Notice of Annual General Meeting

Notice is hereby given that Tenth Annual General Meeting of NIB Bank Limited ("the Bank") shall be held at 3.00 pm on Friday the 29th March 2013, at ICAP Auditorium, Institute of Chartered Accountants of Pakistan (ICAP) Building, G-10/4, Mauve Area, Islamabad to transact the following business:

ORDINARY BUSINESS:

- 1. To confirm the minutes of the 9th Annual General Meeting held on 30th March 2012.
- 2. To receive, consider and adopt the Audited Accounts of the Bank for the year ended 31st December 2012 together with Directors' and Auditors' Reports thereon.
- 3. To appoint auditors and fix their remuneration. M/s. KPMG Taseer Hadi & Co., Chartered Accountants have offered themselves for the re-appointment.
- 4. To elect the directors of the Bank for a period of 3 (three) years in accordance with the provisions of Section 178 of the Companies Ordinance, 1984. The number of directors to be elected has been fixed as 8 (eight) pursuant to the provisions of section 178(1) of the Companies Ordinance, 1984. The following directors are retiring and are eligible for re-election:
 - a) Teo Cheng San, Roland
 - b) Syed Aamir Zahidi
 - c) Tejpal Singh Hora
 - d) Chia Yew Hock, Wilson
 - e) Asif Jooma
 - f) Muhammad Abdullah Yusuf
 - g) Najmus Saquib Hameed
 - h) Badar Kazmi

SPECIAL BUSINESS:

5. To grant post facto approval to the payment of remuneration fixed by the Board for the Non-executive Directors, in terms of State Bank of Pakistan's Prudential Regulations # G-1(C)(2) for Corporate / Commercial Banking and to pass the following resolution:

RESOLVED that post facto approval for payment of remuneration fixed by the Board for Non-executive Directors in terms of State Bank of Pakistan's Prudential Regulation # G-1(C)(2) for Corporate / Commercial Banking is hereby granted.

6. Any other business with the permission of the Chair.

Statements as required under Section 160(1)(b) of the Companies Ordinance, 1984 setting forth all material facts concerning the special business contained in the Notice to be considered at the meeting are annexed to the Notice of the meeting being sent to the members.

By Order of the Board

Karachi 8th March 2013 Ather Ali Khan

Company Secretary

Notes:

- 1. Share Transfer Book of the Bank will remain closed from 21st March to 29th March 2013 (both days inclusive).
- 2. A shareholder entitled to attend and vote at this meeting may appoint another shareholder as his / her proxy to attend and vote. A shareholder can appoint only one proxy to attend the meeting. Proxies, in order to be effective, must be received at the Head Office of the Bank situated at PNSC Building, M.T. Khan Road, Karachi (Pakistan) not later than 48 (forty eight) hours before the time of meeting, and must be duly stamped, signed and witnessed.
- 3. Every candidate who seeks to contest the election, whether he is retiring director or otherwise, shall file with the Bank at least 14 days before the meeting a notice of his intention to offer himself for election as director along with

his consent in the prescribed form to his appointment as director of the Bank along with declaration as required under the Code of Corporate Governance (Listing Regulations) and "Fit and Proper Test" affidavit and a complete set of documents as required in terms of State Bank of Pakistan's Prudential Regulations.

- Shareholders are requested to notify any change in their addresses immediately to the Bank or Share Registrar, M/s. THK Associates (Pvt.) Limited, Ground Floor, State Life Building No. 3, Dr. Ziauddin Ahmed Road, Karachi (Pakistan).
- 5. CDC Account Holders will further have to follow the under mentioned guidelines as laid down in Circular 1 dated the 26th January 2000 issued by the Securities and Exchange Commission of Pakistan:

For attending the meeting:

In case of individuals, the account holder or sub-account holder or investor account holder shall authenticate identity by showing his / her original computerized national identity card (CNIC) or original passport at the time of attending the meeting.

In case of corporate entity, the Board of Directors' resolution / power of attorney with specimen signature of the nominee shall be produced (unless it has been provided earlier) at the time of the meeting.

For appointing proxies:

In case of individuals, the account holder or sub-account holder or investor account holder shall submit the proxy form as per the above requirement.

The proxy form shall be witnessed by two persons whose names, addresses and CNIC Numbers shall be mentioned on the form.

Attested copy of CNIC or the Passport, of the account holder or sub-account holder or investor account holder shall be furnished with the proxy form.

The proxy shall produce his original CNIC or original Passport at the time of the meeting.

In case of corporate entity, the Board of Directors' resolution / power of attorney with specimen signature shall be submitted (unless it has been provided earlier) along with proxy form to the Bank.

Statement under Section 160(1) (b) of the Companies Ordinance, 1984

NIB Bank Limited was incorporated as a public limited company under the Companies Ordinance, 1984, to carry on the business of a banking company under the Banking Companies Ordinance, 1962.

1) REMUNERATION TO NON-EXECUTIVE DIRECTORS AND CHAIRMAN:

As per State Bank of Pakistan's Prudential Regulation G-1(C)(2), the Banks / DFIs during a calendar year may pay a reasonable and appropriate remuneration for attending the Board or its Committee(s) meeting(s) to the Non-executive Directors and Chairman, which should be linked to the actual number of Board / Committee meetings attended by an individual Director / Chairman. Furthermore, the scale of remuneration to be paid to the Non-executive Directors / Chairman for attending the Board and / or Committee meetings shall be approved by the shareholders on a pre or post facto basis in the Annual General Meeting. There is no change in scale since 2009. During 2012 an amount of Rs. 5.973 million has been paid to Non-executive Directors.

For the purpose aforesaid it is proposed that the resolution set out in the notice convening the Annual General Meeting of the Bank be passed as and by way of a Special Resolution.

Directors' Report to the Shareholders

THE ECONOMY

The highlight for 2012 on the macroeconomic landscape was the interest rate easing stance adopted in the monetary policy by the State Bank of Pakistan (SBP). Prompted by the Consumer Price Index (CPI) receding to an average of 9.7% in 2012 vs 12.0% in 2011 and hitting a 5-yr low at 6.93% in November, the SBP cut the discount rate to 9.50% in December. As a result the three cumulative cuts totaled 2.50% in the calendar year. The lower rate of inflation was mainly driven by softer food inflation, sharp cut in gas tariff and CNG prices in July and October respectively.

Given impending repayments on external debt obligations, particularly to the IMF, exchange rate concerns remained in the forefront with the currency depreciating by 8% during the year compared to a 5% decline in 2011. During 2012 total repayments were around USD 2.3 bn, resulting in a sharp decline in foreign exchange reserves to USD 13.9 bn. Second half of the calendar year saw relatively improved inflows with USD 1.8 bn received under the Coalition Support Fund. As a result, Current Account posted a surplus of USD 0.25 bn in the last six months of 2012 compared to a deficit of USD 2.4 bn in corresponding period of the preceding year. Recent meetings between the senior officials of the Government and the IMF indicate a high likelihood of another IMF bailout package in the offing.

By June 2012 the fiscal deficit had reached 8.5% of GDP. This was financed primarily by domestic sources. Tax to GDP ratio remained at 9.9% during the year, much below desired levels while the Government financed its entire debt servicing costs and development expenditures through additional borrowing from the banking sector. The adverse impact of Government borrowing was on private sector credit which failed to revive as envisaged despite the aggressive discount rate cuts by the SBP.

Progress on policy issues, e.g. gas supply to mainstream sectors including power, textile and fertilizers, trade policy, tax reforms and energy sector debt, remained slow in 2012.

BANKING SECTOR

Banking sector continued to maintain strong growth in profitability. Aggregate profit after tax grew by 22% year on year for the first 9 months of the calendar year. Improvement in profitability was led by increase in non funded income and lower provisions. However, net interest income grew by only 1% as banking spreads came under pressure. This was due to the combined impact of discount rate cuts and the increase in the SBP mandated minimum interest rate floor on savings accounts by 100 basis points in April 2012.

Non-Performing Loans showed improvement in 2012 versus prior year. This was partly attributable to continuation of risk averse credit strategy adopted by the banks, as evidenced by the advance to deposit ratio of 58% in December against 60% in the previous year. Going forward the lack of improvement in credit demand coupled with the recent reduction in interest rates is expected to keep banking sector earnings under strain.

OPERATING RESULTS

After two consecutive years of losses, the Bank is pleased to announce return to profitability. Unconsolidated profit after tax of Rs 38 mn for the year ended December 2012 has been recorded. On a consolidated basis profit after tax in 2012 was Rs 262 mn. Despite serious challenges and constraints the Bank was able to grow revenues by 25% while restricting expense growth to 10%. More significantly the Bank has also been able to achieve a positive operating margin, i.e., operating revenues less expenses. We believe this gives the Bank a good base from which to improve its performance going forward.

The Bank grew it's Corporate loan portfolio mainly in blue chip corporates and public sector entities. In the Commercial segment the bank selectively grew in certain segments and scaled backed in others. The Bank has also restarted Consumer lending in a measured way with an emphasis on security and collectability. Active management of the Balance Sheet also yielded positive results. Despite the foregoing measures the overall impact of 250 basis points cut in interest rates and its adverse impact on margins resulted in lower gross interest income in 2012 compared to 2011.

In continuation of its efforts to develop stable and low cost funding the Bank continued its focus on mobilizing lower cost deposits by leveraging its branch network and also by offering customized transaction banking solutions to its customers. Concurrently, with a declining interest rate environment it was essential to proactively manage the deposit mix. As a result the proportion of current and low cost deposits to total deposits improved from 2011 and cost of borrowing dropped by 1.53%.

Overall net interest income of the Bank increased by Rs 777 mn, a 37% improvement over 2011.

Focus on increasing non funded income also bore positive results. Fees and commissions grew by 18% between the two years from higher cross-sell of services including Bancassurance, Corporate Advisory and Trade Finance. Capital gains from the sale of securities and equity more than compensated for reductions in dividends from a significantly smaller equity portfolio and reduced foreign exchange earnings. Overall aggregate non funded income increased by 13% between 2011 and 2012.

The Bank continued its investments in people, premises and technology in order to build a robust and sustainable platform for growth. While the Bank was able to hire a number of experienced and talented resources with proven track record to strengthen bench strength at both senior and middle management levels, it has also been focusing on optimizing on the existing talent pool. In order to provide its employees with a more productive and efficient work environment, the Bank shifted its Head Office in October to a newly renovated building in a less congested area of the city. The shift has not only yielded operating cost savings as envisaged, but has also resulted in creating capacity for future growth through efficient space usage. Apart from the Head Office the Bank has also started to gradually upgrade its branch network with top priority being given to premises with Health and Safety risk factors. This is a medium term project and is being undertaken in phases.

While being cognizant of resource constraints the Bank continued to fund new investments in technology, re-engineering of processes and increased automation to support various strategic business initiatives. Including these investments and despite the prevalent high inflation, the Bank was successfully able to restrict administrative expenses growth to 10% over prior year.

On the Remedial side, the improvement in net credit provisioning has been a result of execution of a concerted strategy. The Bank intends to build upon its success in managing NPLs and improving recoveries by continuing to invest in the Remedial function.

FUTURE OUTLOOK

Despite the challenging economic environment in 2012, through a disciplined and focused approach the Bank was able to show good growth in top line revenue by leveraging the inherent strength of the franchise, extensive network, committed people and loyal customers. We will strive to create the best outcomes for our corporate clients and retail customers with financial solutions that are simple and innovative. With the key enablers well in place, and despite external challenges, we are confident that execution of our focused business strategy should lead to sustained growth in the Bank's revenues and profitability.

CREDIT RATING

The Pakistan Credit Rating Agency (PACRA) has maintained NIB's long term rating and short term rating at AA- (Double A minus) and at A1+ (A one plus) respectively in June 2012. The rating of unsecured TFC issue of PKR 4,000 mn has also been maintained at A+ (A plus). The ratings denote very low expectation of credit risk emanating from a very strong capacity for timely payment of financial commitments.

CORPORATE GOVERNANCE

During the year under review, the Bank was compliant with the provisions of the Code of Corporate Governance. Being aware of their responsibilities under the Code of Corporate Governance, the Board of Directors state that:

The financial statements prepared by the management of the Bank, present fairly its state of affairs, the results of its operations, cash flows and changes in equity.

Proper books of accounts of the Bank have been maintained.

Appropriate accounting policies, except hereinafter mentioned, have been consistently applied in preparation of financial statements and accounting estimates are based on reasonable and prudent judgment.

International Accounting Standards, as applicable in Pakistan, have been followed in preparation of the financial statements and any departure therefrom has been adequately disclosed and explained.

The system of internal control is sound in design and has been effectively implemented and monitored.

There are no significant doubts upon the Bank's ability to continue as a going concern.

Directors' Report to the Shareholders

In 2012 the Board of Directors was given a presentation on the latest changes in the Code of Corporate Governance. One director has partially completed the "Bank Governance Programme" offered by the Pakistan Institute of Corporate Governance, to be completed by June 2013 as required by the Code.

There has been no material departure from the best practices of Corporate Governance, as detailed in the listing regulations of Stock Exchanges.

As of 31st December 2012, the value of investments of the Provident Fund was Rs.776,771,435/-(unaudited).

Trading during the year, if any, in the shares of the Bank, carried out by Directors, Executives and their spouses and minor children, are disclosed in the pattern of shareholding.

Dividend has not been declared for the year due to the small amount of earnings.

Six years' financial data for NIB Bank on an unconsolidated is provided hereunder:

Rs mn	2012	2011	2010	2009	2008	2007
Advances	71,564	60,844	74,566	84,021	80,344	81,932

INTERNAL CONTROL AND RISK MANAGEMENT FRAMEWORK

The Board is pleased to endorse the statements made by the management relating to internal control and the risk assessment framework to meet the requirement of the State Bank of Pakistan (SBP) BSD Circular No. 7 of 2004, BSD Circular letter No. 2 of 2005 and Code of Corporate Governance issued by the Securities & Exchange Commission of Pakistan (SECP). The management's statements are included in the annual report.

Bank

Directors' Report to the Shareholders

CORPORATE SOCIAL RESPONSIBILITY

Pakistan faced its greatest humanitarian crisis during the devastating floods of 2010 & 2011. The effects of the floods have been long term with rehabilitation projects extending in to 2012. The floods not only damaged the infrastructure in interior Sindh and Baluchistan but also contaminated the water supplies which led to serious water borne diseases and healthcare problems. Like many affected areas of Sindh, Budhapur was also one district that became a victim of this national tragedy. This district had absence of any proper healthcare facility and its inhabitants had to travel to neighbouring villages to seek treatment. Keeping true to the spirit of helping people grow, NIB Bank proactively took part in raising funds for the district of Budhapur to build a state-of-the-art healthcare centre for mothers and children. NIB Bank is committed to fulfilling its role towards the community and continues to respond to alleviate the adversity faced by the citizens of the affected areas/segments of society.

AUDITORS

The present auditors M/s. KPMG Taseer Hadi & Co., Chartered Accountants retire and, being eligible have offered themselves for re-appointment in the forthcoming Annual General Meeting. The Board of Directors on the suggestion of the Audit Committee recommends their appointment for the next term.

PATTERN OF SHAREHOLDING

The pattern of shareholding as at 31st December 2012 is included in the annual report.

ACKNOWLEDGEMENT

NIB Bank is grateful to its majority shareholder, Fullerton Financial Holdings, a subsidiary of Temasek Holdings of Singapore, who have repeatedly demonstrated their commitment to the Bank. NIB Bank is also very grateful to its minority shareholders for their patience and perseverance and most of all to its customers who continue to demonstrate very strong loyalty to NIB. The SBP, SECP and other regulatory bodies have, as always guided the Bank well and have given their full support which is highly appreciated. The transformation the Bank has undergone in the past year would not have been possible without the tireless efforts and dedication of its employees and for that they deserve a special thank you.

On behalf of the Board

Teo Cheng San, Roland Chairman **Badar Kazmi** Director & President / CEO

Statement of Compliance with Code of Corporate Governance For the year ended December 31, 2012

This statement is being presented to comply with Code of Corporate Governance (CCG) contained in Regulation # 35 of Listing Regulations of stock exchanges where the Bank's shares are listed and Regulation G-1 of SBP's Prudential Regulations for the purpose of establishing a framework of good governance, whereby a listed company is managed in compliance with the best practices of corporate governance.

The Bank has applied the principles contained in the Code of Corporate Governance (CCG) in the following manner:

1. The Bank encourages representation of independent Non-executive Directors on its Board including those representing minority interests. At present the Board includes:

Category	Name
Independent Directors	Teo Cheng San, Roland Asif Jooma Muhammad Abdullah Yusuf Najmus Saquib Hameed
Non-Executive Directors	Syed Aamir Zahidi Tejpal Singh Hora Chia Yew Hock, Wilson
Executive Director	Badar Kazmi

The independent directors meet the criteria of independence under clause i(b) of the CCG.

- 2. The directors have confirmed that none of them is serving as a director in more than seven listed companies, including the Bank.
- 3. All the resident directors of the Bank are registered as taxpayers and none of them has defaulted in payment of any loan to a banking company, a Development Financial Institution or Non Banking Finance Company. None of the directors of the Bank are members of any Stock Exchange.
- 4. A casual vacancy occurred during 2011 which was filled in as per regulatory requirements.
- 5. The Bank has prepared a "Code of Conduct" and has ensured appropriate steps have been taken to disseminate it through the company along with its supporting policies and procedures.
- 6. The Board has developed a vision / mission statement and an overall corporate strategy. Significant policies of the Bank have been prepared and approved by the Board. A complete record of particulars of significant policies along with the dates on which these were approved is being maintained.
- 7. All the powers of the Board have been duly exercised and decisions on material transactions, including appointment and determination of remuneration and terms and conditions of employment of the CEO have been taken by the Board.
- 8. The meetings of the Board were presided over by the Chairman. The Board held six meetings during the year (including the required quarterly meetings). Written notices of Board meetings, along with agenda, were circulated at least seven days before the meetings. The minutes of the meetings were appropriately recorded and circulated. The CFO and Company Secretary attended all the meetings of the Board of Directors during the year.
- 9. An orientation program was carried out for directors during 2012 on the Code of Corporate Governance. A director has completed 3 out of 5 modules of 'Bank Corporate Governance' offered by Pakistan Institute of Corporate Governance and it is expected that the training will be completed before 30th June 2013.
- 10. The Board had approved the appointment of the Chief Financial Officer, Company Secretary and Head of Internal Audit and the terms and conditions of their employment, determined by the CEO, are duly authorized by the Board of Directors. No new appointments during 2012.

