#### COMPANY PROFILE

Pak Suzuki Motor Company Limited (PSMC) is a public limited company with its shares quoted on Stock Exchanges in Pakistan. The Company was formed in August 1983 in accordance with the terms of a joint venture agreement concluded between Pakistan Automobile Corporation Limited (representing Government of Pakistan) and Suzuki Motor Corporation (SMC) - Japan. The Company started commercial production in January 1984 with the primary objective of progressive manufacturing, assembling and marketing of Cars, Pickups, Vans and 4 X 4 vehicles in Pakistan.

The foundation stone laying ceremony of the company's existing plant located at Bin Qasim was performed in early 1989 by the Prime Minister then in office. By early 1990, on completion of first phase of this plant, in-house assembly of all the Suzuki engines started. In 1992, the plant was completed and production of the Margalla Car commenced. Presently the entire range of Suzuki products currently marketed in Pakistan are being produced at this Plant.

Under the Government's privatization policy, the Company was privatized and placed directly under the Japanese management in September 1992.

At the time of privatization, SMC increased its equity from 25% to  $40^{\circ}/,$ . Subsequently, SMC progressively increased its equity to 72.8% by purchasing remaining shares from PACO. The total foreign investment brought in by SMC - Japan since inception stands at Rs. 1026.36 million.

The Suzuki Management immediately after privatization started expansion of the Bin Qasim Plant to increase its installed capacity to 50,000 vehicles per year. The expansion was completed in July 1994. Keeping this in view, the company's long term plans inter-alia include tapping of export markets. The company has acquired additional land measuring about 30 acres from Pakistan Steel Mills Corporation in proximity to its Bin Qasim Plant to set up production facilities for manufacture of some local components.

The Company continues to be in the fore-front of automobile industry of Pakistan. Over a period of time, the company has developed an effective and comprehensive network of sales service and spare parts dealers who cater to the needs of customers and render effective after

# CHAIRMAN'S REVIEW

I am pleased to present my review on the performance of the Company for the year ended June 30, 1997.

# PRODUCTION

The production volume increased by 8.8% from 28,040 units of last year to 30,513 units during the year under review. The capacity utilization improved to 61% from 56% recorded last year. Further capacity could not be utilized due to lower demand.

#### OPERATING RESULTS

The Company earned net profit after tax of Rs. 391.390 million against Rs. 574.502 million earned last year.

The sales volume increased to 29,067 units from 28,217 units of last year. The drop in sales revenue from Rs. 7,904.301 million to Rs. 7,710.453 million despite of increase in sales volume was due to shift in product-mix. Higher sales of Potohar and Margalla were achieved last year as compared to the current year sales.

In the Federal Budget for 1996-97, the Government increased the rates of custom duties, sales tax and capital value tax. These fiscal measures adversely affected demand and the Company could not sell its projected volumes.

Gross profit as a percentage of sales declined from 11.6% in the preceding year to 8.6%. In absolute terms the gross profit decreased by Rs. 256.591 million (28%). The decline in profitability was due to the fact that Company did not pass on the full impact of increase in rates of custom duties and sales tax in order to maintain sales volume.

The selling and administration expenses increased from Rs. 145.239 million in the preceding year to Rs. 175.502 million and as a percentage of sales from 1.84% to 2.28%. The main factors which contributed to the increase were increase in salaries, utilities, repair & maintenance, advertising, sales promotion and the effect of extending warranty period.

Other income reduced from Rs. 98.435 million of the previous year to Rs. 90.425 million due to decreased bank deposits. Financial and other charges declined from Rs. 127.644 million of last year to Rs. 90.621 million due to decrease in rebate to customers on pending booking of vehicles and lower contribution to workers' profit participation fund.

During the year the market value of WAPDA Bonds (Third Issue) shown in current assets fell

#### PakSearch.com - Pakistan's Best Business site with Annual Reports, Laws and Articles

below cost. Consequently in compliance to International Accounting Standard, Company had to provide for diminution in its value. In view of brought forward tax losses, Company provided only for turnover tax on account of current taxation. If there had not been unabsorbed brought forward tax losses, the provision for current taxation would have been Rs. 120 million and accordingly net profit after tax would have reduced to Rs. 271 million.

