balances         | 474,213               | 697,653               |
| Advance from customer | -                     | (38,673)              |
|                       | <b><u>744,391</u></b> | <b><u>658,980</u></b> |

The significant exchange rates applied during the year were:

|       | Average rate   |                | Reporting date mid spot rate |                |
|-------|----------------|----------------|------------------------------|----------------|
|       | 2011<br>Rupees | 2010<br>Rupees | 2011<br>Rupees               | 2010<br>Rupees |

### Sensitivity analysis

A 10 percent weakening of the PKR against the USD at 30 June would have increased equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

|                         | <b>2011<br/>Rupees</b> | <b>2010<br/>Rupees</b> |
|-------------------------|------------------------|------------------------|
| Profit and loss account | <u>6,390,600</u>       | <u>5,640,210</u>       |

A 10 percent strengthening of the PKR against the USD at 30 June would have had the equal but opposite effect on USD to the amounts shown above, on the basis that all other variables remain constant.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

### Interest rate risk

The interest rate risk is the risk that the value of the financial instrument will fluctuate due to changes in the market interest rates. Sensitivity to interest rate risk arises from mismatches of financial assets and liabilities that mature in a given period. The Company adopts a policy to ensure that interest rate risk arising on its financial assets is minimized by investing in fixed rate investments like TDRs.

### Profile

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was:

|   | <u>2011</u><br>% | <u>2010</u><br>% | <u>2011</u><br>Rupees    | <u>2010</u><br>Rupees    |

### Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Company does not have derivatives as hedging instruments recognized under fair value hedge accounting model. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

### Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates would have increased or decreased profit or loss by Rs. 29,855 (2010: Rs. 347,039).

### Price risk

The Company is exposed to equity security price risk because of investment held by the Company in the NAFA Government Securities Liquid Fund. These investments are classified as "investments at fair value through profit or loss. The Company makes investment in securities in accordance with the Board of Directors approval.

### Sensitivity analysis – equity price risk

A change of Rs. 1 in value of investment at fair value through profit and loss would increase/decrease profit by Rs. 10,748,787 (2010: Rs. 6,826,375).

### 32.4 Fair value of financial assets and liabilities

All financial assets and financial liabilities are initially recognized at the fair value of consideration paid or received, net of transaction costs as appropriate, and subsequently carried at fair value or amortized cost, as indicated in the tables below.

The financial assets and liabilities are presented by class in the tables below at their carrying values, which generally approximate to the fair values.

The basis for determining fair values is as follows:

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

### Interest rates used for determining fair value

The interest rates used to discount estimated cash flows, when applicable, are based on the government yield curve at the reporting date plus an adequate credit spread. Since the majority of the financial assets are fixed rate instruments, there is no significant difference in market rate and the rate of instrument, fair value significantly approximates to carrying value.

### Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

### Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods.

### Investment in fair value through profit and loss account - held for trading

The fair value of held for trading investment is determined by reference to their quoted closing repurchase price at the reporting date.

### Non - derivative financial assets

The fair value of non-derivative financial assets is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes.

### Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

## 33 CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders, and to maintain a strong capital base to support the sustained development of its businesses.

The Company manages its capital structure which comprises capital and reserves by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to shareholders and/or issue new shares. There were no changes to Company's approach to capital management during the year and the Company is not subject to externally imposed capital requirement.