- 11. The Directors' Report has been prepared in compliance with the requirements of the CCG and fully describes the salient matters required to be disclosed.
- 12. The financial statements of the Bank were duly endorsed by the CEO and CFO before approval of the Board.
- 13. The directors, CEO and executives do not hold any interest in the shares of the Bank other than that disclosed in the pattern of shareholding.
- 14. The Bank has complied with all the corporate and financial reporting requirements of the CCG.
- 15. The Audit Committee comprises of three members, all of whom are non-executive directors and the Chairman is an Independent Director.
- 16. The meetings of the Audit Committee were held at least once every quarter prior to approval of interim and final results of the Bank as required by the CCG. The terms of reference of the Committee have been formed and advised to the Committee for compliance.
- 17. During the year, the Risk Management sub-committee of the Board comprising of 3 members (2 non-executives and 1 executive director) met 4 times, whereas the HR sub-committee of the Board comprising of 4 members (2 independent, 1 non-executive and 1 executive director) met 2 times.
- 18. The Bank has an effective Internal Audit department. An Internal Audit Manual is approved by the Board. The Internal Audit department has conducted audit of branches and various departments of the Bank during the year.
- 19. The statutory auditors of the Bank have confirmed that they have been given a satisfactory rating under the quality control review program of the Institute of Chartered Accountants of Pakistan, that they or any of the partners of the firm, their spouses and minor children do not hold shares of the Bank and that the firm and all its partners are in compliance with International Federation of Accountants (IFAC) guidelines on code of ethics as adopted by the Institute of Chartered Accountants of Pakistan.
- 20. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the listing regulations and the auditors have confirmed that they have observed IFAC guidelines in this regard.
- 21. The 'closed period', prior to the announcement of interim / final results, and business decisions, which may materially affect the market price of company's securities, was determined and intimated to directors, employees and stock exchanges.
- 22. Material / price sensitive information has been disseminated among all market participants at once through stock exchanges.
- 23. Level of Materiality has been defined by the management and will be approved by the Board in due course of time.
- 24. We confirm that all the material principles contained in the CCG have been complied with.

Badar Kazmi Director & President / CEO

Statement on Internal Controls For the year ended December 31, 2012

Internal Control System

Management acknowledges its responsibility for establishing and maintaining a system of internal control directly related to and designed to provide reasonable assurance to achieve the following objectives:

- Efficiency and effectiveness of operations
- Compliance with applicable laws and regulations
- Reliability of financial reporting

The bank is continuously adding to its internal control systems by enhancing the quality of processes, staff and IT infrastructure and will continue to do so to strengthen internal controls as it grows its business volumes and activities.

The Bank is pleased to make the following disclosures on the components of internal control system:

Control Environment

- 1. The Bank has written and implemented policies and procedures for most of the areas of the Bank's business.
- 2. The Bank has adopted a mission / vision statement and corporate strategy, duly approved by the Board.
- 3. An organizational structure exists which supports clear lines of communication.
- 4. The management has defined roles and responsibilities of key management personnel.
- 5. The Audit Committee, which comprises of Non-executive Directors, has written terms of reference and reports to the Board. It reviews the approach adopted by the Bank's internal audit department and the scope of, and the relationship with, the external auditors. It also regularly receives summary of reports from the internal audit department and the external auditors on the system of internal control and any material control weaknesses that have been identified and discusses the actions to be taken in areas of concern with the executive management.
- 6. An effective internal audit system exists which is responsible for evaluation of the internal control system on a continuous basis and reports directly to the Audit Committee.
- 7. The Bank has adopted a code of conduct that is signed by all employees. Furthermore this statement is annually signed by all Directors.
- 8. Management has set up an effective compliance function to ensure ongoing monitoring of the Bank's adherence with all laws and regulations.
- 9. The Bank has also developed a regulatory matrix that allows mapping applicable regulations with specific controls. The underlying controls are periodically tested by means of a process of self assessment.

Risk Assessment

10. The Bank is compliant with the risk management guidelines issued by the SBP.

Control Activities

- 11. The Bank has developed a Business Continuity Plan and tests the Plan at periodic invervals.
- 12. The Bank has strict Know Your Customer / Anti Money Laundering policies and has anti-fraud training programs and controls in place. The Bank continues to use an e-KYC form to further strengthen its KYC / AML regime. Given its importance the Bank continue to focus on further strengthening process and controls in this area.

Information and Communication

13. The Bank has a functioning Management Information System and has developed Key Performance Indicators for its businesses enabling it to monitor budget versus actual performance.

Monitoring

- 14. Internal Audit periodically carries out audits for branches and Head Office functions to monitor compliance with the Bank's standards.
- 15. Management gives due consideration to the recommendations made by the internal, external auditors and regulators especially for improvements in the internal control system and takes timely action to implement such recommendations.

Based on the results of an evaluation of the internal control system and key features of the control framework enumerated above, management is of the view that the internal control system during the year was acceptable in design and has been effectively implemented throughout the year. The Bank, however, will continue to further strengthen the process by both raising the bar on acceptable performance and strengthening the consequence management process.

It is pertinent to mention that development of an internal control system is an ongoing process through which management reviews and strengthens the internal control system, designed to manage rather than eliminate risks. As such, it can only provide reasonable but not absolute assurance against material misstatement or loss.

Risk Management Framework

The acceptance and management of financial risk is inherent to banking business activities. It involves the identification, measurement, monitoring and controlling of Risk.

In accordance with the Risk Management guidelines issued by the SBP, an Integrated Risk Management Group in the Bank formulates risk management Policies and Procedures in line with Bank's defined strategies and to monitor the following areas:

- a) Credit Risk Management
- b) Market and Liquidity Risk Management
- c) Operational Risk Management

Credit Risk Management (CRM)

CRM is viewed as an ongoing activity where credit risks are regularly identified and assessed. It determines the quality of the credit portfolio and assists in balancing risk and reward. To manage credit risks appropriately, Credit Risk Committee has been established at the Head Office and comprises of senior and seasoned members with credit, industry and business expertise.

In order to achieve earnings targets with a high degree of reliability and to avoid losses through a strong credit process, the Credit Risk Policies has been developed and duly implemented. These Credit Policies are under constant review and updated annually, thereby, establishing a robust credit control environment.

Market Risk Management (MRM)

MRM is a control system which allows management to closely supervise and monitor risks caused by movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads and / or commodity prices, resulting in a potential loss to earnings and capital.

Market and Liquidity Risk Unit under the supervision of Integrated Risk Management Group, is responsible for ensuring that market risk parameters are properly adhered to. A senior resource with requisite experience has been inducted to further strengthen this area.

In order to ensure adequate controls for money market, foreign exchange and equity transactions, a comprehensive control mechanism has been implemented by restructuring the limit mechanism and introducing new notional as well as sensitivity based limits and approaches for price and liquidity risk.

Operational Risk Management (ORM)

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems and from external events. The Bank has an Operational Risk Framework duly approved by the Board which is reviewed annually. During 2012 there is a major leap in the area of Operational Risk wherein the Bank has acquired Operational Risk System and implemented Operational Risk Framework aligned to international best practices. The Bank is using Key Risk Indicators, Risk & Control Self Assessment and capturing Operational Incidents as tools for identification, monitoring, and management of operational risk. The Bank intends to further strengthen this area by emphasizing on training, adding experienced resources, focusing on building robust processes and introducing a strong monitoring system as part of the risk management process.

Badar Kazmi Director & President / CEO

We have reviewed the Statement of Compliance with the Best Practices contained in the Code of Corporate Governance ("Statement of Compliance") prepared by the Board of Directors of NIB Bank Limited ("the Bank") to comply with listing regulations of the Karachi, Lahore and Islamabad Stock Exchanges where the Bank is listed.

The responsibility for compliance with the Code of Corporate Governance is that of the Board of Directors of the Bank. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the Bank personnel and review of various documents prepared by the Bank to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

Further sub-regulation (x) of Listing Regulations 35 notified by the Karachi Stock Exchange Limited requires the Bank to place before the Board of Directors for their consideration and approval of related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the board of directors and placement of such transactions before the audit committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Bank's compliance, in all material respects, with the best practices contained in the Code of Corporate Governance as applicable to the Bank for the year ended 31 December 2012.

Date: 20 February 2013 Karachi KPMG Taseer Hadi & Co. Chartered Accountants

Auditors' Report to the Members

We have audited the annexed unconsolidated statement of financial position of NIB Bank Limited (the Bank) as at 31 December 2012 and the related unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated cash flow statement and unconsolidated statement of changes in equity together with the notes forming part thereof (here-in-after referred to as the 'financial statements') for the year then ended, in which are incorporated the unaudited certified returns from the branches except for 26 branches which have been audited by us and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Bank's Board of Directors to establish and maintain a system of internal control, and prepare and present the financial statements in conformity with approved accounting standards and the requirements of the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984). Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting amounts and disclosures in the financial statements. An audit also includes assessing accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and after due verification, which in the case of loans and advances covered more than 60% of the total loans and advances of the Bank, we report that:

- a) in our opinion, proper books of accounts have been kept by the Bank as required by the Companies Ordinance, 1984 (XLVII of 1984), and the returns referred to above received from the branches have been found adequate for the purposes of our audit;
- b) in our opinion:
 - the statement of financial position and profit and loss account together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), and are in agreement with the books of account and are further in accordance with accounting policies consistently applied;
 - ii) the expenditure incurred during the year was for the purpose of the Bank's business; and
 - iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank;
- c) in our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated cash flow statement, and unconsolidated statement of changes in equity together with the notes forming part thereof conform with approved

accounting standards as applicable in Pakistan, and give the information required by the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2012 and its true balance of profit, comprehensive income, its cash flows and changes in equity for the year then ended; and

d) in our opinion Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

1. STATUS AND NATURE OF BUSINESS

NIB Bank Limited "the Bank" is incorporated in Pakistan and its registered office is situated at first floor, Post Mall, F-7 Markaz, Islamabad. The Bank is listed on all the stock exchanges in Pakistan and has 179 branches (December 31, 2011: 179 branches). The Bank is a scheduled commercial bank and is principally engaged in the business of banking as defined in the Banking Companies Ordinance, 1962.

NIB Bank Limited is a subsidiary of Bugis Investments (Mauritius) Pte. Limited which is a wholly owned subsidiary of Fullerton Financial Holdings Pte. Limited which in turn is a wholly owned subsidiary of Temasek Holdings, an investment arm of the Government of Singapore.

2. BASIS OF PRESENTATION

These unconsolidated financial statements represent separate financial statements of the Bank. The consolidated financial statements of the Bank, its subsidiary and associates are presented separately.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these unconsolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

These unconsolidated financial statements have been presented in Pakistan Rupees, which is the Bank's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees.

3. STATEMENT OF COMPLIANCE

- **3.1** These unconsolidated financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Banking Companies Ordinance, 1962, the Companies Ordinance, 1984 and the directives issued by the SBP. In case the requirements differ, the provisions of and directives issued under the Banking Companies Ordinance, 1984 and the Banking Companies Ordinance, 1962, the Companies Ordinance, 1984 and the SBP shall prevail.
- **3.2** SBP vide BSD Circular No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement (IAS 39) and International Accounting Standard 40, Investment Property for banking companies till further instructions. Further, according to a notification of the Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, IFRS 7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.

3.3 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards are effective for accounting periods beginning on or after January 1, 2013:

- IAS 19 Employee Benefits (amended 2011) (effective for annual periods beginning on or after 1 January 2013). The amended IAS 19 includes the amendments that require actuarial gains and losses to be recognised immediately in other comprehensive income; this change will remove the corridor method and eliminate the ability for entities to recognise all changes in the defined benefit obligation and in plan assets in profit or loss, which currently is allowed under IAS 19; and that the expected return on plan assets recognised in profit or loss is calculated based on the rate used to discount the defined benefit obligation. The impact of these have not been quantified.
- Presentation of Items of Other Comprehensive Income (Amendments to IAS 1) (effective for annual periods beginning on or after 1 July 2012). The amendments require that an entity present separately the items of

other comprehensive income that would be reclassified to profit or loss in the future if certain conditions are met from those that would never be reclassified to profit or loss. The amendments do not address which items are presented in other comprehensive income or which items need to be reclassified. The requirements of other IFRSs continue to apply in this regard. The amendments have no impact on financial statements of the Bank.

- IAS 27 Separate Financial Statements (2011) (effective for annual periods beginning on or after 1 January 2013). IAS 27 (2011) supersedes IAS 27 (2008). Three new standards IFRS 10 Consolidated Financial Statements, IFRS 11- Joint Arrangements and IFRS 12- Disclosure of Interest in Other Entities dealing with IAS 27 would be applicable effective 1 January 2013. IAS 27 (2011) carries forward the existing accounting and disclosure requirements for separate financial statements, with some minor clarifications. The amendments have no impact on financial statements of the Bank.
- IAS 28 Investments in Associates and Joint Ventures (2011) (effective for annual periods beginning on or after 1 January 2013). IAS 28 (2011) supersedes IAS 28 (2008). IAS 28 (2011) makes the amendments to apply IFRS 5 to an investment, or a portion of an investment, in an associate or a joint venture that meets the criteria to be classified as held for sale; and on cessation of significant influence or joint control, even if an investment in an associate becomes an investment in a joint venture. The amendments have no impact on financial statements of the Bank.
- Offsetting Financial Assets and Financial Liabilities (Amendments to IAS 32) (effective for annual periods beginning on or after 1 January 2014). The amendments address inconsistencies in current practice when applying the offsetting criteria in IAS 32 Financial Instruments: Presentation. The amendments clarify the meaning of 'currently has a legally enforceable right of set-off'; and that some gross settlement systems may be considered equivalent to net settlement.
- Offsetting Financial Assets and Financial Liabilities (Amendments to IFRS 7) (effective for annual periods beginning on or after 1 January 2013). The amendments to IFRS 7 contain new disclosure requirements for financial assets and liabilities that are offset in the statement of financial position or subject to master netting agreement or similar arrangement. The amendments have no impact on financial statements of the Bank.

Annual Improvements 2009–2011 (effective for annual periods beginning on or after January 1, 2013). The new cycle of improvements contains amendments to the following five standards, with consequential amendments to other standards and interpretations.

- IAS 1 Presentation of Financial Statements is amended to clarify that only one comparative period which is the preceding period is required for a complete set of financial statements. If an entity presents additional comparative information, then that additional information need not be in the form of a complete set of financial statements. However, such information should be accompanied by related notes and should be in accordance with IFRS. Furthermore, it clarifies that the 'third statement of financial position', when required, is only required if the effect of restatement is material to statement of financial position. The amendments have no impact on financial statements of the Bank.
- IAS 16 Property, Plant and Equipment is amended to clarify the accounting of spare parts, stand-by equipment and servicing equipment. The definition of 'property, plant and equipment' in IAS 16 is now considered in determining whether these items should be accounted for under that standard. If these items do not meet the definition, then they are accounted for using IAS 2 Inventories.
- IAS 32 Financial Instruments: Presentation is amended to clarify that IAS 12 Income Taxes applies to the accounting for income taxes relating to distributions to holders of an equity instrument and transaction costs of an equity transaction. The amendment removes a perceived inconsistency between IAS 32 and IAS 12. The amendments have no impact on financial statements of the Bank.
- IAS 34 Interim Financial Reporting is amended to align the disclosure requirements for segment assets and segment liabilities in interim financial reports with those in IFRS 8 Operating Segments. IAS 34 now requires the disclosure of a measure of total assets and liabilities for a particular reportable segment. In addition, such disclosure is only required when the amount is regularly provided to the chief operating decision maker and there has been a material change from the amount disclosed in the last annual financial statements for that reportable segment. The amendments have no impact on financial statements of the Bank.

- IFRIC 20 - Stripping cost in the production phase of a surface mining (effective for annual periods beginning on or after 1 January 2013). The interpretation requires production stripping cost in a surface mine to be capitalized if certain criteria are met. The amendments have no impact on financial statements of the Bank.

4. BASIS OF MEASUREMENT

These unconsolidated financial statements have been prepared under the historical cost convention, except for the measurement of certain investments and commitments in respect of forward foreign exchange contracts that are stated at revalued amounts / fair values, staff retirement benefits (Gratuity) which are stated at present value and certain financial assets that are stated net of provisions.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of unconsolidated financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates that affect the reported amounts of assets, liabilities, income and expenses. It also requires the management to exercise its judgment in the process of applying the Bank's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Bank's financial statements or where judgment was exercised in application of accounting policies are as follows:

5.1 Classification of Investments

Held-to-maturity securities

As described in note 6.4, held-to-maturity securities are investments where the management has positive intent and ability to hold to maturity. The classification of these securities involves management judgment as to whether the financial assets are held-to-maturity investments.

Held-for-trading securities

Investments classified as held-for-trading are those which the Bank has acquired with an intention to trade by taking advantage of short term market / interest rate movements and are to be sold within 90 days.

Available-for-sale securities

Investments which are not classified as held-for-trading or held-to-maturity are classified as available-for-sale.

5.2 Impairment

Valuation and impairment of available-for-sale investments

The Bank determines that an available-for-sale equity investment and mutual funds are impaired when there has been a significant or prolonged decline in the fair value below its cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Bank evaluates, among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

Provision for diminution in the value of Term Finance Certificates, Bonds, and Sukuks is made as per the Prudential Regulations issued by the SBP.

In case of impairment of available for sale securities, the loss is recognised in the profit and loss account.