#### MARKETING

The economic recession in the country emerging in the first half of the accounting year resulted in a sluggish market for all commodities including automobiles. The Company however did succeed in increasing sales volume by 3% this year. This was achieved through aggressive advertising and sales promotion strategies implemented during the year. The management is very much concerned about the un-utilized production capacity because of lower demand. Higher volumes are necessary for economies of scales. The management is aggressively exploring export markets to utilize idle capacity.

The management is aware of the competition which Company products may face with the entry of new automobile assemblers and products. The Company's slogan for the year was "Customer Satisfaction". During the year Company had launched Free Service Campaigns all over the country.

On the eve of Golden Jubilee of Pakistan, Company introduced the upgraded model of Margalla Car with a totally revamped interior and a modified exterior.

#### PERSONNEL

Management and employees relations continued to remain cordial and industrial peace prevailed during the year. The new charter of demand by the CBA has been submitted to the management after the expiry of previous agreement and a negotiated settlement has been concluded.

# ECONOMIC CONTRIBUTION

Despite adverse factors, the Company maintained its distinctive position as a leading contributor in the automobile industry to the public exchequer. The duties and taxes paid and the foreign exchange saved by Company in its last five years of

| Year    | Duties<br>and<br>taxes<br>(Rupees in mi | * Foreign<br>exchange<br>saving<br>llion) |
|---------|---|---|
| 1992-93 | 1,475                                   | 1,581                                     |
| 1993-94 | 1,157                                   | 1,033                                     |

<sup>\*</sup> Based on actual import of CKD

#### FUTURE PROSPECT & CONCLUSION

The company would strive to maintain its profitability in the coming year. However devaluation of the rupee and Government policies would play a vital role in this achievement.

The Company's key objective continue to remain.

- To provide automobiles of international quality at reasonable prices.
- To improve skills of employees by imparting training and inculcating in them a sense of participation; and
- To abide by the deletion policy of the Government, achieve maximum indigenisation and promote the automobile vending industry.

In conclusion, I on behalf of the Board and shareholders would like to express my appreciation to the management, executives, workers, dealers, vendors and Suzuki experts for their efforts and contribution to the affairs of the Company. My sincere gratitude also goes to all the government agencies for their continued support and encouragement.

# NOTES TO AND FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED JUNE 30, 1997

# 1. COMPANY BACKGROUND, OPERATIONS AND LEGAL STATUS

The Company was formed in accordance with the terms of a joint venture agreement concluded between Pakistan Automobile Corporation Limited (PACO) and Suzuki Motor Corporation, Japan (SMC) - the principal shareholders of the Company, for the purposes of assembling, progressive manufacturing and marketing of Suzuki Cars, Pickups, Vans and 4x4s. Under the joint venture agreement, the net assets of Awami Autos Limited (AAL), a subsidiary of PACO, now liquidated, were taken over by the Company in August 1983 in consideration for which shares in the Company were issued to PACO.

The Company was incorporated in Pakistan as a public limited company in August 1983 and started commercial production in January 1984. The shares of the Company are quoted on Karachi and Lahore Stock Exchanges.

In accordance with the terms of a sale agreement dated September 19, 1992 between SMC and PACO, SMC increased its shareholding to 40% in the Company by purchasing shares from PACO and took over its management with effect from September 21, 1992. Since then SMC progressively increased its investment thereby acquiring increased equity.

In July 1996, PACO disinvested its remaining shareholding. These shares were acquired by SMC in terms of the joint venture agreement between PACO and SMC - Japan which has since come to an end. The total foreign investment brought in by SMC - Japan since inception stands at Rs. 1,026.36 million.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 Accounting convention

These accounts have been prepared under the historical cost convention.

#### 2.2 Tangible fixed assets and depreciation

Operating fixed assets are stated at cost less accumulated depreciation. Capital work-in-progress is stated at cost. Items of fixed assets costing Rs. 10,000/- or less are not capitalized and charged off in the year of purchase.