Impairment of investments in associates and subsidiaries

The Bank considers that a significant or prolonged decline in the recoverable value of investments in associates and subsidiaries below their cost may be evidence of impairment. Recoverable value is calculated as the higher of fair value less costs to sell and value in use. An impairment loss is recognized when the recoverable value falls

below the carrying value and is charged to the profit and loss account. Subsequent reversal of impairment loss, upto the cost of investments in associates and subsidiaries, are credited to the profit and loss account.

Impairment of non financial assets (excluding deferred tax and goodwill)

Non financial assets are subject to impairment review if there are events or changes in circumstances that indicate that the carrying amount may not be recoverable. If any such indication exists, the Bank estimates the recoverable amount of the asset and the impairment loss, if any. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of future cash flows from the asset discounted at a rate that reflects market interest rates adjusted for risks specific to the asset. If the recoverable amount of an intangible or tangible asset is less than its carrying value, an impairment loss is recognised immediately in the profit and loss account and the carrying value of the asset reduced by the amount of the loss. A reversal of an impairment loss on intangible assets (excluding goodwill) is recognized as it arises provided the increased carrying value does not exceed that which it would have been had no impairment loss been recognized.

Impairment of Goodwill

Impairment testing involves a number of judgmental areas which are subject to inherent significant uncertainty, including the preparation of cash flow forecasts for periods that are beyond the normal requirements of management reporting and the assessment of the discount rate appropriate to the business.

5.3 Provision against non-performing advances

Apart from the provision determined on the basis of time based criteria given in the Prudential Regulations of the SBP, management also applies subjective criteria of classification and accordingly the classification of an advance may be downgraded on the basis of evaluation of the credit worthiness of the borrower, its cash flows, operations in its account and adequacy of security in order to ensure accurate measurement of the provision.

5.4 Retirement Benefits

The key actuarial assumptions concerning the valuation of the defined benefit plan and the sources of estimation are disclosed in note 34.2 to these unconsolidated financial statements.

5.5 Operating fixed assets, depreciation and amortisation

In making estimates of depreciation / amortisation, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Bank. The method applied is reviewed at each financial year end and if there is a change in expected pattern of consumption of the future economic benefits embodied in the assets, the method would be changed to reflect the change in pattern.

5.6 Income Taxes

In making the estimates for income taxes currently payable by the Bank, the management looks at the current income tax laws and the decisions of appellate authorities on certain issues in the past. In making the provision for deferred taxes, estimates of the Bank's future taxable profits are taken into account.

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these unconsolidated financial statements are the same as those applied in the preparation of the unconsolidated financial statements of the Bank for the year ended December 31, 2011 and are enumerated as follows:

6.1 Business combinations

Business combinations are accounted for using the purchase method. Under this method, identified assets acquired, liabilities and contingent liabilities assumed are fair valued at the acquisition date, irrespective of the extent of any minority interest. The excess of cost of acquisition over the fair value of identifiable net assets acquired is recorded as goodwill.

6.2 Revenue recognition

Mark-up / return on performing loans / advances and investments is recognized on time proportionate basis. Where debt securities are purchased at a premium or discount, such premium / discount is amortized through the profit and loss account over the remaining period of maturity using the effective interest rate method so as to produce a constant rate of return. Interest or mark-up recovered on non-performing advances is recognized on a receipt basis in accordance with the requirements of the Prudential Regulations issued by the SBP as amended from time to time.

The financing method is used in accounting for income on finance leases and hire purchase transactions. Under this method, the unearned income, i.e. the excess of aggregate lease rentals and the estimated residual value over the net investment (cost of leased assets) is deferred and then amortized to income over the term of the lease on a pattern reflecting a constant periodic rate of return on the net investment in the lease. Unrealized lease income is suspended, where necessary, in accordance with the requirements of the Prudential Regulations issued by the SBP.

Rental income from assets given on operating lease is recognized on time proportionate basis over the lease period.

Gains / losses on termination of lease contracts, documentation charges and other lease income are recognized as income when they are realized.

Fee, commission and brokerage income is recognized at the time of performance of the service.

Dividend income is recorded when the right to receive the dividend is established.

6.3 Grants and assistance

In terms of Kreditanstalt fur Wiederaufbau (KFW) loan re-lent by the Government of Pakistan (GoP), the Bank was required to bear interest at 11 percent per annum and pay interest to the GoP at 10 percent per annum and transfer the remaining 1 percent per annum margin to a counter part fund to be used by the Bank for financing feasibility surveys, market surveys and similar investigations destined for the preparation of projects.

6.4 Investments

Investments of the Bank, other than investments in subsidiaries and associates are classified as held-to-maturity, held-for-trading and available-for-sale.

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturity for which the Bank has the positive intent and ability to hold upto maturity.

Held-for-trading

These securities are either acquired for generating a profit from short-term fluctuations in market prices, interest rate movements, dealer's margin or are securities included in the portfolio for which there is evidence of a recent actual pattern of short-term profit taking.

Available-for-sale

These are securities which do not fall under the classification of held-for-trading or held-to-maturity securities.

Initial measurement

All "regular way" purchases and sales of investments are recognized on the trade date, i.e., the date that the Bank commits to purchase or sell the asset. Regular way purchases or sales of investments are those that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Investments are initially recognized at fair value which, in the case of investments other than held-for-trading, includes transaction costs associated with the investments.

Subsequent measurement

Held-to-maturity

These are measured at amortized cost using the effective interest rate method, less any impairment loss recognized to reflect irrecoverable amounts.

Held-for-trading

These are measured at subsequent reporting dates at fair value. Gains and losses on remeasurement are included in the profit and loss account.

Available-for-sale

Quoted-securities classified as available-for-sale investments are measured at subsequent reporting dates at fair value. Any surplus / deficit arising thereon is kept in a separate account shown in the balance sheet below equity and taken to the profit and loss account when actually realized upon disposal or when the investment is considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. A decline in the carrying value is charged to the profit and loss account. The break-up value of these equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses.

Provision for diminution in the value of securities (except term finance certificates) is made for impairment, if any. Provision for diminution in the value of term finance certificates is made as per the criteria prescribed by the Prudential Regulations issued by the SBP.

Investment in Subsidiaries and Associates

Investments in subsidiaries and associates are valued at cost less impairment, if any. A reversal of an impairment loss on associates and subsidiaries is recognized as it arises provided the increased carrying value does not exceed that it would have been had no impairment loss been recognized.

Gain or loss on sale of investments in subsidiaries and associates is included in the profit and loss account for the year.

6.5 Lendings to / borrowings from financial institutions (including repurchase and resale agreements)

Securities sold subject to a repurchase agreement (repo) are retained in the financial statements as investments and the counter party liability is included in borrowings. Securities purchased under agreement to resale (reverse repo) are not recognized in the financial statements as investments and the amount extended to the counter party is included in lendings to financial institutions. In the case of the continuous funding system, transactions are shown under advances. The difference between sale and repurchase price is treated as mark-up / return expensed whereas difference between purchase and resale price is treated as mark-up / return earned.

Securities purchase with a corresponding commitment to resell at a specified future date are not recognised in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowings from financial institutions.

6.6 Advances

Advances including continuous funding system and net investment in finance lease are stated net of provisions.

Provisions

Specific and general provisions are made based on an appraisal of the loan portfolio that takes into account Prudential Regulations issued by the State Bank of Pakistan from time to time. Specific provisions are made where the repayment of identified loans is in doubt and reflect an estimate of the amount of loss expected. The general provision is for the inherent risk of losses which are known from experience to be present in any loan portfolio. Provision made / reversed during the year is charged to the profit and loss account and accumulated provision is netted off against advances.

Advances are written off when there is no realistic prospect of recovery.

Net investment in finance lease

Leases include hire purchase where the Bank transfers substantially all the risks and rewards incidental to the ownership of an asset and are classified as finance leases. Net investment in finance lease is recognized at an amount equal to the aggregate of minimum lease payments and any guaranteed residual value less unearned finance income, if any.

6.7 Operating fixed assets and depreciation

Owned

Property and equipment except freehold and leasehold land is stated at cost less accumulated depreciation and accumulated impairment loss, if any. Freehold and leasehold land is stated at cost.

Depreciation is charged to income applying the straight line method over the estimated useful lives of the assets while taking into account any residual value, at the rates given in Note 12.2 to these unconsolidated financial statements. In respect of additions and deletions to assets during the year, depreciation is charged from the month of acquisition while depreciation on disposals during the year is charged upto the month of disposal.

Normal repairs and maintenance are charged to the profit and loss account for the year as and when incurred. Major repairs and improvements are capitalized and assets so replaced are retired.

Gains and losses on disposal of property and equipment if any, are taken to the profit and loss account for the year.

Assets held under finance lease

Leasehold land is stated at cost.

Assets held under finance lease are stated at cost less accumulated depreciation. The outstanding obligations under the lease agreements are shown as a liability net of finance charges allocable to future periods. Depreciation on assets held under finance lease is charged in a manner consistent with that for depreciable assets which are owned by the Bank.

Finance charges are allocated to accounting periods so as to provide a constant periodic rate of return on the outstanding liability.

Assets held under operating lease

Operating lease assets are stated at cost less accumulated depreciation and impairment, if any.

Repairs and maintenance are charged to the profit and loss account as and when incurred.

Capital work in progress

These assets are stated at cost. These are transferred to specific assets as and when assets are available for use.

6.8 Intangible assets

Intangible assets include the value of the brand, core deposit relationships, and core overdraft / working capital loan relationships and are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is charged to the profit and loss account on a straight line basis over the assets' useful lives which are determined using methods that best reflect the pattern of economic benefits. The estimated useful lives are as follows:

Brand	5 years
Core deposit relationships	11 years
Core overdraft / working capital loan relationships	11 years

Computer software is stated at cost less accumulated amortization and accumulated impairment loss, if any. Amortization is carried out on the straight line method at the rates given in Note 13 to these unconsolidated financial statements.

6.9 Sub-Ordinated loans

Sub-ordinated loans are initially recorded at the amount of proceeds received. Mark-up accrued on these loans is recognized separately as part of other liabilities and is charged to the profit and loss account over the period on an accrual basis.

6.10 Staff retirement benefits

Defined contribution plan

The Bank operates a defined contribution provident fund for all its permanent employees. Equal monthly contributions are made to the fund by both the Bank and the employees at the rate of 10% of basic salary.

Defined benefit plan

The Bank operates an unfunded gratuity scheme covering all eligible employees who have attained the minimum qualifying period of five years. Eligible employees are those employees who have joined the service of the Bank on or before March 31, 2006. Provision is made in accordance with actuarial recommendations. Actuarial valuation is carried out periodically using the "Projected Unit Credit Method".

Actuarial gain / loss is recognized using the 10% corridor approach. Corridor is defined as the greater of 10% of the present value of defined benefit obligations and plan assets.

6.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity.

Current

Provision for current taxation is based on taxable income at the current rates of taxation in accordance with the prevailing laws for taxation on income earned after taking into consideration tax credits and rebates available and any adjustments to tax payable in respect of previous years.

Deferred

Deferred tax is recognized using the balance sheet liability method on all major temporary differences as at the statement of financial position date between the amounts attributed to assets and liabilities for financial reporting purposes and amounts used for taxation purposes. The Bank records deferred tax assets / liabilities using tax rates, enacted or substantially enacted at the statement of financial position date, that are expected to be applicable at the time of their reversal.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Bank recognizes a deferred tax asset / liability on deficit / surplus on revaluation of securities in accordance with the requirements of IAS 12 "Income Taxes". The related deferred tax asset / liability is adjusted against the related deficit / surplus.

The Bank recognizes a deferred tax asset for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which the unused tax losses and unused tax credits can be utilized in accordance with the requirements of IAS 12 "Income Taxes".

6.12 Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed quarterly and are adjusted to reflect the current best estimate.

6.13 Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements when there is a legally enforceable right to set-off the recognized amount and the Bank intends either to settle on a net basis, or to realize the assets and to settle the liabilities simultaneously. Income and expense items relating to such assets and liabilities are also offset and the net amount is reported in the financial statements.

6.14 Dividend distribution

Dividend is recognized as a liability in the period in which it is declared.

6.15 Distributions of bonus shares and other appropriations to reserves

The Bank recognizes all appropriations, other than statutory appropriations, to reserves including those in respect of bonus shares made after the statement of financial position date, in the period in which such appropriations are approved.

6.16 Foreign currencies

Transactions in foreign currencies are translated to Rupees at the foreign exchange rates prevailing at the transaction date. Monetary assets and liabilities in foreign currencies are translated into Rupees at the rates of exchange prevailing at the statement of financial position date. Forward foreign exchange contracts and foreign bills purchased are valued at forward rates applicable to their respective maturities.

Commitments for outstanding forward foreign exchange contracts are disclosed in these unconsolidated financial statements at committed amounts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange approximating those prevailing at the statement of financial position date.

Assets against which the constituents have exercised their option to transfer exchange risk to the Bank and liabilities for which the Bank has exercised its option to transfer exchange risk to the Government, are translated at the rates of exchange guaranteed by the Bank and the Government, respectively.

Assets, liabilities, commitments and contingent liabilities in respect of Bangladesh are translated at foreign exchange rates approximating those prevailing prior to August 15, 1971.

Exchange gains and losses are included in income currently except net unrealized exchange gain on long-term monetary items which, as a matter of prudence, is carried forward as unrealized gain in view of the uncertainty associated with its realization.

6.17 Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents include cash and balances with treasury banks and balances with other banks.

6.18 Financial instruments

All financial assets and liabilities are recognized at the time when the Bank becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the Bank loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when they are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to income directly. Financial assets carried on the statement of financial position include cash and bank balances, lendings to financial institutions, investments, advances and certain receivables. Financial liabilities include borrowings, deposits, bills payable and other payables. The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

6.19 Derivative financial instruments

Derivative financial instruments are recognized at their fair value on the date on which a derivative contract is entered into and subsequently these instruments are marked to market and changes in fair values are taken to the profit and loss account. Fair values are obtained from quoted market prices in active markets.

6.20 Segment reporting

A segment is a distinguishable component of the Bank that is engaged in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Bank's primary format of reporting is based on business segments.

6.20.1 Business Segments

Corporate and Investment Banking

It represents all funded and non funded credit facilities of working capital financing including seasonal finance, trade finance, cash finance, running finance, guarantees and bills of exchange relating to corporate customers, as well as for long term expansion, BMR, Project financing, syndicated financing along with advisory, underwriting, transactional banking, and IPO related activities.

Retail

It represents banking services offered to individuals and small businesses through a retail branch banking and alternate distribution network. These banking services include lending, deposits and distribution of insurance products along with other financial products and services tailored for such customers.

Small & Medium Enterprises and Commercial

It represents all funded and non funded credit facilities, deposit products & transaction services offered by the Bank to small & medium enterprises and commercial businesses operating in the manufacturing, trading, wholesale and service sectors.

Treasury

Treasury manages the asset and liability mix of the Bank, and provides customers with products that meet their demands for management of liquidity, cash flow, interest rate fluctuations and foreign exchange risk.

6.20.2 Geographical segments

The Bank operates in Pakistan only.

6.21 Assets acquired in satisfaction of claims

The Bank occasionally acquires assets in settlement of certain advances. These are recorded at the lower of the carrying value of the related advances and the current fair value of such assets.

6.22 Deposits

Deposits are initially recorded at the amount of proceeds received. Mark-up accrued on deposits is recognized separately as part of other liabilities and is charged to the profit and loss account on a time proportionate basis.

6.23 Earnings per share

The Bank presents earnings per share (EPS) data for its ordinary shares. EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year.

6.24 Fiduciary Assets

Assets held in a fiduciary capacity are not treated as assets of the Bank in the statement of financial position.

7.	CASH AND BALANCES WITH TREASURY BANKS	Note	2012 (Rupee	2012 2011 (Rupees '000')

10.16 As per BSD circular No. 6 of 2007 dated September 6, 2007, investments in subsidiaries and associates are required to be reported separately and should be carried at cost. However, as per IAS 36, these need to be tested for impairment, if there is indication that such impairment may exist.

Management has tested the investment in its subsidiary, PICIC Asset Management Company Limited for impairment using a value in use calculation. The value in use calculation indicates that the value of the investment in the subsidiary exceeds the cost of investment, therefore no impairment was made during the year.

11.4.1 Included in the Provision required is an amount of Rs. 410.960 million (2011: Rs. 594.565 million) which represents provision in excess of the requirements of the State Bank of Pakistan.

11.4.2 In accordance with BSD Circular No. 1 dated October 21, 2011 issued by the State Bank of Pakistan, the Bank has availed the benefit of FSV against the non-performing advances. During the year, total FSV benefit erosion resulted in decrease in profit after tax of Rs. 1,029.071 million. Accordingly, as of December 31, 2012, the accumulated profit after tax of Rs. 4,825.641 million (2011: Rs. 5,854.713 million) shall not be available for payment of cash and stock dividend as required by aforementioned SBP directive.

11.7 Details of loan write offs of Rs. 500,000 and above

In terms of sub-section (3) of section 33A of the Banking Companies Ordinance, 1962, the statement in respect of written off loans or any financial relief of five hundred thousand rupees or above allowed to person(s) during the year ended December 31, 2012 is given in Annexure 1. However, this write off does not affect the Bank's right to recover these debts from any of its customers.

11.8 Particulars of loans and advances to directors, associated companies etc.

Debts due by directors, executives or officers of the Bank or any of them either severally or jointly with any other persons:

Included in cost of property and equipment are fully depreciated items still in use having cost of Rs. 837.893 million (2011; Rs. 949.233 million). 12.2.1

Carrying amount of temporarily idle property is Rs. 885.609 million (2011: Rs. 891.219 million) 12.2.2

the legal dues in respect of the Plot including Non-utilization Fees have been paid. In 2000, CDGK cancelled the allotment unilaterally based on certain the ownership of the land had been reverted to KPT. The said claim by KPT was also challenged by way of Civil Suit before the High Court of Sindh. The This includes a plot of land costing Rs. 361 million in Block-6, KDA Scheme-5, Clifton, Karachi (the "Plot"), possession of which was taken by the Bank building and construction restrictions. The Bank filed a Civil Suit against CDGK before the High Court of Sindh in respect of the said unilateral cancellation of the allotment. Meanwhile, also in 2000, a dispute arose with KPT in respect of construction of a boundary wall on the Plot by KPT as KPT claimed that formerly PICIC) in April 1983 pursuant to an allotment order by City District Government Karachi ("CDGK") (formerly Karachi Development Authority). All Subsequently, both the suits were decided in favor of the Bank. In the suit filed against CDGK, the High Court of Sinch held that the action of cancellation of the allotment by CDGK was improper and void, whereas, in the suit against KPT, the High Court of Sindh held that since allotment in favor of the Bank was valid therefore, KPT had no standing to claim that the ownership of the land had been reverted back to KPT. Both the decisions of the High Court of Sindh are currently being challenged in two separate High Court Appeals by CDGK and KPT and the same are still pending. Furthermore, in November High Court of Sindh initially issued restraining orders against CDGK and KPT in the respective suits in respect of cancellation of the allotment of the Plot 2008, KPT filed a Civil Suit seeking a declaration from the High Court of Sindh to the effect that the ownership of the Plot had been validly reverted to KPT At present, the Bank is actively defending the cases. 12.2.3

13.2 Annual test for impairment

Intangibles

In the current year, the Bank assessed the recoverable amount of core deposit relationships and determined that no impairment loss exists.

		Note	2012 (Rupee	2011 s '000')
14.	DEFERRED TAX ASSETS			
	Deferred debits arising due to:			
	Provision against loans and advances		8,432,590	8,880,336
	Provision against other receivable		255,121	259,790
	Gratuity		_	_
	Unused tax losses		4,488,530	3,699,934
	Intangibles		8,843	25,911
	Excess of tax base of government securities /			
	investments over accounting base		378,894	429,189
			13,563,978	13,295,160
	Deferred credits arising due to:			
	Excess of accounting base of leased asset over tax base		(159,787)	(140,383)
	Accelerated accounting depreciation on owned assets		(796,789)	(734,069)
	Fair valuation of subsidiaries and associates		(532,758)	(511,079)
	Surplus / (Deficit) on revaluation of securities		(175,364)	(39,648)
	Unrealised exchange gains	14.2	(2,377)	(2,377)
	Unrealised exchange losses	14.3	(33,604)	(33,604)
			(1,700,679)	(1,461,160)
	Deferred tax Assets		11,863,299	11,834,000
	Unrecognised deferred tax assets	14.1	(982,015)	(817,000)
	Recognised deferred tax assets		10,881,284	11,017,000

14.1 The deferred tax asset recognised in the books has been restricted to Rs. 10,881 million due to uncertainty of availability of future tax profits for utilization of the un-recognised deferred tax assets. The deductible differences available to the Bank are Rs. 11,863 million. Had these been taken completely, the profit after tax for the year would be higher by Rs. 165 million (2011: Rs. 817 million). Therefore, the accumulated amount of deferred tax asset not recognised as of 31 December 2012 amounted to Rs. 982.015 million.

The management has recorded deferred tax asset based on financial projections indicating realisibility of deferred tax asset over a number of future years through reversals as a result of recoveries from borrowers and realisibility of remaining deferred tax asset against future taxable profits. The financial projections involve certain key assumptions such as deposits composition, interest rates, growth of deposits and advances, investment returns and potential provision / reversals against assets. Any significant change in the key assumptions may have an effect on the realisibility of the deferred tax asset.

- **14.2** In 1987 and 1989, the Bank (formerly PICIC) exercised its option to avail the exchange risk coverage offered by the Government of Pakistan, Ministry of Finance and Economic Affairs (Economic Affairs Division), through Office Memo 1(16)/50/DM/86 dated July 8, 1987 and 1(12)/50/DM/89 dated June 1, 1989 respectively and, in turn the Bank (formerly PICIC) offered the risk coverage to its Borrowers.
- **14.3** The unrealised exchange losses of the Bank (formerly PICIC) as on April 21, 1987, the effective date of exercise of both the options arising on related borrowings as reduced by gains arising on related advances was claimed as loss for tax purposes.

14.4 Movement in temporary differences during the year

15.2 Advances, deposits, advance rent and other prepayments

Advances	38,959	36,199
Deposits	33,275	28,901
Advance rent	296,864	252,635
Prepayments	120,059	89,992
	489,157	407,727

- **15.3** Represents cost of land, plant and machinery acquired by the Bank against advances and held for resale. The market value of the subject assets as of December 31, 2012 was Rs. 1,203.436 million (2011: Rs. 611.403 million). Provision of Rs. 102.272 million has been made against difference between cost and fair value. The above mentioned values include properties having market value of Rs. 534.733 million acquired through settlement agreements, where the settlement agreement signed with borrowers entails a buy back option.
- **15.4** All the assets and liabilities as of November 30, 1971 clearly identifiable as being in or in respect of the areas now under Bangladesh and referred to above were segregated as of that date and in such segregation, for purposes of conversion of foreign currency amounts, generally speaking, the parity rates ruling prior to August 15, 1971 were used, and all income accrued or due in 1971 but not received in that year and interest accrued but not due on borrowings in 1971 was eliminated. Subsequently, consequent to the assuming by Bangladesh of certain foreign currency loan obligations as of July 1, 1974, including amounts previously identified by the Bank (formerly PICIC) as its foreign currency liabilities in respect of Bangladesh, such amounts were eliminated from the books of the Bank (formerly PICIC) by reducing an equivalent sum from its related foreign assets in that area.

Arising from advices received from the lenders and as a result of diversion of shipments and of the meeting of certain contingent liabilities, there have been certain modifications to the foreign currency advances relating to

Bangladesh. Furthermore, the difference between the actual amount of rupees required to remit maturities of foreign currency borrowings in respect of Bangladesh and the figures at which they appeared in the books and the interest paid to foreign lenders has been treated as increasing the rupee assets in that area.

The Government of Pakistan, while initially agreeing to provide the rupee finance required for discharging current maturities of foreign currency borrowings and interest related to Bangladesh, did not accept any responsibility for PICIC's assets in that area. However, following an agreement reached between PICIC and the Government of Pakistan during 1976, the Government has agreed that it would continue to provide the funds for servicing PICIC's foreign currency liabilities relating to Bangladesh and has further agreed that an amount equivalent to the rupee assets in Bangladesh financed from PICIC's own funds not exceeding Rs. 82 million would be deemed to have been allocated out of the rupee loans by the Government and that such allocated amount together with the rupee finance being provided by the Government including any interest thereon would not be recovered from PICIC until such time as PICIC recovers the related assets from Bangladesh and only to the extent of such recovery.

Accordingly, such allocated amounts, together with the rupee finance being provided by the Government for discharging the current maturities of foreign currency borrowings (including the interest and charges thereon and any exchange difference between the final rupee payment and the amount at which the liability, commitment or contingent liability as appearing in the books relating to Bangladesh) have been treated as liabilities in respect of Bangladesh. Further, in view of the aforesaid agreement no interest is being accrued on the allocated amount of rupee loans or in respect of the rupee finance provided by the Government related to PICIC's assets in Bangladesh nor is it considered necessary to provide for any loss that may arise in respect of PICIC's assets in Bangladesh.

15.5	Particulars of provision against other assets	2012 (Rup	2011 ees '000')
	Opening balance	1,021,625	890,883
	Charge for the year	3,892	192,211

	Write offs	(9,841)	(45,859)
	Closing balance	1,012,176	1,021,625

15.6 This includes a sum of Rs. 30.466 million (2011: Rs. 30.466 million) representing unrealised exchange gain, which has not been recognised as income and deferred in the financial statements, in accordance with the policy of the Bank, as stated in note 6.16.

15.7 This includes Rs. 941.176 million in respect of advance paid by the Bank for purchase of Term Finance Certificates of Pakistan Mobile Communication Limited (PMCL). As per agreed repayment schedule mark-up has been received from PMCL which have been recorded as mark-up income of the Bank. The TFC issuance is in process and is expected to complete in first half of 2013, upon issuance of the certificates this advance will be reclassified as Investments.

	Foreign borrowings payable in local currency	17.8	162,286	162,286
			76,179,065	47,382,031

17.3 Borrowings from SBP under Export Refinance Scheme are subject to mark-up at rate of 8.5% to 10% (2011: 10%) per annum maturing within six months.

17.4 Borrowings from SBP under Long Term Financing Facility (LTFF) are subject to mark up ranging from 6.50% to 8.60% (2011: 6.50% to 8.20%) per annum with remaining maturity upto six years.

17.5 Borrowings from SBP under Long Term Finance for Export Oriented Projects are subject to mark up ranging from 4.90% to 5.00% (2011: 4.90% to 5.00%) per annum with remaining maturity upto three and half years.

17.6 These borrowings are subject to mark-up at rates ranging from 7.75% to 8.85% (2011: 11.63% to 11.90%) per annum with remaining maturity upto four days. Government securities have been given as collateral against these borrowings.

- **17.7** These borrowings are subject to mark-up at rates ranging from 8% to 9.75% (2011: 11.25%) per annum with remaining maturity upto forty nine days.
- **17.8** The Government of Pakistan (GoP) has claimed an amount of Rs. 162.286 million in respect of liabilities against German credit representing principal amount of Ioan and Rs. 45.444 million as interest thereon till June 30, 2006. The principal amount has been accounted for and shown as payable to the GoP whereas interest has been accounted for in Other Liabilities (note 20). However, the Bank is contending that any amount of principal and interest is payable to the GoP only when recovered from the related sub-borrowers, who have availed the German credit. This also includes unrealized exchange loss of Rs. 96.011 million (2011: Rs. 96.011 million) which has been netted off against unrealized exchange gain (note 15) as it is payable when recovered from sub-borrowers, who have availed the related German credit.

Purchase Sale	513,980 1,900,540	487,600 47,683

23.9 The income tax returns of NIB Bank Limited have been filed up to and including tax year 2012 relevant to the financial year ended December 31, 2011. The tax authorities have made certain disallowances including additions on account of proration of expenses against dividends and capital gains, disallowances of interest and administrative expenses and renovation expenses incurred on rented premises (allowed historically) pertaining to tax years 2003 through 2008 for Ex-Pakistan Industrial Credit and Investment Corporation Limited (Ex-PICIC), from tax years 2004 through 2008 for Ex-PICIC Commercial Bank Limited (Ex-PCBL), tax years 2003 and 2004 for Ex-National Development Leasing Corporation Limited (Ex-NDLC) and from tax years 2004 through 2008 for NIB Bank Limited. These disallowances may result in additional tax aggregating to Rs. 1,370 million (2011: 1,370 million), which the management of the Bank in discussion with their tax consultants believes to be unjustified and not in accordance with the true interpretation of the law.

Appeals filed against orders are pending at various appellate forums. Management is confident that the eventual outcome of the cases will be in favour of the Bank.

23.10 A penalty of Rs. 700 million was imposed by the Competition Commission of Pakistan ("the Commission") on all the member banks utilizing the 1 link Switch on account of uncompetitive behavior and imposing of uniform charges on cash withdrawal for off network ATM transactions. The Bank's share in this penalty is Rs. 50 million. The concerned banks filed a constitutional petition before the High Court of Sindh, which has suspended the order of the Commission. Consequently an appeal was filed with the Competition Appellate Tribunal which has also suspended the order of the Commission till the conclusion of the hearing of the appeal. The management in consultation with external legal counsel that represents the Bank, is confident that they have strong grounds to contest this penalty and they consider that the case will be decided in the favour of the Bank.

34. DEFINED BENEFIT PLAN

34.1 The benefits under the gratuity scheme are payable in lump sum on retirement at the age of 60 years or earlier cessation of services. The benefit is equal to one month's last drawn basic salary for each year of confirmed service, subject to a minimum of five years of service.

34.2 Principal actuarial assumptions

The actuarial valuation is carried out periodically. The actuarial valuation was carried out for the year ended December 31, 2012 using the "Projected Unit Credit Method". The main assumptions used for actuarial valuation are as follows:

		Gratuity					
				2012		201	1
	- Valuation discount rate			12.0%		13.0	%
	- Salary increase rate			11.0%		12.0	%

	175,761,306	175,784,325	140,968,776	140,889,217
2 Off-balance sheet financial instruments				
Off-balance sneet financial instruments				
Forward purchase of foreign exchange	17,670,541	17,695,724	56,859,837	57,548,407
Forward sale of foreign exchange	18,716,569	18,702,296	58,787,111	59,591,144

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

Fair values of held-to-maturity securities, sub-ordinated loans and investment in quoted associates have been stated at market values.

Fair value of unquoted equity securities have been stated at the lower of cost and Net Assets Value as per the latest available audited financial statements.

Except for investment in unquoted subsidiaries, fixed term advances of over one year, staff loans and fixed term deposits of over one year, the fair value of other on balance sheet financial assets and liabilities are not significantly different from their book value as these assets and liabilities are either short term in nature or are frequently re-priced.

The fair value of unquoted subsidiaries, fixed term advances, staff loans, fixed term deposits, other assets and other liabilities cannot be calculated with sufficient reliability due to non-availability of relevant active markets for similar assets and liabilities.

37.2

38. SEGMENT DETAILS WITH RESPECT TO BUSINESS ACTIVITIES

The Bank is organised into reportable segments as disclosed in note 6.20.1. These segments are managed by respective segment heads and the results of these segments are regularly reviewed by the Bank's President / Chief Executive. Segment performance is reviewed on the basis of various factors including profit before taxation.

Transactions between reportable segments are carried out on an arms length basis.

The segment analysis with respect to business activity is as follows:

40.2.1 The SBP has allowed the Bank to break its investment in PICIC Asset Management Company Limited (PICIC AMC) into tangible and other components for the purposes of calculating CAR on unconsolidated basis. The tangible assets of PICIC AMC may be treated as a single asset in the banking book and assigned 100% risk weight. The difference between cost of PICIC AMC and tangible portion would be required to be deducted from Tier 1 capital. This relaxation is granted from December 2010 up to and including January 31, 2013.

40.3 Capital Adequacy

The purpose of capital management at the Bank is to ensure efficient utilization of capital in relation to business requirements, growth, risk appetite, shareholders' returns and expectations.

The Bank manages its capital structure and makes adjustments to it in the light of changes in economic conditions, regulatory requirements and the risk profile of its activities. In order to maintain or adjust the capital structure, the Bank may issue capital / Tier II securities.

The Bank's capital adequacy ratio as at December 31, 2012 was 12.96% compared to the minimum regulatory requirement of 10%. The Bank ensures adherence to SBP's requirements by monitoring its capital adequacy on a regular basis.

Banking operations are categorised as either Trading book or Banking book, and Risk-Weighted Assets are determined according to SBP requirements that seek to reflect the varying levels of risk attached to bank's On and Off-balance sheet exposures.

Collateral if any, is used as an outflow adjustment. Risk weights notified, are applied to Net Adjusted Exposure.

Cash and near Cash collateral includes Government of Pakistan Securities , Shares listed on the stock exchanges, Cash and Cash equivalents (deposits / margins, lien on deposits).

The Bank has complied with all regulatory capital requirements as at the reporting date.

The capital requirements for the Bank as per the major risk categories is indicated below:

41. RISK MANAGEMENT

The risk management framework of NIB is approved by the Board of Directors ("BOD") and implemented by the senior management. The Bank's risk management policies are established to identify and analyze the risks faced by the Bank, to set standard and appropriate risk limits and controls to ensure quality of portfolio and credit process. Risk management policies are reviewed annually to reflect changes in economic environment, market conditions and products offerings. The BOD sets forth the vision and strategy of NIB and has entrusted the monitoring to the Board's Risk Management Committee ("BRMC"), which is an oversight committee and meets at least quarterly. Findings of the BRMC are escalated to the BOD. Terms and references of BRMC are documented and duly approved by the BOD and broadly includes oversight responsibility at the highest level under the Risk Management Governance Framework.

"The BRMC has three sub-committees, namely the Asset Liability Committee ("ALCO"), the Credit Risk Committee ("CRC") and the Operational Risk Committee ("ORC"), to identify, manage and monitor risks.

Asset Liability Committee ("ALCO")

The ALCO functions as the top operational unit for managing the balance sheet within the performance/risk parameters laid down by the BOD. Its objective is to derive the most appropriate strategy for NIB in terms of mix of assets & liabilities given future expectations and potential consequence of interest rate movements, liability constraints, and foreign currency exchange exposure and capital adequacy.

Credit Risk Committee ("CRC")

In our normal business activities there is a need to manage effectively potential credit risk. To address this risk, Credit Risk Committee (CRC) is established under the leadership of the Chief Risk Officer (CRO) of the Bank and membership comprises the President and Senior Management of the Bank. The main objective of the CRC is to ensure effective and proactive management of Credit Risk throughout the Bank in accordance with the Risk Management Framework and related Risk Policies and Procedures. Terms and references of the CRC, which meets on a bi-monthly basis, broadly include the following:

To ensure that all relevant risk policies of the Bank are developed, implemented and are not in conflict with any of the applicable laws and regulations.

To oversee implementation of credit risk related policies and procedures relevant to all business units through review of standard MIS decks.

To ensure that all activities are in compliance with the Prudential Regulations and also with the policies and controls established by the relevant units of the Bank through periodic review of business issues highlighted in internal / external audit reports and SBP Inspection Report.

To review stress testing on portfolio considering the major factors like interest rate sensitivity, inflation, Rupee devaluation, fluctuation in oil prices and /or global meltdown etc.

To review the credit portfolio, primarily through Key Risk Indicators, and to assess:

- quality of the portfolio;
- recovery of remedial accounts;
- variance analysis of actual with plan and forecasts
- portfolio exceptions

To advise business where activities are not aligned with control requirements or risk appetite and to recommend Risk Policies.