Depreciation on all operating fixed assets, except leasehold land, is charged to income applying the reducing balance method whereby the cost of an asset is written off over its estimated useful life. Leasehold land is depreciated using the straight line method whereby the cost of the leasehold land is written off over its lease term. The full year's depreciation is charged on additions while no depreciation is charged on assets deleted during the year.

Maintenance and normal repairs are charged to income as and when incurred. Gain or loss on sale or retirement of fixed assets is included in income currently.

#### 2.3 Capitalisation of borrowing cost

The borrowing cost during construction period, on loans obtained for a specific project, is capitalised as part of fixed asset additions or included in capital work-in-progress.

#### 2.4 Investments

Long-term investments in shares are stated at cost. However, provision is made for permanent diminution in value of investment, if any. Short-term investments are stated at the lower of cost and market value.

#### 2.5 Deferred costs

Deferred costs are charged to income over a period of three years.

# 2.6 Stores, spares and loose tools

Stores, spares and loose tools, except items-in-transit, are valued at cost calculated on a first-in-first-out basis. Items in-transit are valued at cost comprising invoice values plus other charges paid thereon to the balance sheet date. Provision is made annually in the accounts for slow moving and obsolete items.

#### 2.7 Stocks

Stocks, except items-in-transit, are valued at the lower of cost and net realisable value. Cost is calculated on a first-in-first-out or specific consignment basis,' depending upon their categories. Stocks-in-transit are stated at invoice values plus other charges accrued thereon to the balance sheet date. The Company assumes title to stocks-in-transit after the relevant documents are retired.

Vehicles on wheels are taken as work-in-process until they are approved by the quality control department. After such approval the vehicles are classified as finished goods. The assembled engines are included in raw material. The cost of assembled engines, work-in-process and finished goods consists of landed cost of imported materials, average local material cost, factory overhead and direct labour. Cost in relation to CKD vehicles represents landed cost.

Net realisable value is determined by considering the prevailing selling prices of vehicles in the ordinary course of business less costs of completion and less cost necessarily to be incurred in order to make the sale. The net realisable values are determined on the basis of each line of product.

Provision is made annually in the accounts for slow moving and obsolete items.

#### 2.8 Employees retirement gratuity scheme

The Company operates an approved funded gratuity scheme covering all its permanent employees.

Contribution is payable to the fund on yearly basis according to actuarial recommendation at a rate of 13.5% of basic salaries. The actuarial valuation of the scheme is carried out once in every three years on the basis of "Attained Age Normal Actuarial Cost Method". The expected rate of increase in salaries and return on investment for the purpose of actuarial valuation are assumed to be 11% and 12% respectively.

The last actuarial valuation was carried out as on June 30, 1996. The fair value of the scheme's assets and liabilities for the past services at latest valuation date were Rs. 33.089 million and Rs. 37.994 million respectively.

The gratuity benefits are payable to staff on completion of prescribed qualifying period of service at the time of retirement as laid down in the scheme.

#### 2.9 Taxation

#### Current:

Provision for current taxation in the accounts is based on taxable income at the current rates of taxation after taking into account tax credits and tax rebates available, if any, or minimum tax at 0.5 percent of turnover, whichever is higher.

#### Deferred:

The Company accounts for deferred taxation arising on major timing differences using the liability method.

# 2.10 Foreign currencies

Foreign currency transactions are converted at the rates of exchange ruling on the dates of those transactions or forward exchange contract rates. Assets and liabilities expressed in foreign currencies are translated into Pak rupees at the rates of exchange prevailing on the balance sheet date except those liabilities covered under forward exchange contracts which are translated at the contractual rates. Exchange differences are included in income currently.

#### 2.11 Revenue recognition

Revenue is recognised when goods are sold and services rendered. Goods are treated as sold when they are specified and invoiced.

Warranty and insurance claims are recognised when the claims in respect thereof are lodged whereas indenting and agency commission is recognised when the shipments are made by the principals.