Operational Risk Committee ("ORC")

In our normal business activities there is a need to effectively manage potential risk arising out of banking operation of the Bank. To address this risk, Operational Risk Committee (ORC) is established under the leadership of the President of the Bank and membership comprises the CRO and Senior Management of the Bank. The main objective of the ORC is to ensure effective and proactive management of Operational Risk throughout the Bank in accordance with the Risk Management Framework and related Risk Policies and Procedures. Terms and references of the ORC, which meets on a monthly basis, broadly include the following:

To ensure operational risk identification and measurement is objective and covers all activities/products/processes of the Bank, and compliant with the banks standards and applicable regulations, and that risk control and risk origination decisions are properly informed.

To develop, maintain and review a consolidated MIS of key operational risks in the Bank in the form of Risk & Control Assessment Matrix.

To monitor all material Operational Risk exposures and key external trends, through KRIs and appropriate management action as per defined thresholds, in accordance with Operational Risk policies and procedures.

To review Ops Loss Data (OLD) and take proactive measures to reduce Operational Losses.

To direct appropriate action in response to material events, risk issues or themes that come to the Committee's attention.

To ensure any areas of potential overlap with another entity or Risk Control Area, Business or Function are notified to the affected entity Risk Control Owner, Business or Function Head.

Risk Management Organisation at NIB

The Chief Risk Officer ("CRO") is responsible for enterprise wide risk management and implementation of the overall risk management framework of NIB. In this respect, the CRO has to ensure that the risk organisation structure of NIB is equipped with the best people, policies and processes, which enable it to perform efficiently and effectively.

The CRO is supported by a Chief Operating Officer for Risk responsible for Risk Policies & Procedures, Portfolio Risk and Country Risk Assessment, and three Risk Heads, responsible for Corporate, SME and Consumer Finance businesses respectively and they are responsible for ensuring the implementation of NIB's risk framework, Bank's policies, and Central Bank regulations in their respective domains.

41.1 Credit Risk

Credit risk is the risk that a counterparty or customer will be unable to pay amounts in full when due. NIB's main credit exposure arises from the risk of failure by a client or counterparty to meet its contractual obligations. The risks are inherent in loans and bills receivable from non-bank customers, commitments to lend, repurchase agreements, securities borrowing and lending transactions, and contingent liabilities. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed. Clean risk at liquidation or settlement risk occurs when items of agreed upon original equal value are not simultaneously exchanged between counterparties and/or when items are released without knowledge that countervalue items have been received by the Bank. Typically the duration is intra-day, overnight/over weekend, or in some situations even longer. The risk is that we deliver but do not receive delivery. In this situation 100% of the principal amount is at risk. The risk may be larger than 100% if in addition there was an adverse price fluctuation between the contract price and the market price. Cross-border risk is the risk that we will be unable to obtain payment from our customers or third parties on their contractual obligations as a result of certain actions taken by foreign governments, chiefly relating to convertibility and transferability of foreign currency. Cross-border assets comprise loans and advances, interest-bearing deposits with other banks, trade and other bills, acceptances, amounts receivable under finance leases, certificates of deposit and other negotiable paper, and formal commitments

where the counterparty is resident in a country other than where the assets are recorded. Cross-border assets also include exposures to local residents denominated in currencies other than the local currency. NIB has established limits for cross-border exposure and manages exposures within these limits.

NIB has established an appropriate credit risk environment which is operating under a sound credit-granting process; maintaining an appropriate credit administration, measurement and monitoring process and ensuring adequate controls. For risk management reporting purposes the Bank considers and consolidates all elements of credit risk exposures.

There is a proper credit delegation matrix for review and approving credit applications. Businesses have no credit approving authority. All credit approvals are accorded by the Credit Officers/Senior Credit Officers in the Risk Management Group. Corporate Credit Risk Management also approves exposure to Financial Institutions and a separate dedicated FI unit, is housed under Corporate & Investment Banking Group (IBG) for this purpose.

The concept of "three initial system" is very much in existence in NIB. Based upon regional considerations and availability of Credit Talent, any initiating unit has to have formal recommendation by the Relationship Manager, his/her Team Leader and Regional Head/Corporate Banking Head / Group Head. The essence here is that the credit proposal must not be left to the sole judgment of one person – rather, the application of minds must be diverse and independent of each other.

Further, in order to measure credit risk, an indigenously developed rating system is followed. This rating system is being continuously fine tuned to address regulatory and global benchmarks.

NIB manages credit risk through:

- Accurate and detailed information about the borrower, cash flows, production, service and operation of the company;
- Insights into the major factors influencing customer attrition and product cancellation;
- Credit and collections treated as a highly people-intensive business; and
- Establishment of acceptable risk levels.

NIB monitors exposure to credit risk through:

Post-disbursement maintenance of accounts through Credit Administration Department ("CAD") reporting into a Country CAD Head. The Country CAD Head has direct reporting line to the CRO;

Submission of regulatory returns pertaining to reporting of NIB's portfolio

Impaired financial assets

Impaired financial assets including loans and debt instruments are those which NIB determines that it is probable that it will not be able to collect all principal and interest due according to the contractual terms of the agreement(s) underlying the financial assets. Financial assets carried at fair value through profit or losses are not assessed for impairment since the measure of fair value reflects their credit qualities. For the monitoring of the credit quality of the financial assets not carried at fair value through profit or loss, NIB follows the guidelines issued by the State Bank of Pakistan. Credit quality is determined based on three pillars: namely business prospect, financial performance and repayment capacity.

Write offs

NIB's Write off Policy is laid out in line with the SBP rules. All credit write offs are approved under the approved delegation matrix. Writing off a loan in no way implies that the Bank has given up its claim on a borrower and does not impact the Bank's ability to legally collect written off credits from the customer(s).

41.2 Market Risk

Market risk refers to the potential loss that an entity may be exposed to due to market volatility. It is important for the Bank to put in place an effective market risk management framework to manage its market risk exposures. Market risk arises from all positions in financial instruments held by the Bank (Either in Trading or Banking book) which exposes the Bank to market risk factors namely interest rates, foreign exchange ("FX") rates and equity prices.

Bank has adopted a market risk management structure that commensurate with its size and the nature of its business activities and facilitates effective management oversight and execution of market risk management and control processes.

Currently Bank's risk appetite for market risk is a combination of notional and sensitivity based limits. Following are the regulatory and internal guidelines monitored by Market & Liquidity Risk Unit (MLRU).

- Foreign Exchange Exposure Limit
- Equity Exposure Limit
- Statutory Liquidity & Cash Reserve Requirement
- FX Tenor mismatch
- Dealer Limits
- DV01

NIB also applies a Value-at-Risk (VaR) methodology on test basis to assess the market risk positions held. Currently NIB is using historical simulation model for calculating VaR numbers for FX and ALM book.

Interest rate risk

The principal risk to which NIB's portfolios are exposed is the risk of losses from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is measured through DV01 and interest rate sensitivity analysis.

41.2.1 Foreign Exchange Risk

NIB has set the following objectives for managing the inherent risk on foreign currency exposures:

Maximize profitability with minimum risk by keeping the exposure at desirable levels in view of strict compliance of regulatory/international standards and the Bank's internal guidelines, which are being adopted from regulator and followed vigorously;

Manage appropriate forward mismatch gaps;

Usage of different tools to manage the inherent risk of product and market, such as compliance of credit limit, monitoring of foreign exchange exposure limit, review of marked to market portfolio etc.

NIB takes steps to ensure that foreign currency exposures adhere to regulatory or international standards and NIB's internal guidelines. NIB uses tools such as Foreign Exchange Exposure Limit (FEEL), and FX tenor gaps to monitor FX risk.

41.2.2 Equity price risk and Fixed Income rate risk

Equity price risk is the risk to earnings or capital that results from adverse changes in the value of equity related portfolios of NIB. Price risk associated with equities could be systematic and unsystematic.

NIB conducts stress testing analysis over the equity portfolio, by anticipating changes/shocks of -30%, -40% and -50% on the current price of shares within a portfolio, thereby monitoring the effects of the predicted changes in the structure of shares portfolio on the Capital Adequacy Ratio ("CAR"). Further, NIB reviews new products to ensure that market risk aspects are properly quantified and mitigated.

Liquidity risk is defined as the risk that a Bank, either does not have enough financial resources to meet its obligation and commitments as they fall due or can secure funds at an excessive cost; even when the Bank is solvent. Liquidity risk is due to the difference between the Bank's assets and liabilities generally known as mismatches. Liquidity management is important as the ultimate cost of a lack of liquidity is being out of business.

NIB maintains its liquidity by keeping a level of The liquidity risk policy is formulated keeping in view of the SBP's guidelines on risk management, Basel standards and best practices. liquid assets in such amount which is considered sufficient to anticipate payment of customers' deposits.

The Bank manages its liquidity risk through

- Controlling the cash flow mismatch between on and off balance sheet assets and liabilities;
- 5-Day stress testing on Bank's balance sheet carried out on daily basis assuming deposit run offs
 - Maintaining stable and diversified sources of funding;
- Ensuring the Bank has the right asset portfolio mix and sufficient liquid assets on hand in relation to its daily cash flows;
 - Certain periodic reports such as tenor maturity gaps and maximum cash outflows (MCO); and
- Stress testing on portfolio as required by local regulator

The above maturity profile has been prepared in accordance with International Financial Reporting Standard 7, Financial Instruments: Disclosures, based on contractual maturities. Consequently, all demand assets and liabilities such as running finance, current accounts and saving accounts are shown as having a maturity upto one month. However, based on historical behaviour, management is of the opinion that the possibility of these inflows / outflows actually occurring entirely within one month, is remote, as these flows normally occur over a period of one month to three years.

NIB Bank

Notes to the Unconsolidated Financial Statements For the year ended December 31, 2012

2011

41.4 Operational Risk Management

The Bank defines operational risk as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. The Bank seeks to ensure that key operational risks are managed in a timely and effective manner.

NIB approach operational risk management from two perspectives to best manage operational risk within the structure of the Bank:

- at the enterprise level to provide independent, integrated management of operational risk across the Bank, and
- at the business and enterprise control function levels to address operational risk in revenue generating and non-revenue generating units.

A sound internal governance structure enhances the effectiveness of NIB's Operational Risk Management and is accomplished at the enterprise level through formal oversight by the Board, the CRO and risk management committees aligned to the Bank's overall risk governance framework and practices. The Operational Risk Committee (ORC) oversees the processes for sound operational risk management and also serves as an escalation point for critical operational risk matters within the Bank. The ORC reports operational risk activities to the Board Risk Management Committee.

Within the Integrated Risk Management Group, the Operational Risk team develops the strategies, policies, controls and monitoring tools for assessing and managing operational risks across the Bank and report results to Operational Risk Committee (ORC) and the Board. The business and support functions are responsible for all the risks within the business line, including operational risks. Operational Risk Management tools, such as Loss Collection & Reporting, Risk and Control Self Assessment and Key Risk Indicators are developed and used to identify measure, mitigate and monitor risks.

42. DATE OF AUTHORIZATION FOR ISSUE

These unconsolidated financial statements were authorized for issue on February 20, 2013 by the Board of Directors of the Bank.

Badar Kazmi President / Chief Executive Teo Cheng San, Roland Chairman / Director Tejpal Singh Hora Director

Consolidated Financial Statements For the year ended December 31, 2012

A New Chapter...

We have audited the annexed consolidated financial statements comprising consolidated statement of financial position of NIB Bank Limited and its subsidiary companies as at 31 December 2012 and the related consolidated profit and loss account, consolidated statement of comprehensive income, consolidated statement of changes in equity, and consolidated cash flow statement together with the notes forming part thereof, for the year then ended. These financial statements include unaudited certified returns from the branches, except for 26 branches, which have been audited by us. We have also expressed separate opinions on the financial statements of NIB Bank Limited and its subsidiary company PICIC Asset Management Company Limited (PICIC AMC) except for PICIC Stock Fund which was audited by other firm of auditors whose report has been furnished to us and our opinion, in so far as it relates to the amounts included for such company, is based solely on the report of such other auditors. These financial statements are responsibility of the Holding Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Our audit was conducted in accordance with the International Standards on Auditing and accordingly included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the consolidated financial statements present fairly the financial position of NIB Bank Limited and its subsidiary companies as at 31 December 2012 and the results of their operations for the year then ended.

Date: 20 February 2013 Karachi KPMG Taseer Hadi & Co. Chartered Accountants Amir Jamil Abbasi

1. STATUS AND NATURE OF BUSINESS

The "Group" consists of:

Holding Company

NIB Bank Limited (the Bank)

NIB Bank Limited "the Bank" is incorporated in Pakistan and its registered office is situated at first floor, Post Mall, F-7 Markaz, Islamabad. The Bank is listed on all the stock exchanges in Pakistan and has 179 branches (December 31, 2011: 179 branches). The Bank is a scheduled commercial bank and is principally engaged in the business of banking as defined in the Banking Companies Ordinance, 1962.

The Bank is a subsidiary of Bugis Investments (Mauritius) Pte. Limited which is a wholly owned subsidiary of Fullerton Financial Holdings Pte. Limited which in turn is a wholly owned subsidiary of Temasek Holdings, an investment arm of the Government of Singapore.

Subsidiary Companies

PICIC Asset Management Company Limited (PICIC AMC)

PICIC AMC is a wholly owned subsidiary of the Bank and is an unquoted public limited company with principal business to carry out investment advisory services and asset management services. The Bank acquired interest in PICIC AMC by virtue of acquisition and amalgamation of Pakistan Industrial Credit and Investment Corporation Limited (PICIC) as of June 30, 2007.

PICIC Stock Fund (PSF)

The Group maintains 95.39% interest in the PSF. PSF is an open ended mutual fund approved by the Securities and Exchange Commission of Pakistan (SECP) and is listed on the Islamabad Stock Exchange (Guarantee) Limited. The units of the PSF are offered to the public for subscription on a continuous basis and are transferable and redeemable by surrendering them to the PSF. The investment objective of the Fund is to provide investors a diversified equity portfolio with a primary objective of maximizing risk adjusted returns over longer investment horizon through a combination of capital gains and dividend income.

Financial and Management Services (Private) Limited (FMSL)

The Group acquired 95.89% interest in FMSL by virtue of acquisition and amalgamation of PICIC.

2. BASIS OF PRESENTATION

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of traderelated modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

These consolidated financial statements have been presented in Pakistan Rupees, which is the Group's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees.

3. STATEMENT OF COMPLIANCE

3.1 These consolidated financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Banking Companies Ordinance, 1962, the Companies Ordinance, 1984 and the directives issued by the SBP. In case the requirements differ, the provisions of and directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. Specific the Companies Ordinance, 1984 and the directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. In case the requirements ordinance, 1984 and the directives issued by the SBP. Specific the SBP shall prevail.

Notes to the Consolidated Financial Statements For the year ended December 31, 2012

3.2 SBP vide BSD Circular No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement (IAS 39) and International Accounting Standard 40, Investment Property for banking companies till further instructions. Further, according to a notification of the Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, IFRS 7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.

3.3 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards are effective for accounting periods beginning on or after January 1, 2013:

- IAS 19 Employee Benefits (amended 2011) (effective for annual periods beginning on or after 1 January 2013). The amended IAS 19 includes the amendments that require actuarial gains and losses to be recognised immediately in other comprehensive income; this change will remove the corridor method and eliminate the ability for entities to recognise all changes in the defined benefit obligation and in plan assets in profit or loss, which currently is allowed under IAS 19; and that the expected return on plan assets recognised in profit or loss is calculated based on the rate used to discount the defined benefit obligation. The impact of these have not been quantified.
- Presentation of Items of Other Comprehensive Income (Amendments to IAS 1) (effective for annual periods beginning on or after 1 July 2012). The amendments require that an entity present separately the items of other comprehensive income that would be reclassified to profit or loss in the future if certain conditions are met from those that would never be reclassified to profit or loss. The amendments do not address which items are presented in other comprehensive income or which items need to be reclassified. The requirements of other IFRSs continue to apply in this regard. The amendments have no impact on financial statements of the Group.
- IAS 27 Separate Financial Statements (2011) (effective for annual periods beginning on or after 1 January 2013). IAS 27 (2011) supersedes IAS 27 (2008). Three new standards IFRS 10 Consolidated Financial Statements, IFRS 11- Joint Arrangements and IFRS 12- Disclosure of Interest in Other Entities dealing with IAS 27 would be applicable effective 1 January 2013. IAS 27 (2011) carries forward the existing accounting and disclosure requirements for separate financial statements, with some minor clarifications. The amendments have no impact on financial statements of the Group
- IAS 28 Investments in Associates and Joint Ventures (2011) (effective for annual periods beginning on or after 1 January 2013). IAS 28 (2011) supersedes IAS 28 (2008). IAS 28 (2011) makes the amendments to apply IFRS 5 to an investment, or a portion of an investment, in an associate or a joint venture that meets the criteria to be classified as held for sale; and on cessation of significant influence or joint control, even if an investment in an associate becomes an investment in a joint venture. The amendments have no impact on financial statements of the Group.
- Offsetting Financial Assets and Financial Liabilities (Amendments to IAS 32) (effective for annual periods beginning on or after 1 January 2014). The amendments address inconsistencies in current practice when applying the offsetting criteria in IAS 32 Financial Instruments: Presentation. The amendments clarify the meaning of 'currently has a legally enforceable right of set-off'; and that some gross settlement systems may be considered equivalent to net settlement.
- Offsetting Financial Assets and Financial Liabilities (Amendments to IFRS 7) (effective for annual periods beginning on or after 1 January 2013). The amendments to IFRS 7 contain new disclosure requirements for financial assets and liabilities that are offset in the statement of financial position or subject to master netting agreement or similar arrangement. The amendments have no impact on financial statements of the Group.

Annual Improvements 2009 – 2011 (effective for annual periods beginning on or after January 1, 2013). The new cycle of improvements contains amendments to the following five standards, with consequential amendments to other standards and interpretations.

 IAS 1 Presentation of Financial Statements is amended to clarify that only one comparative period - which is the preceding period - is required for a complete set of financial statements. If an entity presents additional comparative information, then that additional information need not be in the form of a complete set of financial

statements. However, such information should be accompanied by related notes and should be in accordance with IFRS. Furthermore, it clarifies that the 'third statement of financial position', when required, is only required if the effect of restatement is material to statement of financial position. The amendments have no impact on financial statements of the Group.