#### 2.12 Accounting for compensated absences

The Company accounts for accrual for employees' compensated absences on the basis of unavailed earned leave balance of each employee as at the end of the year.

#### 2.13 Research and development costs

Research and development costs are charged in the year in which they are incurred.

#### 2.14 Warranty obligations

The Company accounts for its warranty obligations on accrual basis.

The above deposits are not liable to financial charges.

6.2 The sales tax authorities had issued demand notice for recovery of sales tax, additional tax and surcharge for Rs. 50.465 million (1996: Rs. 50.465 million) for alleged incorrect adjustment of input sales tax amounting to Rs. 19.804 million (1996:19.804 million) on components locally procured for consumption in the assembly of Suzuki taxis against output sales tax of other taxable vehicles during the period from February 1992 to August 1992, which were otherwise exempted from the levy of sales tax under the Prime Minister's Public Transport Scheme. The Company had disputed the contention of the sales tax authorities and had filed appeal against the order of the sales tax authorities with the Collector (Appeals) which was decided against the Company. The Company subsequently filed a writ petition in the High Court of Sindh. The Company was granted stay of demand by the High Court of Sindh till the final disposal of the writ petition. In view of the inherent delays that are associated in litigation and the element of uncertainty inherent in such matters, the provision was made as a matter of prudence.

- 6.4 The facility for opening letters of credit as at June 30, 1997 amounted to Rs. 2,145 million (1996:2024 million) of which the amount remaining unutilised at the year end was Rs. 938.233 million (1996: Rs. 491.287 million).
- 6.5 The facilities for running finance available from two banks amounted to Rs. 290 million (1996: Rs. 100 million). These facilities are secured against pledge of WAPDA Bonds to one of the banks for Rs. 200 million and second charge (hypothecation) on spare parts and components to the tune of Rs. 100 million in favour of another bank. The markup rates on these facilities are paisas 45 and paisas 41.10 per Rs. 1000 per day respectively.

#### 7. Commitments

Capital expenditure contracted for but not incurred amounted to Rs. 9.795 million (1996: Rs. 6.537 million).

- 8.2 Two out of three leasehold lands on which the buildings at West Wharf are situated are in the names of Sind Engineering (Private) Limited and Republic Motors (Private) Limited. The lease agreements relating to these lands have been expiring on various dates commencing March 1998. The transfer of the leasehold lands in the name of the Company and the renewal of these leases is in process.
- 8.3 Included in the operating fixed assets, in note 8.1 above, at an aggregate net book value, as at June 30, 1997, of Rs. 16.990 million (1996: Rs. 18.408 million) are factory and office buildings on leasehold lands and certain items of plant and machinery at West Wharf, Karachi which consequent to the transfer of the Company's production facilities from West Wharf to Bin Qasim in July 1993 and transfer of the Company's head office in July, 1994 are no longer in use and are now held for disposal. The management is confident that the net realizable values of the aforementioned factory and office buildings on leasehold lands and items of plant and machinery are expected to be more than their net book values.

|   |        |         |          |
|   |        | -       | 14,195   |
|   |        | ======= | ======== |

12.4.1 This represents sales tax paid on purchase of local components for consumption in the assembly of Suzuki taxis. The grounds for this claim are similar as that of the matter stated in note 6.2 above which is under litigation in the High Court of Sindh. :

However, in view of the delays that are usually associated with matters in litigation and the element of uncertainty inherent in such matters, as a matter of prudence a provision has been made.

#### TAXATION

# 18.1 Current

In view of the assessed accumulated tax losses available for set-off, provision for current taxation for the year is based on minimum tax at 0.5 percent on turnover of the Company.

### 18.2 Deferred

The deferred tax liability, computed under the liability method on account of timing differences primarily due to accelerated tax depreciation, at June 30, 1997 amounted to approximately Rs. 97.500 million (1996: Rs. 126.000 million). Provision for deferred taxation has been made in the accounts as the management considers that the timing differences would reverse in the foreseeable future.