- IAS 16 Property, Plant and Equipment is amended to clarify the accounting of spare parts, stand-by equipment and servicing equipment. The definition of 'property, plant and equipment' in IAS 16 is now considered in determining whether these items should be accounted for under that standard. If these items do not meet the definition, then they are accounted for using IAS 2 Inventories.
- IAS 32 Financial Instruments: Presentation is amended to clarify that IAS 12 Income Taxes applies to the accounting for income taxes relating to distributions to holders of an equity instrument and transaction costs of an equity transaction. The amendment removes a perceived inconsistency between IAS 32 and IAS 12. The amendments have no impact on financial statements of the Group.
- IAS 34 Interim Financial Reporting is amended to align the disclosure requirements for segment assets and segment liabilities in interim financial reports with those in IFRS 8 Operating Segments. IAS 34 now requires the disclosure of a measure of total assets and liabilities for a particular reportable segment. In addition, such disclosure is only required when the amount is regularly provided to the chief operating decision maker and there has been a material change from the amount disclosed in the last annual financial statements for that reportable segment. The amendments have no impact on financial statements of the Group.
- IFRIC 20 Stripping cost in the production phase of a surface mining (effective for annual periods beginning on or after 1 January 2013). The interpretation requires production stripping cost in a surface mine to be capitalized if certain criteria are met. The amendments have no impact on financial statements of the Group.

4. BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention, except for the measurement of certain investments and commitments in respect of forward foreign exchange contracts that are stated at revalued amounts / fair values, staff retirement benefits (Gratuity) which are stated at present value and certain financial assets that are stated net of provisions.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of consolidated financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates that affect the reported amounts of assets, liabilities, income and expenses. It also requires the management to exercise its judgment in the process of applying the Group's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Group's financial statements or where judgment was exercised in application of accounting policies are as follows:

5.1 Classification of Investments

Held-to-maturity securities

As described in note 6.4, held-to-maturity securities are investments where the management has positive intent and ability to hold to maturity. The classification of these securities involves management judgment as to whether the financial assets are held-to-maturity investments.

Held-for-trading securities

Investments classified as held-for-trading are those which the Group has acquired with an intention to trade by taking advantage of short term market / interest rate movements and are to be sold within 90 days.

Available-for-sale securities

Investments which are not classified as held-for-trading or held-to-maturity are classified as available-for-sale.

5.2 Impairment

Valuation and impairment of available-for-sale investments

The Group determines that an available-for-sale equity investment and mutual funds are impaired when there has been a significant or prolonged decline in the fair value below its cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Group evaluates, among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

Provision for diminution in the value of Term Finance Certificates, Bonds, and Sukuks is made as per the Prudential Regulations issued by the SBP.

In case of impairment of available for sale securities, the loss is recognised in the profit and loss account.

Impairment of non financial assets (excluding deferred tax and goodwill)

Non financial assets are subject to impairment review if there are events or changes in circumstances that indicate that the carrying amount may not be recoverable. If any such indication exists, the Group estimates the recoverable amount of the asset and the impairment loss, if any. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of future cash flows from the asset discounted at a rate that reflects market interest rates adjusted for risks specific to the asset. If the recoverable amount of an intangible or tangible asset is less than its carrying value, an impairment loss is recognised immediately in the profit and loss account and the carrying value of the asset reduced by the amount of the loss. A reversal of an impairment loss on intangible assets (excluding goodwill) is recognized as it arises provided the increased carrying value does not exceed that which it would have been had no impairment loss been recognized.

Impairment of Goodwill

Impairment testing involves a number of judgmental areas which are subject to inherent significant uncertainty, including the preparation of cash flow forecasts for periods that are beyond the normal requirements of management reporting and the assessment of the discount rate appropriate to the business.

5.3 Provision against non-performing advances

Apart from the provision determined on the basis of time based criteria given in the Prudential Regulations of the SBP, management also applies subjective criteria of classification and accordingly the classification of an advance may be downgraded on the basis of evaluation of the credit worthiness of the borrower, its cash flows, operations in its account and adequacy of security in order to ensure accurate measurement of the provision.

5.4 Retirement Benefits

The key actuarial assumptions concerning the valuation of the defined benefit plan and the sources of estimation are disclosed in note 35.2 to these consolidated financial statements.

5.5 Operating fixed assets, depreciation and amortisation

In making estimates of depreciation / amortisation, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Group. The method applied is reviewed at each financial year end and if there is a change in expected pattern of consumption of the future economic benefits embodied in the assets, the method would be changed to reflect the change in pattern.

5.6 Income Taxes

In making the estimates for income taxes currently payable by the Group, the management looks at the current income tax laws and the decisions of appellate authorities on certain issues in the past. In making the provision for deferred taxes, estimates of the Group's future taxable profits are taken into account.

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these consolidated financial statements are the same as those applied in the preparation of the consolidated financial statements of the Bank for the year ended December 31, 2011 and are enumerated as follows:

6.1 Business combinations

Business combinations are accounted for using the purchase method. Under this method, identified assets acquired, liabilities and contingent liabilities assumed are fair valued at the acquisition date, irrespective of the extent of any minority interest. The excess of cost of acquisition over the fair value of identifiable net assets acquired is recorded as goodwill.

6.2 Revenue recognition

Mark-up / return on performing loans / advances and investments is recognized on time proportionate basis. Where debt securities are purchased at a premium or discount, such premium / discount is amortized through the profit and loss account over the remaining period of maturity using the effective interest rate method so as to produce a constant rate of return. Interest or mark-up recovered on non-performing advances is recognized on a receipt basis in accordance with the requirements of the Prudential Regulations issued by the SBP as amended from time to time.

The financing method is used in accounting for income on finance leases and hire purchase transactions. Under this method, the unearned income, i.e. the excess of aggregate lease rentals and the estimated residual value over the net investment (cost of leased assets) is deferred and then amortized to income over the term of the lease on a pattern reflecting a constant periodic rate of return on the net investment in the lease. Unrealized lease income is suspended, where necessary, in accordance with the requirements of the Prudential Regulations issued by the SBP.

Rental income from assets given on operating lease is recognized on time proportionate basis over the lease period.

Gains / losses on termination of lease contracts, documentation charges and other lease income are recognized as income when they are realized.

Fee, commission and brokerage income is recognized at the time of performance of the service.

Dividend income is recorded when the right to receive the dividend is established.

Management fee is recognized on an accrual basis.

Capital gains / losses arising on sale of investments are included in the profit and loss account in the period in which they arise.

6.3 Grants and assistance

In terms of Kreditanstalt fur Wiederaufbau (KFW) loan re-lent by the Government of Pakistan (GoP), the Bank was required to bear interest at 11 percent per annum and pay interest to the GoP at 10 percent per annum and transfer the remaining 1 percent per annum margin to a counter part fund to be used by the Bank for financing feasibility surveys, market surveys and similar investigations destined for the preparation of projects.

6.4 Investments

Investments of the Group, other than investments in subsidiaries and associates are classified as held-to-maturity, held-for-trading and available-for-sale.

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturity for which the Group has the positive intent and ability to hold upto maturity.

Held-for-trading

These securities are either acquired for generating a profit from short-term fluctuations in market prices, interest rate movements, dealer's margin or are securities included in the portfolio for which there is evidence of a recent actual pattern of short-term profit taking.

Available-for-sale

These are securities which do not fall under the classification of held-for-trading or held-to-maturity securities.

Initial measurement

All "regular way" purchases and sales of investments are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset. Regular way purchases or sales of investments are those that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Investments are initially recognized at fair value which, in the case of investments other than held-for-trading, includes transaction costs associated with the investments.

Subsequent measurement

Held-to-maturity

These are measured at amortized cost using the effective interest rate method, less any impairment loss recognized to reflect irrecoverable amounts.

Held-for-trading

These are measured at subsequent reporting dates at fair value. Gains and losses on remeasurement are included in the profit and loss account.

Available-for-sale

Quoted-securities classified as available-for-sale investments are measured at subsequent reporting dates at fair value. Any surplus / deficit arising thereon is kept in a separate account shown in the statement of financial position below equity and taken to the profit and loss account when actually realized upon disposal or when the investment is considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. A decline in the carrying value is charged to the profit and loss account. The break-up value of these equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses.

Provision for diminution in the value of securities (except term finance certificates) is made for impairment, if any. Provision for diminution in the value of term finance certificates is made as per the criteria prescribed by the Prudential Regulations issued by the SBP.

Investment in Associates

Investments in associates are accounted for under the equity method.

6.5 Lendings to / borrowings from financial institutions (including repurchase and resale agreements)

Securities sold subject to a repurchase agreement (repo) are retained in the financial statements as investments

and the counter party liability is included in borrowings. Securities purchased under agreement to resale (reverse repo) are not recognized in the financial statements as investments and the amount extended to the counter party is included in lendings to financial institutions. In the case of the continuous funding system, transactions are shown under advances. The difference between sale and repurchase price is treated as mark-up / return expensed whereas difference between purchase and resale price is treated as mark-up / return earned.

Securities purchase with a corresponding commitment to resell at a specified future date are not recognised in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowings from financial institutions.

6.6 Advances

Advances including continuous funding system and net investment in finance lease are stated net of provisions.

Provisions

Specific and general provisions are made based on an appraisal of the loan portfolio that takes into account Prudential Regulations issued by the State Bank of Pakistan from time to time. Specific provisions are made where the repayment of identified loans is in doubt and reflects an estimate of the amount of loss expected. The general provision is for the inherent risk of losses which are known from experience to be present in any loan portfolio. Provision made / reversed during the year is charged to the profit and loss account and accumulated provision is netted off against advances.

Advances are written off when there is no realistic prospect of recovery.

Net investment in finance lease

Leases include hire purchase where the Bank transfers substantially all the risks and rewards incidental to the ownership of an asset and are classified as finance leases. Net investment in finance lease is recognized at an amount equal to the aggregate of minimum lease payments and any guaranteed residual value less unearned finance income, if any.

6.7 Operating fixed assets and depreciation

Owned

Property and equipment except freehold and leasehold land is stated at cost less accumulated depreciation and accumulated impairment loss, if any. Freehold and leasehold land is stated at cost.

Depreciation is charged to income applying the straight line method over the estimated useful lives of the assets while taking into account any residual value, at the rates given in Note 13.2 to the consolidated financial statements. In respect of additions and deletions to assets during the year, depreciation is charged from the month of acquisition while depreciation on disposals during the year is charged upto the month of disposal.

Normal repairs and maintenance are charged to the profit and loss account for the year as and when incurred. Major repairs and improvements are capitalized and assets so replaced are retired.

Gains and losses on disposal of property and equipment if any, are taken to the profit and loss account for the year.

Assets held under Finance Lease

Leasehold land is stated at cost.

Assets held under finance lease are stated at cost less accumulated depreciation. The outstanding obligations under the lease agreements are shown as a liability net of finance charges allocable to future periods. Depreciation on assets held under finance lease is charged in a manner consistent with that for depreciable assets which are owned by the Group.

Finance charges are allocated to accounting periods so as to provide a constant periodic rate of return on the outstanding liability.

Assets held under Operating Lease

Operating lease assets are stated at cost less accumulated depreciation and impairment, if any.

Repairs and maintenance are charged to the profit and loss account as and when incurred.

Capital work in progress

These assets are stated at cost. These are transferred to specific assets as and when assets are available for use.

6.8 Intangible assets

Intangible assets include the value of the brand, core deposit relationships, and core overdraft / working capital loan relationships and are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is charged to the profit and loss account on a straight line basis over the assets' useful lives which are determined using methods that best reflect the pattern of economic benefits. The estimated useful lives are as follows:

Brand	5 years
Core deposit relationships	11 years
Core overdraft / working capital loan relationships	11 years
Management rights	Indefinite life

Management rights were stated at cost less accumulated amortization and impairment losses, if any in PICIC AMC. Amortization was charged on straight line basis over a period of 10 years. The useful life of the management rights has been determined, post-acquisition, to be indefinite.

Computer softwares are stated at cost less accumulated amortization and accumulated impairment losses, if any. Amortization is carried out on the straight line method at the rates given in Note 14 to the consolidated financial statements.

6.9 Sub-Ordinated Loans

Sub-ordinated loans are initially recorded at the amount of proceeds received. Mark-up accrued on these loans is recognized separately as part of other liabilities and is charged to the profit and loss account over the period on an accrual basis.

6.10 Staff retirement benefits

Defined contribution plan

The Group operates a defined contribution provident fund for all its permanent employees. Equal monthly contributions are made to the fund by both the Group and the employees at the rate of 10% of basic salary.

Defined benefit plan

The Bank operates an unfunded gratuity scheme covering all eligible employees who have attained the minimum qualifying period of five years. Eligible employees are those employees who have joined the service of the Bank on or before March 31, 2006. Provision is made in accordance with actuarial recommendations. Actuarial valuation is carried out periodically using the "Projected Unit Credit Method".

Actuarial gain / loss is recognized using the 10% corridor approach. Corridor is defined as the greater of 10% of the present value of defined benefit obligations and plan assets.

6.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity.

Current

Provision for current taxation is based on taxable income at the current rates of taxation in accordance with the prevailing laws for taxation on income earned after taking into consideration tax credits and rebates available and any adjustments to tax payable in respect of previous years.

Deferred

Deferred tax is recognized using the balance sheet liability method on all major temporary differences as at the statement of financial position date between the amounts attributed to assets and liabilities for financial reporting purposes and amounts used for taxation purposes. The Group records deferred tax assets / liabilities using tax rates, enacted or substantially enacted at the statement of financial position date, that are expected to be applicable at the time of their reversal.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Group recognizes a deferred tax asset / liability on deficit / surplus on revaluation of securities in accordance with the requirements of IAS 12 "Income Taxes". The related deferred tax asset / liability is adjusted against the related deficit / surplus.

The Group recognizes a deferred tax asset for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which the unused tax losses and unused tax credits can be utilized in accordance with the requirements of IAS 12 "Income Taxes".

6.12 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed quarterly and are adjusted to reflect the current best estimate.

6.13 Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements when there is a legally enforceable right to set-off the recognized amount and the Group intends either to settle on a net basis, or to realize the assets and to settle the liabilities simultaneously. Income and expense items relating to such assets and liabilities are also offset and the net amount is reported in the financial statements of the Group.

6.14 Dividend distribution

Dividend is recognized as a liability in the period in which it is declared.

6.15 Distributions of bonus shares and other appropriations to reserves

The Group recognizes all appropriations, other than statutory appropriations, to reserves including those in respect of bonus shares made after the statement of financial position date, in the period in which such appropriations are approved.

6.16 Foreign currencies

Transactions in foreign currencies are translated to Rupees at the foreign exchange rates prevailing at the transaction

date. Monetary assets and liabilities in foreign currencies are translated into Rupees at the rates of exchange prevailing at the statement of financial position date. Forward foreign exchange contracts and foreign bills purchased are valued at forward rates applicable to their respective maturities.

Commitments for outstanding forward foreign exchange contracts are disclosed in these consolidated financial statements at committed amounts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange approximating those prevailing at the statement of financial position date.

Assets against which the constituents have exercised their option to transfer exchange risk to the Group and liabilities for which the Group has exercised its option to transfer exchange risk to the Government, are translated at the rates of exchange guaranteed by the Group and the Government, respectively.

Assets, liabilities, commitments and contingent liabilities in respect of Bangladesh are translated at foreign exchange rates approximating those prevailing prior to August 15, 1971.

Exchange gains and losses are included in income currently except net unrealized exchange gain on long-term monetary items which, as a matter of prudence, is carried forward as unrealized gain in view of the uncertainty associated with its realization.

6.17 Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents include cash and balances with treasury banks and balances with other banks.

6.18 Financial instruments

All financial assets and liabilities are recognized at the time when the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the Group loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when they are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to income directly. Financial assets carried on the statement of financial position include cash and bank balances, lendings to financial institutions, investments, advances and certain receivables. Financial liabilities include borrowings, deposits, bills payable and other payables. The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

6.19 Derivative financial instruments

Derivative financial instruments are recognized at their fair value on the date on which a derivative contract is entered into and subsequently these instruments are marked to market and changes in fair values are taken to the profit and loss account. Fair values are obtained from quoted market prices in active markets.

6.20 Segment reporting

A segment is a distinguishable component of the Bank that is engaged in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Bank's primary format of reporting is based on business segments.

6.20.1 Business Segments

Corporate and Investment Banking

It represents all funded and non funded credit facilities of working capital financing including seasonal finance, trade finance, cash finance, running finance, guarantees and bills of exchange relating to corporate customers, as well as for long term expansion, BMR, Project financing, syndicated financing along with advisory, underwriting, transactional banking, and IPO related activities.

Retail

It represents banking services offered to individuals and small businesses through a retail branch banking and alternate distribution network. These banking services include lending, deposits and distribution of insurance products along with other financial products and services tailored for such customers.

Small & Medium Enterprises and Commercial

It represents all funded and non funded credit facilities, deposit products & transaction services offered by the Bank to small & medium enterprises and commercial businesses operating in the manufacturing, trading, wholesale and service sectors.

Treasury

Treasury manages the asset and liability mix of the Group, and provides customers with products that meet their demands for management of liquidity, cash flow, interest rate fluctuations and foreign exchange risk.

6.20.2 Geographical segments

The Group operates in Pakistan only.

6.21 Assets acquired in satisfaction of claims

The Bank occasionally acquires assets in settlement of certain advances. These are recorded at the lower of the carrying value of the related advances and the current fair value of such assets.

6.22 Deposits

Deposits are initially recorded at the amount of proceeds received. Mark-up accrued on deposits is recognized separately as part of other liabilities and is charged to the profit and loss account on a time proportionate basis.

6.23 Earnings per share

The Group presents earnings per share (EPS) data for its ordinary shares. EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year.

6.24 Fiduciary Assets

Assets held in a fiduciary capacity are not treated as assets of the Group in the statement of financial position.

7. BASIS OF CONSOLIDATION

The assets and liabilities of subsidiary companies have been consolidated on a line by line basis and the carrying value of investment in subsidiaries held by the holding company is eliminated against the shareholders' equity in the consolidated financial statements.

Material intra-group balances and transactions have been eliminated.

These consolidated financial statements includes the financial statements of NIB Bank Limited and its subsidiary companies - "the Group".

Subsidiary companies are fully consolidated from the date on which more than 50% of the voting rights are transferred to the Group, or the power to control the Company is established and are excluded from consolidation from the date of disposal or when the control is lost.

Non controlling interest represents that part of the net results of operations and of net assets of the subsidiary companies that is not owned by the Group.

Financial and Management Services (Private) Limited has not been consolidated as it is not material and this investment has been fully provided.

8. CASH AND BALANCES WITH TREASURY BANKS

12.4.1 Included in the Provision required is an amount of Rs. 410.960 million (2011: Rs. 594.565 million) which represents provision in excess of the requirements of the State Bank of Pakistan.

12.4.2 In accordance with BSD Circular No. 1 dated October 21, 2011 issued by the State Bank of Pakistan, the Bank has availed the benefit of FSV against the non-performing advances. During the year, total FSV benefit erosion resulted in decrease in profit after tax of Rs. 1,029.071 million. Accordingly, as of December 31, 2012, the accumulated profit after tax of Rs. 4,825.641 million (2011: Rs. 5,854.713 million) shall not be available for payment of cash and stock dividend as required by aforementioned SBP directive.

Included in cost of property and equipment are fully depreciated items still in use having cost of Rs. 837.893 million (2011: Rs. 949.233 million). Carrying amount of temporarily idle property is Rs. 885.609 million (2011: Rs. 891.219 million) 13.2.1 13.2.2

the legal dues in respect of the Plot including Non-utilization Fees have been paid. In 2000, CDGK cancelled the allotment unilaterally based on certain the ownership of the land had been reverted to KPT. The said claim by KPT was also challenged by way of Civil Suit before the High Court of Sindh. The This includes a plot of land costing Rs. 361 million in Block-6, KDA Scheme-5, Clifton, Karachi (the "Plot"), possession of which was taken by the Bank formerly PICIC) in April 1983 pursuant to an allotment order by City District Government Karachi ("CDGK") (formerly Karachi Development Authority). All ouilding and construction restrictions. The Bank filed a Civil Suit against CDGK before the High Court of Sindh in respect of the said unilateral cancellation of the allotment. Meanwhile, also in 2000, a dispute arose with KPT in respect of construction of a boundary wall on the Plot by KPT as KPT claimed that High Court of Sindh initially issued restraining orders against CDGK and KPT in the respective suits in respect of cancellation of the allotment of the Plot. Subsequently, both the suits were decided in favor of the Bank. In the suit filed against CDGK, the High Court of Sindh held that the action of cancellation of the allotment by CDGK was improper and void, whereas, in the suit against KPT, the High Court of Sindh held that since allotment in favor of the Bank was valid therefore. KPT had no standing to claim that the ownership of the land had been reverted back to KPT. Both the decisions of the High Court of Sindh are currently being challenged in two separate High Court Appeals by CDGK and KPT and the same are still pending. Furthermore, in November 2008, KPT filed a Civil Suit seeking a declaration from the High Court of Sindh to the effect that the ownership of the Plot had been validly reverted to KPT. At present, the Bank is actively defending the cases. 13.2.3

Notes to the Consolidated Financial Statements For the year ended December 31, 2012

132 NIB BANK LIMITED

14.2 Annual test for impairment

Intangibles

In the current year, the Group assessed the recoverable amount of core deposit relationships and determined that no impairment loss exists.

		Note	2012	2011
			(Rupe	es '000')
15.	DEFERRED TAX ASSETS			
	Deferred debits arising due to:		[]	
	Provision against loans and advances Provision against other receivable Gratuity		8,432,590 255,121 -	8,880,336 254,851 –
	Unused tax losses Intangibles Excess of tax base of government securities /		4,488,530 8,843	3,699,934 25,911

	Deferred credits arising due to:		13,563,978	13,291,868
	Excess of accounting base of leased asset over tax base		(159,787)	(140,383)
	Accelerated accounting depreciation on owned assets		(798,215)	(732,089)
	Fair valuation of subsidiaries and associates		(643,298)	(568,601)
	Surplus / (Deficit) on revaluation of securities		(178,403)	(39,648)
	Unrealised exchange gains	15.2	(2,377)	(2,377)
	Unrealised exchange losses	15.3	(33,604)	(33,604)
			(1,815,684)	(1,516,702)
	Deferred tax Assets		11,748,294	11,775,166
	Unrecognised deferred tax assets Recognised deferred tax assets	15.1	(982,015) 10,766,279	(817,000) 10,958,166
	hooghiota abiorioa lan abolo			

15.1 The deferred tax asset recognised in the books has been restricted to Rs. 10,766 million due to uncertainty of availability of future tax profits for utilization of the un-recognised deferred tax assets. The deductible differences available to the Bank are Rs. 11,748 million. Had these been taken completely, the profit after tax for the year would be higher by Rs. 165 million (2011: Rs. 817 million). Therefore, the accumulated amount of deferred tax asset not recognised as of December 31, 2012 amounted to Rs. 982.015 million.

The management has recorded deferred tax asset based on financial projections indicating realisibility of deferred tax asset over a number of future years through reversals as a result of recoveries from borrowers and realisibility of remaining deferred tax asset against future taxable profits. The financial projections involve certain key assumptions such as deposits composition, interest rates, growth of deposits and advances, investment returns and potential provision / reversals against assets. Any significant change in the key assumptions may have an effect on the realisibility of the deferred tax asset.

- **15.2** In 1987 and 1989, the Bank (formerly PICIC) exercised its option to avail the exchange risk coverage offered by the Government of Pakistan, Ministry of Finance and Economic Affairs (Economic Affairs Division), through Office Memo 1(16)/50/DM/86 dated July 8, 1987 and 1(12)/50/DM/89 dated June 1, 1989 respectively and, in turn the Bank (formerly PICIC) offered the risk coverage to its Borrowers.
- **15.3** The unrealised exchange losses of the Bank (formerly PICIC) as on April 21, 1987, the effective date of exercise of both the options arising on related borrowings as reduced by gains arising on related advances was claimed as loss for tax purposes.

15.4 Movement in temporary differences during the year

	Other assets - net of provisions		6,425,663	4,588,151

16.1 This includes Rs. 0.728 million (2011: Rs. 1.024 million) in respect of related parties.

16.2 Advances, deposits, advance rent and other prepayments

Advances	41,063	43,515
Deposits	40,139	33,060
Advance rent	296,864	252,635
Prepayments	127,411	90,665
	 505,477	419,875

16.3 Represents cost of land, plant and machinery acquired by the Bank against advances and held for resale. The market value of the subject assets as of December 31, 2012 was Rs. 1,203.436 million (2011: Rs. 611.403 million). Provision of Rs. 102.272 million has been made against difference between cost and fair value. The above mentioned values include properties having market value of Rs. 534.733 million acquired through settlement agreements, where the settlement agreement signed with borrowers entails a buy back option.

16.4 All the assets and liabilities as of November 30, 1971 clearly identifiable as being in or in respect of the areas now under Bangladesh and referred to above were segregated as of that date and in such segregation, for purposes of conversion of foreign currency amounts, generally speaking, the parity rates ruling prior to August 15, 1971 were used, and all income accrued or due in 1971 but not received in that year and interest accrued but not due on borrowings in 1971 was eliminated. Subsequently, consequent to the assuming by Bangladesh of certain foreign currency loan obligations as of July 1, 1974, including amounts previously identified by the Bank (formerly PICIC) as its foreign currency liabilities in respect of Bangladesh, such amounts were eliminated from the books of the Bank (formerly PICIC) by reducing an equivalent sum from its related foreign assets in that area.

Arising from advices received from the lenders and as a result of diversion of shipments and of the meeting of certain contingent liabilities, there have been certain modifications to the foreign currency advances relating to Bangladesh. Furthermore, the difference between the actual amount of rupees required to remit maturities of foreign currency borrowings in respect of Bangladesh and the figures at which they appeared in the books and the interest paid to foreign lenders has been treated as increasing the rupee assets in that area.

The Government of Pakistan, while initially agreeing to provide the rupee finance required for discharging current maturities of foreign currency borrowings and interest related to Bangladesh, did not accept any responsibility for PICIC's assets in that area. However, following an agreement reached between PICIC and the Government of Pakistan during 1976, the Government has agreed that it would continue to provide the funds for servicing PICIC's foreign currency liabilities relating to Bangladesh and has further agreed that an amount equivalent to the rupee assets in Bangladesh financed from PICIC's own funds not exceeding Rs. 82 million would be deemed to have been allocated out of the rupee loans by the Government and that such allocated amount together with the rupee finance being provided by the Government including any interest thereon would not be recovered from PICIC until such time as PICIC recovers the related assets from Bangladesh and only to the extent of such recovery.

Accordingly, such allocated amounts, together with the rupee finance being provided by the Government for discharging the current maturities of foreign currency borrowings (including the interest and charges thereon and any exchange difference between the final rupee payment and the amount at which the liability, commitment or contingent liability as appearing in the books relating to Bangladesh) have been treated as liabilities in respect of Bangladesh. Further, in view of the aforesaid agreement no interest is being accrued on the allocated amount of rupee loans or in respect of the rupee finance provided by the Government related to PICIC's assets in Bangladesh nor is it considered necessary to provide for any loss that may arise in respect of PICIC's assets in Bangladesh.

	2012	2011
16.5 Particulars of provisions held against other assets	(Rupee	s '000')
Opening balance	1,021,625	890,883
Charge for the year	3,892	192,211
Reversals	(3,500)	(15,610)
Write offs	(9,841)	(45,859)
Closing balance	1,012,176	1,021,625

16.6 This includes a sum of Rs. 30.466 million (2011: Rs. 30.466 million) representing unrealised exchange gain, which has not been recognised as income and deferred in the financial statements, in accordance with the policy of the Bank, as stated in note 6.16.

16.7 This includes Rs. 941.176 million in respect of advance paid by the Bank for purchase of Term Finance Certificates of Pakistan Mobile Communication Limited (PMCL). As per agreed repayment schedule mark-up has been received from PMCL which have been recorded as mark-up income of the Bank. The TFC issuance is in process and is expected to complete in first half of 2013, upon issuance of the certificates this advance will be reclassified as Investments.

Foreign borrowings payable in local currency 18.8	162,286	162,286
	76,179,065	47,382,031

18.3 Borrowings from SBP under Export Refinance Scheme are subject to mark-up at rate of 8.5% to 10% (2011: 10%) per annum maturing within six months.

18.4 Borrowings from SBP under Long Term Financing Facility (LTFF) are subject to mark up ranging from 6.50% to 8.60% (2011: 6.50% to 8.20%) per annum with remaining maturity upto six years.

18.5 Borrowings from SBP under Long Term Finance for Export Oriented Projects are subject to mark up ranging from 4.90% to 5.00% (2011: 4.90% to 5.00%) per annum with remaining maturity upto three and half years.

18.6 These borrowings are subject to mark-up at rates ranging from 7.75% to 8.85% (2011: 11.63% to 11.90%) per annum with remaining maturing up to four days. Government securities have been given as collateral against these borrowings.

18.7 These borrowings are subject to mark-up at rates ranging from 8% to 9.75% (2011: 11.25%) per annum with remaining maturity upto forty nine days.

18.8 The Government of Pakistan (GoP) has claimed an amount of Rs. 162.286 million in respect of liabilities against German credit representing principal amount of loan and Rs. 45.444 million as interest thereon till June 30, 2006. The principal amount has been accounted for and shown as payable to the GoP whereas interest has been accounted for in Other Liabilities (note 20). However, the Bank is contending that any amount of principal and interest is payable to the GoP only when recovered from the related sub-borrowers, who have availed the German credit. This also includes unrealized exchange loss of Rs. 96.011 million (2011: Rs. 96.011 million) which has been netted off against unrealized exchange gain (note 15) as it is payable when recovered from sub-borrowers, who have availed the related German credit.

24.8	Commitments with respect to Government Securities		
	Purchase Sale	513,980 1,900,540	487,600 47,683

24.9 The income tax returns of NIB Bank Limited have been filed up to and including tax year 2012 relevant to the financial year ended December 31, 2011. The tax authorities have made certain disallowances including additions on account of proration of expenses against dividends and capital gains, disallowances of interest and administrative expenses and renovation expenses incurred on rented premises (allowed historically) pertaining to tax years 2003

through 2008 for Ex-Pakistan Industrial Credit and Investment Corporation Limited (Ex-PICIC), from tax years 2004 through 2008 for Ex-PICIC Commercial Bank Limited (Ex-PCBL), tax years 2003 and 2004 for Ex-National Development Leasing Corporation Limited (Ex-NDLC) and from tax years 2004 through 2008 for NIB Bank Limited. These disallowances may result in additional tax aggregating to Rs. 1,370 million (2011: 1,370 million), which the management of the Bank in discussion with their tax consultants believes to be unjustified and not in accordance with the true interpretation of the law.

Appeals filed against orders are pending at various appellate forums. Management is confident that the eventual outcome of the cases will be in favour of the Bank.

24.10 A penalty of Rs. 700 million was imposed by the Competition Commission of Pakistan ("the Commission") on all the member banks utilizing the 1 link Switch on account of uncompetitive behavior and imposing of uniform charges on cash withdrawal for off network ATM transactions. The Bank's share in this penalty is Rs. 50 million. The concerned banks filed a constitutional petition before the High Court of Sindh, which has suspended the order of the Commission. Consequently an appeal was filed with the Competition Appellate Tribunal which has also suspended the order of the Commission till the conclusion of the hearing of the appeal. The management in consultation with external legal counsel that represents the Bank, is confident that they have strong grounds to contest this penalty and they consider that the case will be decided in the favour of the Bank.

	claimed as exempt income, the Company has appealed on this matter with th	ne relevant authorit	Ies.

35. DEFINED BENEFIT PLAN

35.1 The benefits under the gratuity scheme are payable in lump sum on retirement at the age of 60 years or earlier cessation of services. The benefit is equal to one month's last drawn basic salary for each year of confirmed service, subject to a minimum of five years of service.

35.2 Principal actuarial assumptions

The actuarial valuation is carried out periodically. The actuarial valuation was carried out for the year ended December 31, 2012 using the "Projected Unit Credit Method". The main assumptions used for actuarial valuation are as follows:

			Gratuity				
				2012		201	1
	 Valuation discount rate Salary increase rate Mortality rate Withdrawal rate 		Ultin	12.0% 11.0% Based on LIC 1994-96 Ultimate Mortality table Heavy (double of moderate) Age		13.0% 12.0% Based on LIC 1975-79 Ultimate Mortality table e - Wise withdrawal rates

	Other liabilities	1,918,479	1,918,479	2,414,227	2,414,227
		175,614,821	175,637,840	141,001,327	140,921,768
38.2	Off-balance sheet financial instruments				
	Forward purchase of foreign exchange	17,670,541	17,695,724	56,859,837	57,548,407
	Forward sale of foreign exchange	18,716,569	18,702,296	58,787,111	59,591,144

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

Fair values of held-to-maturity securities, sub-ordinated loans and investment in quoted associates have been stated at market values.

Fair value of unquoted equity securities have been stated at the lower of cost and Net Assets Value as per the latest available audited financial statements.

Except for investment in unquoted subsidiaries, fixed term advances of over one year, staff loans and fixed term deposits of over one year, the fair value of other on balance sheet financial assets and liabilities are not significantly different from their book value as these assets and liabilities are either short term in nature or are frequently repriced.

The fair value of unquoted subsidiaries, fixed term advances, staff loans, fixed term deposits, other assets and other liabilities cannot be calculated with sufficient reliability due to non-availability of relevant active markets for similar assets and liabilities.

39. SEGMENT DETAILS WITH RESPECT TO BUSINESS ACTIVITIES

The Group comprises the Bank, Asset Management Company and PICIC Stock Fund. The Bank is organised into reportable segments as disclosed in note 6.20.1 of the annual consolidated financial statements. These segments are managed by respective segment heads and the results of these segments are regularly reviewed by the Group's President / Chief Executive. Segment performance is reviewed on the basis of various factors including profit before taxation. The performance of the Asset Management Company and PICIC Stock Fund is included in Head Office / Others.

Transactions between reportable segments are carried out on an arms length basis.

The segment analysis with respect to business activity is as follows:

148 NIB BANK LIMITED

### 41. CAPITAL-ASSESSMENT AND ADEQUACY

### 41.1 Scope of Application

Capital Adequacy Ratio (CAR) has been calculated in accordance with the guidelines given by SBP through BSD Circular No. 8 dated June 27, 2006. The Bank has adopted Standardized Approach for Credit and Market Risk and Basic Indicator Approach for Operational Risk. The current requirement for CAR is 10% as per BSD Circular No. 07 dated April 15, 2009.

### 41.2 Capital Structure

The Group's regulatory capital base comprises of:

- (a) Tier 1 capital which includes share capital, reserves and accumulated losses/unappropriated profit
- (b) Tier 2 capital which consists of subordinated debt (subject to 50% of eligible Tier 1 capital), revaluation reserves (subject to 45% of balance in revaluation reserve) and general provision for loan losses (subject to 1.25% of Risk Weighted Asset)

The issued, subscribed and paid-up capital of the Bank was Rs. 103,028.512 million as at December 31, 2012, comprising of 10,302,851,164 shares of Rs.10 each.

The subordinated debt amounting to Rs. 3,992.800 million represents unsecured TFCs of the Bank. The amount raised through the issue contributed towards the Bank's Tier II capital for Minimum Capital Requirement as per the guidelines of SBP.

Details of the Group's regulatory capital are as under:

	2012	2011
Ting L Consider	(Rupee	es '000')
Tier I Capital Fully paid-up capital	103,028,512	
Minority interest Share premium	6,371 (45,769,623)	9 (45,769,623)
Statutory and general reserves	225,889	218,276

Less:		
Other deductions (representing 50% of significant associates)	792,177	637,811
Total Tier II Capital	1,682,426	2,839,848
Total Regulatory Capital Base (a)	11,779,240	12,079,953

### 41.3 Capital Adequacy

The purpose of capital management at the Group is to ensure efficient utilization of capital in relation to business requirements, growth, risk appetite, shareholders' returns and expectations.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions, regulatory requirements and the risk profile of its activities. In order to maintain or adjust the capital structure, the Bank may issue capital / Tier II securities.

The Group's capital adequacy ratio as at December 31, 2012 was 12.14% compared to the minimum regulatory requirement of 10%. The Bank ensures adherence to SBP's requirements by monitoring its capital adequacy on a regular basis.

Banking operations are categorized as either Trading book or Banking book, and Risk-Weighted Assets are determined according to SBP requirements that seek to reflect the varying levels of risk attached to Bank's On and Off-balance sheet exposures.

Collateral, if any, is used as an outflow adjustment. Risk weights notified are applied to Net Adjusted Exposure.

Cash and near Cash collateral includes Government of Pakistan Securities , Shares listed on the stock exchanges, Cash and Cash equivalents (deposits / margins, lien on deposits).

The Group has complied with all regulatory capital requirements as at the reporting date.

The capital requirement for the Bank as per the major risk categories is indicated below:

### 42. RISK MANAGEMENT

The risk management framework of NIB is approved by the Board of Directors ("BOD") and implemented by the senior management. The Bank's risk management policies are established to identify and analyze the risks faced by the Bank, to set standard and appropriate risk limits and controls to ensure quality of portfolio and credit process. Risk management policies are reviewed annually to reflect changes in economic environment, market conditions and products offerings. The BOD sets forth the vision and strategy of NIB and has entrusted the monitoring to the Board's Risk Management Committee ("BRMC"), which is an oversight committee and meets at least quarterly. Findings of the BRMC are escalated to the BOD. Terms and references of BRMC are documented and duly approved by the BOD and broadly includes oversight responsibility at the highest level under the Risk Management Governance Framework.

The BRMC has three sub-committees, namely the Asset Liability Committee ("ALCO"), the Credit Risk Committee ("CRC") and the Operational Risk Committee ("ORC"), to identify, manage and monitor risks.

### Asset Liability Committee ("ALCO")

The ALCO functions as the top operational unit for managing the balance sheet within the performance/risk parameters laid down by the BOD. Its objective is to derive the most appropriate strategy for the Bank in terms of mix of assets & liabilities given future expectations and potential consequence of interest rate movements, liability constraints, and foreign currency exchange exposure and capital adequacy.

### Credit Risk Committee ("CRC")

In our normal business activities there is a need to manage effectively potential credit risk. To address this risk, Credit Risk Committee (CRC) is established under the leadership of the Chief Risk Officer (CRO) of the Bank and membership comprises the President and Senior Management of the Bank. The main objective of the CRC is to ensure effective and proactive management of Credit Risk throughout the Bank in accordance with the Risk Management Framework and related Risk Policies and Procedures. Terms and references of the CRC, which meets on a bi-monthly basis, broadly include the following:

To ensure that all relevant risk policies of the Bank are developed, implemented and are not in conflict with any of the applicable laws and regulations.

To oversee implementation of risk policies and procedures relevant to all business units through review of standard MIS decks.

To ensure that all activities are in compliance with the Prudential Regulations and also with the policies and controls established by the relevant units of the Bank through periodic review of business issues highlighted in internal / external audit reports and SBP Inspection Report.

To review stress testing on portfolio considering the major factors like interest rate sensitivity, inflation, Rupee devaluation, fluctuation in oil prices and/or global meltdown etc.

To review the credit portfolio, primarily through Key Risk Indicators, and to assess:

- quality of the portfolio;
- recovery of remedial accounts;
- variance analysis of actual with plan and forecasts
- portfolio exceptions

To advise business where activities are not aligned with control requirements or risk appetite and to recommend Risk Policies.

### **Operational Risk Committee ("ORC")**

In our normal business activities there is a need to effectively manage potential risk arising out of banking operation of the Bank. To address this risk, Operational Risk Committee (ORC) is established under the leadership of the President of the Bank and membership comprises the CRO and Senior Management of the Bank. The main objective of the ORC is to ensure effective and proactive management of Operational Risk throughout the Bank in accordance with the Risk Management Framework and related Risk Policies and Procedures. Terms and references of the ORC, which meets on a monthly basis, broadly include the following:

To ensure operational risk identification and measurement is objective and covers all activities/products/processes of the Bank, and compliant with the Banks standards and applicable regulations, and that risk control and risk origination decisions are properly informed.

To develop, maintain and review a consolidated MIS of key operational risks in the Bank in the form of Risk & Control Assessment Matrix.

To monitor all material Operational Risk exposures and key external trends, through KRIs and appropriate management action as per defined thresholds, in accordance with Operational Risk policies and procedures.

To review Ops Loss Data (OLD) and take proactive measures to reduce Operational Losses.

To direct appropriate action in response to material events, risk issues or themes that come to the Committee's attention.

To ensure any areas of potential overlap with another entity or Risk Control Area, Business or Function are notified to the affected entity Risk Control Owner, Business or Function Head.

### **Risk Management Organization at the Group**

The Chief Risk Officer ("CRO") is responsible for enterprise wide risk management and implementation of the overall risk management framework of NIB. In this respect, the CRO has to ensure that the risk organization structure of NIB is equipped with the best people, policies and processes, which enable it to perform efficiently and effectively.

The CRO is supported by a Chief Operating Officer for Risk responsible for Risk Policies & Procedures, Portfolio Risk and Country Risk Assessment, and three Risk Heads, responsible for Corporate, SME and Consumer Finance businesses respectively and they are responsible for ensuring the implementation of NIB's risk framework, Bank's policies, and Central Bank regulations in their respective domains.

### 42.1 Credit Risk

Credit risk is the risk that a counterparty or customer will be unable to pay amounts in full when due. NIB's main credit exposure arises from the risk of failure by a client or counterparty to meet its contractual obligations. The risks are inherent in loans and bills receivable from non-bank customers, commitments to lend, repurchase agreements, securities borrowing and lending transactions, and contingent liabilities. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed. Clean risk at liquidation or settlement risk occurs when items of agreed upon original equal value are not simultaneously exchanged between counterparties and/or when items are released without knowledge that countervalue items have been received by the Bank. Typically the duration is intra-day, overnight/over weekend, or in some situations even longer. The risk is that we deliver but do not receive delivery. In this situation 100% of the principal amount is at risk. The risk may be larger than 100% if in addition there was an adverse price fluctuation between the contract price and the market price. Cross-border risk is the risk that we will be unable to obtain payment from our customers or third parties on their contractual obligations as a result of certain actions taken by foreign governments, chiefly relating to convertibility and transferability of foreign currency. Cross-border assets comprise loans and advances, interest-bearing deposits with other banks, trade and other bills, acceptances, amounts receivable under finance leases, certificates of deposit and other negotiable paper, and formal commitments where the counterparty is resident in a country other than where the assets are recorded. Cross-border assets also include exposures to local residents denominated in currencies other than the local currency. NIB has established limits for cross-border exposure and manages exposures within these limits.

NIB has established an appropriate credit risk environment which is operating under a sound credit-granting process; maintaining an appropriate credit administration, measurement and monitoring process and ensuring adequate controls. For risk management reporting purposes the Bank considers and consolidates all elements of credit risk exposures.

There is a proper credit delegation matrix for review and approving credit applications. Businesses have no credit approving authority. All credit approvals are accorded by the Credit Officers/Senior Credit Officers in the Risk Management. The Bank Corporate Credit Risk Management also approves exposure to Financial Institutions and a separate dedicated FI unit, is housed under Corporate & Investment Banking Group (IBG) for this purpose.

There is a proper credit delegation matrix for review and approving credit applications. Businesses have no credit approving authority. All credit approvals are accorded by the Credit Officers/ Senior Credit Officers in the Risk Management Group.

The concept of "three initial system" is very much in existence in NIB. Based upon regional considerations and availability of Credit Talent, any initiating unit has to have formal recommendation by the Relationship Manager, his/her Team Leader and Regional Head/Corporate Banking Head/The Bank Head. The essence here is that the credit proposal must not be left to the sole judgment of one person – rather, the application of minds must be diverse and independent of each other.

Further, in order to measure credit risk, an indigenously developed rating system is followed. This rating system is being continuously fine tuned to address regulatory and global benchmarks.

The Bank manages credit risk through:

- Accurate and detailed information about the borrower, cash flows, production, service and operation of the company;
- Insights into the major factors influencing customer attrition and product cancellation;
- Credit and collections treated as a highly people-intensive business; and
- Establishment of acceptable risk levels.

### NIB manages credit risk through:

Post-disbursement maintenance of accounts through Credit Administration Department ("CAD") reporting into a Country CAD Head. The Country CAD Head has direct reporting line to the CRO;

Submission of regulatory returns pertaining to reporting of NIB's portfolio.

### Impaired financial assets

Impaired financial assets including loans and debt instruments are those which NIB determines that it is probable that it will not be able to collect all principal and interest due according to the contractual terms of the agreement(s) underlying the financial assets. Financial assets carried at fair value through profit or losses are not assessed for impairment since the measure of fair value reflects their credit qualities. For the monitoring of the credit quality of the financial assets not carried at fair value through profit or loss, NIB follows the guidelines issued by the State Bank of Pakistan. Credit quality is determined based on three pillars: namely business prospect, financial performance and repayment capacity.

### Write offs

NIB's Write off Policy is laid out in line with the SBP rules. All credit write offs are approved under the approved delegation matrix. Writing off a loan in no way implies that the Bank has given up its claim on a borrower and does not impact the Bank's ability to legally collect written off credits from the customer(s).

### 42.2 Market Risk

Market risk refers to the potential loss that an entity may be exposed to due to market volatility. It is important for the Bank to put in place an effective market risk management framework to manage its market risk exposures. Market risk arises from all positions in financial instruments held by the bank (Either in Trading or Banking book) which exposes the Bank to market risk factors namely interest rates, foreign exchange ("FX") rates and equity prices.

The Bank has adopted a market risk management structure that commensurate with its size and the nature of its business activities and facilitates effective management oversight and execution of market risk management and control processes.

Currently bank's risk appetite for market risk is a combination of notional and sensitivity based limits. Following are the regulatory and internal guidelines monitored by Market & Liquidity Risk Unit (MLRU):

- Foreign Exchange Exposure Limit
- Equity Exposure Limit
- Statutory Liquidity & Cash Reserve Requirement
- FX Tenor mismatch
- Dealer Limits
- DV01

NIB also applies a Value-at-Risk (VaR) methodology on test basis to assess the market risk positions held. Currently the Bank is using historical simulation model for calculating VaR numbers for FX and ALM book.

### Interest rate risk

The principal risk to which NIB's portfolios are exposed is the risk of losses from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is measured through DV01 and interest rate sensitivity analysis.

### 42.2.1 Foreign Exchange Risk

NIB has set the following objectives for managing the inherent risk on foreign currency exposures:

Maximize profitability with minimum risk by keeping the exposure at desirable levels in view of strict compliance of regulatory/international standards and the Bank's internal guidelines, which are being adopted from regulator and followed vigorously;

Manage appropriate forward mismatch gaps;

Usage of different tools to manage the inherent risk of product and market, such as compliance of credit limit, monitoring of foreign exchange exposure limit, review of marked to market portfolio etc.

NIB takes steps to ensure that foreign currency exposures adhere to regulatory or international standards and NIB's internal guidelines. NIB uses tools such as Foreign Exchange Exposure Limit (FEEL), and FX tenor gaps to monitor FX risk.

### 42.2.2 Equity price risk and Fixed Income rate risk

Equity price risk is the risk to earnings or capital that results from adverse changes in the value of equity related portfolios of the Group. Price risk associated with equities could be systematic and unsystematic.

The Group conducts stress testing analysis over the equity portfolio, by anticipating changes/shocks of -30%, -40% and -50% on the current price of shares within a portfolio, thereby monitoring the effects of the predicted changes in the structure of shares portfolio on the Capital Adequacy Ratio ("CAR"). Further, NIB reviews new products to ensure that market risk aspects are properly quantified and mitigated.

	Liquidity Risk			

The liquidity risk policy is formulated keeping in view of the SBP's guidelines on risk management, Basel standards and best practices. The Group maintains its liquidity by keeping a level of liquid assets in such amount which is considered sufficient to anticipate payment of customers' deposits.

The Group manages its liquidity risk through:

- Controlling the cash flow mismatch between on and off balance sheet assets and liabilities;
- 5-Day stress testing on bank's balance sheet carried out on daily basis assuming deposit run offs
  - Maintaining stable and diversified sources of funding;
- Ensuring the Bank has the right asset portfolio mix and sufficient liquid assets on hand in relation to its daily cash flows;
  - - Certain periodic reports such as tenor maturity gaps and maximum cash outflows (MCO); and
      - Stress testing on portfolio as required by local regulator

# 42.3.1 Maturities of Assets and Liabilities - Based on contractual maturity of the Assets and Liabilities of the Group

The above maturity profile has been prepared in accordance with International Financial Reporting Standard 7, Financial Instruments: Disclosures, based on contractual maturities. Consequently, all demand assets and liabilities such as running finance, current accounts and saving accounts are shown as having a maturity upto one month. However, based on historical behaviour, management is of the opinion that the possibility of these inflows / outflows actually occurring entirely within one month is remote, as these flows normally occur over a period of one month to three years.

Non-contractual assets and liabilities have been profiled by using Core/Non-core Balance Methodology. Core balances are defined as those who are expected to remain in our books for a longer	Ve been profiled	by using Core/I	Non-core Balan	ce Methodolog	ly. Core balance	s are defined as	those who are	expected to rer	main in our book	s for a longer

## 42.3.2 Maturities of Assets and Liabilities - Based on historical pattern of the Assets and Liabilities of the Group

2012

period and thus placed in longer time buckets. Whereas, non-core balances are considered volatile and expected to attrite from our books in the short run.

In order to work out non-core balances, volatility is calculated using standard deviation and scaled for computing respective tenor volatility. Non-core balances for deposits are further placed in time buckets from 1-month till 1 year and core balances are equally proportioned from 2-year till the furthest available time bucket. Similarly, non-core balances for Running Finance are placed in 1-month bucket and core balances are equally distributed in buckets 2-months till 1-year.

### 42.4 Operational Risk Management

The Bank defines operational risk as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. The Bank seeks to ensure that key operational risks are managed in a timely and effective manner.

NIB approach operational risk management from two perspectives to best manage operational risk within the structure of the Bank.

- at the enterprise level to provide independent, integrated management of operational risk across the Bank, and
- at the business and enterprise control function levels to address operational risk in revenue generating and non-revenue generating units.

A sound internal governance structure enhances the effectiveness of NIB's Operational Risk Management and is accomplished at the enterprise level through formal oversight by the Board, the CRO and risk management committees aligned to the Bank's overall risk governance framework and practices. The Operational Risk Committee (ORC) oversees the processes for sound operational risk management and also serves as an escalation point for critical operational risk matters within the Bank. The ORC reports operational risk activities to the Board Risk Management Committee.

Within the Integrated Risk Management Group, the Operational Risk team develops the strategies, policies, controls and monitoring tools for assessing and managing operational risks across the Bank and report results to Operational Risk Committee (ORC) and the Board. The business and support functions are responsible for all the risks within the business line, including operational risks. Operational Risk Management tools, such as Loss Collection & Reporting, Risk and Control Self Assessment and Key Risk Indicators are developed and used to identify measure, mitigate and monitor risks.

### 43. DATE OF AUTHORIZATION FOR ISSUE

These consolidated financial statements were authorized for issue on February 20, 2013 by the Board of Directors of the Bank.

Badar Kazmi President / Chief Executive Teo Cheng San, Roland Chairman / Director Tejpal Singh Hora Director Muhammad Abdullah Yusuf Director

### FINANCIAL AND MANAGEMENT SERVICES (PRIVATE) LIMITED

The Bank has not consolidated the financial statements of Financial & Management Services (Private) Limited ("FMSL") – subsidiary, as the investment is fully provided for. The Bank has also received relaxation from Securities and Exchange Commission of Pakistan (SECP) of the requirements of Section 237 of the Companies Ordinance, 1984 through SECP letter EMD/233/654/2002 dated December 04, 2012.

As per the requirements of the SECP, enclosed herein are the financial highlights of FMSL for the year ended December 31, 2011 and the Auditors' opinion.

Annual financial statements of FMSL would be available for inspection at Registered Office of the Bank and would also be available to the members on request, without any cost.

### Auditors' Report to the Members

We have audited the annexed balance sheet of **Financial and Management Services (Private) Limited** ("the Company") as at 31 December 2011 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, for the year then ended and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Company's Management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984 (XLVII of 1984). Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

- a) in our opinion, proper books of accounts have been kept by the Company as required by the Companies Ordinance, 1984 (XLVII of 1984);
- b) in our opinion:
  - the balance sheet and profit and loss account together with the notes thereon have been drawn up in conformity with the Companies Ordinance, 1984 (XLVII of 1984), and are in agreement with the books of account and are further in accordance with accounting policies consistently applied;
  - ii) the expenditure incurred during the year was for the purpose of the Company's business; and
  - iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Company;
- c) in our opinion and to the best of our information and according to the explanations given to us, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement, and statement of changes in equity together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan, and give the information required by the Companies Ordinance, 1984, in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 31 December 2011 and of the profit, its cash flows and changes in equity for the year then ended; and

### Auditors' Report to the Members

d) in our opinion, no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

We draw attention to note 1.2 to the financial statements which states that the Board of directors of the Company in their meeting dated 25 March 2009 and decided to place the Company on dormant status and future regulatory expenses (including audit fee) of the Company will be borne by the Holding Company. Our opinion is not qualified in respect of this matter.
